Present YOUR skills to the faculty!

Nell Wackwitz Eichler
Mathematics Department, Texas State University

1:00 pm in Derrick Hall 238
17 February 2017

Description: To all graduate students (and others!), you know you’ve been wanting to do research with your favorite professor, but how to start? This Friday, we will assist everyone to collect their skills, and we will write up a short letter you can present to a faculty member. Come Friday with ideas of what strengths you have, and what you enjoy doing, and let’s get some research on the way!

Ms. Wackwitz received her MS degree from Texas State in 1988, after which she taught in community colleges and (gag) one year in a local high school. Her work toward a Ph.D. concerns discovering the ways in which totally blind people visualize highly visual advanced mathematics.
