COLLEGE OF APPLIED ARTS

School of Criminal Justice

DELETIONS:

CJ 7351A Technology for Management and Decision Making. Justification: The course has never been taught, and it does not add to the training and education of the PhD students beyond what is taught in other courses in the doctoral curriculum.

School of Family and Consumer Sciences

ADDITIONS:

CA 4100 Professional Preparation in Consumer Affairs. (1-0) Students explore Consumer Affairs in the professional world and continuing education through opportunities, interviews, and professional ethics while practicing the development of credentials and portfolios. Required of all seniors majoring in Consumer Affairs. Justification: The name of the major was changed from FCS to CA last year (effective Fall 2014). At that time, not all course prefixes were changed from FCS to CA. This change will align the course prefix to the major. This course replaces FCS 4100 Professional Preparation in Family and Consumer Sciences.

CA 4301 Internship in Consumer Affairs. (0-6) This course is an Internship program in Consumer Affairs related professions, services, business, or industry. Must meet college, department and program requirements. Repeatable for credit with different emphasis. (Capstone Course) (WI). Justification: The name of the major was changed from FCS to CA last year (effective Fall 2014). At that time, not all course prefixes were changed from FCS to CA. This change will align the course prefix to the major. This course replaces FCS 4301 Internship in Family and Consumer Sciences.

FCS 5311 Statistics and Data Analysis for Family and Consumer Sciences. (3-0) This is a graduate level course covering statistical techniques commonly used in the field of family and consumer sciences. Topics include descriptive statistics, Chi-Square analysis, analysis of variance and covariance, simple and multiple linear regression, logistic regression, and use of statistical software. Data analysis to support decision-making is emphasized. Prerequisite: FCS 5310. Restricted to graduate students in FCS. Justification: Expertise in statistics is…
