A revised edition of "Why Geography Is Important" is now available. This booklet has been improved, mainly through editorial cooperation with the Association of American Geographers EDGE project. It tells the story of how and why geography is important and offers excellent examples of geographers with high visibility employment. The case is made that geographic understanding can lead to sensible decision making in politics, economic, and environmental citizenship. New sections include homeland security, geospatial technology, business location, infrastructure, and the balance between nature and society. Booklets are available at the following prices:

- 1-50 copies.............. $1.00 each
- 51-100 copies .......... $ .75 each
- 101+ copies ............ $ .50 each

Plus $7.50 shipping and handling on each order.
