

## **Web Developer and Graphic Design Summer Intern.**

Core Spaces is searching for a talented, **creative web developer and graphic design intern for the summer**. Responsibilities include building, maintaining & growing our WordPress websites to improve their features, interface & performance. The role also includes assisting with the creation of custom graphics for social media posts and paid ads using the Adobe Creative Suite. Reports to the Director of New Business. This internship is unpaid but qualifies for college credit and allows you the opportunity to learn, and the ability to make an immediate impact. We also make work fun.

### **Requirements:**

Currently a junior or senior enrolled in a four-year college degree program

Strong written and verbal communication skills

Must have working knowledge of WordPress

Must have experience utilizing Adobe Creative Suite (InDesign, Photoshop, & Illustrator)

Must have reliable transportation

Must be proficient in the Microsoft Office suite

Internship hours are flexible (25 – 35 per week)

Must work on-site at Core Spaces' corporate office located near the Domain in Austin, TX

Start Date: Monday, May 21st - End Date: Friday, August 17th
