

Allergy Injections

For your safety, you must receive your first allergy injection at your allergist. The Student Health Center (SHC) will not initiate injections, but give subsequent injections.

Referring allergist must be licensed to practice in Texas.

Fax Number:	512-245-9288
Mailing address:	Texas State University 601 University Drive San Marcos, TX 78666-4538

Newly enrolled students can receive injections by appointment no sooner than August 22nd, 2016.

Important information for the allergy clinic:

- **The nurse cannot administer injections until all of the following are received**
- Specific, clear order **signed by the allergist** that includes the dose schedule, instructions for late injections and reactions
- Documentation of the last injection(s) is required and must include vial name, strength, date, dose and the reaction (or 0mm)
- Allergy serum must be labeled with the patient's name, serum, strength and expiration date
- Documents can be sent to above address, or dropped off by student at the SHC

Important information for the student or parent:

- It is important to continue getting injections until coming to school
- You must have an epi pen (that has not expired - check exp date)
- Once allergy serum and all needed documents are received, the SHC nurse will call the student to schedule appointment
- Program the SHC # (512-245-2161) into your phone so you recognize the call
- First appointment will be with SHC physician & you will see the nurse immediately following to get your injection(s)
- Nurse will schedule future appointments at a time that does not interfere with your class schedule - we do not take walk-ins
- 30 minutes observation time is required after injections are given
