ALL-LEVEL PHYSICAL EDUCATION CERTIFICATION

DESCRIPTION OF THE DEGREE PROGRAM
This 125 credit-hour degree program prepares for certification to teach Physical Education pre-Kindergarten through 12th Grade (EC-12 Physical Education). Upon program completion, students will be able to develop, implement, and assess developmentally appropriate, inclusive, and culturally responsive physical education programs for children and adolescents.

ADMITTANCE TO THE TEACHER PREPARATION PROGRAM
In addition to declaration of the major, students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework beyond the Education Core. Among criteria for admittance is a 2.75 minimum Overall GPA. The application and criteria for admittance are available on the Office of Educator Preparation's (OEP) website: http://www.education.txstate.edu/oep/

TEACHER PREPARATION COURSE SEQUENCE
The Education Core can be taken while completing other degree coursework and provides the student with an introduction to the teaching profession. After completing the Education Core, students admitted to the Teacher Preparation Program become eligible to enroll in the Field-Based Block. This is referred to as a 'block' because of its integrated curriculum. The Field-Based Block provides students with the opportunity to gain classroom experience before the Student Teaching semester, prior to which all other coursework must be completed.

Once enrolled in the Education Core, students will need to apply through the ePortfolio system each semester for future block placements. These applications are not competitive but are reviewed on a first-come, first-served basis. Block applications are typically opened several weeks before the opening of advanced registration, with a late block application posted after registration has begun. Exact dates for block application availability can be found on the Department of Curriculum and Instruction's (C&I) website: http://www.education.txstate.edu/ci/. Once submitted, students will receive confirmation of their placement by the first day of early registration or, in the case of late block applications, as processed by the Department.

SEMESTER ONE: Education Core (CI 3325, CI 4332)
Additional courses may be completed with the Education Core.
- Students should have completed most of their Core Curriculum, Support, and Major courses before enrolling in the Education Core.
- Students in the Education Core should apply to the Teacher Preparation Program and for placement in the next semester’s Field-Based Block.

SEMESTER TWO: Field-Based Block (CI 4343, CI 4370, RDG 3323)
Additional courses may be completed with the Field-Based Block. Field observation is required.
- Students in the Field-Based Block must attend a Student Teaching Round-Up. This meeting is mandatory and is essential for Student Teaching placement. Round-up dates are posted on the Office of Educator Preparation’s (OEP) website: http://www.education.txstate.edu/oep/Student-Teaching/student-teaching-announcements/.
- Students are required to complete practice TExES exams and are encouraged to complete their final TExES exams during the Field-Based Block semester.

SEMESTER THREE: Student Teaching (EDST 4380, EDST 4381)
Student Teaching is taken alone in the final semester, after all other coursework has been completed. Field observation is required.
- To avoid having Student Teaching placement dropped, students must clear any Tentatives with the Office of Educator Preparation by the deadline.
- Students must attend a mandatory Student Teaching Meeting at the start of the semester to review expectations, policies, and procedures.
- Students should submit a Graduation Application online by the deadline stated on the Academic Calendar.

IMPORTANT NOTES
- School districts will conduct background checks for students enrolling in field experiences and Student Teaching and have the right to deny any person entry to schools based on those results. Discuss any concerns with the Office of Educator Preparation.
- The Field-Based Blocks and Student Teaching seminars are unpaid experiences that take place at public schools outside of the Texas State campus and are integral requirements for graduation in this program. Students are responsible for obtaining transportation to school placements. Transportation and/or financial challenges are not justification for having these requirements waived or altered.
- The school settings required for field experiences and Student Teaching may pose challenges for students with certain disabilities. Discuss any necessary accommodations with the Department of Curriculum and Instruction and the Office of Educator Preparation as soon as possible.
- Regardless of catalog year, students are held to prerequisites and academic policies that are subject to change without notice and at any time.
- Teacher Certification will be issued by the Texas Education Agency and is contingent upon graduation (completion of degree requirements including Student Teaching and awarding of degree by Texas State’s Registrar’s Office), passing score on required TExES exams, and certification application.
- Physical Education teacher certification is not a requirement to coach in Texas public schools; students may consider selecting a major within their desired content area (i.e. Math, Biology (Life Science), History, English, etc.) with teacher certification and could declare an Exercise & Sports Science or Coaching Athletics minor.
- This program requires a Minor or Second Teaching Field of at least 18 hours. A Second Teaching Field is recommended to improve job opportunities. Certain Minors and Second Teaching Fields may increase the total number of credit hours required for degree completion beyond 18 hours.
- Many ESS courses have limited enrollments and are offered on a rotational basis (Fall only or Spring only, etc.)

Students are responsible for knowing and fulfilling all University, College, Major, and Certification requirements and should refer to the Texas State Undergraduate Catalog for additional information. Students are also encouraged to consult with Academic Advisors to ensure thorough understanding of all degree and graduation requirements.
