Executive Summary

The Classroom and Class Lab Utilization study for fall 2002 describes how the university’s teaching facilities are being used and how that use compares with established standards in Texas. The emphasis for this report is on classrooms and class labs.

Southwest Texas State University has 164 designated classrooms and 64 designated class labs.

This report does not address station utilization (i.e., are rooms with 50 desks being filled with 50 students). "Utilization" in this report refers to the number of instructional hours scheduled per week in designated classrooms (room type 110 in the SWT Facilities Inventory) or designated class labs (room type 210 in the SWT Facilities Inventory) on the SWT campus (off-campus hours are not included). Instructional hours are removed from the calculations if the class or lab is offered in rooms not designated as classrooms or class labs (e.g., conference rooms, meeting rooms, etc.). Instructional hours for “stacked” classes (those that meet on the same day, at the same time, in the same room but have different course and section numbers) are also removed from the calculations.

The Texas Higher Education Coordinating Board is charged with devising “utilization formulas and methods to assure maximum daily and year-round use of education and general (E&G) buildings to assure efficient use of construction funds and the orderly development of physical plants to accommodate college enrollments” {Education Code 61.0572(b)(1-2)}. The Coordinating Board’s utilization standards are:

- 38 average weekly hours of use for classrooms
- 25 average weekly hours of use for class labs

Note: In 1997, the Coordinating Board began calculating classroom and lab utilization using a 50-minute hour; therefore, instructional periods are converted to 50-minute hours in this report.

It is important to note that this report focuses on room type only. No distinction is made between instructional hours (e.g., lecture or lab). Therefore, lab sections offered in designated classrooms are included in the classroom utilization calculation and lecture sections offered in designated class labs are included in the class lab utilization calculation.

- The average weekly hours of use for classrooms for the fall 2002 semester are 39.7 hours. However, the CBM 005 – Building and Room Report, which is used to calculate this number, has not been certified by the Texas Higher Education Coordinating Board. This is typically not done until April. In addition, we should see a higher number after certification since the formula used by the Coordinating Board includes “stacked” classes.
The average weekly hours of use for class labs for the fall 2002 semester are 27.3 hours. However, the CBM 005 – Building and Room Report, which is used to calculate this number, has not been certified by the Texas Higher Education Coordinating Board. In addition, we should see a higher number after certification since the formula used by the Coordinating Board includes “stacked” classes.

**Process**

The Assistant Vice President for Finance and Support Services Planning is responsible for space management reporting for SWT. The Assistant Vice President and the Coordinator of Facilities Inventory maintain the campus-wide building and room inventory database and prepare annually the fall semester utilization report of instructional space.

Shortly after the twelfth class day of the fall semester, a copy of the CBM005 - Building and Room Report, is requested from the Registrar’s Office. This data is imported into an Access database.

To calculate individual room utilization:

- The “stacked” classes (those that meet on the same day at the same time in the same room but have a different course and section number) are removed.

- All class sections taught in room types other than 110 and 210 are removed.

- Each course/section reflects the days of the week offered (e.g., MWF, TT, MW, etc.). This information is converted to total number of days a course/section is offered (e.g., 135 = 3, 24 = 2, etc.).

- The number of days is then multiplied by the number of minutes as reflected in the duration field (min) to get a total number of minutes that a course/section meets.

- The total number of minutes is then divided by 50 to get the 50 minute hour that the Coordinating Board uses. This is done for all courses/sections.

- Minutes are then added for the courses taught in a particular room to get the average weekly hours for that room. This total is then divided by 38 if the course/section is taught in a designated classroom or divided by 25 if the course/section is taught in a designated class lab to get the percent of the CB standard or utilization rate for that particular room.
Example:

<table>
<thead>
<tr>
<th>PRE</th>
<th>CRS</th>
<th>SECT</th>
<th>BUILDING NUMBER &amp; NAME</th>
<th>ROOM</th>
<th>DAYS</th>
<th>DAYS_2</th>
<th>START</th>
<th>MIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>MC</td>
<td>3311</td>
<td>0001</td>
<td>501-Old Main</td>
<td>0020</td>
<td>1</td>
<td>1</td>
<td>15:30</td>
<td>75</td>
</tr>
</tbody>
</table>

The above course is taught on Monday (Days = 1). Therefore it is taught 1 day of the week (Days_2 = 1). Multiply 1 times 75 (minutes) to get the total number of minutes the course meets. Add all the minutes for the courses taught in that particular room. Divide that number by 50 to convert to the 50 minute hour. In this case it would be 28.9 hrs when all courses in Old Main, Room 201 are added together (only one course is listed in the above example). Divide 28.9 by 38 since this is a classroom. The utilization of this room is 76.1% of the CB standard.

To calculate overall university utilization:

The “stacked” classes (those that meet on the same day at the same time in the same room but have a different course and section number) are removed.

All class sections taught in room types other than 110 and 210 are removed.

The 50 minute hours for all the classrooms are added and then divided by the number of classrooms in the SWT Facilities Inventory.

Example:

Total stacked hours deducted for fall 2002 are 969.7. Hours taught in rooms not designated as classrooms or class labs that are deducted for fall 2002 are 1142.9. The remaining 50 minute hours for designated classrooms for fall 2002 are 6504.4. There are 164 classrooms in the inventory. Therefore, the overall classroom utilization would be 6504.4 divided by 164 or 39.7. To convert that to percent of CB standard – divide 39.7 by 38 or 104.4% of the CB standard.

The same formula is used for class labs.

Once calculations are completed, the Assistant Vice President and the Coordinator of Facilities Inventory review the listing. A separate report is maintained for all rooms not coded as classrooms or class labs. The Chair of a department may be contacted to discuss if the coding of the room should change if any of those rooms show a high utilization rate or if any of the classrooms or class labs show a low utilization rate. It is our job to provide the facts, analyze them and serve as an advisory person to the Chair. If it is determined that coding should be changed, the Facilities Inventory is then updated with the new code(s) and the revised room inventory is sent to the Coordinating Board before they run final utilization numbers.
Results

Classrooms and class labs are departmentally controlled at Southwest Texas State University. Each classroom and class lab is assigned a “first call” department with the exception of the three teaching theatres: Alkek 250, Centennial 157 and LBJ Student Center 4-16.1. Dr. James Garber, working with academic departments, schedules the teaching theatres. The following table shows teaching theatre usage by scheduled course:

Departments scheduling the teaching theatres and number of courses offered include: Anthropology – 3, Art – 1, Biology – 1, Chemistry – 1, CIS and Quantitative Methods – 1, Communication Studies – 1, English – 2, Geography – 1, Geology – 1, History – 3, Health Professions – 1, Mathematics – 7, Mass Communication – 3, Marketing – 1, Philosophy – 3, Political Science – 4, Psychology – 2, Sociology – 2, and Theatre – 1.

For fall 2002, the following room types changed:

Classrooms – There were 164 classrooms in fall 2001.
Derrick 338 changed from a Class Lab to a Classroom.
Flowers 114 changed from a Classroom to a Computer Lab.
Centennial 218 changed from a Media Production room to a Classroom.
Hines 104 changed from a Classroom to Armory Service.
Net result is 164 classrooms for fall 2002.
Class Labs – There were 63 class labs in fall 2001.
Chemistry 106 changed from Class Lab Service to Class Lab.
Chemistry 109 changed from Class Lab to Class Lab Service.
Tech 4 101 changed from Special Class Lab to Class Lab.
Tech 4 221 changed from Individual Study Lab to Class Lab.
Derrick 338 changed from Class Lab to Classroom.
Net result is 64 class labs for fall 2002.

Since no distinction is made between instructional hours (e.g., lecture or lab), the 396.3 lab hours (140 lab sections) which were taught in designated classrooms apply only to the classroom totals. Likewise, the 1002.3 lecture hours (239 lecture sections) which were taught in designated class labs apply only to the lab totals resulting in the high use of class labs at SWT.

During the fall 2002 semester, 10,364 instructional hours were scheduled at SWT on the main campus. NOTE: This report does not address instructional hours offered at the MITC or elsewhere off campus. For fall 2002, 132 classes were taught at the MITC. Discussions are being held with Dr. Edna Rehbein on establishing procedures to determine utilization of classrooms at the MITC.

However, 1142.9 instructional hours (362 course sections) that were taught in rooms not designated as Classrooms or Class Labs have been removed. See the following table for details. This list is reviewed carefully and questions may be raised with the Chair regarding proper coding.

</tbody>
</table>
In addition, all but one course section that was scheduled in a "stacked" room have been removed from the totals. The total deduction for stacked rooms is 969.7 instructional hours.

Taking into account these deductions, SWT offered 8251.5 instructional hours on the main campus as reflected in the table below.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

More specifically, 6504.4 instructional hours were offered in the 164 designated Classrooms and 1747.1 instructional hours were offered in the 64 designated Class Labs.

This translates to 39.7 average weekly hours of use for classrooms or 104.4% of the Coordinating Board standard and 27.3 average weekly hours of use for class labs or 109.2% of the Coordinating Board standard for the fall 2002 semester.

**Conclusions**

Southwest Texas State University ranked second in the state (below The University of Texas at Brownsville which shared facilities with Texas Southmost College) in classroom utilization for the fall 2001 semester. The average weekly hours of use for 164 classrooms was 41.7 hours as opposed to 39.7 hours for Fall 2002.

Southwest Texas State University ranked first in the state in class lab utilization for the fall 2001 semester. The average weekly hours of use for 63 class labs was 34.8 hours as opposed to 27.3 hours for Fall 2002.

While we do not know where we will rank in the state for fall 2002, we anticipate being one of the top five universities again for both classroom and class lab utilization. Note: Fall 2002 numbers have not been validated by the Coordinating Board yet.

A high ranking in the state demonstrates to some that SWT is operating at a high level of efficiency; however, it also illustrates to others how SWT is at near capacity in available classroom and laboratory space, especially during prime hours of the day and week.

Questions have been raised in the past on whether or not SWT has both the appropriate number of classrooms and the appropriate classroom distribution by station count. An article, “Classroom Use and Utilization,” in the May/June 2002 Facilities Manager publication described the distribution of classrooms by the number of stations at three public universities and two private universities. While none of the five universities are
similar in size to SWT, the following table shows how SWT compares to the largest public university surveyed.

</table>

This table is not meant to be an indicator that SWT has the appropriate mix or not. The data simply allows for discussion. For instance, questions that could be asked: If there are a large number of rooms with large seating capacity available, which instructional programs and pedagogy allow for large enrollment courses? Are there too many or too few large capacity rooms? If there are too few rooms to accommodate the large enrollments, are there enough faculty resources available to divide a course among smaller rooms?

The May/June 2002 Facilities Manager article also cites that on an average, classrooms represent about 5% of the space on campus, excluding housing. Data received from 25 public universities, mainly large research campuses, reflect classrooms ranging from a low of 3% to a high of 12% of the academic, administrative, and support space on campus. Those campuses with less research and support space have a higher percentage of their space in classroom uses, but none exceeded 12.4%. Classrooms at Southwest Texas represent 11.5% of the academic, administrative, and support space on campus.

Universities use similar methodologies for defining an instructional period and scheduling classes. For instance, many of the classes are scheduled in 50-minute increments on Mondays, Wednesdays, and Fridays. However, deviations can and do occur on campuses. The use of standard time and day combinations when scheduling courses can provide for opportunities for increasing classroom and class lab utilization. Scheduling at non-standard times and days can result in not only poor utilization but also restricted student scheduling opportunities. The following table shows the distribution, by instructional class period, of the 2008 class/lab sections taught in designated classrooms.
This table shows that 88% of the 164 classrooms are being used at the Tuesday/Thursday 11:00 a.m. and 2:00 p.m. class times. However, classes/labs taught at 10:00 a.m. and noon on Tuesday/Thursday and classes taught at those times Monday thru Friday account for the other 12% of available classrooms. The prime hours are 9:30 a.m. TT, 10:00 a.m. MWF/MW, 11:00 a.m. MWF/MW/TT, 12:30 p.m. TT, and 2:00 p.m. MW/TT. It also shows that SWT uses 57.5% of its classrooms for evening classes taught at or after 5:00 p.m. on Mondays. Of the 2008 class/lab sections, 386 are taught on one day, 1,096 are taught on two days, 499 are taught on three days, and 27 are taught over five days.

Of the 164 classrooms, 84 either had the same utilization rate as fall 2001 or had increased utilization as opposed to fall 2001. However, the utilization rate for 80 classrooms dropped as compared to fall 2001. Ten of these rooms dropped below the 60% CB utilization rate. Also of interest are the three teaching theatres where utilization dropped for two of the three classrooms. Utilization for the Alkek classroom dropped from 127.89% to 119.21% (15 sections in 2001 and 14 sections in 2002). Utilization for the Centennial classroom dropped from 138.95% to 128.68% (18 sections in 2001 and 17 sections in 2002). Utilization for the LBJ Student Center classroom increased from 108.95% to 120.0% (13 sections in 2001 and 14 sections in 2002). Even though utilization dropped in two of the teaching theatres both are still 100+% of the CB standard. More information on the percentage differences for classrooms used in fall 2001 and fall 2002 can be found in Section 5 of this report.

Tables in section two of this report show classrooms and class labs ranked from highest percentage of Coordinating Board standard to lowest. The Facilities Issues Subcommittee pays close attention to those rooms below 60% of the Coordinating Board
standard. A review of those rooms could provide scheduling opportunities for departments other than the first call department.

Even though SWT experienced enrollment growth for the fall 2002 semester, the number of classrooms and class labs remained stable. Some conclusions that could be drawn include:

University Seminar did not increase the number of sections offered even though 191 students were new freshmen and 101 students were new transfers. This could mean that class sizes increased and not class sections offered.

Increased enrollment was seen with 184 new students taking graduate level courses and the retention of 427 students taking graduate level courses. Many of the graduate level courses are offered as “stacked” courses. “Stacked” courses are offered in the same room at the same time and day as undergraduate courses. Also, many of the courses offered at the MITC, which are not included in this report, are graduate level courses.

Please direct any questions or comments concerning this report to Nancy Nusbaum mn01@swt.edu or Chris Reynolds cr20@swt.edu, or call 245-2244.

Section 2: Classroom and Class Lab Usage, Fall 2002 by Coordinating Board Percentage.

Table 2.1: Classroom Utilization Ranked by Percentage of CB Utilization Standard - Each of the 164 classrooms is ranked by percentage of the CB utilization standard in descending order. The CB sets the utilization standard for classrooms at 38 (50 minute) hours per week.

Table 2.2: Class Lab Utilization Ranked by Percentage of CB Utilization Standard - Each of the 64 Class Labs is ranked by percentage of the CB utilization standard in descending order. The CB sets the utilization standard for Class Labs at 25 (50 minute) hours per week.

2.1 Classroom Utilization Ranked by Percentage of CB Utilization Standard
