This group provides a space for students impacted by the fire to talk about feelings and experiences, receive support, and gain skills.

Coming Together
Texas State Counseling Center

Mondays, 5:15-6:45 p.m.

As a community we are feeling the impact of the Iconic Village and Vintage Pads Apartment fire in many different ways. We experience a wide range of normal yet often uncomfortable reactions to traumatic events. Sharing your experiences and connecting with others who understand what you are going through can be a powerful way to cope.

This group provides a space for students impacted by the fire to talk about feelings and experiences, receive support, and gain skills. Interested students should register at the Counseling Center and may attend the group on an as-needed basis.

Facilitator: Heather Aidala, Psy.D
