S.R. 2016–2017. 04

Date of First Reading: September 19, 2016

A Resolution-

To be known as “A Resolution to add a “Safety Hazard Report” form to the Texas State University Official Website and Mobile Application,” which calls for Texas State University to allow students to report any maintenance-related issues on campus in order to avoid potential safety and risk hazards.

WHEREAS: Texas State University takes pride in our campus and ongoing beautification projects; and

WHEREAS: Texas State Student Government supports the efforts of our fellow Bobcats to unite in order to better the campus community; and

WHEREAS: Texas State students navigate campus on a continual basis throughout the year; and

WHEREAS: Students can easily recognize maintenance-related issues that could potentially become a safety risk/hazard and identify areas on campus that need improvement; and

WHEREAS: Student Government acknowledges that the Texas State mobile application and official Texas State website are tools many students can access via their mobile device and other
technological platforms in order to stay connected;
therefore

BE IT RESOLVED: That Texas State University implement a “Safety Hazard Report” form on the Texas State mobile application and official website as a tool and resource that students can use to report any maintenance-related issues that could become a potential safety risk and/or hazard for students; and

BE IT FURTHER RESOLVED: That this report be submitted directly to the appropriate department that responds to maintenance-related issues pertaining to the Texas State campus; and

BE IT FURTHER RESOLVED: That the Safety Hazard Report form include: the student’s name, ID number, email address, report submission date, safety concern and/or hazard description, hazard location (as designated by the university), an option to submit a photo attachment of the hazard to the report, and a check box for the student to opt-in to receiving a follow-up email in regards to the action taken on the reported issue; and

BE IT FURTHER RESOLVED: That Texas State University inform all students via email once the Safety Hazard Report form is released and available to be
utilized by the student body, including
information about where the form is located
and how to access it; and

BE IT FURTHER RESOLVED: That the department assigned to respond to
the maintenance issue notify the student in
regard to what action was taken to resolve
the issue if the student has opted-in to
receive a follow-up notification; and

BE IT FURTHER RESOLVED: That the form notes its intended purpose to
reduce unnecessary walk-in, telephone or
e-mail traffic directed to the assigned
department; and

BE IT FURTHER RESOLVED: That upon passage, this piece of
legislation be forwarded to Student Body
President Andrew Homman for further action.
