need help or have an emergency do not be afraid to contact UPD. Questions?

How do we advertise for the event?

Jake Palmer 7:14pm-
The first time we got the ball rolling was during bobcat orientation to the new students also it will
be coming out in the university star. What will be the best thing is going by word of mouth for
example twitter facebook etc., Word of mouth by students is highly important and will get the
information out fast.

Senator Sikazwe 7:16pm-
thanking you for the amount of support I have received from you and I want to ask you about
what kind of ideas you had for the Texas State app to opt in and out of this new feature.

Jake Palmer 7:16pm-
Most useful thing is to have the Texas State text messages and that’s only if the students
themselves sign up for those alerts and we try to make it very difficult for the students to opt out
of it. We will never send out a text message that is not very important.
