Supporting Transgender/Gender Diverse Students on Campus

Supporting Transgender/Gender Diverse Students on Campus is a professional development workshop that will introduce you to terminology and issues related to the transgender community:

• You will learn about issues facing the transgender community.

• You will engage in dialogue about transgender students, faculty, and staff in college/university settings and their specific needs.

• You will explore ways that you can create a more inclusive space at Texas State for transgender and gender diverse students, faculty, and staff.

• You will meet and hear from Texas State students who identify as transgender to learn more about their experiences at Texas State while negotiating their various transgender identities.
