- **Location:** UAC 120
- **Email:** ucadvising@txstate.edu
- **Hours:** Monday – Friday 8 a.m. – 5 p.m.
Major of the Month:
Geography - Urban and Regional Planning

Bachelor of Science in Geography
Concentration: Urban and Regional Planning

Planning is a diverse profession, which draws upon fields of knowledge and technical skills closely related to geography. Urban and Regional Planning provides the means to evaluate and facilitate programs that benefit our neighborhoods, communities, cities, and regions. Population growth, economic development, transportation, education, public services, and the environment are a few of the essential factors evaluated by planners. Many of our graduates are employed as planners in Texas, as well as within other states and countries. Others have continued in graduate studies at Texas State or in other programs at the University of Texas or Texas A&M, as well as universities outside Texas.

Check http://www.geo.txstate.edu for this and more information about this major. More information can also be found on the Undergraduate Catalog at http://www.txstate.edu/curriculumservices/catalogs/undergraduate/catalogs.html

Class Examples:
- Urban Geography (GEO 3310)
- Community and Regional Planning (GEO 3320)

Student Resource of the Month:
Bobcat Bond Program

A university-funded program which matches all interested students (second year and transfer) with mentors who serve as role models, advisors, guides, and friends and whose primary function is to help a Texas State student have a successful first year.

Please visit the below website for more information and/or to sign up for this program.
http://www.studentsuccess.txstate.edu/programs/Bobcat-Bond.html
