COLLEGE OF APPLIED ARTS

School of Criminal Justice

ADDITION:

CJ 7301 Instructional Assistant Supervision. (3-0) This course prepares doctoral students employed as research or teaching assistants to perform effectively in diverse instructional settings. The course provides for regular and planned opportunities for continuing evaluation of students. This course does not earn graduate degree credit. Justification: This course was originally proposed/approved as a one-hour course to be taught over three continuous semesters. This format has proven problematic as the course’s integrity for proper guidance and instructional evaluation of students requires more than a one-hour time block, across three semesters. The proposed three hour course will enable instructors to more efficiently enhance the teaching and instructional skills of our doctoral students, with improved learning outcomes.

DELETION:

CJ 7101 Instructional Assistant Supervision. Justification: This course is being replaced by CJ 7301.

Department of Occupational, Workforce, and Leadership Studies

ADDITIONS:

CTE 3304 Human Relations for Career and Technical Education Teachers. (3-0) This course emphasizes the combination of psychological and sociological factors that influence relationships of CTE teachers in the pursuit of professional duties. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted. Justification: The results of the latest periodic academic review recommended the change in prefix from CATE (Career and Technology Education) to CTE (Career and Technical Education). This change aligns our courses with changes in the field of education, research, and matches the language used by the US Department of Education and State of Texas. This course will replace CATE 3304.

CTE 3307 Selection, Placement, and Follow-up in Career and Technical Education. (3-0) This course provides an overview of the practices of occupational selection, placement of students in suitable employment and cooperative sites, and coordinating the relationship between school and workplace site. Justification: The results of the latest periodic academic review recommended the change in prefix from CATE (Career and Technology Education) to CTE (Career and Technical Education). This change aligns our courses with changes in the field of education, research, and matches the…
