Project & Curriculum Education Development Internship

About Besser Education:

Besser Education is a small company based out of San Marcos, TX and serving the Central Texas area. We are in the business of getting children as young as three to understand college level science. Often times, this is done through extremely fun activities and experiments - classes, workshops, events, summer camps, after school programs, etc.

By working for Besser Education, you will be getting hands on experience like no other, and will have access to the inner workings of how small companies develop into much larger ones. We are currently have several internship positions available, all of which are posted on the Jobs4Cats site.

Job Description:

Effectively and efficiently develop and expand current curriculum. In this internship, you will be able to pick pet projects from any other subject (marketing, research, management, etc.) to work on but your focus will be to create course binders for all 39 Besser Education classes. You will work very closely with Natalie Gallardo, the founder of Besser Education.

Responsibilities and duties include:

- Create course binders for all 39 Besser Education classes
- Develop instructor training material
- Test and research new science experiments with Besser instructors
- Keep track of course binder progress and ensure material is uniform
- Pet project of your choice dealing with any aspect of Besser Education

This is an exceptional internship for education majors, as most internships do not offer lesson plan experience. Provided you pass an FBI background check you will also be able to assist in the classroom as desired.

How to apply:

As part of the internship we will be teaching you the how to do these responsibilities and duties so you do not need prior experience – that’s why it’s an internship. We are looking for individuals who go above and beyond, are well spoken, excited and passionate!

Please send your resume to jobs@bessereducation.com. Be sure to highlight experience or classes you've taken regarding STEM, TEKS, lesson plan development, and curriculum. Your application will be replied to within two weeks.

Bringing out the Brilliance in Each Child.
