Mr. Bruce G. Ingram & Mrs. Gloria E. Ingram

Friday, December 18, 2009
2:00 p.m. Ceremony

Bruce and Gloria Ingram are among Texas State’s most generous benefactors. Recognizing the need for endowed support for Texas State’s rapidly growing engineering programs, in 2006, the Ingrams provided a $5 million gift that became a critical part of establishing the Ingram School of Engineering. That gift provided one endowed chair, two endowed professorships, faculty development support, merit-based and need-based endowed scholarships, and program enhancement. Their additional $2 million gift will provide additional support for scholarships for students in the Ingram School of Engineering. Mr. Ingram has also provided guidance in the university’s efforts to establish an undergraduate program in concrete industry management that began in fall 2009.

Mr. Ingram was born in San Antonio and grew up there. He attended Texas A&M University from 1948 to 1950, and served in the Seabees in the United States Navy. In 1957, Mr. Ingram borrowed $500 to start his business as the founder of Ingram Readymix, a manufacturer of concrete that now has 26 plants in 22 Texas cities. He is a past member of the Board of Directors of the Texas Aggregate and Concrete Association. Mr. Ingram has offered wise counsel through his service on many boards, including his continuing service on the Advisory Board of Frost Bank. He served on the Methodist Hospital board in San Antonio during a period when they added medical facilities to better serve San Antonio.

Mrs. Ingram was also born in San Antonio and grew up there. She was the valedictorian of her class at John Marshall High School in San Antonio. Mrs. Ingram, her mother and her sisters all attended Texas State. Throughout their marriage, Mrs. Ingram provided strong and steady support in the building of Ingram Readymix and has been a longtime community volunteer.

The Ingrams serve on Texas State’s President’s Council and as the Co-Chairs of the Pride in Action Campaign Academic Excellence Pillar. The Ingram family foundation was established in 2002 to provide support to Methodist faith-based churches and other organizations. Mr. and Mrs. Ingram have been married for 51 years and have four children: Elizabeth Tuttle, Bruce Ingram Jr., Sue Bushong and Earl Ingram. They have 12 grandchildren and one great grandchild.

For their significant contributions to educational opportunities for Texas State students, Texas State University-San Marcos awards Mr. Bruce Ingram and Mrs. Gloria Evans Ingram the Doctor of Laws, honoris causa.
On Friday, December 18, 2009, Bruce and Gloria Ingram will receive the ninth and tenth honorary doctorates conferred by Texas State University-San Marcos, both receiving the Doctor of Laws, honoris causa. Since 2006, the Ingrams have donated $7 million to Texas State in support of engineering programs. Those gifts have provided an endowed chair, two endowed professorships, faculty development support and merit-based and need-based endowed scholarships. Mr. Ingram is the founder of Ingram Readymix, a manufacturer of concrete with 26 plants in 22 Texas cities. The Ingrams have been married for 51 years and have a reputation for quiet generosity and strong family values. Texas State’s Ingram School of Engineering is named in their honor.

Texas State awarded its first honorary doctorate in 1962, when we conferred upon Lyndon Baines Johnson the degree of Doctor of Laws, honoris causa. At the time, Mr. Johnson was vice president of the United States and had already served as a United States representative and a United States senator. He would go on, of course, to serve as president of the United States, the only president to have graduated from a Texas university. Mr. Johnson graduated from Texas State in 1930.

The second recipient of an honorary doctorate from Texas State was Lady Bird Johnson. She received a Doctor of Humane Letters, honoris causa, in 1983. Mrs. Johnson was honored as a beloved former first lady of the United States, a dedicated friend of Texas State and as a remarkable woman who devoted her time and energy to projects beneficial to Texas and the nation. Her personal warmth and strength brought her special recognition among former first ladies of the United States.

Texas State’s third honorary doctorate was conferred upon Gilbert M. Grosvenor, who received the Doctor of Geographic Education, honoris causa, in 2000. As a former editor of National Geographic magazine and longtime president of the National Geographic Society, Grosvenor’s name is synonymous with geographic education. He also played a pivotal role in helping Texas State secure its Ph.D. program in geographic education, the first such degree at this university. He has also allowed his name to be highlighted in the university’s Gilbert M. Grosvenor Center for Geographic Education and Grosvenor Distinguished Lecture Series in Geographic Education.

Roy F. and Joann Cole Mitte were the fourth and fifth recipients of honorary degrees, receiving the Doctor of Humane Letters, honoris causa, in 2005. Both are recipients of the Texas State University Distinguished Alumnus Award. They founded the Roy F. and Joann Cole Mitte Foundation and have been recognized internationally for their philanthropy.

Country music superstar George Strait, Class of 1979, received the Doctor of Humane Letters, honoris causa, at a private ceremony in 2006. Our most prominent living graduate, Mr. Strait by 2006 had had at least one single in the Top 10 every year since his first, “Unwound,” in 1981. He had sold more than 62 million albums, including 13 multi-platinum, 30 platinum and 33 gold albums. He held the Country Music Association record for most nominations with a total of 73 and was CMA Vocalist of the Year five times, the only artist in history to be so honored in two different decades. And the honors keep coming.

Emmett and Miriam McCoy received the seventh and eighth honorary doctorates conferred by the university in May 2008, both receiving the Doctor of Laws, honoris causa. Mr. and Mrs. McCoy are donors of a transformational $20 million gift to the university, the largest donation in our history. In recognition of their generosity, the College of Business Administration and the 125,000-square-foot building that is its home were named for them. The McCoy Endowment provides three endowed chairs, five professorships, faculty and student development support, undergraduate scholarships, graduate fellowships and program enhancement.
Mr. T. Boone Pickens
Founder and chairman, BP Capital Management

Saturday, December 19, 2009, 10:00 a.m.

Industry experience: Pickens, founder and chairman, BP Capital Management, is principally responsible for the formulation of the energy futures investment strategy of the BP Capital Commodity Fund and the BP Capital Equity Fund. BP Capital manages one of the nation’s most successful energy-oriented investment funds. Every $1 investors put into the commodity fund managed by BP Capital at its inception had a value of $46 million at yearend 2008, an annualized return of about 40 percent. Pickens frequently utilizes his wealth of experience in the oil and gas industry in the evaluation of potential equity investments and energy sector themes. In July 2008, Boone launched a grass-roots campaign aimed at reducing this country’s crippling dependence on imported oil. In television ads, on his Pickens Plan website, and in personal appearances, he has spelled out how our dependence on foreign oil is an addiction that threatens our economy, our environment and our national security, and ties our hands as a nation and a people. He has spent the time since spelling out how this country can drag itself out of this quagmire, if it acts quickly and reasonably. His 2008 New York Times bestseller, The First Billion is the Hardest, also details what this country must do to win back its energy independence. Pickens has not been shy in predicting oil and gas prices and — more often than not — has been uncannily accurate. As a result, he is a frequent guest on some of the nation’s most-watched business programs (CNBC has coined him the “Oracle of Oil”). Pickens is also aggressively pursuing a wide range of other business interests, from water marketing, alternative wind power, and ranch development initiatives to Clean Energy, a clean transportation fuels company he founded and took public in May 2008 (the eighth entity he has helped go public in his career). Through Mesa Water, Pickens is the largest private holder of permitted groundwater rights in the United States. Clean Energy is advancing the use of natural gas as a cleaner-burning and more cost-effective transportation fuel alternative to gasoline and diesel. Mesa Power plans to operate a 1,000-megawatt wind farm in the Texas Panhandle. Pickens was founder of Mesa Petroleum in its various forms beginning in 1956. Mr. Pickens’ career at Mesa spanned four decades. Under his leadership, Mesa grew to become one of the largest and most well known independent exploration and production companies in the United States; Mesa produced more than 3 trillion cubic feet of gas and 150 million barrels of oil from 1964 to 1996.

Educational Background and Associations: Pickens earned a degree in geology from Oklahoma A&M (now Oklahoma State University) in 1951. His many educational associations and honors include Honorary Doctorate of Science Oklahoma State University (2002); Honorary Doctorate of Public Service awarded by George Washington University (1988); Francis Marion College awarded an honorary degree of Doctor of Humanities (1988); Distinguished Lecturer – Emory University School of Business (1987); Doctor of Laws conferred by Barry University, Miami Florida (1986); Named Distinguished Fellow of the College of Arts & Sciences at Oklahoma State University (1982); Henry G. Bennett Distinguished Service Award from Oklahoma State University (1982); Distinguished Alumni Award from Oklahoma State University (1982); Distinguished Fellow Award from Oklahoma State University (1980).

Professional and Industry Associations: During his long and distinguished career, Pickens has served on numerous boards and industry associations, including as a board of directors of the Veterans of Foreign Wars of the United States (2009), The Horatio Alger Association of Distinguished Americans Inc. (2007) and The Ronald Reagan Presidential Library Foundation (2007), a board trustee of the Cooper Aerobics Center (1989 to 1993), chairman of the board of visitors (1983, 1984), and a member of the Board of Visitors (1977 to 1986), MD Anderson Cancer Center, and as life member and chairman (1984, 1985) of the Texas Research League. He also served on the U.S. Department of the Interior’s National Petroleum Council (1971). Throughout his career, Pickens championed a new era of corporate accountability and is credited with making corporate managements more responsive to the interests of their shareholders. To further this, in 1986, Pickens founded the non-profit United Shareholders Association to help shareholders and inform them of corporate abuses.
Civic Interests: Throughout his professional life, Pickens has been a generous philanthropist, giving away nearly $700 million. In 2007, his $200 million in charitable donations landed him once again on the Chronicle of Philanthropy’s list of top U.S. philanthropists (in 2006, he contributed $175 million to a wide range of causes and the formation of the T. Boone Pickens Foundation; in 2005, his $220 million of giving earned Pickens fifth spot on the Chronicle’s list). The Pickens Foundation is focused on improving lives through grants supporting educational programs, medical research, athletics and corporate wellness, at-risk youths, the entrepreneurial process and conservation and wildlife initiatives. Among its 2007 donations, the Foundation awarded $50 million each to two University of Texas health care institutions, UT Southwestern Medical Center at Dallas and The University of Texas M. D. Anderson Cancer Center in Houston. In the past, Pickens has awarded more than $250 million to Oklahoma State University; $10 million to the Ronald Reagan Presidential Library to underwrite the Air Force One Pavilion; $6 million to the American Red Cross for hurricane disaster relief operations; and $3 million to the Oklahoma Heritage Association. He has also made million-dollar-plus contributions to a wide-range of medical research institutions and treatment centers, including the Wilmer Eye Institute at Johns Hopkins, UT Southwestern Medical Center, Scottish Rite Children’s Hospital and M.D. Anderson Cancer Center. To recognize his sizable donations, the Stillwater-based Oklahoma State University renamed its football stadium Boone Pickens Stadium in 2003 and dedicated the T. Boone Pickens School of Geology in 1989. Pickens has served on many committees and boards, including American Red Cross Chairman’s Advisory Board (2005) and as National Campaign for a Drug Free America adviser (1989). Among his other civic honors, he has earned the Key to the City of Dallas (1989), Bill Clements’ Man of the Year (1989), and recognition of support from Ronald McDonald House of Amarillo, St. Anthony’s Hospital, and the Harrington Cancer Center.

Honors: A number of diverse organizations recognized Pickens for his deeds. Among them: 2009 Time magazine “100” list of world’s most influential people; 2009 L. Austin Weeks Memorial Medal; 2009 Success magazine “Achiever of the Year” award; 2009 American Association of Political Consultants, “Public Affairs Campaign of the Year” for the Pickens Plan; 2009, 43rd annual Texas Legislative Conference “Texan of the Year” award; 2009 Franklin Institute’s Bower Award for Business Leadership; 2008 Recipient of Park Cities Quail Unlimited Lifetime Sportsman Award; 2008 Association of Fundraising Professionals’ Paschal Murray Award for Outstanding Philanthropist; 2008 National Football Foundation Distinguished American Award; 2008 Woodrow Wilson International Center for Scholars of the Smithsonian Institution Award for Corporate Citizenship; 2008 Weather Channel’s Forecast Earth Hot List (10 Most Influential People or Entities in the Fight against Global Warming); and 2008 Flak Jacket Award, “Best Spokesperson: Industry,” for being “the most intrepid, daring and verbally agile communicators.” The Horatio Alger Association of Distinguished Americans Inc. selected Pickens as a recipient of the 2006 Horatio Alger Award, which epitomizes those who overcome adversity and humble beginnings to achieve success (he joined its board of directors in 2007). The Alger selection is but one of many honors awarded Pickens for his achievements, including Trader Monthly’s 2006 Trader of the Year award, the Texas Business Hall of Fame (2005); Oklahoma Hall of Fame (2003), the City of Amarillo’s “Golden Nail Award” (2002); U.S. Department of Energy, Clean Cities National Partner award, ENRG (2002); INFORM's Corporate Environmental Leadership Award (2002); Pima County Arizona Clean Cities’ Annual Transportation Award, ENRG (2001); Clean Cities’ Clean Air Challenge Award, Pickens Fuel Corp. (2001); Oil & Gas Investor’s Hart Publication list of “100 Most Influential People of the Petroleum Century” (2000); Honda Environmental Citizen Award (2000); Certificate of Special Congressional Recognition (2000); California State Assembly, Clean Cities Coachella Valley Region – Environmental Citizen (2000); Tucson Regional Clean Cities National Partner Award, ENRG, (2000); Riverside County Board of Supervisors, Clean Cities Community Accomplishment Award, ENRG (2000); CALSTART’s Blue Sky Award, Pickens Fuel Corp. (2000); California State Senate Certificate of Recognition (2000); Earth Day Award (1993); Texas General Land Office’s Clean Air Texas Environmental Award (1993); Clean Across America Campaign, honored in Washington, D.C., and Los Angeles for promoting natural gas (1993); Natural Gas Vehicle Coalition Achievement Award (1993); Financial World “CEO of the Decade” (1989); West Texas State University Student Senate commendation (1988); Financial Management Association National Honor Society (1988); Washington Institute for Policy Studies’ Columbia Free Enterprise Award (1987); Financial Management Association’s Outstanding Financial Executive Award (1987); Texas A&M University College of Business Administration’s Distinguished Entrepreneur (1987); Financial Management Association’s Outstanding World Executive Award (1987); Honored Executive Award from University of Tennessee (1986); The Future Business Leaders of America “Giant in the Industry” award (1985); Carnegie Mellon Crisis Man Award (1985); Stanford University Alumni Association Houston Chapter’s Houston Business Man of the Year Award (1981); and Financial World CEO of the Year (1978).

Pickens, an avid exercise enthusiast who held the top spot of the Mesa Racquetball Ladder for 8 years (1979-1987), is particularly proud of his companies’ pioneering fitness programs. In 1989, Mesa was the first corporation to receive its accreditation from the Institute of Aerobics Research. Among other awards, The President’s Council Physical Fitness recognized Mesa as the “Most Physically Fit Company in America” (1985).

Other Notable: During his career, the oft-quoted Pickens has appeared regularly in both national and international publications. He also has been the cover subject for the following periodicals: Texas Monthly, September 2008; Philanthropy, 2006; 100 Most Influential People of the Petroleum Century, 2000; Texas Business, September 1996; Investment Dealers’ Digest, December 1988; Ultra, October 1986; Futures, August 1986; Time, March 1985; Business Week, May 1985; Chief Executive, Autumn 1985; Regardie’s, December 1985, Westward, 1984, and Fortune 1983. His autobiography, Boone (recently updated), spent 15 weeks on The New York Times Best Seller List.

Personal: Pickens lives in Dallas and is married to Madeleine Ann Pickens. He has five children and 12 grandchildren.

Celebrating 75 Years of Excellence in Education

In 1935, the Board of Regents recognized a need to offer graduate-level opportunities in the field of education at what was then the Southwest Texas State Teachers College. Two years later, the college awarded its first master’s degrees. Today, the Graduate College of Texas State University-San Marcos is proud to offer nearly 100 master’s and doctoral programs in various disciplines. Our nationally recognized graduate programs draw applicants from across the country and around the globe. Our faculty are renowned teachers and active researchers.

We are proud of our past and are excited, as you must be, about the future. We would like to take this opportunity to congratulate the nearly 500 students receiving graduate degrees on this momentous occasion.

Texas State University-San Marcos Graduate College

Then

In 1935, the Board of Regents authorized the formation of a Graduate School at Southwest Texas State Teachers College.

In May 1937, Margaret McClung Walker received the first master of arts degree in education.

In August 1937, Rosa Commander received the second master of arts degree in education.

In 1938-39, majors were offered in education, social science, science, mathematics, language and literature.

Now

In 1996, the first two doctoral programs were authorized by the Board of Regents, in geographic education and environmental geography.

In 2000, the first doctorates were awarded, to Dr. Lisa DeChano and Dr. Todd Votteler.

In 2009, 88 master’s and nine doctoral programs are offered in the following colleges: Applied Arts, Education, Fine Arts and Communication, Health Professions, Liberal Arts, Science and McCoy College of Business Administration.

Today, 4,536 students, who come from all over the United States and from countries as far away as Australia to Zimbabwe, are pursuing graduate study in the Graduate College of Texas State University-San Marcos.

Congratulations! As you receive your diplomas, you become Texas State alumni and join a proud tradition that stretches back more than a century.

We invite you to join the Alumni Association. Membership is a wonderful way to follow the accomplishments of your Texas State friends, find alumni in other parts of the world, and monitor happenings at the university. Many cities have alumni chapters where Bobcats gather, share lives and stay connected. Members also receive the alumni magazine, *Hillview*, and retail and travel discounts, and have access to Texas State career services and fellow alumni.

Wherever your future takes you, we want you to remain involved. Keep us informed on new addresses and people in your life. We want to share your successes.

You are the Alumni Association. When you leave today’s commencement ceremony, look for the stations with the maroon and gold balloons to receive information and to pick up your *Pedagog* DVD. Begin your membership today by joining online at txstatealumni.org.

Remember: Once a Bobcat, always a Bobcat!

Good luck,

Jim Barney
President, Texas State Alumni Association
The gowns, caps, and hoods worn at university functions date back to the early days of the oldest universities in the Middle Ages. Monks and students wore them to keep warm in the damp and drafty 12th century halls of learning. This traditional academic dress had been gradually revised to the modern form that you see today.

All gowns have a semi-stiff yoke, long pleated front, and intricate shirring across the shoulders and back. The bachelor’s gown is worn closed, reaches about 8 to 10 inches from the floor and has long sleeves from which the arms extend at the wrist. The master’s gown may be worn open or closed and has long, pointed sleeves closed at the end, the forearm coming through a slit near the elbow, with the flowing sleeve extending down the thigh. The doctor’s gown may also be worn either open or closed but is distinguished by broad velvet panels down the front and by three velvet bars on the full bell-shaped sleeves. This velvet trimming may be either black or the color distinctive of the field of learning.

The black cap with maroon and gold tassel is worn by the holders of bachelor’s and master’s degrees; the black velvet tam with gold tassel is worn by holders of doctoral degrees.

The hood (not usually worn by the holders of the bachelor’s degree) is a black shell, silk-lined in the color or colors of the institution conferring the degree. The colors of Texas State University-San Marcos are shown by a maroon lining crossed with a gold chevron. The velvet border of the hood is the color signifying the field of learning in which the degree was earned and not in the department in which the major was completed. Thus, a degree conferred as master of education with a major in physical education requires the light blue of education rather than the sage of physical education. Similarly, the “doctor of philosophy” degree requires the royal of philosophy, not the color of the department in which the major of study was completed.

Colors signifying various fields of study that you may see today include:

The use of a mace during university graduation ceremonies combines symbolic communication with the principle of vested authority at the most traditional and sacred of academic celebrations. The Texas State ceremonial mace is made of bronze and walnut and displays the university seal in maroon and gold relief. Beneath the seal is a metal base inscribed with the words AUCTORITAS, GRAVITAS, HUMANITAS, and VERITAS. These words come down to us from antiquity and represent our shared academic values:

Auctoritas: The sense of one’s standing gained through experience, industriousness, and service to others.

Gravitas: A sense of dignity, seriousness, and duty.

Humanitas: An appreciation for refinement, civilization, and learning.

Veritas: Truthfulness.

The mace adds meaning and dignity to the commencement ritual. It reminds both participants and spectators that education is one of the most cherished attributes of a free and democratic society.
