Health and Wellness Promotion for Clinical Populations

Degree: Bachelor of Exercise and Sports Science (BESS)
Major: Exercise and Sports Science (ESS)
Concentration: Health and Wellness for Clinical Populations (HCP)
Catalog Year: ____________________________

Optional Minor: ____________________________

I understand that:

- The decision to change to a different major or program now or in a future semester will likely result in additional hours required for degree completion and delayed graduation and could potentially result in tuition for excessive attempted hours.
- The HED 4660 Internship in Health and Wellness Promotion is a 480-hour unpaid experience that must be completed at an approved site during a long (fall or spring) semester. Transportation and/or financial challenges are not justification for this requirement to be waived.
- A 2.5 Texas State GPA, ‘C’s in HED 4100 and 4640, and completion of all other coursework is required prior to enrollment in the Internship.
- Attendance at an organizational planning meeting the semester prior to enrollment in HED 4660 is required.
- HED 4640 Community Health Programming Planning and Evaluation should be taken concurrently with HED 4100 Professional Development in Health and Wellness Promotion the semester immediately prior to the Internship.
- A 2.0 Texas State GPA and 2.25 Major GPA are required for graduation from this program.
- Regardless of catalog year, I will be held to current academic policies and course prerequisites which are subject to change.

Additionally, I recognize that the ESS and HED courses in my major have limited enrollments and are offered on a rotational basis (fall only or spring only, etc.). I may not be able to register for these courses in my desired academic year and should adjust my long-range plan accordingly.
