Spring 2018 Application: August 28, 2017, 1205 am - September 13, 2017, 1155 pm

Applications for student teaching are submitted electronically: [http://www.eportfolio.txstate.edu](http://www.eportfolio.txstate.edu)

**NOTE:** If you are in process when the window closes, your application will not be submitted.

Starting on **October 2, 2017**, log back on to ePortfolio to view your application status: “Tentative” acceptance indicates you have outstanding coursework. “Outstanding coursework” are any remaining courses (including your current classes) that you must complete and pass before student teaching. **The Office of Educator Preparation will secure a placement for you, but all courses must be completed successfully before you can start your student teaching experience.**

**Undergraduate students:** All coursework must be completed before student teaching.

**Post-Baccalaureate and Graduate students:** All certification coursework (listed on your certification plan) must be completed before student teaching. If you do not have a certification plan, you MUST apply for one immediately through the Office of Educator Preparation website: [http://www.education.txstate.edu/oep/Applications/cert-plan-application-form.html](http://www.education.txstate.edu/oep/Applications/cert-plan-application-form.html)

**Clearing Outstanding Coursework:** The Office of Educator Preparation will work with your certification program to verify your successful completion of required coursework. Some of the courses listed may be in progress and may not be cleared until the end of the semester. If you have courses from another university (or if you are currently enrolled in coursework through another university), it is your responsibility to submit proof of those grades (or proof of enrollment) to your academic advisor by September 13, 2017.

All school districts require a criminal history check (and in many instances, fingerprinting) PRIOR to beginning your student teaching placement.

**NOTE:** If you feel there might be a problem with your criminal history check, please contact the Director of the Office of Educator Preparation< oep@txstate.edu>.

Some school districts require student teachers to provide TB Test results. If they do, plan to have one taken at the University Health Center or through your private health insurance.

The Office of Educator Preparation will send your name and placement request to your first district preference (as indicated on your application for student teaching). District administrators will choose your specific campus/teacher assignment.

**NOTE:** Do NOT contact the districts directly.

During the week of October 23, 2017, you will receive an email with the following information:

- Where we submitted your name/placement request;
- Information about the district’s required orientation, if available;
- Student Teaching Syllabus, including links to required Danielson Framework modules; and,
- A reminder about testing/fingerprinting for TEA certification.

If the school district is unable to place you, OEP will submit your name to your second choice preference for placement. At that time, you may be required to submit another background check.

**In-Area Partner Districts**
Alamo Heights ISD  Judson ISD  North East ISD
Austin ISD  La Vernia ISD  Northside ISD
Comal ISD  Lake Travis ISD  Pflugerville ISD
Del Valle ISD  Leander ISD  Round Rock ISD
