Workshops for Law Enforcement, Medicolegal Investigators, Search and Recovery Members, and Advanced Anthropology Students

Forensic Anthropology Center at Texas State
Texas State University
601 University Drive
San Marcos, TX 78666

2018 Workshops
Identifying Human From Nonhuman Bone
June 9 or On Demand
Tuition: $801-4
Examination and discussion of gross and microscopic differences used to differentiate human from nonhuman bone when establishing the forensic context.

Forensic Facial Reconstruction Sculpture with Karen T. Taylor
TBA; Tuition: $9501-2
Workshop designed for technical and fine artists who deal with the human face in their work. Knowledge gained during the workshop has practical applications in law enforcement, museum, medical, and other environments, including traditional portraiture.

2-Day Human Remains Recovery
March 24-25 and October 13-14; Tuition: $3001-4
This hands-on workshop covers basic methods for locating, mapping, and excavating buried bodies.

K9 Human Remains Detection
April TBA; October TBA; Tuition: $3951-3
Private Training Available
Three days of field and classroom training will provide dogs and handlers exposure to surface and buried human remains in varying stages of decomposition.

Texas Justice of the Peace Education Cause and Manner of Death: Skeletal Trauma and Taphonomic Issues
May 15-16
This course, offered by the Texas Justice Court Training Center is for Texas Justice of the Peace only. For more information and registration see http://www.tjctc.org/justices-of-the-peace/education-events.html.

Outdoor Human Remains Recovery
January 8-12 and June 4-8; Tuition: $8001-4
The goal of this workshop is to educate law enforcement and medicolegal professionals on the proper methodology for locating, identifying, and recovering buried human remains. The workshop includes lectures, labs, and the excavation of human remains.

Forensic Anthropology Methods
June 11-15; Tuition: $7001-4
This is a hands-on laboratory methods workshop for advanced undergraduates, graduate students, and professionals interested in expanding their knowledge of developing a biological profile and interpreting skeletal trauma.

Forensic Taphonomy of Texas
June 18-19; Tuition: $4001-4
This workshop is designed to provide knowledge to law enforcement and medicolegal professionals about the processes of human decomposition, estimation of the postmortem interval, forensic entomology, and the effects of scavengers and weather on bone.

High School Skeletal Death Investigation
August 6-10; Tuition $5001-2
This course offers a weeklong intensive learning experience for high school students interested in forensic anthropology. Students will learn how to investigate outdoor death scenes, recover human remains, and analyze human skeletons.

Human Osteology
August 13-17; Tuition $7001-4
Human Osteology is a hands-on workshop suitable for students or professionals working in medicolegal fields, rescue services, field archaeology, museums, or individuals with an interest in learning more about human skeletal anatomy.

Forensic Art: Master Facial Reconstruction Sculpture with Karen Taylor
September TBA; Tuition: $9501-2
Advanced workshop for artists that deal with the human face in their work.
