December 15, 2011

TO:       Albert James DeGarmo  
President, Associated Student Government

FROM:    Dr. Joanne H. Smith,  
Vice President for Student Affairs

I am in receipt of this legislation that requests that beginning with the 2011 Bobcat Football Season and subsequent seasons thereafter that a football tailgate recycling ad hoc committee is created for the purpose of continuing the Tailgate Recycling program. This was continued this Fall 2011 semester football season and it is a very successful program. It is my hope that the Associated Student Government continue to implement this practice as it is very beneficial to Texas State and the university’s efforts at sustainability.

If you have questions, please contact me.
