

Texas State University-San Marcos

Department of Agriculture

Agribusiness Management

The Agribusiness Management specialization in the Agricultural Business and Management major applies business and technology principles to the agribusiness industry. Students learn about management, the working of the domestic and international marketplace, financial institutions and governmental policy making issues. This program prepares students to become business leaders and managers in many different types of firms and institutions related to food and fiber.

Examples of Course Work

- ✓ Agricultural Business Management
- ✓ Agricultural Policy
- ✓ Agricultural Marketing and Sales
- ✓ Agricultural Finance
- ✓ Quantitative Methods in Agricultural Economics
- ✓ International Food and Fiber Systems

Employment Opportunities

- ✓ Market & Policy Analysts
- ✓ Investment Brokers
- ✓ Marketing Managers
- ✓ Account Executives
- ✓ Sales Representatives
- ✓ Commodity Merchandisers

Career Preparation

Students in the Agribusiness Management program have numerous opportunities to prepare themselves for a successful career after graduation. Students can take part in an internship program that allows them to gain experience while still completing their degree here at Texas State. Internships allow students to apply their education, gain work experience and network with potential employers. Students in the Department of Agriculture at Texas State are also encouraged to actively participate in student organizations sponsored by the department and university. Participation in student activities is an excellent way to develop leadership and teamwork skills. When students are close to completing their degree, the Texas State Career Services Office and department faculty are there to provide assistance and advice for students during the job search process.

Advising

The College of Applied Arts Advising Center will help ensure that students complete the appropriate coursework to finish their degree. Faculty develop personal relationships with their students, so students often seek advice from their instructors and faculty advisor as well.

Department of Agriculture

The Department of Agriculture at Texas State offers students a quality education with personal attention. Students learn from faculty members in a variety of settings on and off campus. A modern Agriculture Building with well-equipped classrooms and laboratories in addition to our 4,200-acre Freeman Ranch and 17-acre horticulture center provide plenty of opportunities for students to learn and apply their knowledge to real world situations.

Experience it Yourself

We invite you to make a trip to the Texas State campus and experience the Department of Agriculture for yourself. We will set up a visit that will suit your interests. Students can visit with department faculty, staff and students in addition to meeting with an admissions counselor, touring campus, visiting residence halls, attending a class and touring the department. When you are ready for the Texas State experience, just contact the Departmental Office at 512-245-2130 to set up your appointment.
