

The Practice of Historic Preservation

HIST 5373: Spring, 2018 CRN# 39192

Meets Monday 6:30-9:20 pm

With some local fieldtrips

Dr. Peter B. Dedek

A seminar addressing architectural history and preservation theory and practice, this course serves as an introduction to the field of historic preservation. It covers major aspects of the field including, the history of the preservation movement, the National Register of Historic Places, federal regulations, historic properties and districts, American architectural styles, urban preservation, landscape preservation & cultural landscapes, preservation design, preservation technology, heritage interpretation, preservation & sustainability, and preservation law. Ample opportunity for class discussion will be provided.

Texts:

Murtagh, William J., *Keeping Time*. New York: John Wiley & Sons, Third Edition 2006.

Dedek, Peter B., *Historic Preservation for Designers*, Fairchild Books, 2014

Additional readings from Internet sites, such as the National Park Service and National Council on Historic Preservation sites, and articles by academics and other preservationists will also be assigned.
