1. Click on “Medications List” under your medical prescription plan icon, and search online for prices. The insurance company can assist with additional information if you have issues searching.
2. Write down prescription drug information on the prescription plan worksheet (download).
3. Search for the same drug on one of the national discount program websites or local pharmacies to compare prices to your medical plan. Put this information in the worksheet.
4. Select the least expensive cost based on the information provided on your worksheet.
