1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree (http://mycatalog.txstate.edu/undergraduate/liberal-arts/international-studies/travel-tourism-focus-bais/undergraduate/liberal-arts/international-studies) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, and six hours of 2000-level modern language courses.

3. Students are required to complete a global academic experience that can be fulfilled by a study abroad course or the IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. Students choose 2 courses (6 hours) from the list of prescribed electives for the Travel and Tourism Concentration. The list of electives is available on the Center for International Studies website at http://www.txstate.edu/internationalstudies/Degrees-and-Programs/undergraduatedegrees.html

Electives

Choose 9 hours of advanced courses 1

Total Hours 21

1 The nine hours of advanced electives are to be selected from an approved list that is available in the Center for International Studies. Please contact an advisor for this list. All courses attempted toward the minor must be completed with a minimum grade of “C” or better.

Students wishing to satisfy coursework in the minor through participation in Texas State Affiliated programs through the Study Abroad Office must complete all of the following steps:

1. Declare International Studies as a minor before going abroad.
2. Attend a General Information Session through the Study Abroad Office.
3. Complete the Transfer Credit Agreement Form.
4. Complete the Texas State Affiliated Program Application.
5. Submit the Transfer Credit Agreement Form to the Center for International Studies (Center) and meet with the Director, Associate Director, or Academic Advisor of the Center to review the completed Transfer Credit Agreement Form. A completed Transfer Credit Agreement form should include prospective courses from the affiliated institution and the Texas State equivalency. All courses evaluated via Transfer Credit Agreement Form must be approved by the Director or Associate Director of the Center. The Center will review courses with the following prefixes (pending evaluation as an Elective Advanced course - ELADV) – ANTH, ECO, FIN, GEO, HIST, IS, MC, MGT, MKT, PA, PHIL, POSI, PS, and SOCI. Additional courses outside of approved prefixes will be evaluated on a case-by-case basis.

6. Submit the Texas State Affiliated Program Application to the Study Abroad Office with a copy to the Center.
7. Apply through your respective Affiliated Provider.

Enrolling in courses not indicated on Transfer Credit Agreement may result in courses not being counted towards degree program. Such courses may be ineligible for financial aid. Any new course selection will require an updated Transfer Credit Agreement form that must be reviewed and approved by the Center.

Center for Diversity and Gender Studies

Undergraduate Academic Center Room 478
Telephone: 512-245-2361 Fax: 512-245-1414
www.txstate.edu/cdgs (http://www.txstate.edu/cdgs)

The Center for Diversity and Gender Studies in the College of Liberal Arts administers the Diversity Studies minor and the Women's Studies minors at the undergraduate and graduate levels. The Center helps prepare students to work and live in a pluralistic society through curricular and co-curricular activities — symposia, workshops, exhibits, and research projects. In addition, it assists faculty with resources and professional development activities to encourage the infusion of multiculturalism in the curriculum through a Multicultural Curriculum Transformation and Research Institute. It houses a resource area with more than 500 books, articles, and syllabi. The Center sponsors a Women and Gender Research Collaborative with its own online professional peer reviewed Journal of Research on Women and Gender. Through private donations, Diversity and Gender Studies offers annual scholarships to students. The director of the Center works in collaboration with an advisory council of faculty and staff representing several Texas State colleges and departments.

Key issues for prospective minors to consider:

- Tomorrow’s graduates will be entering a workforce dominated by technological, service, and communication industries with an increasingly diverse workplace and clientele.
- Employer demand is increasing for diversity knowledge and skills among today’s college students.
- Well-rounded graduates have included in their liberal arts education a greater knowledge of their cultural history and traditions.
Minors

• Diversity Studies (p. 424)
• Women’s Studies (p. 425)

Subjects in this center include: DVST (p. 424), WS (p. 424)

Courses in Diversity Studies (DVST)

DVST 3301. Introduction to Diversity Studies.
The course is a general, multi-disciplinary and comparative survey of U.S diversity issues. It highlights the traditional minorities, such as African, Latino/a American, Native, and Asian Americas, as well as European American ethnic groups. It also explores issues related to religion, age, sexual orientation, gender identity, and physical ability/disability. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

DVST 3320. Introduction to Global Diversity Issues.
This course provides an understanding of relationship between U.S and other nations in terms of economics, politics, and culture. Students will examine how colonialism shaped developed and underdeveloped nations, investigate grassroots activism in response to globalization and will examine how policies formulation by one country has consequences for other countries.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Women’s Studies (WS)

WS 3376. Images of Women.
This course, one of two multidisciplinary team-taught women’s studies courses, is a survey of the changing images of women in the U.S. since 1800 through the eyes of historians, writers, artists, orators, the media, and educators. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

WS 3377. Realities of Women.
This course, one of two multidisciplinary team-taught women’s studies courses, is the study of realities faced by women in the U.S. today— including biological and psychological differences in males and females, politics and the law, the work force, and the home. Gender roles in societies outside the U.S. will also be examined. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

WS 4388. Independent Research in Women’s Studies.
Independent study course open to advanced students on an individual or small group basis. The research area in Women’s Studies, bibliography, and study paper outline are to be approved by the instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Minor in Diversity Studies

The minor in Diversity Studies requires 18 semester credit hours. The minor provides for an interdisciplinary approach to Diversity Studies with conceptual frameworks for exploring new perspectives which recover the history and creative expressions previously excluded by the traditional approaches to higher education. The minor fosters students’ development of self, voice, and moral vision to prepare students to live and work effectively in a pluralistic society and a global world. Students will explore issues related to race, ethnicity, gender, religion, age, sexual orientation, and physical ability and disability. Using the courses available students may design a special focus based on their interest or career path. Relevant courses may be substituted with approval from the director of the Center for Diversity and Gender Studies. The two required core courses (6 hours) are DVST 3301, which offers a general, multidisciplinary and comparative survey of diversity, and DVST 3320, which provides students with a global view of diversity issues.

Required Courses

- DVST 3301 Introduction to Diversity Studies
- DVST 3320 Introduction to Global Diversity Issues

Electives

Choose 12 hours from the following:

- ANTH 1312 Cultural Anthropology
- ANTH 3301 Principles of Cultural Anthropology
- ANTH 3309 Cultures Through Film

- ENG 3346 Southwestern Studies II: Consequences of Region
- ENG 3388 Women and Literature
- GEO 3308 Latin America
- GEO 3329 Geography of Texas
- GEO 3353 American Ethnic Geography
- HIST 3310 History of Europe, 1815-1919
- HIST 3311 History of Europe Since 1919
- HIST 3320 History of Mexico
- HIST 3329 Spanish Borderlands, 1521-1821
- HIST 3359 African American History
- HIST 3369Y Black Women and Black Protest in America
- HIST 3369Z Immigration and Ethnicity
- HIST 3372 Texas History: A Survey
- HIST 3375A American Labor History, 1877-1945
- HIST 3380 The Desegregation of the South from 1944-1970
Minor in Women’s Studies

The minor in Women’s Studies requires 18 semester credit hours. The minor offers an interdisciplinary program that concentrates on the images and realities of women. Drawing on recent scholarship on women and gender, the Women’s Studies minor provides a flexible, coherent program that enables students to consider the significance of gender.

On a personal level, courses in this program enhance the human potential of both men and women, because knowledge about how societies construct gender relations can encourage students to examine their own attitudes and behavior. On an academic level, a minor in Women's Studies provides study of the ongoing scholarship about women and gender and offers students the opportunity for exciting intellectual growth. On a professional level, the minor provides a valuable specialty to prepare students for opportunities in a variety of fields, including business, counseling, education, government, health and medicine, human resources, law, politics, psychology, social work, and graduate studies. The Women's Studies minor helps students recognize their opportunities in a rapidly changing society and flexibly complements any major.

The two required core courses examine the images of women that are prevalent in Western culture (with examples being drawn from films, literature, visual arts, and popular music) as well as those topics and issues related to the realities of women's lives. Topics courses, offered on a selective basis, may also count toward the minor with permission from the Women's Studies Program Director.

**Center for the Study of the Southwest**

Brazos Hall Room 212
T: 512.245.2224 F: 512.245.7462
www.txstate.edu/cssw (http://www.txstate.edu/cssw)

The Center for the Study of the Southwest in the College of Liberal Arts, established in February 1990, has a threefold mission: curriculum development, public outreach, and research. Its 18-hour interdisciplinary minor, administered jointly with the Department of English, was approved in 1992. The Center draws faculty from varied disciplines (Art, Biology, English, Geography, History, and others); it disseminates information about its programs and research through *Southwestern American Literature*, a biannual journal devoted to the literature and culture of the Greater Southwest, and *Texas Books in Review*, a journal that monitors publications from or about Texas.

The Center for the Study of the Southwest, funded in part by grants from the National Endowment for the Humanities and the Houston Endowment, promotes the exchange of knowledge about regional issues among individuals, communities, and institutions across the region and northern Mexico. The Center encourages students, teachers, and the general public to understand the power of place to build identity, honor diversity, strengthen community, and celebrate the human spirit.

**Minor**

- Southwestern Studies (p. 426)
Minor in Southwestern Studies

The minor in Southwestern Studies requires 18 semester credit hours. No more than three courses, including the required courses, in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Relevant Honors and special topics courses may be substituted with permission from the Center for the Study of the Southwest.

www.txstate.edu/anthropology

Anthropology is the study of human cultural and biological variation and evolution. It is a holistic discipline taking into consideration all aspects of human existence. In a general sense, anthropology is concerned with determining what humans are, how they evolved, and how they differ from one another. Anthropology is divided into four major subfields: cultural anthropology, biological anthropology, archaeology, and linguistic anthropology. The anthropology program at Texas State offers coursework and training in each of these areas.

Undergraduate Anthropology majors choose between two degrees: The Bachelor of Arts and the Bachelor of Science. The undergraduate curriculum for students seeking the BA and BS degrees in Anthropology is structured to ensure that all students receive the knowledge to achieve the educational outcomes prescribed by the faculty, as well as allow for flexibility in training so that the personal goals of each student is achieved. Students pursuing either degree have the opportunity to participate in department field schools and/or internship program.

Graduates can be found in a surprising array of fields and careers, such as corporations, all levels of government, educational institutions and non-profit associations. Post-graduate employment includes Education/Outreach, Archeology, Cultural Resource Management (CRM), Historic Preservation, Museum/Curation/Project Design, Community Development, Advocacy (human rights/social justice), Human/Social Services, Management Consulting/Organizational Development/Training, Computers/Software Development/Information Technology, Design (products and/or services), International Development/Affairs, Forensics, Mass Communication, Law/Criminal Justice/Law Enforcement, Administration/Management, Ethnography, Evaluation/Assessment, Health (international/public health), Environment and Natural Resources, Healthcare Management/Services/Deliver, Social Impact Assessment, Market Research, and Humanitarian Efforts.

Courses in Anthropology (ANTH)

ANTH 1312. Cultural Anthropology.
In this course students examine the nature of cultural variation of populations in the present and recent past. Its subjects include social, political, economic, and ideological aspects of human cultures. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080/ Multicultural Content
Grade Mode: Standard Letter
TCCN: ANTH 2351
ANTH 2414. Biological Anthropology.
This lecture and accompanying laboratory course examine fundamental aspects of the biological nature of humans using evolutionary theory. Course content is divided into topics devoted to the process of evolution, genetics, the primates order, osteology, human evolution, and variability and adaptation.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: ANTH 2401

ANTH 2415. Introduction to Archaeology.
This course covers the basic principles of archaeology. It includes a study of the kinds of sites; classification of stone artifacts; methods of archaeological survey and excavation; methods of dating by geological, faunal, and radiometric means; and the theoretical approach to archaeology. This course includes a weekly laboratory.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

ANTH 3301. Principles of Cultural Anthropology.
This course is an ethnographically-based analysis of major theoretical positions and debates in contemporary anthropology. Prerequisites: ANTH 1312 and 60 hours of coursework. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3302. Introduction to Linguistic Anthropology.
This course provides an introduction to the study of linguistic anthropology. We will focus on the origin of language and its evolution and diversity, the interactions between language, culture and society, and modes of communication. This course will enhance a student’s awareness of the complex interrelationships between language and other aspects of culture. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3303. Applied Cultural Anthropology.
In this course students learn the methods applied cultural anthropologists use to address social problems such as poverty, sustainable development, conflict, climate change, community health, workplace and product design, education, and cultural heritage, as well as the value “thinking anthropologically” has for a wide range of careers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3304. Bioarchaeology.
Bioarchaeology is the study of human skeletal remains in relation to the archaeological record. In this course students will study theories and methods used in the analysis of human skeletal remains in bioarchaeology to reconstruct patterns of subsistence, diet, disease, demography, biological relatedness, and physical activity of past populations. Prerequisite: ANTH 3381.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3305. Magic, Ritual and Religion.
An examination of magic and religion in cultures of the world with an emphasis on recent works dealing with mysticism and the occult. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3306. World Prehistory.
This course presents a survey of the prehistoric human record throughout the world. It focuses upon the achievements of early and modern humans, world colonization events, and the development of complex societies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3307. History of Evolutionary Thought.
This course discusses the impact of evolutionary discourse within the context of its history. Students will develop a thorough understanding of evolution and its importance to anthropology, as well as to other scientific disciplines. Prerequisites: ANTH 2414 and 60 hours of coursework. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course surveys Cultural Resource Management (CRM) archaeology, the conservation and investigation of archaeological remains as mandated by federal and state laws. The course covers the history of CRM and its legal and regulatory framework, organization, methods, funding, employment prospects, and ethical and practical dilemmas. Prerequisite: ANTH 2415.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3309. Cultures Through Film.
Through films, lectures, and discussions, students explore the various ways that ethnographic film interprets the cultural environment and social interactions of small-scale cultures around the world. We will also discuss anthropological interpretations of how historically U.S. (American) culture has dealt with concepts of the “other” and supernatural phenomena through film. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3311. Disease and Society.
In this course students examine infectious diseases and the effect they have on human societies. The course is organized into case studies of specific infectious diseases, which focus on the biology and epidemiology of a disease as well its social impact.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ANTH 3313. Aztec: Native Americans and Empire.
This course presents an understanding of Aztec culture through archaeology, the interpretation of art, religion, and architecture, and the formation of a highly specialized and stratified society with an imperial administration. The course will emphasize an intellectual and religious outlook in intimate contact with the earth, sky, and the seasons.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3314. Latin American Cultures.
This course examines different aspects of Latin American indigenous cultures from a variety of theoretical perspectives in anthropology. Emphasis is on the Maya, and different theoretical perspectives provide different interpretations of data. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3315. Archaeology of the Southwest.
An examination of the prehistory and early cultures of the Greater Southwest from the first arrival of humans as early as 20,000 years ago to the coming of the Spaniards in the 16th century. The course covers several mammoth kill sites at the end of the Pleistocene; the emergence of Archaic hunters and gatherers and the appearance of agriculture about two thousand years ago, leading to the three major cultures in the southwest—the Mogollon, the Hohokam and the Anasazi, the last in multistoried pueblos and cliff dwellings. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3316. The Origin and Evolution of Human Behavior.
This course presents our current understanding of Old World Paleolithic Archaeology. The origin and evolution of hominid behavior, the initial colonization of the Old World, and the development of modern human behavior will be discussed for each continent. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3317. Rock Art Field Methods.
This course will train students in rock art field methods. They will gain first-hand experience recording rock art sites through photography, field sketches, mapping, and written inventories. Students will generate a visual and written description of the art, which they will use to infer and explain past human behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3318. Texas Archaeology.
This course will present our current understanding of Texas archaeology. The environmental and social contexts of prehistoric, protohistoric, and historic records of Native American and Spanish occupations in Texas are discussed. Prerequisite: ANTH 2415. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3319. Human Growth and Development.
In this course students focus on the life history of humans from birth to death, and consider how humans grow and change both biologically and psychologically over the course of their lives. Topics include life stages, sex differences, nutrition, environment, growth disorders, and the evolution of human growth.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3322. Peoples and Cultures of Africa.
This course is a general introduction to the contemporary peoples and cultures of Africa. Students will examine the social structure, economy, political systems, and religions of African cultures in the context of the radical economic and social transformations affecting the area. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3324. Mexican American Culture.
An examination of the history and culture of Mexican Americans with an emphasis on the analytical concepts of culture, race, class, and gender. Lectures, films, and selected readings (including chapters from anthropological and literary books and journals) will be used to portray the diversity of Mexican American experiences in this country. Topics include religion, politics, economy, identity politics, popular culture, sexuality, marriage and the family. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3325. Medical Anthropology.
This course focuses on how illness identities are culturally constructed, how adaptations or maladaptations to local environments affect health, how political and economic forces influence health and health behaviors, and how the practice of medical anthropology can contribute to solving urgent health issues around the world.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3327. Anthropology of Religion and Fundamentalism.
This course provides students with current and historical approaches to the anthropology of religion with a particular emphasis on fundamentalism. It focuses on the development of religious fundamentalism in different cultural contexts, geopolitical situations, and religious traditions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3328. Primate Cognition.
In this course students investigate historical and current views regarding the cognitive capacities of nonhuman primates, and the extent to which these abilities are shared with humans. Topics include social cognition, numerical cognition, problem solving, tool use, culture, communication, theory of mind, deception, self-recognition, and imitation. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ANTH 3329. Comparative Juvenile Behavior.
This course will give students a thorough understanding of the
comparative method through examples from the development of juvenile
animals. It will introduce students to sociocology, neurobiology, and life
history markers, with information that they can apply across disciplines.
(WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3330. Curation of Archaeological Materials.
This course provides students with the skills to prepare archaeological
materials for curation, which includes the processes and techniques used
to stabilize and preserve organic and inorganic materials. This training
can be used to gain certification in the field of archaeological curation.
Prerequisite: ANTH 2415.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3332. Myths and Moundbuilders.
This course presents an anthropological approach to Native Americans of
the Southeastern United States, their culture and beliefs. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3335. The Anthropology of Native American Belief Systems.
In this course students use anthropological approaches to investigate
past and present Native American belief systems in order to determine
the temporal range and evolving complexity of Native American religious
and ritual expression.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3336. Community Research Project.
This course gives students the opportunity to conduct hands-on
anthropological research on a variety of topics in local or other
communities. Students will undertake individualized research projects
designed in conjunction with the professor. Students must consult with
the professor prior to enrollment to design the research project and
receive approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3337. Language and Linguistics.
This course is concerned with the theoretical and methodological
study of language, what constitutes the knowledge of a language, how
this knowledge is acquired, and how it is used. Other areas of interest
include the properties of human language, its representation in the mind,
learnability, origin, and change.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3338. Geoarchaeology.
This course will teach students how to interpret sediments and the nature of
sediment accumulation at archaeological sites. Course topics include
sedimentology, natural depositional environments, weathering processes
and soil development, stratigraphic analysis, and archaeological site
formation processes. Prerequisite: ANTH 2415 or GEOL 1410. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

An examination of the long and diverse record of human and nonhuman
biological adaptations as viewed from the fossil record. It examines the
functional and ecological challenges that may have been responsible for
the path of human development.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3342. Primate Behavior.
In this course, students will learn about the behavior, ecology and
conservation of nonhuman primates (lemurs, lorises, monkeys, and apes).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3343. Human Variation and Adaptation.
This course examines the physical variation observable within and
between human populations. It emphasizes a functional approach
whereby variation is examined in relation to biological adaptation.
It explores the biological mechanisms responsible for change and
evaluates the potential of biological components in human behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3345. Archaeology of Mexico.
This course examines the development of culture from early hunters and
gatherers through the appearance of agriculture to the rise of civilization.
The focus of the course is on the emergence of complex society among
groups such as the Olmec, Aztec, and Maya. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3347. Archaeology of North America.
This course describes human settlement of North America from the end of
the Pleistocene to European discovery. It considers early occupation of
arctic, plains, and forested regions and development during archaic
times of Adena, Hopewell, and Mississippian societies in the Southeast and
Mogollon, Hohokam, and Anasazi in the Southwest. Prerequisite:
ANTH 2415.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

In this course, students will learn about the ecology and conservation of
rainforest flora and fauna, with particular emphasis on primates.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ANTH 3349. The Incas.
The Incas were the largest Pre-Columbian empire in the Americas and this course will explore the origins of this civilization and how they conquered such a large area of South America. Using archaeological and historic information the class will examine various aspects of Inca society including religion, economics, and kinship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3350. Gender and Sexuality in Cross-cultural Perspective.
This course examines historical and contemporary issues related to gender and sexuality from a global, cross-cultural perspective. It will focus on cultural constructions of gender and sexuality, including gender stratifications, biology and evolution, families and kinship, work, sex work, diverse sexualities, media representations, and domestic and sexual violence. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3351. Anthropology of Peace and Violence.
This class explores anthropological perspectives on peace and violence. It focuses on understanding violent practices within both traditional and current day societies including everyday violence and warfare. It explores the contributions of social structure, gender, religion, race, and ethnicity to violence. It examines efforts to build peace and reconciliation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 3352. Language and the Body.
This class focuses on how language shapes our identities and deeply held beliefs about our bodies. Students will have an opportunity to engage in discourse analysis of media representations as well as collect and analyze their own conversational data using the methods of linguistic and cultural anthropology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3356. Archaeology of Andean Civilizations.
This course examines the cultures of the Andes Region of South America with an emphasis on pre-Columbian and contemporary peoples of the area.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3360. Economic Anthropology.
Reviews central issues in economic anthropology, using both case studies and theoretical writings. Analyzes production, exchange, distribution, consumption, property, economic surplus, inheritance, and types of economic structure. Materials will cover huntergatherer societies, simple agricultural societies, pre-capitalist complex state societies, and issues of development in nonindustrialized countries.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3361. Archaeological Field Methodology.
In this course students will learn about planning, organizing, and carrying out archaeological field investigations from survey to excavation to specialized data recovery. The focus is on the research strategies, techniques and logistics necessary to design and accomplish successful field research. Prerequisite ANTH 2415. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3363. The Art and Archaeology of the Olmec.
This course will present our current understanding of the art and archaeology of the Olmec culture, the earliest known civilization in North America. The Olmec culture is considered the influential foundation for later Mesoamerican civilizations such as the Maya and the Aztec.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3364. Biological Basis of Human Behavior.
Students in this course evaluate studies on the biological basis of human behavior and explore the question of whether behavioral patterns are genetically fixed. It includes popular and scientific approaches to themes such as the evolution of human behavior, biology and behavior, race and racism, biological determinism, and human universals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3375C. Historical Archaeology.
This course is a survey of historical archaeology methods and theories that will intensively examine current trends in historical archaeology. Students will also be exposed to the material culture from historic period archaeological sites in Texas and North America.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 3375D. Human and Non-human Primate Evolutionary Anatomy.
This course is designed to give students an anatomical background to the study of human evolution with a focus on the comparative anatomy of apes, living humans, and fossil hominins. Prerequisite: ANTH 2414.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 3375E. Anthropology of Youth.
This class will provide an overview of issues in adolescent and emerging adult health and development in national and international contexts. Drawing from several disciplines including anthropology, education, public health, psychology, and sociology, we will critically examine existing research on youth and discuss underlying assumptions, research methodologies, and findings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
ANTH 3375G. Human Structure and Function.
In this course, students study the structure and basic function of the human body with emphasis on the skeletal, muscular, and nervous systems. This course provides a basis for other courses in biological anthropology.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 3376P. Archaeology of the Earliest Americans.
This course focuses on the long-standing and controversial issues of when, how, and who first peopled the Americas. This is a significant aspect of human prehistory and remains unresolved. Students will use archaeological, biological, linguistic, and environmental evidence to help identify the first inhabitants of the New World.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Underwater resource management requires certain skills for those who manage, investigate, or monitor cultural, biological, or other resources found in water. This course is intended to prepare and qualify certified divers for further research and employment opportunities in underwater resource management, which includes archaeology, environmental/ecological anthropology, and other related fields. Prerequisites: Current scuba diving certification from any nationally accredited dive certification agency and an advanced scuba diving certification is recommended. Students must also complete standard liability and waiver forms, as well as complete a diving physical prior to any water work.
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 3380. Forensic Anthropology.
Forensic Anthropology is the recovery and analysis of human skeletal remains for modern legal inquiry. This course is an overview of the field of Forensic Anthropology illustrated with real forensic cases.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3381. Human Osteology.
The foundation of biological anthropology is the study of the human skeleton. This is a lab-intensive course in which students will learn how to identify skeletal elements, both whole and fragmentary.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3303. Human Speech Sounds.
This course is an introductory overview of human speech production and perception from an anthropological perspective. It describes speech anatomy and pays particular attention to the description of the acoustic and articulatory properties of speech as it occurs in real time. Students will study articulatory, acoustic, and auditory phonetics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3404. Language, Culture and Society.
This course seeks to introduce students to the fundamentals of linguistic anthropology, and the use of linguistics in anthropological fieldwork through lecture, discussion, and "hands on" class exercises.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4309. Culture, Medicine and the Body.
This course explores how the human body, functions of the body, and the practices of medicine and healing are situated and contextualized within cultural frameworks. Case studies cover body and health-related topics over the life course, from birth to death. Prerequisite: ANTH 1312 or ANTH 3325, or permission of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4310. Theories and Issues in Anthropology.
This course explores major theoretical and historical developments in anthropology, highlighting the discipline's unique four-field perspective that includes archaeology, biological and cultural anthropology, and anthropological linguistics. Topics stress the importance of anthropological thought in key scientific discoveries and cultural debates. Prerequisites: ANTH 1312 and 60 hours of coursework.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4315. Archaeological Artifact Identification and Analysis.
This course will train students to describe and analyze artifacts commonly recovered from archaeological sites. Current theories covering the production and analysis of chipped and ground stone tools, ceramics, bone and other materials will be presented, and scientific analytical methods discussed. Prerequisites: ANTH 2415 and one additional archaeology course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4320. Rise of Civilization.
This course consists of a definition of civilization and its components, its geographic setting, and the roles of religion, art, and the institution of the "Divine King" in the development of dynamic state societies in Egypt, Sumeria, the Indus Valley, and China in the Old World and that of the Olmec in Mexico and Chavin in Peru. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 4326. Field Methods in Forensic Anthropology.
In this course students will learn how to locate, excavate and recover human remains, associated personal effects, and other materials in order to ensure legal credibility for all recoveries. Prerequisite: ANTH 4382.
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Grade Mode: Standard Letter
ANTH 4337. Theory in Linguistic Anthropology.
In this course students will be introduced to the major theories of linguistics through reading and discussing classic and contemporary literatures. Particular attention will be given to how the various theories have influenced linguistic anthropology. Prerequisites: ANTH 1312 or ANTH 3302 and 60 hours of coursework. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4339. Theoretical Concepts in Archaeology.
This course provides a broad survey of theory in archaeology as it is practiced throughout the world. It includes both historical perspectives and contemporary usage. Prerequisites: ANTH 2415 and 60 hours of coursework. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4360. Directed Study.
A one-semester course of independent reading, tutorial sessions, and individual research projects. Open to superior students by invitation of the professor and with the consent of the chair of the department. May be repeated for credit with permission of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 4361. Field Methods in Cultural Anthropology.
This course teaches students how to conduct field research in cultural anthropology. Topics include research ethics, problem formulation, participant observation, interviewing, and other techniques for data collection and analysis. Students will conduct their own field research project under the instructor's supervision. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4363. Methods in Primate Research.
In this course, students will learn about the methods used to study primates in captive and field settings.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 4381. Paleopathology.
This course focuses on the study of diseases and maladies of ancient populations, and will survey the range of pathology on human skeletons from trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis, and tumors. Prerequisite: ANTH 3381. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is for students who wish to advance their osteological skills. Students will learn how to identify isolated and fragmentary skeletal remains to estimate age, sex, ancestry, stature, and health of an individual in past and present contexts. Prerequisite: ANTH 3381.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4390. Internship in Anthropology.
This course provides students with professional development through work or research-related experience. After consulting the internship coordinator, students choose placements matching their interests and develop individualized internship contracts. Interns meet to discuss career preparation and anthropological topics related to each intern's activities, keep a journal, and submit a final report. Prerequisite: A minimum 2.5 GPA in major, and permission of instructor.
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ANTH 4600. Bioarchaeology Field and Laboratory Methods.
In this course students will be trained in the documentation, contextual assessment, and recordation of human skeletal remains in bioarchaeological settings. Students will engage in research projects, gaining practical laboratory and field experience. Prerequisite: ANTH 3381 or Permission from the Instructor.
6 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4630. Archaeological Field School.
This course is designed to train students in the skills and techniques of modern archaeological survey and excavation of prehistoric sites. May be repeated for credit, but only six hours may be applied toward the major.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Anthropology

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. This major requires 32 semester credit hours of Anthropology courses which 18 hours must be advanced courses. Majors may not receive more than six hours of credit in ANTH 4630 to satisfy
Anthropology major requirements. Majors must complete one of the following theory-based Anthropology courses:
- ANTH 3301 Principles of Cultural Anthropology 3
- ANTH 3307 History of Evolutionary Thought 3
- ANTH 4310 Theories and Issues in Anthropology 3
- ANTH 4337 Theory in Linguistic Anthropology 3
- ANTH 4339 Theoretical Concepts in Archaeology 3

7. Majors are required to achieve the following minimum grade point averages for graduation: Texas State GPA 2.00, major GPA 2.50, and minor GPA 2.00.

8. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

**Total Hours: 120**

1. Students who complete a four-hour biological anthropology and/or archeology course at another institution may have course(s) evaluated by the Chair of the Department to determine credit for ANTH 2414 and/or ANTH 2415 can be assigned.

2. Students must complete 6 hours of the same foreign language (2310 and 2320). Most students complete 1410 and 1420 as prerequisites before attempting 2310.

### Bachelor of Science (B.S.) Major in Anthropology

**Minimum required: 120 semester credit hours**

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Twelve hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).

3. Majors must select a minor from the following list of lab-based science minors: biology, chemistry, physics, geology, geography, computer science, or mathematics.

4. All students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. This major consists of 35 semester credit hours of Anthropology courses, 18 of which must be advanced. Majors may not receive more than six hours of credit for ANTH 4630 to satisfy Anthropology major requirements. Majors must complete one of the following Anthropology theory-based courses:

- ANTH 3301 Principles of Cultural Anthropology 3
- ANTH 3307 History of Evolutionary Thought 3
- ANTH 4310 Theories and Issues in Anthropology 3
- ANTH 4337 Theory in Linguistic Anthropology 3
- ANTH 4339 Theoretical Concepts in Archaeology 3
6. Majors must complete 6 hours of Anthropology techniques courses to be selected from:

- ANTH 3317  
  Rock Art Field Methods 3
- ANTH 3330  
  Curation of Archaeological Materials 3
- ANTH 4361  
  Field Methods in Cultural Anthropology 3
- ANTH 4363  
  Methods in Primate Research 3
- ANTH 4382  
  Methods in Skeletal Biology 3
- ANTH 4390  
  Internship in Anthropology 3
- ANTH 4630  
  Archaeological Field School 6

7. Majors must complete one of the following statistics courses:
- CJ 3347
- GEO 3301
- PSY 2301
- SOCI 3307

8. Majors are required to achieve the following minimum grade point averages for graduation: Texas State GPA 2.00, major GPA 2.50, and minor GPA 2.00.

9. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Department of English

Flowers Hall Room 365
T: 512.245.2163  P: 512.245.8546
www.english.txstate.edu

Faculty in the Department of English teach, conduct research in, and advance the discipline of English Studies, including rhetoric and composition, creative writing, technical communication, film and media studies, literature and language. They prepare undergraduate students to pursue further education and/or careers; to think, write, and speak clearly; to produce authoritative scholarship and inspiring creative work; to read with pleasure, skill, and understanding; and to appreciate the power and subtlety of discourse in various media.

While gaining a broad liberal education, English majors also learn practical skills that provide a base for almost any career. Graduates traditionally enter the fields of education, journalism, publishing, or communications. They also work for computer, engineering, and public relations firms or pursue careers in politics and government. An English background provides excellent training for law school and other graduate programs.

Bachelor of Arts (B.A.)

- Major in English (p. 440)
- Major in English (Single Field Teacher Certification in English Language Arts and Reading, Grades 7-12) (p. 446)

Bachelor of Arts (B.A.) Major in English

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. This major requires 36 semester credit hours of English courses. ENG 1310 and ENG 1320 are prerequisites to all other English courses.

Total Hours: 120

1. Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.
2. Meets the requirement that majors must take at least 6 hours of literature before 1800.
3. ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

Advanced English Courses

In addition to ENG 3301, majors must complete seven advanced courses. Majors must take at least one advanced course from each of the four groups listed below. They also select nine hours of electives from one or more groups. In selecting from groups or in choosing electives, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

Bachelor of Arts (B.A.) Major in English (Film Concentration)

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. ENG 1310 and ENG 1320 are prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Total Hours: 120

1 Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.
Meets the requirement that majors must take at least 6 hours of Literature before 1800.

ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

### Advanced English Courses

In addition to ENG 3301, majors must complete seven advanced courses. Majors must take one advanced course from Groups A, B, and C plus nine hours of electives in film. In choosing their nine hours of electives in film, majors with the Emphasis in Film must take three hours of EN 3301 and 6 hours from other film courses:

Bachelor of Arts (B.A.) Major in English (Single Field Teacher Certification in English Language Arts and Reading, Grades 7-12)

Minimum required: 126 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. This major requires 36 semester credit hours of English courses. ENG 1310 and ENG 1320 are prerequisites to all other English courses.
7. An Overall GPA of 2.75 is required for graduation with teacher certification.
8. In addition to the major and minor requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.

**Bachelor of Arts (B.A.) Major in English (Writing and Rhetoric Concentration)**

**Minimum required: 120 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. ENG 1310 and ENG 1320 are prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Total Hours: 120

1. Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2. Meets the requirement that majors must take at least 6 hours of literature before 1800.

3. ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

### Advanced English Courses

In addition to ENG 3301, majors must complete seven advanced courses. Majors must take one advanced course from Groups A, B, and C plus nine hours of electives in writing and rhetoric. In choosing their nine hours of electives in writing and rhetoric, major with the emphasis in writing and rhetoric must take three hours of theory (ENG 3318, repeatable); three hours of practice (ENG 3303, ENG 3304, ENG 3311, or ENG 3342), and three hours of theory or practice. They also select one three-hour elective from one of the groups. In selecting their advanced courses, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

Minor in English

The minor in English requires 24 semester credit hours. Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than 6 hours of sophomore literature may count toward the English minor. Minors must take advanced courses from at least two different groups (Group A-British Literature, Group B-American Literature, Group C-World Literature, or Group D-Forms, Language, and Writing) and are encouraged to complete one course that centers on genre, theme, or theory.

**Minor in Southwestern Studies**

This minor is administered by the Center for Southwestern Studies. Please contact the center for additional information.

The minor in Southwestern Studies requires 18 semester credit hours. No more than three courses, including the required courses, in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Relevant Honors and special topics courses may be substituted with permission from the Center for the Study of the Southwest.

**Minor in Writing**

The minor in Writing requires 24 semester credit hours. Students may choose an emphasis in creative writing or professional writing, or they may take courses in both types of writing. Students should check course descriptions for prerequisites to ENG 3348, ENG 3349, ENG 4348, and ENG 4349.
Students majoring in English may not minor in writing.

</table>

Choose 3 hours from the following:

- ENG 2310 British Literature before 1785
- ENG 2320 British Literature since 1785
- ENG 2330 World Literature before 1600
- ENG 2340 World Literature since 1600
- ENG 2359 US Literature before 1865
- ENG 2360 US Literature since 1865

Choose 9 hours from the following:

- ENG 3303 Technical Writing
- ENG 3304 Professional Writing
- ENG 3315 Introduction to Creative Writing
- ENG 3342 Editing
- ENG 3348 Creative Writing: Fiction
- ENG 3349 Creative Writing: Poetry
- ENG 4348 Senior Seminar in Fiction Writing
- ENG 4349 Senior Seminar in Poetry Writing

Select three hours of advanced ENG literature courses: 3

**Total Hours** 24

### Second Teaching Field in English (Grades 7-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in English, the requirements are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 1310</td>
<td>College Writing I</td>
<td>3</td>
</tr>
<tr>

<td>ENG 3301</td>
<td>Critical Theory and Practice for English Majors</td>
<td>3</td>
</tr>
<tr>
<td>ENG 3389</td>
<td>The Discipline of English</td>
<td>3</td>
</tr>
</tbody>
</table>

Select two of the following:

- ENG 2310 British Literature before 1785
- ENG 2320 British Literature since 1785
- ENG 2330 World Literature before 1600
- ENG 2340 World Literature since 1600
- ENG 2359 US Literature before 1865
- ENG 2360 US Literature since 1865

Select three advanced hours from Group A: 3

Select three advanced hours from Group B: 3

Select three advanced hours from Group C: 3

Select one of the following from Group D:

- ENG 3319 The Development of English
- ENG 4310 Modern English Syntax

**Total Hours** 30

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

Major in Geography

The Bachelor of Science major in Geography emphasizes the physical elements of geographical study. Students are provided with a focused study of the physical, chemical, social, political, and economic factors of water resources from the geographic perspective. As water resources become ever more critical to the nation, and in particular Texas, the Bachelor of Science major in Geography Water Resources is designed to address the increasing need for professionals in this crucial field. Graduates are highly sought after by government agencies, industries that have large water demands, agricultural interests and private consulting firms that specialize in water resource issues. The Bachelor of Science major in Geography Water Resources provides students with advanced knowledge and skills in water resource management. The program includes courses in hydrology, water law, and environmental management. Graduates are prepared for careers in government agencies, commercial companies, and private consulting firms.
Admission Process

Students meeting university admission standards enter the undergraduate Geography program as pre-majors. To become majors, students must complete the following with a grade of "C" or higher in each course:

- **GEO 1309**, **GEO 2410**, or **GEO 1310** Introduction to Cultural Geography
- **GEO 2426** Fundamentals of Geographic Information Systems

Total Hours: 14

Academic Advising

The Department of Geography provides extensive academic advising services which include individual and group advising. All geography majors and minors are encouraged to seek advice about program requirements and course selection each semester. Major faculty and academic advisors can offer detailed program and course information as well as course checklists for each major. Proper academic planning and academic advising leads students toward completing the steps for satisfying graduation requirements.

Bachelor of Arts (B.A.)

- Major in Geography (p. 464)

Bachelor of Science (B.S.)

- Major in Geographic Information Science (p. 465)
- Major in Geography (p. 466)
- Major in Geography (Teacher Certification in Social Studies, Grades 7-12: History Minor and Political Science Third Field) (p. 467)
- Major in Geography (Teacher Certification in Social Studies, Grades 7-12: Political Science Minor and History Third Field) (p. 469)
- Major in Geography Resource and Environmental Studies (p. 471)
- Major in Geography Urban and Regional Planning (p. 472)
- Major in Geography Water Resources (p. 474)
- Major in Physical Geography (p. 475)

Minors

- Geography (p. 478)
- Geology (p. 478)
- Nature and Heritage Tourism (p. 478)

Certificates

- Environmental Interpretation (p. 476)
- Geographic Information Science (p. 477)
- Location Analysis (p. 477)
- Water Resources Policy (p. 477)

Subjects in this department include: GEO (p. 456), GEOL (p. 462), NHT (p. 464)

Courses in Geography (GEO)

**GEO 1105. Meteorology Laboratory.**
Laboratory observations, calculations, and exercises of meteorological data and phenomena. Prerequisite or corequisite: GEO 1305.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: GEOL 1147

**GEO 1305. Meteorology.**
An introduction to atmospheric science providing information on the properties of the atmosphere, the scientific principles that govern weather and climate, and interactions between the atmosphere and the other components of the Earth system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: GEOL 1347

**GEO 1309. Introduction to Cultural Geography.**
This course introduces students to the geographical perspective and focuses on spatial distributions of human activities and investigates underlying geographical processes that account for present and past cultural patterns such as population, folk and popular culture, language, religion, gender, ethnicity, politics, urban and rural land use, and economic development. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1302

**GEO 1310. World Geography.**
This course stresses the similarities and differences of the major world regions. Emphasis is given to human behavior in a spatial context. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080(Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1303

**GEO 2110. Physical Geography Laboratory.**
This is a laboratory course that includes exercises and calculations to apply principles and concepts covered in introductory physical geography lecture classes. These include geographic tools, weather and climate, soils and biogeography, and geomorphology. Open only to students who have taken the lecture class at another college/university. Prerequisites: MATH 1315, MATH 1317, MATH 1319, MATH 1351, MATH 2417, or MATH 2471 with a grade of "C" or higher. Instructor Approval Needed.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

**GEO 2310. Introduction to Environmental Geography.**
Introduces the Geographic perspective to examine the Earth’s environment and its opportunities, constraints, and risks. Principles of scale space, and distributions will be used in examining the environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 2410. Introduction to Physical Geography.
A systematic study of the various elements that make up the Earth's physical environment, weather, climate, vegetation, soil, and landforms. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 2420. Introduction to Geographic Information Techniques.
The course will introduce the foundations of geographic information systems (GIS), global positioning systems (GPS), remote sensing, cartography, data analysis, and other tools and methods used by geographic information scientists. Maps, data collection, using and creating Internet content, and data analysis and display will be topics in the course.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

This course is an introduction to Geographic Information Systems (GIS), a tool for integrating and analyzing spatial data to visualize relationships, seek explanations and develop solutions to pressing problems. The foundations and theory of GIS will be emphasized. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 with a grade of "C" or higher.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 2427. Management and Implementation of GIS.
This course addresses strategies for successful GIS management and implementation in an organization-wide context and is organized around four primary issues: implementation planning, data management, technology assessment, and organizational setting. Prerequisite: GEO 2426 or equivalent.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 3134. Water Quality Monitoring and Management.
This course incorporates the water quality training of Texas Watch so students can receive certification and become Texas Watch water quality monitors. In addition, students learn to compile, analyze, and present water quality data for watershed management. May be repeated once for credit. Corequisite or prerequisite: GEO 3434.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 3301. Research Methods in Geography.
This course provides an introduction to quantitative and qualitative research methodology, data collection and analytical techniques. Topics include descriptive, inferential, spatial quantitative statistics and qualitative methods such as case studies and content analysis. The course will introduce students to software applications that are designed for organizing, analyzing and visualizing data. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3303. Economic Geography.
This course investigates the geographic organization of economic activity with emphasis on the interconnections from global to local scales. Technological advances, resource creation and destruction, supply and demand, distribution and development, environmental impacts, and economic justice are addressed. Theoretical models are used to interpret past and current situations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3305. Climatology.
Introduction to the elements of climate and their use in environmental monitoring and analysis. Prerequisite: GEO 1305 or GEO 2410 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3307. Geography of Europe.
The course presents a systematic and regional investigation of the physical and cultural processes and phenomena that have created the characteristic landscapes of Europe. Topics include the climate, landform regions, trade, transportation, urban growth, population change, and the evolution of economic integration in the region. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3308. Latin America.
A regional survey of the physical and cultural geography of Latin America. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3309. United States and Canada.
This course provides a systematic and regional analysis of the United States and Canada with emphasis on contemporary economic, environmental, political, and social issues. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3310. Urban Geography.
The study of city systems, form, and development with emphasis on functional patterns, economic base, industrial location, service, and social area analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 3313. Natural Resource Use and Management.
This course uses environmental concepts at all geographic scales to identify and analyze patterns and processes of resource use, and discusses management strategies to solve present and future concerns related to natural resources. Prerequisite: GEO 2410 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3320. Community and Regional Planning.
This course examines the practice, history and development of community and regional planning in the U.S. focusing on specific methods and legal frameworks of community planning and cultivating sustainable development.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

An analysis of energy sources, their distribution and characteristics, and the problems associated with their use and management. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 3322. Location Analysis.
Location and movement stressed in terms of the factors considered in locating industry, business, housing, and community facilities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3323. Geography of Texas.
A physical and cultural geography of Texas with special emphasis on human resources and economic activities. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3324. Population Geography.
An in-depth study of the spatial distribution and movement of human populations. The course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections. Prerequisite: MATH 1315, MATH 1317, MATH 1319, MATH 1329, MATH 2321, MATH 2328, MATH 2417, or MATH 2471 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3325. Oceanography.
An introductory course about the physical, chemical, geologic, and biologic characteristics of the oceans and coastal areas. Emphasis will be placed on the role of the oceans as a component of the global environment. Prerequisite: GEO 2410 or GEOL 1410 or BIO 1320 or BIO 1430, with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3329. Geography of North Africa and the Middle East.
A regional treatment dealing with the physical features and cultural activities of the people in North Africa and the Middle East. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3330. Political Geography.
Political geography concerns the interrelationship between political activities and spatial distributions. Topics include the concept of the state, international spheres of influence and confrontation, boundaries, contemporary world issues and problems, and geographic aspects of electoral politics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3331. Geography of Health.
This course introduces concepts of health, health care, disease, and illness from a geographical perspective. The course will examine how people and societies interact geographically with the environment in ways that result in varying degrees of health. The focus will be on understanding health from the perspective of populations rather than individuals in a geographic context.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3332. Geography of South and Southeast Asia.
This course is a systematic and regional overview of the physical and human geography of the countries of the Indian subcontinent and Southeast Asia. Topics include the monsoons, cultural diversity, rapid economic development, agricultural systems, and environmental problems. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

GEO 3333. Geography of China and Japan.
This course provides a regional overview of the physical and human geography of the countries of East Asia. This course also systematically examines China, Korea, and Japan by closely examining such topics as the impacts of high population densities and intensive land use practices. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

GEO 3334. Political Geography.
Political geography concerns the interrelationship between political activities and spatial distributions. Topics include the concept of the state, international spheres of influence and confrontation, boundaries, contemporary world issues and problems, and geographic aspects of electoral politics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A geographical analysis of ethnic groups in the United States with emphasis on their settlement patterns, spatial interactions, and current problems. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter
GEO 3411. Maps and Mapmaking.
An introduction to reference and thematic map use and design. The course introduces basic cartographic mapping techniques for quantitative and qualitative data, teaches about geospatial analysis and interpretation, and enables students to design basic maps. Prerequisite: GEO 2426 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Introduction to the acquisition, mensuration, interpretation, and mapping of aerial photographs and satellite images for environmental monitoring and inventorying. Prerequisite: GEO 2410 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 3425. Geomorphology.
This course in Geomorphology investigates linkages between landscape forms and processes with emphasis on weathering, fluvial, aeolian, karst, and coastal processes. There will be various activities, including fieldwork, where students will demonstrate their grasp on fundamental processes in geomorphology. Prerequisite: GEO 2410 or GEOL 1410 with a grade of “C” or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3426. Advanced GIS.
This course builds on the principles introduced in GEO 2426 and presents an in-depth examination of the technical aspects involved in spatial data handling, analysis, and modeling. Prerequisite: GEO 2426 and GEO 3301 with grades of “C” or higher.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 3434. Water Resources.
This course analyzes within a geographical perspective, the formation, use, conservation, and management of water resources. The students will develop a working knowledge of the hydrologic, water quality, legal, economic, political, and societal factors that determine water availability, hazards, use, demand, and allocation. Prerequisite: GEO 2410, or CHEM 1141 and CHEM 1341, with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4190. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4290. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4306. Geography of the Southwest.
Though primarily defined by aridity, the southwestern United States is extremely diverse in its environments and its people. This course explores how people have related to this land. This course also examines current issues and future trends in natural resources and cultural processes in the region. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Cultural ecology employs concepts of culture formation/change and biological ecology, with emphasis on the processes of adaptation. It provides a holistic means to interpret pre-modern, non-western, and agrarian cultures as well as modern cultures as they relate to their biophysical environment. Prerequisite: Junior or Senior standing. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4310. Regional Field Studies.
Observation, description, and analysis of a geographical environment based upon offcampus study in that environment. May be repeated once, provided the second study is in a different region, for a total of 6 semester hours. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

GEO 4313. Environmental Management.
This course provides an analysis of the causes of environmental problems, from local to global scale, and the evaluation of attempts at management and solutions of those problems. Emphasis will be placed on the role that geography can play in environmental degradation and management. Prerequisite: GEO 2410 with a grade of “C” or higher and senior status. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4314. River Basin Management.
The purpose of this course is to study principles and practices of largescale river basin management. Emphasis is on integrated management of land and water resources, including economic development and environmental protection issues. Prerequisite: GEO 3434 or GEO 4325 with a grade of “C” or higher. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
GEO 4316. Landscape Biogeography.
Investigation of present-day and post-Pleistocene spatial patterns of plants, animals, and biogeographical processes. Human interactions with biogeographical patterns is also addressed, as are methods for reconstructing Holocene patterns of biogeographic distribution. Course to be taught every other year. Prerequisite: GEO 2410 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4321. Cities and Urban Design.
This course explores the relationships between design and urban landscapes. It analyzes urbanization and provides a critical appraisal of the role of design and material culture in shaping urban environments. Prerequisite: GEO 3310 with a "C" or higher and junior or senior status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4322. Interpretive Environmental Geography.
Students learn principles, themes, and techniques for effective interpretation of environmental information to audiences ranging from park visitors to professional conferences. Interpretive themes are drawn from geographic concepts including the physical and cultural landscapes and cultural ecology. Techniques emphasize effective use of traditional and digital presentation methods. Prerequisite: GEO 2410 with a grade of "C" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4323. Conservation Leadership.
This course offers an in-depth introduction to the conservation movement and the philosophy, establishment, and operation of institutions engaged in that movement. Problems and attributes of leadership will be emphasized along with the operational implications, ethical issues and other considerations for successful implementation at non-governmental, local, state, and federal levels. Restricted to Junior or Senior Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4325. Fluvial Processes.
Students analyze modern principles of river processes and forms within a geographical perspective. This course examines the fundamental mechanics of fluvial channels with an emphasis on quantitative geographic evaluation of their processes. The course emphasizes natural scientific perspectives and includes linkages to ecology, engineering, resources management, and policy. Prerequisite: GEO 3325 or GEO 3434 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of Public Parks, Wildlife Refuges, Protected Areas, Non-Governmental Preserves and Historic Sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition. Prerequisite: Junior or Senior status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4328. Geography of the Russian Realm.
This course presents a regional and systematic overview of the physical and human geography of the countries of the former Soviet Union. The course examines in depth issues such as the legacy of the degraded landscape and environmental problems left by decades of Soviet industrialization. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GEO 4334. Groundwater Resources.
This course examines, within a geographical perspective, the major concepts and principles that control groundwater availability and use. Students will analyze aquifer characteristics that determine their water quantity and quality. Constraints on aquifer use including environmental, economic, societal, and legal factors will be analyzed for optimizing aquifer management and water-use policy. Prerequisite: GEO 3434 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4335. Directed Research.
Individual and group research projects at the advanced level that are not offered in the present curriculum. Permission and project approval must be obtained from the faculty member prior to registration. This course may be repeated for credit, but a student may not exceed six hours of credit in Directed Research.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4336. Transportation Systems.
This course is an examination of the evolution of urban transportation systems, policies, institutions, and methods in the United States. Principles, procedures, and techniques of transportation planning in the State of Texas are covered and students are introduced to the literature in transportation geography and methods of transportation analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4338. Planning Practicum.
This capstone course focuses on methods and procedures used for planning and managing urban development on the local level. Topics include municipal ordinances, the development/renovation process and relationships between development, capital improvements and the local economy. Prerequisite: GEO 3320 with a "C" or higher and junior or senior status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4339. Environmental Hazards.
Analysis of environmental hazards with respect to human use of the land. Includes geologic hazards and problems caused by floods and meteorological conditions. Prerequisite: GEO 2410 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 4340. Fundamental Themes in Geography.  
Students will become familiar with the K-12 Geography Texas Essential Knowledge and Skills (TEKS) and the national geography content standards, identify instructional resources and materials, design instructional units, and fully develop grade level appropriate inquiry based lessons and student assessments. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter  

GEO 4341. Water Policy.  
This course covers the evolution of water policy from the awareness of issues, through the political and legal process, to the implementation of specific plans, programs, and facilities. Prerequisite: GEO 3434 with a grade of “C” or higher.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  

GEO 4350. Solid Waste Planning and Management.  
A survey of the methods of solid waste disposal including waste storage, collection, transportation and disposal, and their short-and long-range effects on the environment. A practical course in the planning, implementation, and management of alternate methods of sanitary waste disposal. Prerequisite: GEO 2410 with a grade of “C” or higher.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  

GEO 4352. Air Quality Management.  
This course provides an assessment and analysis of air quality including types, sources, and effects of air pollutants as well as principles governing their dispersal and management. These aspects are analyzed considering physical science, economic, legal and social factors. Prerequisite: CHEM 1141 and CHEM 1341, or GEO 2410, or GEO 3305 with a grade of “C” or higher.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  

GEO 4355. Geography of Crime.  
This course provides understanding of geographical aspects of crime and criminal behavior. Students are exposed to theories and analysis methods and models explaining and predicting crime spatial patterns. Computer exercises give students hands on experience on crime pattern analysis.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  

GEO 4380. Internship in Geography.  
On-the-job training in a public or private-sector agency. Students must apply to the department internship director at least six weeks prior to registering for the internship course. This course may be repeated one time for additional internship credit.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  

GEO 4390. Independent Study.  
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  

GEO 4393A. Environmental Compliance.  
This course examines the implementation and enforcement of environmental statutes and regulations from a geographic perspective that includes physical environmental, cultural, social, economic, and legal parameters. The course focuses on current environmental requirements as applied to contemporary regulatory challenges including widely applicable innovative compliance strategies. Prerequisite: One course from GEO 3321, GEO 4343, GEO 4350, or GEO 4352, all with a grade of “C” or higher.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  

GEO 4393B. Business Geography.  
This course provides an exploration of the geospatial analysis of business activities in the United States with emphasis on site location, market segmentation and material/product tracking.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  

GEO 4393C. Introduction to GeoProgramming.  
This course aims to develop advanced GIS concepts, techniques, analytical skills (e.g. spatial data manipulation), and provide hands-on experience with geoprogramming in GIS software programs. The emphasis will focus on the application of basic programming skills to solve real-world GIS problems. Prerequisite: GEO 3426 with a grade of “C” or higher.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  

GEO 4393D. Geography of Food and Agriculture.  
Critical evaluation of local and global food systems considering the implications of varying forms of production and consumption. Exploration of topics related to sociocultural, economic, and environmental landscape change as well as the role of agriculture in both rural and urban places, and sustainability writ large.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive  
Grade Mode: Standard Letter  

GEO 4411. Advanced Cartographic Design.  
This advanced course in cartography focuses on thematic map design. The objective is to produce a cartographic portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 with a grade of “C” or higher.  
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter
Introduction to the digital image processing of satellite scenes including restoration, enhancement, classification, change detection, and mapping for environmental monitoring and inventorying. Prerequisites: GEO 3301 and GEO 3416 with grades of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

GEO 4417. Digital Terrain Modeling.
The course focuses on the mapping, transformation, mensuration, visualization, and applications of digital elevation models in Geography. Prerequisite: GEO 3416 or equivalent with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4420. Mineralogy.
The study of the crystal systems, physical properties, classification, and hand specimen identification of common rock-forming and ore minerals. Prerequisites: GEO 2410 and GEO 3400 with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4422. Web Mapping.
The course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 4411 or equivalent with a grade of "C" or higher.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4424. GPS and GIS.
Students will learn to plan and conduct fieldwork using Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisites: GEO 4246 and GEO 4311 or GEO 3426 with a minimum grade of "C".
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4427. GIS Design and Implementation.
This course involves students working as a team on a substantive GIS project, which is designed and conducted by the class. Students will develop and demonstrate competence in GIS techniques at the professional level. Prerequisite: GEO 4346 or equivalent with a grade of "C" or higher, Junior or Senior standing, and instructor approval.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4430. Field Methods.
Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. Prerequisites: GEO 2410 and GEO 3301 or equivalents with a grade of "C" or higher. (WI).
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

Courses in Geology (GEOL)

GEOL 1410. Physical Geology.
The study of the materials making up the Earth, the processes that act upon them, and the results of these processes; the development of tools for the interpretation of earth's history and structure, and the major geologic concepts.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: GEOL 1403

GEOL 1420. Historical Geology.
A continuation of physical geology leading to consideration of the geologic history of the Earth (with special emphasis on North America), the evolution of life, the continents through geologic time and the principles and procedures used in the interpretation of earth history. Prerequisite: GEOL 1410.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: GEOL 1404

GEOL 2410. Mineralogy.
Study of the crystal systems, physical properties, classification, and hand specimen identification of common rock-forming and ore minerals. Prerequisites: CHEM 1141, CHEM 1341, GEOL 1410, GEOL 1420, and MATH 1317, MATH 1319, MATH 1329, MATH 2321, MATH 2328, MATH 2417 or MATH 2471; all with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEOL 3400. Petrology.
An introduction to the hand specimen and microscopic study of igneous, sedimentary, and metamorphic rocks. This course includes the origin of mineral assemblages that make up rocks and the environments of formation. Prerequisite: GEOL 2410 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEOL 3410. Sedimentation and Stratigraphy.
Principles of the weathering, transportation, deposition, and lithification of sediments. Primary structures and textures of sediments are used to determine environments of deposition. The recognition and classification of strata into stratigraphic units. Prerequisite: GEOL 2410 completed with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
GEOL 3430. Structural Geology.
Description, classification, and origin of Earth structures and the stresses involved in their formation. Solution of structural geology problems using analytical geometry, geologic maps, contouring of data, and preparation of cross sections. Prerequisites: GEOL 1410, GEOL 1420; MATH 1317, MATH 1319, MATH 1329, MATH 2321, MATH 2328, MATH 2417 or MATH 2471; all with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEOL 4330A. Introduction to Petroleum Geology.
This course discusses the origin and distribution of conventional and unconventional petroleum resources, source rocks, types of traps and seals, reservoir rock properties, exploration methods (seismic data analysis and interpretation, formation evaluation, subsurface mapping), reservoir characterization and modeling, reserves calculations. Prerequisites: GEOL 1410, GEOL 1420, and CHEM 1141/CHEM 1341 with grades of "C" or higher. Co-requisite: GEOL 4121.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330B. Planetary Geology.
This course is a survey of the application of geologic principles to the rocky planets and satellites in the solar system. Prerequisites: GEOL 1410 and GEOL 1420 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEOL 4330C. Survey of Economic Mineral Deposits.
This is a survey of the geology of economic resource derived from the Earth including metals, nonmetals, energy related resources and ground water. Topics include genesis of economic deposits, methods of prospecting, methods of extraction, refining, and environmental impact. Prerequisite: GEOL 2410 with a minimum grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330D. Tectonics and Geology of the USA.
Study of the geology of the USA from the tectonic point of view. The different tectonic processes including continental extension and formation of an ocean, convergence and mountain building, volcanism and seismic activity will be studied and illustrated using mostly examples based on the geology of the USA. Prerequisite: GEOL 1410 and GEOL 1420 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330E. Hydrogeology.
This course will provide the student with an introduction to the science of hydrogeology, a conceptual and quantitative understanding of groundwater from a geological/mathematical/geochemical perspective, and experience with hydrogeology applications. Prerequisites: GEOL 1420 with a grade of "C" or higher, and CHEM 1141 and CHEM 1341.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Courses in Nature and Heritage and Tourism (NHT)

**NHT 4301. Planning and Development of Nature and Heritage Tourism.** This course applies basic planning and development principles to the special issues of nature and heritage tourism. Particular emphasis is placed on locational analysis, site analysis, and planning for sustainable use. Prerequisite: GEO 2410 with a grade of "C" or higher, or permission of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

**NHT 4302. Internship in Nature and Heritage Tourism.** Students will work in private or public sector settings to gain practical experience in the planning, development and management of nature and/or heritage tourism. Internships must be approved by the director of the Center for Nature and Heritage Tourism. Students will be expected to perform at high professional standards and will interpret the internship experience within the context of current literature. Prerequisite: NHT 4301.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours. Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Geography

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 56) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.

4. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Majors must complete at least 30 hours of Geography coursework including a Geography Techniques Course to be selected from: GEO 2426, GEO 3411, GEO 3416, or GEO 4430.

6. Geography required elective courses (16 hours) are to be selected in consultation with your academic advisor.

7. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

8. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

9. Nine semester credit hours of writing intensive (WI) courses are required.

Bachelor of Science (B.S.) Major in Geographic Information Science

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Various minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 TXST GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:

   GEO 1309  Introduction to Cultural Geography
   or GEO 1310  World Geography
   GEO 2410  Introduction to Physical Geography
   GEO 3301  Research Methods in Geography

   GEO 2426  Fundamentals of Geographic Information Systems
   GEO 3411  Maps and Mapmaking
   GEO 3416  Principles of Remote Sensing
   GEO 3426  Advanced GIS

6. Required Geography core courses include the following:

   GEO 4411  Advanced Cartographic Design
   GEO 4412  Digital Remote Sensing
   GEO 4422  Web Mapping
   GEO 4424  GPS and GIS
   GEO 4427  GIS Design and Implementation

7. Required Geography capstone includes at least one course from (3-10 hours) from the following:

   GEO 4410  Management and Implementation of GIS

8. Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

   GEO 1305  Meteorology
   GEO 1309  Introduction to Cultural Geography
   GEO 1310  World Geography
   GEO 2310  Introduction to Environmental Geography
   GEO 2420  Introduction to Geographic Information Techniques
   GEO 2427  Management and Implementation of GIS

9. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

10. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

11. Nine semester credit hours must be writing intensive (WI).

12. This major also requires an additional three hours of computer science or three hours of mathematics beyond the general education core curriculum requirement. (CS 1308 or higher, CIS 1323 or higher, MATH 1317 or higher). Does not count toward 36 required geography hours.

13. Additional requirements include either an additional sophomore English literature course or ENG 3303, and eight hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required).

Bachelor of Science (B.S.) Major in Geography

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.
3. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
4. Geography required elective courses (22 hours) are to be selected in consultation with your academic advisor.
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
7. Nine semester credit hours must be writing intensive (WI).
8. Additional requirements include an additional sophomore English literature course and 14 hours of the same modern language (1410, 1420, 2310, 2320).

Bachelor of Science (B.S.) Major in Geography

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.
3. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
4. Geography required elective courses (22 hours) are to be selected in consultation with your academic advisor.
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
7. Nine semester credit hours must be writing intensive (WI).
8. Additional requirements include an additional sophomore English literature course and 14 hours of the same modern language (1410, 1420, 2310, 2320).
1. All majors must complete GEO 1309, GEO 1310, GEO 2410, GEO 2426, and GEO 3301 with grades of "C" or higher in each course.

**Bachelor of Science (B.S.) Major in Geography (Teacher Certification in Social Studies, Grades 7-12: History Minor and Political Science Third Field)**

**Minimum required: 130 semester credit hours**

**Admission Requirement**
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

**General Requirements**
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA, at least a 2.50 major GPA for Geography, and a 2.50 GPA in the second and third teaching fields. In addition, students must make a “C” or higher in certain Core classes and in all coursework pertaining to each teaching field.
3. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. The minimum number of hours required for this degree program is 130. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 130 total or 36 advanced hours.
5. Nine semester credit hours must be writing intensive (WI).
6. Additional requirements include either an additional sophomore English literature course or ENG 3303 and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required).
7. This degree plan is designed to prepare students for secondary teacher certification in the social studies disciplines: Economics, Geography, Government, and History. The Social Studies Composite Major requires a Geography major, History minor, and Political Science third field requires the following 36 hours of Geography courses:

<table>
<thead>
<tr>
<th>Course</th>

Bachelor of Science (B.S.) Major in Geography Resource and Environmental Studies

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:
   - GEO 1309 Introduction to Cultural Geography 3
   - or GEO 1310 World Geography
   - GEO 2410 Introduction to Physical Geography 4
   - GEO 2426 Fundamentals of Geographic Information Systems 4
   - GEO 3301 Research Methods in Geography 3

6. Required Geography core courses include the following:
   - Select one of the following options: 3-6
     - Option A:
       - GEO 2310 Introduction to Environmental Geography
       & GEO 3313 and Natural Resource Use and Management
     - Option B:
       - GEO 2310 Introduction to Environmental Geography
       or GEO 3313 Natural Resource Use and Management
   - Select at least two of the following:
     - GEO 3321 Energy Resource Management
     - GEO 3434 Water Resources
     - GEO 4350 Solid Waste Planning and Management
     - GEO 4352 Air Quality Management

7. Required Geography capstone is GEO 4313.

8. Required Geography techniques courses include at least one course from the following:
   - GEO 3411 Maps and Mapmaking 4
   - GEO 3416 Principles of Remote Sensing 4
   - GEO 4430 Field Methods 4

9. Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:
   - GEO 1305 Meteorology 3
   - GEO 3134 Water Quality Monitoring and Management 1
   - GEO 3303 Economic Geography 3
   - GEO 3305 Climatology 3
   - GEO 3310 Urban Geography 3
   - GEO 3320 Community and Regional Planning 3
   - GEO 3335 Oceanography 3
   - GEO 3340 Political Geography 3
   - GEO 3349 Population Geography 3
   - GEO 3425 Geomorphology 4
   - GEO 3426 Advanced GIS 4
   - GEO 4309 Cultural Ecology 3
   - GEO 4310 Regional Field Studies 3
   - GEO 4314 River Basin Management 3
   - GEO 4316 Landscape Biogeography 3
   - GEO 4322 Interpretive Environmental Geography 3
   - GEO 4325 Fluvial Processes 3
   - GEO 4326 Parks and Protected Places 3
   - GEO 4334 Groundwater Resources 3
   - GEO 4339 Environmental Hazards 3
   - GEO 4341 Water Policy 3
   - GEO 4380 Internship in Geography 3
   - GEO 4412 Digital Remote Sensing 4

Students may select one regional course as a Geography Elective from the following:
   - GEO 3307 Geography of Europe
   - GEO 3308 Latin America
   - GEO 3309 United States and Canada
   - GEO 3328 Geography of North Africa and the Middle East
   - GEO 3329 Geography of Texas
   - GEO 3332 Geography of South and Southeast Asia
   - GEO 3333 Geography of China and Japan
   - GEO 4306 Geography of the Southwest
   - GEO 4328 Geography of the Russian Realm

10. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

11. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

12. Nine semester credit hours must be writing intensive (WI).

13. This major also requires an additional three hours of computer science or three hours of mathematics beyond the general education core curriculum requirement. (CS 1308 or higher, CIS 1323 or...
higher, MATH 1317 or higher). Does not count toward 36 required geography hours.

14. Additional requirements include either an additional sophomore English literature course or ENG 3303, and eight hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required).

### Bachelor of Science (B.S.) Major in Geography Urban and Regional Planning

**Minimum required: 120 semester credit hours**

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Students interested in entering the professional planning field are strongly advised to consider a minor in Public Administration, Business Administration, or Construction Science and Management. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:

- GEO 1309 or GEO 3310: Introduction to Cultural Geography or World Geography
- GEO 2410: Introduction to Physical Geography
- GEO 2426: Fundamentals of Geographic Information Systems
- GEO 3301: Research Methods in Geography

6. Required Geography core courses include the following:

- GEO 3310: Urban Geography
- GEO 3320: Community and Regional Planning

Total Hours: 120
7. Required Geography techniques courses include at least one course from the following: Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3411 Maps and Mapmaking</td>
<td></td>
</tr>
<tr>
<td>GEO 3416 Principles of Remote Sensing</td>
<td></td>
</tr>
<tr>
<td>GEO 3426 Advanced GIS</td>
<td></td>
</tr>
<tr>
<td>GEO 4380 Internship in Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 4430 Field Methods</td>
<td></td>
</tr>
</tbody>
</table>

8. This major also requires an additional three hours of ENG 3303 with a grade of “C” or higher (does not count toward the required Geography hours).

9. Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3303 Economic Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3313 Natural Resource Use and Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3321 Energy Resource Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3323 Location Analysis</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3340 Political Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3349 Population Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3353 American Ethnic Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3426 Advanced GIS</td>
<td>4</td>
</tr>
<tr>
<td>GEO 3434 Water Resources</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4310 Regional Field Studies</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4313 Environmental Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4314 River Basin Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4326 Parks and Protected Places</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4336 Transportation Systems</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4339 Environmental Hazards</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4341 Water Policy</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4350 Solid Waste Planning and Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4380 Internship in Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4430 Field Methods</td>
<td>4</td>
</tr>
</tbody>
</table>

Select a maximum of 3 credit hours from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 1305 Meteorology</td>
<td></td>
</tr>
<tr>
<td>GEO 1309 Introduction to Cultural Geography</td>
<td></td>
</tr>
<tr>

Bachelor of Science (B.S.) Major in Geography Water Resources

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors) offered at Texas State. Various minors may be appropriate depending upon your interests and career goals. Biology, Chemistry, Geology, Political Science, Anthropology, Business Administration, Plant and Soil Science, or Nature and Heritage Tourism are highly recommended. Discuss other possible options with your academic advisor.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:
   GEO 1309  Introduction to Cultural Geography  3
   or GEO 1310  World Geography

   GEO 2410  Introduction to Physical Geography  4
   GEO 2426  Fundamentals of Geographic Information Systems  4
   GEO 3301  Research Methods in Geography  3

6. Required Geography core courses include the following:
   GEO 3305  Climatology  3
   GEO 3434  Water Resources  4
   GEO 4314  River Basin Management  3
   GEO 4325  Fluvial Processes  3
   GEO 4334  Groundwater Resources  3
   or GEOL 4421  Hydrogeology
   GEO 4341  Water Policy  3

7. Required Geography techniques courses include at least one course from the following:
   GEO 3411  Maps and Mapmaking  4
   GEO 3416  Principles of Remote Sensing  4
   GEO 4430  Field Methods  4

8. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

9. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Total Hours: 120
Certificate in Environmental Interpretation

The Environmental Interpretation Certificate provides the recipient with a relevant background in environmental interpretation to prepare students to work as interpretive guides in park and other tourism venues and work in the professional areas of public information/education in resource management agencies.

Applicants to the Environmental Interpretation Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for the Certificate (16 hours) - Students must complete the following with no grade less than a "C" and an overall average for the five classes of at least a 2.5.

GEO 2410 Introduction to Physical Geography 4
GEO 4322 Interpretive Environmental Geography 3
Select nine hours from the following:

</tbody>
</table>

Total Hours: 16

Certificate in Geographic Information Science

The Geographic Information Science Certificate provides the recipient with a working knowledge of Geographic Information Science (GISci) in sufficient detail that they are prepared for professional positions involving the theoretical and applied aspects of implementing and administering a Geographic Information Science.

To the prospective employer, the certificate is a professional endorsement that the recipient has received five university level courses on issues fundamental to the design, implementation, and management of Geographic Information Science. A formal certificate issued by the Texas State's College of Liberal Arts and a statement on the recipient’s Texas State transcript recognize successful completion of the program.

Applicants to the Geographic Information Science Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for the Certificate (19-20 hours) - Student must complete the following with no grade less than a “C” and an overall average for the five classes of at least a 2.5.

For additional information and application process, discuss with an academic advisor or refer to http://www.geo.txstate.edu/degrees-programs/certificates.html.

Certificate in Location Analysis

The Location Analysis Certificate provides the recipient with a focused background to work as location analysis in the public and private sectors. Such persons analyze spatial data to identify and optimize locations for business and public activities. A formal certificate issued by the Texas State’s College of Liberal Arts and a statement on the recipient’s Texas State transcript recognize successful completion of the program.

Applicants to the Location Analysis Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for Certificate (16-17 hours) - Students must complete the following with no grade less than a “C” and an overall average for the five classes of at least a 2.5.

Total Hours: 16-17

Certificate in Water Resources Policy

The Water Resources Policy Certificate provides the recipient with a working knowledge of water resources in sufficient detail that they are prepared for professional positions involving water resources management and policy. To the prospective employer, the certificate is a professional endorsement that the recipient has received four university level courses on issues fundamental to water resources management and policy. A formal certificate issued by the Texas State’s College of Liberal Arts and a statement on the recipient’s Texas State transcript recognize successful completion of the program.

Applicants to the Water Resources Policy Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for Certificate (16-17 hours) - Student must complete the following with no grade less than a “C” and an overall average for the five classes of at least a 2.5.

**Minor in Geography**

The minor in Geography requires 19 semester credit hours. Texas State Geography offers a wide range of content courses that can provide distinct career preparation and competitive advantages to many majors. Students pursuing a Geography minor may choose to focus their studies in these areas: Urban Planning and Land Development; Water Studies; Geographic Information Science; Regional International Studies; Physical Geography/Earth Science; Environmental Resource Management; or Cultural Geography and Demographics. Minors are encouraged to consult with a Geography Department Academic Advisor to select courses to design the Geography minor.

**Minor in Geology**

The minor in Geology requires 19 semester credit hours. Geology is the science and study of the solid matter of the Earth, its composition, structure, physical properties, history, and the processes that shape it. A geology minor is an ideal complement to a number of majors in the natural, social, and applied sciences.

Academic Advising

The Department of History provides extensive academic advising services which include both group and individual advising. Through these sessions, the academic advisor can offer detailed program and course information which can help students successfully complete their graduation requirements in a timely manner. Because of this, all History majors are encouraged to seek advice about program requirements and course selection each semester. To schedule an appointment, please contact the History Department Office.

HIST 4350L. History of Southeast Asia.
Southeast Asia today includes eleven countries: Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar (Burma), Philippines, Singapore, Thailand, East Timor, and Vietnam. This course will explore the region from its earliest origins through the periods of European colonialism, nationalism, revolution, and the transformation of old societies into new nations. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350N. The 20th Century Middle East: Syria, Iraq, and Palestine.
This upper-division course considers three of the nation-states under League of Nations mandates at the beginning of the twentieth century: Syria, Iraq, and Palestine. Students read a general history of the region in support of additional readings that offer in-depth discussion of specific issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350O. History of Indochina.
This course explores the themes of diffusion, acculturation, hybridity, accommodation, and resistance in the history of Mainland Southeast Asia (also known as Indochina). The region, which has been the site of significant interaction with the larger world since ancient times, consists of Thailand, Cambodia, Laos, Vietnam, peninsular Malaysia, and Singapore. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350P. European Colonial.
This readings course explores the development of worldwide colonial systems since the fifteenth century. Emphasis will be given to how native peoples responded to European attempts to introduce economic, political, and cultural prerogatives in a variety of world settings such as South and Southeast Asia and North and South America.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

HIST 4350Q. Pirates of the Mediterranean.
This course explores the history and culture of smugglers in the eighteenth-century Mediterranean, and the challenges they posed for states’ interests in the region. Emphasis is placed on eighteenth-century US diplomatic relations with the Barbary states. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350R. Workers and Work in the Arab World.
Of 255 million people in 22 predominantly-Arab countries in North Africa and the Middle East, over the past 150 years, most have worked at some kind of job or another. In this course we will consider how labor politics introduce state regulations to gender, national and sexual identities. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350S. Piracy Through the Ages.
An activity based on greed, and sometimes survival, piracy has existed since humans took to the seas. This course investigates the global history of piracy beginning with the Vikings. The history of piracy in the Caribbean, Asia, and the Mediterranean will be covered and compared to the piracy of today. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics|Writing
Grade Mode: Standard Letter

HIST 4350U. Slaveries: Past and Present.
This course explores the significance of slavery in American history from the colonial period to today, from the emergence of racial slavery in the 17th century to human trafficking now. We will read the works of historians, journalists, and activists, as well as personal narratives of enslaved peoples. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter

HIST 4350V. History of Pakistan.
This course is an introduction to the history and culture of Pakistan. Broadly covering the 5000 year history of the region, from origins, the introduction of Islam and creation of the modern state, the course focuses on the cultural developments of the region, along with highlights of major political developments. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
HIST 4350W. The Great War.
This course will cover the history of the First World War. Co-taught, the class will examine the following topics: diplomatic origins, course of the war on the battlefield, changes in military technology, effect of Total War on the home front, propaganda, and legacy. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350X. Peace and Nonviolence Movements.
This course explores the origins, development, and impact of peace and nonviolence movements globally. It will examine the roles that religion, class, gender, race, ethnicity, and nationalism have played in shaping social and political perceptions of injustice and public attitudes toward movement goals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350Y. Development of Secularism in Ottoman Empire and Modern Turkey.
The emergence of Turkey as a secular state is a peculiar example among the countries with predominantly Muslim populations. This course aims to provide students with an historical survey of the secularization of the Ottoman state and the development that led to the emergence of modern Turkey.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

A study of the interplay of economic, social, political, and cultural forces that shaped American society from the end of World War II to the presidential election of 1968. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A study of the interplay of economic, social, political and cultural forces that have shaped American society from 1968 to the present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4363. Riddles of the Civil War.
This course examines many unanswered questions or "riddles" of the American Civil War. Topics include, "Why Lincoln Chose to Invade," "Jomini, the Generals: Strategy and Tactics," "Lincoln, the Constitution and the War," "Interior lines: Strategic Casual Availability," etc. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A specialized study of the military problems of the United States since 1789 and their impact upon non-military problems. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4365. Early American History: The Revolutionary Period, 1763-1789.
A history of the American people during the age of the American Revolution, from the beginning of the crisis with Britain to the adoption of the Constitution. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4366. Antebellum America.
A survey of conflicting American attitudes about the desirability of a strong central government, rapid economic growth, aggressive national expansion, and human slavery in a democratic society. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4367. Introduction to Ethnohistory.
This course familiarizes students with the ethnohistorical method, a multidisciplinary approach to the study of the historical, social, and cultural processes undergone by indigenous peoples before, during, and after contact with nation-states. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4369. Introduction to American Indian History.
This course promotes understanding of the role played by the native peoples of North America in the history of the United States. Among the subjects to be covered through lectures and discussions: initial migrations and cultural development; impact of European conquest; adaptation; removal and reservation life; 20th century adjustments. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

A survey of the political, economic, and social-cultural role of the Mexican-American in United States from the era of Spanish colonization to the present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
HIST 4373. Economic and Social History of the Americas.
Comparative history of the Americas with special attention to the United States, Canada, and Mexico. Explores different patterns of economic growth and their impact on societies and international relations. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4375A. Critical Issues in Texas History.
Emphasis will be on significant critical issues in Texas history. Topics will include: Mexican independence, Texas and U.S. expansion, the Texas Revolution and the Mexican War, the Civil War and Reconstruction, Spindletop, the Depression and WWII, and the rise of urban, high-tech Texas. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4375B. African-American Experience in Texas.
People of African ancestry have played a role in Texas history since Estebanico accompanied Cabeza de Vaca in exploring the region in the 1530s. As slaves, soldiers, and cowboys, Afro-Texans have participated in the state's development while being at the center of controversies regarding rights, racemixing and economic opportunity. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4376. The History of Texas Music.
Examination of the evolution of music in Texas and the American Southwest, emphasizing how music reflects the richly diverse ethnic and cultural heritage of the region. It also considers the importance of ethnic identity and other social, political, and economic factors in shaping the Southwest, its people, and its music. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4380. Historical Resources and Practices.
This course is required for students seeking teacher certification in History. This course is an introductory methods course designed to familiarize students with general historical practice and its application in secondary teaching. Prerequisite: Departmental approval required. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4388. Problems in History.
This is an independent study course open to advanced students on an individual basis. Repeatable for credit with different emphasis. Prerequisite: Approval of the Department Chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4390. History Practicum.
Researching, Writing, and Publishing Local History. This course will involve students in researching, writing, and publishing short historical guidebooks to sites/areas such as San Marcos, San Antonio, Fredericksburg, etc. Using desk-top publishing techniques, which are to be taught, the short (24-48 pages) guidebooks will be produced and marketed by the class. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4399. Senior Seminar.
This course is required for History majors not seeking teaching certification. In this course students refine skills and techniques essential to the historical profession. Students analyze primary and secondary sources, apply methods, and write a term paper. Prerequisite: 24 semester credit hours in History with a grade point average of at least 2.25 in those hours. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in History
Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).
4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. This major requires 33 semester credit hours including the following History courses:

Bachelor of Arts (B.A.) Major in History (Single Field Teacher Certification in History, Grades 7-12)

Minimum required: 129 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).
4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. This major is designed to prepare majors for secondary teacher certification in History.

1 In choosing advanced History electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and three courses from any Group as long as no more than three courses are taken from any one group. (See Group lists below). Course allowable for credit in more than one group.  Such courses may not be taken to satisfy more than one group.

7. This major requires 33 semester credit hours including the following History courses:
   - HIST 1310 History of the United States to 1877 | 3
   - HIST 1320 History of the United States, 1877 to Date | 3
   - HIST 2311 History of World Civilization to the 17th Century | 3
   - HIST 2312 History of World Civilization from the 17th Century | 3
   - HIST 3372 Texas History: A Survey | 3
   - HIST 4380 Historical Resources and Practices | 3
   Advanced History electives | 3
   Total Hours | 33

8. The minimum number of hours required for this degree program is 129. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 129 total or 36 advanced hours.
9. In addition to the teaching field, students must also complete 21 hours of professional sequence courses under the College of Education. Students must maintain a 2.5 GPA in the teaching field. All coursework must be completed prior to EDST 4681.

Total Hours: 130

1. Must be completed with a grade of "C" or higher.
2. Must be completed with a grade of "B" or higher. If the grade is lower than a "B", then an interview will need to be scheduled with the Office of Educator Preparation (OEP)
In choosing advanced History electives, students are required to complete one advanced course from Group A (World History), one advanced course from Group B (European History), one advanced course from Group C (U.S. History), and one advanced course from either Group A or B.

### Bachelor of Arts (B.A.) Major in History (Teacher Certification in Social Studies, Grades 7-12: Political Science Minor and Geography Third Field)

#### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. This degree plan is designed to prepare students for secondary teacher certification in the social studies disciplines: Economics, Geography, Government, and History. The Social Studies Composite with a History major, Political Science minor, and Geography third field requires the following 30 hours of History courses:

Bachelor of Arts (B.A.) Major in History (Two Fields Teacher Certification in History)

Minimum required: 129 semester credit hours

Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. This major is designed to prepare majors for secondary teacher certification in History and a second teaching field. Majors must complete all requirements associated with an approved second teaching field.

7. This major requires 33 History hours including the following History courses:

**Department of Modern Languages**

Centennial Hall Room 214  
Telephone: 512-245-2360 Fax: 512-245-8298  
www.modlang.txstate.edu (http://www.modlang.txstate.edu)

The Department of Modern Languages offers courses in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, and Spanish. Instruction focuses on the acquisition of proficiency in the foreign language and on the development of knowledge of the culture, traditions, and literature of the speakers of the language. The department also offers a number of study abroad opportunities. Majors in French, German, or Spanish complete 24 hours of upper division coursework and may simultaneously earn teacher certification. Minors in French, German, or Spanish complete 15 hours of upper division coursework. Minors in Japanese complete 12 hours of upper division coursework.

People proficient in a second language have always been in demand in both the public and private sectors. They facilitate communication among people and nations and make possible the free interchange of information and ideas. Career opportunities abound in such diverse fields as international business, international law, foreign affairs, translation, interpretation, politics, publishing, and teaching.

**B.A. Modern Language Requirement**

Students seeking a B.A. degree are required to successfully complete an intermediate proficiency level in a modern language of their choice. Students with limited language background may need to complete the first year of the language (1410 and 1420) before beginning the intermediate level. (Contact the Department of Modern Languages for information concerning placement exams for beginning and intermediate language coursework.) Students can choose 6 hours from:

- ASL 2310 & ASL 2320 Intermediate American Sign Language I and Intermediate American Sign Language II
- ARAB 2310 & ARAB 2320 Intermediate Arabic I and Intermediate Arabic II
- CHI 2310 & CHI 2320 Intermediate Chinese I and Intermediate Chinese II
- GER 2310 & GER 2320 Intermediate German I and Intermediate German II
Bachelor of Arts (B.A.)

- Major in French (p. 520)
- Major in German (p. 522)
- Major in Spanish (p. 526)

Minors

- French (p. 526)
- German (p. 526)
- Japanese (p. 526)
- Spanish (p. 526)

Courses in American Sign Language (ASL)

ASL 1410. Beginning American Sign Language I.
Introduction to understanding and using American Sign Language within the cultural framework of the deaf community. Students who take ASL 1410 toward degree requirements must also complete ASL 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
TCCN: SGNL 2301

ASL 2310. Intermediate American Sign Language I.
Continued development and review of American Sign Language within the cultural framework of the deaf community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: SGNL 2302

ASL 2320. Intermediate American Sign Language II.
More advanced practice in American Sign Language within the cultural framework of the deaf community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: SGNL 2302

Courses in Arabic (ARAB)

Note: Arabic courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

ARAB 1410. Beginning Arabic I.
Introduction to listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 1411

ARAB 1420. Beginning Arabic II.
Continued practice in listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 1412

ARAB 2310. Intermediate Arabic I.
Continued development and review of all language skills within an Arabic cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 2311

ARAB 2320. Intermediate Arabic II.
More advanced practice in all language skills with greater emphasis on reading within an Arabic cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 2312

Minors

- French (p. 526)
- German (p. 526)
- Japanese (p. 526)
- Spanish (p. 526)

Subjects in this department include: ASL (p. 511), ARAB (p. 511), CHI (p. 512), FR (p. 512), GER (p. 514), ITAL (p. 515), JAPA (p. 516), LAT (p. 516), LING (p. 517), POR (p. 517), SPAN (p. 517).
ARAB 3301. Levantine Arabic.
An introduction to Arab dialects with a focus on Levantine Arabic (Jordan, Syria, Lebanon, and Palestinian territories). The course will emphasize oral communication and using the dialect correctly in its cultural context. It will also compare Levantine Arabic to Modern Standard Arabic. Repeatable once with different content.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARAB 3302. Media Arabic.
Introduction to Arab media designed to advance students' proficiency in Arabic. It will present cultural characteristics of Arab media and describe how those characteristics differ from those of US media. The course will increase students' vocabulary knowledge and enable them to understand various Arab media sources. Repeatable once with different content.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Chinese (CHI)

Note: Chinese courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

CHI 1410. Beginning Chinese I.
Introduction to listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
TCCN: CHIN 1411

CHI 1420. Beginning Chinese II.
Continued practice in listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
TCCN: CHIN 1412

CHI 2310. Intermediate Chinese I.
Continued development and review of all language skills within a Chinese cultural framework.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHIN 2311

CHI 2320. Intermediate Chinese II.
More advanced practice in all language skills with greater emphasis on reading within a Chinese cultural framework.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHIN 2312

CHI 3301. Conversational Chinese.
This course is designed to improve oral communication skills in Chinese using current video and text media. The course will include the development of vocabulary and grammar necessary for communication and will focus on selected cultural themes. Students' group video projects will be posted on a course blog.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Students will conduct an independent study project in Chinese language or culture. Prerequisite: Approval by the Department Chair is required.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in French (FR)

FR 1410. Beginning French I.
Introduction to listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT).
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 1411

FR 1420. Beginning French II.
Continued practice in listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT).
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 1412

FR 2310. Intermediate French I.
Continued development and review of all language skills within a French cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 2311

FR 2320. Intermediate French II.
More advanced practice in all language skills with greater emphasis on reading within a French cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 2312

FR 3305. Acting French.
An introduction to upper division courses in French designed to strengthen reading skills and oral command of the language through the study and performance of short French plays from the classical to the contemporary period. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
FR 3306. Masterpieces of French Literature.
Masterpieces of French literature in various genres from different periods with emphasis on the modern period. Repeatable for credit with different emphasis. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 3310. French Pronunciation and Intonation.
Study and intensive practice of problems in French pronunciation and intonation. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 3341. Advanced Grammar in French.
A study of more advanced grammatical, syntactical, and stylistic problems in mastering the French language with the aim of strengthening students' command of the structure of French and developing skills for more effective writing. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course introduces students to the history of French Cinema from the medium's origins in 1895 to the late 1950s. Students will learn about major developments in film narrative and technology in France from the silent to the classic eras. May be repeated for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This course introduces students to the history of French Cinema from the late 1950s to the present. Students will learn about major developments in film narrative and technology in France from the New Wave to the New New Wave cinemas. May be repeated for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

FR 3381. Business French I.
A course designed for students interested in business related careers. The course will help students to become familiar with basic French business language and the specifics of Francophone business cultures. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 3382. Business French II.
A case study-based course that uses a simulation approach to problem-solving in a French business environment. The course objective is the development of an understanding of French practices, and the way they differ from American ones, through the analysis of contextualized situations in marketing and management. Prerequisite: FR 3381 or consent of the instructor. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 4304A. French Translation.
This course offers a practical introduction to translation from French to English including the translation process, translation skills, techniques and strategies, quality control, translation tools and resources, computer-assisted translation devices, translator certification, and career opportunities. The course will focus on business, technical, legal, financial, scientific, audiovisual, and literary texts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4304B. French Genre Fiction.
This course focuses on the study of specific fictional works associated with a particular genre (e.g., crime fiction, the fantastic, and science-fiction) and the authors who are exemplars of that narrative category. Prerequisite: FR 2320 with a grade of "C" or higher. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4341. French Composition and Stylistics.
Students will incorporate their more advanced grammatical and syntactical skills with the study of style in the writing of compositions in French. Writing exercises will explore a variety of expository techniques from description, narration, dialogue, portraits, to the writing of letters. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

FR 4350A. French Poetic Realist Cinema.
This course will study the films and directors associated with Poetic Realism, the film style of the 1930s in France and an important precursor to Italian Neorealism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
A survey of the cultural institutions of France designed to provide a background for a better understanding of the French people, encompassing the development of French culture and the forces that have shaped modern France. Recent essays, films, and comparative analyses of French-American relations will be presented. Repeatable for credit with different emphasis. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 4390. Studies in French Culture, Language, or Literature.
A course designed to offer students an opportunity to pursue independent studies in special areas of interest beyond those of other catalog courses. The course is generally available only to graduating seniors who have completed at least two advanced courses or graduate students with special needs. Approval by the Chair of the Department of Modern Languages is required to enroll. Applications must be submitted prior to the registration period each semester. May be repeated once for additional credit. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

Courses in German (GER)

GER 1410. Beginning German I.
Introduction to listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: GERM 1411

GER 1420. Beginning German II.
Continued practice in listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: GERM 1412

GER 2310. Intermediate German I.
Continued development and review of all language skills within a German cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 2311

GER 2320. Intermediate German II.
More advanced practice in all language skills with greater emphasis on reading within a German cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 2312

GER 3304A. German Cinema.
This course explores German film, history, and theory. Emphasis is placed on the interrelation of German and American uses of the medium. The course includes classic style (1910s), German Expressionism (1920s), cinema of Nazi Propaganda (1940s), the period of reconstruction (1950s), and the German New, and New New Waves.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

GER 3304B. German Colonialism, Orientalism, and Exoticism in Film and Literature.
This course surveys German colonial narratives and theories from the 19th and the mid-20th century. The course examines how critics today interpret the political and aesthetic tropes around which texts are organized, focusing on how these "colonial fantasies" emphasized national differences between German and other European powers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

GER 3304C. The Many Faces of Weimar Cinema: German Expressionist Films.
The course provides an overview of the changing roles of German cinema in the early 20th century.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GER 3304D. German Translation.
In this course, students approach translation as a method of improving their reading ability in German, not only through language, but also in terms of cultural competence in dealing with texts from the German-speaking world.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GER 3305. German on the Stage.
An introduction to upper division courses in German designed to strengthen reading skills and oral command of the language through the study and performance of short German-language plays from the classical to the contemporary period. May be repeated for credit twice with different topics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Grade Mode: Standard Letter
TCCN: JAPN 2311

JAPA 2320. Intermediate Japanese II.
Advanced practice in all language skills in a Japanese cultural framework. Prerequisite: JAPA 2310 or consent of instructor. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: JAPN 2312

JAPA 3304. Advanced Conversation and Grammar.
A course designed to strengthen oral and written command of the language. Collateral readings and reports in Japanese. May be repeated once with different emphasis for additional credit. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Multicultural Content
Grade Mode: Standard Letter

JAPA 3306. Modern Japanese Literature and Culture.
Students will analyze Japanese literature and culture while developing their proficiency in Japanese, increasing their vocabulary in the language, and extending their knowledge of critical kanji necessary for understanding the written language.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

JAPA 3307. Advanced Japanese Writing and Grammar.
A writing intensive course designed to strengthen students’ knowledge of the structure of Japanese and written command of the language. May be repeated once with different emphasis for additional credit. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Multicultural Content Writing Intensive
Grade Mode: Standard Letter

JAPA 3308. Advanced Japanese for Business.
An advanced course designed to develop the skills needed to succeed in the complex business world of Japan. May be repeated once with different emphasis for additional credit. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Multicultural Content
Grade Mode: Standard Letter

Students will conduct an independent study project in Japanese language or culture. The course is recommended for students in their last year who have already completed at least one advanced course. Approval by the Department Chair is required.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Latin (LAT)
Note: Latin courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

LAT 1410. Beginning Latin I.
Introduction to reading and writing skills in Latin with a Latin cultural framework. Students who take LAT 1410 toward degree requirements must also complete LAT 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

LAT 1420. Beginning Latin II.
Continued practice in reading and writing skills in Latin within a Latin cultural framework. Students who take LAT 1410 toward degree requirements must also complete LAT 1420.
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
LAT 2310. Intermediate Latin.
Introduction to complex grammatical structures and syntax of Latin.
Focus on the application of the rules of grammar and syntax to the
translation of original classical texts. Some attention given to the diction
and written styles of individual authors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Continued acquisition of complex grammatical structures and syntax.
Introduction to reading Latin poetry. Some attention given to meter and
scansion as needed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Applied Linguistics and
Language Learning (LING)

LING 4307. Foreign Language Acquisition.
An introduction to the nature of language development and to the
theories that describe foreign language acquisition and development.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

LING 4390. Independent Study in Applied Linguistics and Language
Learning.
This course is generally open only to students with special needs.
Students select a topic in line with their special interests and
requirements. May be repeated once with different topic for additional
credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Portuguese (POR)

Note: Portuguese courses are taught by extension. For additional
information please contact the Offi of Correspondence and Extension
Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/.

POR 1410. Beginning Portuguese I.
Introduction to listening, speaking, reading, and writing skills within a
Brazilian cultural framework. Students who take POR 1410 toward degree
requirements must also complete POR 1420. (MULT).
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PORT 1411

POR 1420. Beginning Portuguese II.
Continued practice in listening, speaking, reading, and writing skills within
a Portuguese cultural framework. Students who take POR 1410 toward degree
requirements must also complete POR 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PORT 1412

POR 2310. Intermediate Portuguese I.
Continued development and review of all language skills within a
Portuguese cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PORT 2311

POR 2320. Intermediate Portuguese II.
More advanced practice in all language skills with greater emphasis on
reading with a Portuguese cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PORT 2312

POR 3308. Advanced Composition and Conversation through the
Brazilian Short Story.
This course will help students advance their knowledge of the Portuguese
language through the reading, discussion, and analysis of modern and
contemporary Brazilian short stories. By reading the works of renowned
writers students will be able to expand their vocabulary and develop
fluent reading and writing skills. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

Courses in Spanish (SPAN)

SPAN 1410. Beginning Spanish I.
Introduction to listening, speaking, reading, and writing skills within
a Spanish cultural framework. Students who take SPAN 1410 toward degree
requirements must also complete SPAN 1420. (MULT).
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SPAN 1411

SPAN 1420. Beginning Spanish II.
Continued practice in listening, speaking, reading, and writing skills within
a Spanish cultural framework. Prerequisite: a grade of "C" or higher in
SPAN 1410. Students who take SPAN 1410 toward degree requirements
must also complete SPAN 1420. (MULT).
4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SPAN 1412

SPAN 2310. Intermediate Spanish I.
Continued development and review of all language skills within a Spanish
framework. Prerequisite: a grade of "C" or higher in SPAN 1420. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SPAN 2311
SPAN 2320. Intermediate Spanish II.
More advanced practice in all language skills with greater emphasis on reading within a Spanish cultural framework. Prerequisite: a grade of "C" or higher in SPAN 2310. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SPAN 2312

SPAN 3301. Literatures of Spain I.
Students will study significant literary texts of the Iberian Peninsula from the Muslim conquest in 711 A.D. through 1700. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3302. Literatures of Spain II.
Students will study significant literary texts of the Iberian Peninsula from the Enlightenment through the twenty-first century. The course will also consider the literature's historical, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3305. Latin American Literatures I.
Students will study literary texts in Latin American from the period before the Conquest through the Colonial and Independence periods. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3306. Latin American Literatures II.
Students will study literary texts of Latin American from Modernismo to the twenty-first century. The course will also consider the literature's historical, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3308. Advanced Composition.
A course designed to improve writing skills in Spanish through the reading of texts in Spanish. Prerequisite: a grade of "C" or higher in SPAN 2320. (WJ).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SPAN 3309. Introduction to Hispanic Literature and Literary Analysis.
This course focuses on writing skills, literary analysis, and the reading of selected works from Spanish, Latin American and Hispanic literature. Prerequisite: a grade of "C" or higher in SPAN 2320. Corequisite: SPAN 3308 or equivalent. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3310. Spanish Phonetics and Phonemics.
Articulatory phonetics and sound discrimination and production; phonemic and allophonic variants; geographical and social distribution. Prerequisite: a grade of "C" or higher in SPAN 3308. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3311. Business Spanish I.
This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include marketing, financing, and imports/exports. Prerequisites: SPAN 3308 with a grade of "C" or higher. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3312. Business Spanish II.
This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include marketing, financing, and imports/exports. Prerequisite: SPAN 3308 with a grade of "C" or higher. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3340. Advanced Spanish Grammar and Stylistics.
This course places major emphasis on syntax, usage, and grammatical nomenclature. Prerequisite: a grade of "C" or higher in SPAN 3308. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3370. Spanish Civilization.
Students will study the civilizations and cultures of Spain. The course provides a background for understanding Spanish society. Prerequisite: SPAN 3308 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
SPAN 3371. Latin American Civilization.
Students will study the cultures of Latin America and the Hispanic U.S. The course provides a background of the history and civilization of both groups. Prerequisite: SPAN 3308 with a grade of "C" or higher. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4300. Professional Internship in Spanish.
This course is a supervised work experience in a Spanish-speaking environment. Students will work a minimum of 140 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. Approval of course instructor required. Prerequisites: SPAN 3308 with a grade of "C" or better.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content

This course is a supervised work experience in a Spanish-speaking environment. Students will work a minimum of 280 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. (MULT) Prerequisite: SPAN 3308 with a grade of "C" or better.
6 Credit Hours. 0 Lecture Contact Hours. 18 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in French

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. Students in the Bachelor of Arts (B.A.) degree with a major in French must complete 24 advanced hours in French and maintain a GPA of at least 2.50 in all advanced French course work to meet graduation requirements.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
### Bachelor of Arts (B.A.) Major in French (Teacher Certification in French, Early Childhood Through Grade 12)

**Minimum required: 123 semester credit hours**

#### Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

#### General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Students in the Bachelor of Arts (B.A.) degree with a major in French must complete 24 advanced hours in French and maintain a GPA of at least a 2.50 in all advanced French course work to meet graduation requirements.
7. An Overall GPA of 2.75 is required for graduation with teacher certification.
8. In addition to the major and minor requirements, students must also complete 21 hours of professional sequence courses under the College of Education. Students must maintain a 2.5 GPA in the teaching field. All coursework must be completed prior to EDST 4380 and EDST 4381.

Total Hours: 123
Bachelor of Arts (B.A.) Major in German (Teacher Certification in German, Early Childhood Through Grade 12)

Minimum required: 123 semester credit hours

Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. Students in the Bachelor of Arts (B.A.) degree with a major in German must complete 24 advanced hours in German and maintain a GPA of at least a 2.50 in all advanced German course work to meet graduation requirements.

7. An Overall GPA of 2.75 is required for graduation with teacher certification.

8. In addition to the major and minor requirements, students must also complete 21 hours of professional sequence courses under the College of Education. Students must maintain a 2.5 GPA in the teaching field. All coursework must be completed prior to EDST 4380 and EDST 4381.

Course Requirements

Bachelor of Arts (B.A.) Major in Spanish

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number.
See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the Bachelor of Arts (B.A.) degree with a major in Spanish must complete 24 advanced hours in Spanish and maintain a GPA of at least 2.50 in all advanced Spanish course work to meet graduation requirements. Majors should complete the following advanced Spanish courses:

Department of Philosophy

Comal Building Room 102
T: 512.245.2285 F: 512.245.8335
txstate.edu/philosophy

Philosophy raises some of the most fundamental questions about our world and ourselves-questions about the nature of reality, knowledge, morality, God, and society. Students of philosophy study the thinking of major philosophers on such matters and learn to think critically and clearly on their own. Our small classes cultivate student-faculty mentoring, research and learning. Our faculty - professional philosophers, authors and leaders in the field - work one-on-one with students, encouraging independent research and professional preparation. And our co-curricular activities and organizations build strong rapport and camaraderie between our students. By fostering a love of learning, an appreciation of the value of critical and reflective thinking, and a collaborative intellectual community; we help prepare our students to become engaged, reflective citizens and lifelong learners while preparing them for graduate study or careers in government, law, the non-profit sector, business, or education.
Since philosophy is the home of the study of logic and the principles of good argumentation, it lends itself well to being joined with virtually any course of study. Philosophy students are highly valued for their communication skills, their ability to make ethical decisions and their adaptability in new situations. Through the study of philosophy, we learn how to explain why we know what we know and believe what we believe. Not only does this ability make us stand out as citizens and leaders, it also helps us navigate life’s choices and better understand our world.

Some philosophy majors pursue careers in business, journalism, law, medicine, and education. In these cases students recognize that the successful practitioner is the good thinker and turn to philosophy to develop their critical and creative powers. Other majors develop an interest in becoming professional philosophers and enroll in some of the nation’s best graduate programs in philosophy.

For those students with special interests in a particular area, the department offers the following recommendations:

**Pre-Professional Study of Philosophy**

Students interested in pursuing graduate work in philosophy are advised to take:

- **PHIL 3320** Ethics 3
- **PHIL 3340** Symbolic Logic 3
- **PHIL 4356** Philosophical Theory of Knowledge 3
- **PHIL 4370** Metaphysics 3

They should also develop a language proficiency in Spanish, French or German.

**Pre-Law**

All pre-law students should consider an undergraduate major in philosophy, given the importance that both philosophy and law attach to analysis, argumentation, and the evaluation of evidence. Pre-law students should also consider taking the following electives:

- **PHIL 2330** Elementary Logic 3
- **PHIL 3320** Ethics 3
- **PHIL 3322** Professional Ethics 3
- **PHIL 3323** Environmental Ethics 3
- **PHIL 3331** Philosophy of Law 3
- **PHIL 3332** Social and Political Philosophy 3

**Pre-Professional Study of Religion**

A minor in religious studies is appropriate for various professional plans, including education, journalism, the arts, ministry, and graduate work in religious studies and other humanities and social sciences. Students interested in graduate work in religious studies should combine the minor with a major appropriate to their plans and interests.

**Bachelor of Arts (B.A.)**

- Philosophy (p. 533)

**Minors**

- Philosophy (p. 533)
- Religious Studies (p. 533)
- Value Studies (p. 534)

**Subjects in this department include:** PHIL (p. 527), REL (p. 531)

**Courses in Philosophy (PHIL)**

**PHIL 1305. Philosophy and Critical Thinking.**
A study of universal philosophical problems and their solutions with a view toward developing clear thinking about knowledge, belief, and value. Approximately one half of this course will focus on the student’s critical thinking skills. Credit cannot be given for both PHIL 1305 and PHIL 3301. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 1301

**PHIL 1320. Ethics and Society.**
Study of ethics, its recent focus on social problems, and new fields of inquiry, including environmental ethics, ethics in business, professions, technology and sport. Also such global issues as poverty, minority rights, and stem cell research. Emphasis on development and application of principles of critical thinking and moral reasoning. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2306

**PHIL 1330. Critical Thinking.**
Study of informal fallacies, valid argument forms, problem solving strategies, language clarification, and application of analytic skills.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**PHIL 2311. History of Philosophy Before 1600.**
Early Greek, Roman, and medieval systems of thought. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2316

**PHIL 2312. History of Philosophy Since 1600.**
Modern philosophical thought through the 19th century. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2317

**PHIL 2330. Elementary Logic.**
A study of the nature and forms of correct reasoning, both deductive and inductive.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHIL 2303
PHIL 3301. Philosophical Issues.
The great philosophical concepts that have challenged the best thoughts of people and have contributed to the fulfillment of the good life. Emphasis upon the applicability of those concepts to human life in our time and to the development of intellectual perspective. Approximately one half of this course will focus on the student's critical thinking skills. Credit cannot be given for both PHIL 3301 and PHIL 1305. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3314. American Philosophy.
Examination of contributions of Americans to perennial philosophical issues. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3315. Contemporary Philosophy.
Selected readings in late 19th and 20th century philosophy: existentialism, positivism, analytic philosophy, phenomenology, and pragmatism. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3316. Existentialism and Phenomenology.
A study of the nature of human experience and existence in the philosophies of Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Merleau-Ponty, and Camus. Topics will include freedom, dread, emotion, death, other minds, faith, and the past as experienced by the individual. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3317. Science and Religion.
An examination of modern science and Western religion, and an analysis of the issues and ideas involved in the relationships between them. Prerequisites: 3 hours of lower division PHIL, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3318. Reason, God and Nature.
An analysis of the concept of God, terms predicated on God, and theological propositions. An attempt to determine the nature of religious utterances in comparison with those of everyday life, scientific discovery, morality, and imaginative expression. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3320. Ethics.
A study of classical and contemporary philosophical inquiries into our knowledge of the “good” and the grounds of moral obligation. May be repeated once for additional credit. (Capstone) Prerequisite: Three hours of lower division PHIL, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Contemporary Moral Problems. (3-0) Exploration of philosophical dimensions of contemporary moral problems such as abortion, euthanasia, poverty, animal rights, nuclear war, and privacy in a computer age. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. May be repeated once for additional credit. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHIL 3322. Professional Ethics.
Study of major topics in business and professional ethics, including what a profession is, whether it differs from business, and what is involved with the moral education, social responsibilities, and ethical standards of professionals and business people. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3323. Environmental Ethics.
Study of ethical issues associated with the environment including nature, use, preservation, and restoration of the environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 3324. Meaning of Life.
Investigation of major theories of the meaning of life in Western and Eastern philosophies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3325. Philosophy of Sex and Love.
Critical survey of major thinking on sex and love from ancient to modern times. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3326. Philosophy and Sport.
Examines philosophical issues in sport, including the social significance of sport, ethical issues, gender equity, sport and race, mind and body in sport, aesthetics, sport and self-knowledge, and the connection of sport and philosophy. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PHIL 3331. Philosophy of Law.
The major theses which have been set forth in the history of jurisprudence including foundations of law, natural law, legal positivism, and the judicial process. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3332. Social and Political Philosophy.
Critical examination of major theories concerning the organization of societies and governments. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3333. Feminist Theory.
This course will examine major feminist theories including liberal feminism, Marxist feminism, radical feminism, and post-modernist feminism with an eye especially to revealing the complexity and diversity of contemporary feminist thought. Prerequisite: Three hours of lower division philosophy, PHIL 3301, WS 3376 or WS 3377, or permission of the instructor. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 3340. Symbolic Logic.
Study of the logic of propositions through prepositional calculi, formal proofs, and first-order functional calculi. Also included is an investigation into the axiomatic method as used in logic and mathematics, including the concepts of completeness and consistency. Prerequisite: PHIL 2330, or MATH 2372, or consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 3351. Philosophy and Literature.
The course explores the relation between philosophy and literature. Prerequisite: Three hours lower division PHIL, PHIL 3301, or consent of instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4301. Applied Philosophy.
Practical application of methods and teaching of philosophy to religion, science, morality, politics, art, or literature. The study of one or more of these areas will demonstrate how philosophy contributes to the identification of issues as well as their resolution. May be repeated for credit. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHIL 4302. Dialogue.
Study of literature about the nature, purpose, and significance of dialogue along with active participation in the dialogues of the Department of Philosophy's Dialogue Series. Prerequisite: PHIL 1305 or permission of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHIL 4303. Philosophy of Technology.
Study of philosophical and ethical dimensions of technology including the nature of technology and technological progress, the relation of humans to the technological environment, whether technology is value-laden, and the social character of technology. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4305. Philosophy of the Arts.
A critical and historical analysis of the nature of aesthetic experience and creative genius. Prerequisite: three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4309. Philosophy of Education.
Study of major philosophical theories on nature, values, and purpose of education. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4315. Philosophical Theory of Science.
Study of the major theories concerning the nature and value of science and the scientific method. Repeatable for credit with different emphasis. Prerequisite: 3 hours of lower division philosophy, PHIL 3301, or consent of instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
PHIL 4356. Philosophical Theory of Knowledge.
A study of the major theories concerning knowledge, belief, certainty, and perception. Repeatable for credit with different emphasis. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360A. Ethics and Dementia.
This course provides an opportunity to examine ethical challenges posed by dementia for those with dementia, family members, caregivers, healthcare systems, policy makers, and others. Participants will critically explore ethics and dementia in clinical, social/cultural, everyday life, policy, end-of-life, and individual perspectives. Prerequisite: PHIL 1305 or PHIL 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360B. Moral Psychology.
This course provides an introduction to the major theories, issues, and research relevant to the field of moral psychology. Drawing from a variety of fields—philosophy, social psychology, cognitive psychology, developmental psychology, and evolutionary theory—we will investigate what morality is, how it develops, and how it functions in society. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360C. Philosophy, Nonviolence, Sustainability, and Social Change.
In this course students will study themes and concepts related to nonviolence, sustainability, and social change. Participants will critically examine the works of thinkers such as Thoreau, Addams, Tolstoy, Gandhi, King, and Chavez.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361A. Philosophy of Biology.
In this course students will explore foundational questions in biology concerning the justification of biological theories, methods and concepts. Possible topics include concepts of fitness, units of selection, adaptationism, species, phylogenetic inference, homology, developmental systems, neuroscience, behavioral evolution, cooperation, altruism, evolutionary psychology, evolutionary ethics, cultural evolution, and race and gender. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361B. Philosophy of the Human Sciences.
This course is a survey of current debates about the structure, nature, role, methodologies, scope, and aim of the human sciences. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361C. Philosophy of Emotion.
In this course students examine the understandings of emotions as developed in the history of philosophy, including topics such as somatic theories, cognitive theories, and philosophical accounts of feelings, mood, and other affective experiences. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4362A. History of Analytic Philosophy.
Students in this course will examine major thinkers, works, theories, and problems of analytic philosophy. Topics will include the philosophy of language, logic, philosophy of mathematics, philosophy of mind, philosophy of science, metaphysics, epistemology, ethics, metaethics, and philosophical methodology. Prerequisite: PHIL 1305 or PHIL 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4362B. 19th-Century Philosophy.
This course offers a detailed introduction to central figures of 19th-century European philosophy such as Hegel, Marx, Kierkegaard, and Nietzsche in the context of their responses to the Enlightenment, the condition of modernity, the growth of democracy, nationalism, capitalism, Darwin, secularization, and the critical project of Kant. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4363A. Philosophy and Science Fiction.
In this course students will examine intersections between philosophy and science fiction around topics such as the nature of reality, the existence and nature of the divine, the limits of human knowledge, the meaning of free will, the notions of personhood, the nature of morality, and the meaning of life. Prerequisite: PHIL 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
PHIL 4370. Metaphysics.
Systematic study of metaphysical problems by examination of classical and modern texts. Topics considered will involve being and unity, mind and matter, God, causation and necessity, free will and determinism. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4371. Asian Philosophy.
The course covers mainly Chinese and Indian philosophy, such as Confucianism, Taoism, Buddhism. How do people in the orient look at the meanings of life, the nature of the world and their place in the world? This course shall shed light on these issues. May be repeated for credit. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 4372. Latin American Philosophy.
Study of ancient Latin American thought, including Mayan, Aztec, Toltec, and Incan, pre- and post conquest Latin American philosophy, contemporary Latin American philosophy, and the thinking of Latin Americans in the U.S. Prerequisite: PHIL 1305 or permission of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4373. Themes in Africana Philosophy.
In this course students will examine philosophy and philosophical practice as it emerges from the historical experiences of African Americans and the African Diaspora. Participants in the course will evaluate how the African-American philosophical tradition alters conventional philosophical accounts of subjectivity, knowledge, time, language, history, embodiment, memory, and justice. Prerequisite: Phil 1305 or 1320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4388. Problems in Philosophy.
Independent study of specific problems in philosophy. Open to students on an individual or small group basis by arrangement with the Department of Philosophy. Problem area, bibliography, and study paper outline are to be approved by the instructor. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. May be repeated once for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Religion (REL)

REL 1300. World Religions.
This course will be a survey and comparative study of the major religions of the world including Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism, and the Indigenous Religions. Recommended as an entry course for religion minors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

REL 2310. Introduction to the Hebrew Bible.
An introduction to the contemporary academic study of the Hebrew Bible ("Old Testament") and related Near Eastern and Second Temple Jewish literature. Representative texts will be examined using the historical and literary methods of scholarship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An introduction to the contemporary academic study of the New Testament, including apocryphal and post-canonical works. Representative texts will be examined using the historical and literary methods of scholarship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

REL 2321. Founders, Prophets and Saints.
Critical analysis of the life, works, and thought of a major religious figure, e.g., Jesus, Paul, Luther, St. Teresa, Maimonides, the Baal Shem Tov, Mohammad, al-Ghazzali, Rumi, Buddha, Gandhi. May be repeated for credit. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

REL 2350. Mediterranean and European Religions.
This course is a survey of religions that originated in the Near East, Mediterranean, and Europe, with emphasis on the ancient to medieval periods. The course includes Judaism, Christianity, and Islam, in the contexts of Egyptian, Persian, Greco-Roman, and old European traditions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

REL 2360. Asian Religious Traditions.
This course is a survey of the major religious traditions originating in Asia: Hinduism, Buddhism, Taoism, and others. Basic doctrines and practices will be covered in an historical framework. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 3330. Religious Controversy in America.
Students in this course will analyze religious controversies and crises in America from the colonies to the present in order to interpret the role of religion in American history, culture, law, and politics. Topics include the Salem Witch Trials, the Jim Jones massacre, and Ten Commandments monuments on government property. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
This course will investigate New Religious Movements (NRMs) primarily within the contemporary American context. Controversial and emerging religions can be approached from many angles. Accordingly, the course will introduce students to a variety of theoretical perspectives and approaches for studying NRMs. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

The course features a thematic selection of literary and artistic works in order to examine the connections and disconnections between the aesthetic and religious aspects of human culture. May be taken twice for credit with different topics. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

REL 3342. The Homeric Epic: The Iliad and the Odyssey.
A close reading of the Iliad and the Odyssey in English translation, with emphasis on philosophical and religious issues. Prominent topics include the gods, religious rituals, heroic ethics, and the human condition. The course also considers the concept of a classic in religion and literature. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

REL 3341A. Religion and Film.
This course examines how religions are reflected in film and how films have taken on some of the functions of religion. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3341B. Mysticism.
This course explores the dimension of mysticism that pervades both Western and Eastern religious traditions. We will analyze the nature of mystical experiences through a study of key figures and texts, and examine its peculiar relationship to language, arts, and human subjectivity and its place in the wider social context. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3341C. Philosophical Issues in Judaism, Christianity, and Islam.
This course provides a comparative perspective on philosophical issues that arise in Judaism, Christianity, and Islam, including the nature of God, reason and revelation, and religious ethics. Readings will draw on both classical and contemporary sources. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3370. Mythology and Cosmology.
This course examines human efforts to address questions of cosmic origins, with a global, comparative survey of cosmogonic (creation) myths and a historical approach to modern cosmology. It examines the features and functions of mythopoetic and scientific thought, and reflects philosophically on questions of origin and meaning. May be taken twice for credit with different topics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

REL 3372. Apocalypticism.
An historical-cultural survey of end-of-the-world literature, art, and thought in Western Civilization, from ancient Judaism and Christianity to the present. Historical and scientific methods provide the framework for this course. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 3381. The Philosophical and Spiritual Heritage of India.
Indian philosophers predominantly present a spiritual, multi-dimensional outlook on the nature of reality and human consciousness; they combine reason, experience, yoga and meditation as methods of inquiry. This course will explore Indian spiritual philosophy from the time of the ancient Vedas to the contribution of modern sages. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 3385. Buddhism.
This course surveys the main ideas, myths, symbols and practices of the diverse forms of Buddhism. Students will also get acquainted with the manner in which Buddhist perspectives have influenced social values and arts in the South East and East Asian cultures. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course provides a rigorous grounding in the intellectual tradition of academic religious studies. It includes the major theorists and a sustained examination of the problem of method. This course is strongly urged for RS minors and students intending graduate work in the field. Prerequisite: At least one course from those included in the minor; two recommended.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 4388. Problems in Religion.
Independent study of specific topics in religion. Open to students on an individual or small group basis. May be repeated for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
Bachelor of Arts (B.A.) Major in Philosophy

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. The Bachelor of Arts (B.A.) degree with a major in Philosophy requires 30 hours including the following Philosophy courses:
   - PHIL 1305 Philosophy and Critical Thinking 3
   - PHIL 2311 History of Philosophy Before 1600 3
   - PHIL 2312 History of Philosophy Since 1600 3
   - PHIL 2330 Elementary Logic 3
   - Advanced Philosophy Electives 18

8. Graduating seniors must submit a portfolio of their work and participate in an exit interview with the Philosophy faculty. Details about the portfolio are available in the Department’s main office.

Total Hours: 120

Minor in Philosophy

The minor in Philosophy requires 18 semester credit hours.

Required Course
- PHIL 1305 Philosophy and Critical Thinking 3

Electives
- Choose 15 hours of PHIL courses, 12 of which must be advanced 15

Total Hours: 18

Minor in Religious Studies

The minor in Religious Studies requires 18 semester credit hours. Students should check with each department for any prerequisites.

Required Courses
- Choose 18 hours from the following: 18
  - ANTH 3305 Magic, Ritual and Religion
  - ANTH 3322 Peoples and Cultures of Africa
  - ANTH 3332 Myths and Moundbuilders
  - ANTH 3349 The Incas
  - ANTH 4320 Rise of Civilization
Minor in Value Studies

The minor in Value Studies requires 18 semester credit hours. The minor allows a student with special interests in value theory to pursue a course of study, which culminates in an independent research project in value studies. This project may be a study of a theoretical issue in value studies or something of an applied nature; students may affiliate with people in various work environments or service learning settings to identify value conflicts and suggest resolutions.

### Department of Political Science

Undergraduate Academic Center 355A  
T: 512. 245.2143 F: 512. 245.7815  
www.polisci.txstate.edu (http://www.polisci.txstate.edu)

Political science is the study of government, the most important decision-making part of society, and of the social, economic, and other institutions and practices that influence this decision-making process. On the one hand, it is a discipline that can trace its roots to the ancient Greek political community, the polis; but it is also a modern social science, which uses techniques such as content analysis, public opinion surveys, and statistical analysis to create and evaluate generalizations about how government and people behave.

As a liberal arts discipline, the department is dedicated to developing analytical skills and promoting critical thinking. Students are encouraged to reflect not simply on their career goals, but also on what type of persons they want to become, and on their rights and duties as citizens. The department offers students the opportunity to earn up to six credit hours in an internship program in which students gain practical experience by working for various federal, state, local or non-profit community agencies.

Political science prepares students for careers in various fields, not only in government, law, and education but also in business, journalism, urban planning, and many fields on which public policies have a significant effect.

### Recognition of Student Scholarship

#### The Annual Professor Henderson Award

The Department of Political Science annually presents the Professor Henderson Award to the graduating Political Science major with the highest overall GPA (the award may be for either a December or May graduate of the current academic year). The award has the purpose of recognizing and honoring a student of Political Science who has, as a student at Texas State, displayed academic excellence and character in the tradition and values cherished and exhibited by Richard B. Henderson, Distinguished Professor Emeritus.

#### The Howard M. “Prof” Greene Award

This award honors an academic mentor in politics to Lyndon B. Johnson and thousands of other Texas State alumni and goes to one or more graduating Political Science majors who have earned overall Texas State grade-point averages of 3.9 or above.

Interested students who believe they may be eligible for these awards should consult with the Department Chair.

### Bachelor of Arts (B.A.)

- Major in Political Science (p. 541)
- Major in Political Science (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and History Third Field) (p. 542)
- Major in Political Science (Teacher Certification in Social Studies, Grades 7-12: History Minor and Geography Third Field) (p. 544)

### Bachelor of Public Administration (B.P.A.)

- Major in Public Administration (p. 546)

### Minors

- Political Communication (p. 547)
- Political Science (p. 548)
- Public Administration (p. 548)
Courses in Political Science (POSI)

A survey of the principles of political science, of the American system of government, and of the origins and development of the constitutions of the United States and Texas. Satisfies the legislative requirements for teacher certification.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Pol Science Core 070
Grade Mode: Standard Letter
TCCN: GOVT 2306

This course is a study of functions performed in the American system of government, both national and state, within the framework of the U.S. and Texas Constitutions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Pol Science Core 070
Grade Mode: Standard Letter
TCCN: GOVT 2305

POSI 3300. Basic Political Ideas.
Introduction to the fundamental ideas of the Western political tradition including conservatism, liberalism, socialism, democracy, and totalitarianism. This course (or 3301) is required of all Political Science majors and minors, and it serves as a co-requisite for other advanced courses in Political Science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 3301. Basic Political Institutions.
The study of political institutions emphasizing the fundamentals of political science research and analysis, the tools used in bibliographical research, and methods of locating and presenting data for comparing political institutions. This course is required of all public administration majors and is a co-requisite for other advanced political science courses.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 3305. The American Founding.
An examination of the origins, nature, and foundations of the American Constitutional system with special emphasis on the Federalist/Antifederalist debates and the writing of the constitution.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 3306. Religion and American Public Life.
An examination of the ways in which religious beliefs and groups have influenced the course of American democratic experience, and the ongoing debates in constitutional law and democratic theory regarding the proper role of religion in American public life. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 3309. The American Presidency.
A comprehensive examination of both the presidency and the men who have held it. (WI)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A case study approach to an analysis of fundamental principles of governmental structure with an emphasis on the office and powers of the President and inter-governmental relationships in the main body (Articles I through VII) of the U.S. Constitution.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An examination of that area of Constitutional interpretation commonly known as Civil Liberties or the relations between the individual and the government. (May be used to satisfy Group II requirements).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 3314. State and Local Government.
A study of the organization, functions, and powers of state, county, and municipal government in the United States with particular reference to patterns of such governments in Texas. (May be substituted for POSI 2310) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 3316. Introduction to Public Administration.
The organization and management of the machinery for executing public policies, with particular emphasis upon the Federal bureaucracy. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
POS1 3318. Public Personnel Administration.
A study of public personnel systems in the United States with major concentrations on the national civil service system. Special emphasis is given to current research in the areas of leadership, informal organization, motivation, and small group theory. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POS1 3319. Metropolitan Politics.
An examination of the political institutions and processes of urban and suburban America, including such topics as urban sprawl, reform movements, ethnic politics, and city-county consolidation. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3320. Comparative Public Administration.
A survey of the field of Public Administration that will emphasize those aspects of administration that are common to all administrative systems. (May be used to satisfy Group IV requirements.) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POS1 3321. Comparative Public Administration.
This “core seminar” identifies critical interdisciplinary questions that will be examined in all courses in the International Studies Program. Required of all majors and minors in International Studies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3322. Introduction to International Studies.
This “core seminar” identifies critical interdisciplinary questions that will be examined in all courses in the International Studies Program. Required of all majors and minors in International Studies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3323. Economic Development in Latin America.
This course examines the economic history of and current obstacles to economic development in Latin America. It explores the import Substitution Industrialization era, the debt crisis of the 1980s, free market economics, and the nature and revival of economic populism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POS1 3324. Public Finance Administration.
Focuses on planning, organization, and implementation of budgeting including fund accounting, auditing, and debt management in the public sector. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POS1 3325. American Political Thought.
The development of American political ideas from the colonial period to the present. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3326. Ancient and Medieval Political Thought (1600-1900).
A study of the masters of classical and medieval political theory from Plato to Machiavelli. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3327. Modern Political Theory (1600-1900).
The development of modern political ideas; the meaning and relationships of the significant ideologies of our time; democracy, capitalism, the welfare state, socialism, fascism, and totalitarian communism. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POS1 3328. Contemporary Political Theory.
A study of selected theories, ideologies, and movements in 20th century political theory. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POS1 3329. Comparative Politics.
This course is a comparative study between two or more political systems, their institutions, and processes, including the origin, development, geographical units, forms, sources of authority, powers, purposes, functions, and operations of government.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POS1 3330. Civil-Military Relations in Comparative Perspective.
This course is intended to serve as an intensive exploration of the important subject of civil-military relations. Students will critically examine the primary positive and normative theories of civil-military relations. They will then investigate the state of civil-military relations in the United States and around the globe.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POS1 3331. Politics of Modern Southeast Asia.
This course is a comparative analysis of the political and economic significance of Southeast Asia and will include an empirical and conceptual examination of the political dynamics of the region.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POS1 3332. Urban Policy and Administration.
The purpose of this course is to provide a critical introduction to the key aspects of urban administration and policy. Students will build an understanding of how urban administration practices and policies influence the form and function of American cities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
POSI 3377. Analytical Techniques.
Examines basic scientific methods, including problem definition, hypothesis testing, explanation and prediction, and theory construction. Statistical analysis is applied to problems in political science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 4301. Politics in Film.
This course will expose the students to films which explicitly address political issues such as racism in the United States, the conflict between public duty and private conscience, and politics and media manipulation, and the role of perception in all the actions people take. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4302. Legal Theories and Research.
This course examines the American Legal System at both the state and federal levels involving civil and criminal procedure. Emphasis is on the process of these systems and the framework within which disputes are resolved. Students will become familiar with legal research methods to better understand the composition of legal options.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 4303. Civil Law in American Society.
This course considers the structure and functions of government together with the law regulating private social relations, i.e., contract law, property law, tort law, and the causal relations between legal policies and societal goals and regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 4304. Issues in Law and Public Policy.
This course examines contemporary legal issues by focusing on their relationship to public policy. Selected topics will vary, i.e., AIDS, abortion, affirmative action/reverse discrimination, capital punishment, environmental protection, euthanasia, and surrogate motherhood. In connection with these controversial issues we will address: (1) alternative views; (2) social consequences; and (3) political responses to and legal issues resulting from alternative positions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 4311. The Supreme Court and the Judicial Process.
An intensive examination of the judiciary, focusing upon the politics of judicial selection and the decision-making process of the judiciary as well as the position of the judiciary in the entire political process. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4313. Islamic Law and Politics.
This course is a study of the law, origins, development, divisions, and politics of Islam. Special emphasis will be given to law, political thought, history, and the culture of the Middle East. Topics covered include Muslim law and political institutions; the Arab and Persian roles in Islam; the Islamic Community as a political system; major points of the Islamic faith and their political significance and the political and historical significance of Muslim mysticism. (This course may be used to satisfy Group I requirements.) (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4314. Revolution and Nationalism.
This course examines the phenomena of modern revolution and nationalism focusing on different countries in various geographical areas such as the Middle East, Latin America, and others. This course is repeatable for credit twice with different emphasis. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

The course examines some key insights in party and party system theory and practice. Latin America is the regional referent for examining themes, and country examples are studied in depth to illustrate the theory.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

POSI 4320. Issues and Interest Groups: Power and Pressure in America.
An examination of selected issues at the state and national level and the interest groups which attempt to influence governmental decisions about them. The goal of the course is to promote a better understanding of the process of government and an informed opinion on the question, "Is there a Public Interest?" Prerequisite: POSI 2310. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4322. Public Policy Formation.
Intensive analysis of theories and processes of both policy formation and policy enforcement in the American administrative system, emphasizing the regulatory function. Prerequisite: POSI 2310 and POSI 3301. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4326. Issues in World Politics.
This course is designed to acquaint the student with major issues in world politics and major concepts in international relations and comparative politics. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
POSI 4327. Theories of International Politics.
This course focuses on theories and concepts in the study of international relations. Major theoretical works and illustrative case studies will be critically examined. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4328. The Holocaust.
An undergraduate seminar on The Holocaust. Among the topics covered are: efforts to understand The Holocaust; the evolution of anti-Semitism in Germany; ordinary Germans and ordinary Poles and The Holocaust; and representing The Holocaust in fiction, film, and poetry. (may be used to satisfy group IV requirement.) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

POSI 4330. Women in Politics.
A study of the role of women in political life. The course will examine women's influence on politics as well as how various public policies affect women. Topics may include feminism, electoral politics, political representation, and the internal politics of women's groups. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4331. Minority Politics.
This course examines and analyzes the political participation of American minorities (Blacks, Hispanics, women, and other minorities) in the American political system and the impact of various public policies on minority groups. The course will emphasize the following topics: electoral participation; public policy participation, representation and implementation; protest politics; and political behavior. Some reference will be to Texas and the Southwest. May be repeated once with different emphasis. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4335. Politics and Personality.
An introduction to the relationship between political behavior and human motivation. Topics include psychological perspectives and political theory; personality and political orientation; the political personality, and the politically relevant insights into these areas offered by fiction. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4336. Campaigns and Elections.
An examination of the dynamics of American political campaigns and elections, including an analysis of federal and state elections as well as voting behavior and party and interest group influence. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4337A. Texas Politics.
This course focuses on the history, culture, institutions, issues, and policies of the Texas political systems. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

POSI 4337C. Media and Public Opinion.
This class will cover how the media influences public opinion and voting behavior. Specific topics include media functions in campaigns and elections, media bias, new media, and media effects on political attitudes and behaviors. This course uses lectures, discussions, with active participation, and group projects. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

POSI 4337D. The Politics of Dystopia.
This course explores the idea of political utopia and the many ways in which it might be twisted into a darker, less-than-perfect society. Content will focus in particular on the relationship between fictional dystopias in novels and films, and political reality in 21st-century America. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

POSI 4337E. Ethics in American Government.
This course examines key ethical and cultural challenges in American government, including the exploration of values, ethical analysis, and democratic process. Several specific policies, including health care, environment, and national security will be analyzed. The course focuses on individual and institutional corruption and strategies for reform. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

POSI 4337F. The Politics of U.S. Economic Issues.
This course will introduce the political economy issues which have dominated politics in the U.S. including the constitutional, partisan, and sectional aspects of such issues as: Bank of the United States, slavery, gold standard, the Great Depression, banking, income distribution, and the Affordable Care Act. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

A comparative analysis of political systems in Latin America, examining the impact of sociocultural and economic factors on political attitudes and behaviors. Special emphasis on Mexico, Cuba, and Brazil. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
POSI 4340. Government and Politics of Europe.
An in-depth analysis of the political systems of the states of Europe and the emerging European Union, with special emphasis on Great Britain, France, Italy, and Germany. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4341. Government and Politics of Russia.
A comprehensive study of the domestic and foreign policy of the former Soviet Union, examined both historically and analytically. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4345. American Foreign Policy.
This course focuses on "how foreign policy is made" or the decision-making process. The major institutions involved in the decision-making process as well as the ideological setting in which they function are examined. Among the topics studied are the foreign policy roles of Congress, Interest Groups, the State Department and the Secretary of State, the Military Establishment, the Intelligence Community, the Presidency, and Public Opinion. Specific "cases" or major foreign policy decisions will be examined illustrate the various roles of these institutions in the decision-making process.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

POSI 4349B. Model International Institutions Competition.
This course is an applied introduction to diplomacy focusing on issues relevant to international institutions, in which students will engage in debate and role-playing. Students are responsible for costs incurred to attend mandatory workshops and model international competitions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

POSI 4349D. Organization of American States.
This course is an introduction to major issues of the OAS including its functions and limitations and the evolving relations among member states. Students are responsible for travel costs and expenses incurred to attend mandatory parliamentary procedure workshops and model OAS competitions. (May be used to satisfy Group V requirements). (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

POSI 4349F. Politics of Democratization in Developing Countries.
A critical examination of the third wave of democratization in the developing world and the multiple challenges faced these neodemocracies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

A critical analysis of political development in the nations of Far East and South Asia, concentrating on China, Japan, and India. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4351. African Politics.
A comprehensive examination of contemporary political events in Africa with special attention to Angola, South Africa, and Nigeria. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4354. The Politics of Extremism.
This course is an undergraduate seminar on international terrorism and extremist politics in America. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4356. International Law.
Examines the nature, sources, and development of international law as both a legal and political process. The law of treaties, acquisition of personality, territorial jurisdiction, the law of the sea, land and air, diplomatic immunities, nationality, state responsibility, human rights, and the law of war will be emphasized. Students will research contemporary international problems and participate in a Moot International Court of Justice (ICJ) proceeding. (May be used to satisfy Group III requirements.) (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4357. International Organization.
This course will examine the historical roots of international organizations, the development of the League of Nations, and the evolution of the United Nations System. The nature, process, and function of contemporary international organization will be analyzed. The role of non-governmental organizations, transnational organizations, and multinational corporations will be assessed. The course will include a mix of lecture, discussion, and model sessions. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

POSI 4358. United States-Latin American Relations.
Examines policies, problems, and attitudes, together with detailed analysis of U.S. relations with selected countries. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
This course examines the institutional structure of interstate economic relations, trade and monetary regimes, foreign investment, foreign aid, and development policies of governments. Prerequisite: POSI 3322. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content|Writing Intensive 
Grade Mode: Standard Letter

POSI 4361. Administrative Law.
Course stresses the legal principles and practical doctrines involved in the work of administrative tribunals vested with quasi-legislative or quasi-judicial powers or both. Primary focus on development, practice, and procedures of federal administrative agencies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Writing Intensive 
Grade Mode: Standard Letter

An overview of the relationship of American business to public policy as a whole. Focus is on several factors affecting the relationship between the public and private sectors including political ideology and culture, pluralism, political party development, political business cycles, monetary policy, and the domestic economy and political accountability. May be repeated once with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter

Examines historical and spatial patterns of conflict (including war, terrorism, and economic coercion) from Realist, Idealist, and Marxist schools of thought. The course will also examine strategies for conflict prevention and resolution such as deterrence, arms control, collective security, and "building democracy." (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content|Writing Intensive 
Grade Mode: Standard Letter

POSI 4379. Independent Study.
Independent reading and/or research on various problem areas of political science. Instructor will approve specific problem area, bibliography, and study paper outline. May be repeated once with different subject matter and instructor. No more than six semester hours credit in meeting degree requirements. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter

POSI 4380. Internship in Government.
The student will participate in the ongoing work of a selected governmental unit. A research paper dealing with the internship experience written under the direction of a faculty member will be required. This course may be repeated one time for additional internship credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter

POSI 4381. Internship in Public Administration.
Students in the Bachelor of Public Administration (BPA) degree program will participate in the ongoing work of a public or non-profit agency. A research paper dealing with the internship experience written under the direction of a faculty member will be required. May be repeated once.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter

POSI 4397. Research in Public Administration.
This course is designed to assure familiarity with the basic concepts and approaches used in the study of public administration. Students will learn to identify, locate, and employ resources to assist in understanding public administration at all governmental levels. Course may be taken as a substitute for POSI 4381.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): 
Grade Mode: Standard Letter

POSI 4398. Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics.
This course is designed to assure familiarity with the basic concepts and approaches used in the study of politics. Students will learn to identify, locate, and employ resources to assist in understanding politics at local, state, national, and international levels. Model Congress or U.N., visits to local government offices and councils, moot court, critiques of political propaganda films, and simulations in international relations are some of the applied methods of studying politics that students will learn. This course is required of all B.A. students seeking a teaching certificate in Political Science; it may be taken as a substitute for POSI 4399 for Political Science non teacher certification majors. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Writing Intensive 
Grade Mode: Standard Letter

POSI 4399. Senior Seminar in Political Science.
Seminar devoted to intensive reading, research, writing, and discussion focusing on different sub-fields in the discipline taught by appropriate faculty. Students in consultation with faculty in their area of interest should select a particular sub-field seminar in accordance with their needs and professional objectives. Required of all majors and must be taken in the student’s junior or senior year. Other interested students may take the course with the consent of the chair and instructor. May be repeated with different instructor and approval of chair. Prerequisites for the Senior Seminar are all of the core courses in Political Science or approval of the Department Chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter

POSI 4680. Internship in Government.
The student will participate full time (40 hours per week) in the ongoing work of selected governmental units. A research paper dealing with the internship experience written under direction of a faculty member will be required.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter
## Bachelor of Arts (B.A.) Major in Political Science

**Minimum required: 120 semester credit hours**

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Majors must select a minor from the approved list of Undergraduate Minors [http://www.mycatalog.txstate.edu/undergraduate/minors](http://www.mycatalog.txstate.edu/undergraduate/minors).

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the Bachelor of Arts (B.A.) degree with a major in Political Science must take a minimum of 30 hours in Political Science including the following courses:
   - POSI 2310, Principles of American Government
   - POSI 2320, Functions of American Government
   - POSI 3300, Basic Political Ideas
   - or POSI 3301, Basic Political Institutions
   
   One advanced course from four of the five groups:
   - I. Political Theory and Methodology
   - II. American Government
   - III. Public Law and Public Administration
   - IV. Comparative Government
   - V. International Relations

   Advanced POSI electives

   POSI 4399, Senior Seminar in Political Science
   - or POSI 4398, Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics

   Total Hours: 30

   1. POSI 3300 or POSI 3301 serve as corequisites for all advanced courses in political science.

### Bachelor of Arts (B.A.) Major in Political Science (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and History Third Field)

Minimum required: 130 semester credit hours

**Admission Requirement**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. This degree plan is designed to prepare students for secondary teacher certification in the social studies disciplines: Economics, Geography, Government, and History. The Social Studies Composite with a Political Science major, Geography minor, and History third field requires the following 30 hours of Political Science courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POSI 3300</td>

<td>3</td>
</tr>
<tr>
<td>HIST 2312</td>
<td>3</td>
</tr>
<tr>
<td>HIST 3372</td>
<td>3</td>
</tr>
</tbody>
</table>

8. An Overall GPA of 2.75 is required for graduation with teacher certification.

9. In addition to the major, minor, and third field requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.

Total Hours: 130
Minor in Political Communication

This minor is administered by the Department of Communication Studies; please contact the Department of Communication Studies for additional information.

The minor in Political Communication requires 24 semester credit hours, including 12 hours from the Department of Communication Studies and 12 hours from the selected courses from the Department of Political Science. The minor addresses a variety of theories, principles, and skills related to the political communication process. The minor is designed for students interested in law, politics, public administration, public policy, or other professions related to issues and ideas in a political communication context.

If a student is a Communication Studies major, only the core courses in Communication Studies (COMM 1310, COMM 2315, COMM 2330, COMM 2338, COMM 3301, COMM 3302) may count towards their minor in Political Communication.

If a student is a Political Science major, no course may count for both their major and minor.

Course Prerequisite Sequence

The Department of Psychology strictly enforces all course prerequisites. Adherence to the following course sequence is necessary for completion of the B.A. and B.S. degrees. This sequence requires four separate semesters (or summer terms), because course prerequisites may not be taken concurrently.

| Note: Psychology majors are required to select a minor outside the major, thus, a Psychology major may not declare a minor in Forensic Psychology, General Psychology, or Sport Psychology. | 1     |

1 Or its equivalent, with a grade of "C" or higher.
Bachelor of Arts (B.A.)
- Major in Psychology (p. 553)

Bachelor of Science (B.S.)
- Major in Psychology (p. 554)

Minors
- Forensic Psychology (p. 555)
- Psychology (p. 555)
- Sport Psychology (p. 555)

Courses in Psychology (PSY)

PSY 1300. Introduction to Psychology.
A survey of the major principles derived from research on human and animal behavior. Topics studied include learning, thinking, motivation, emotion, personality, the senses, perception, and the form and functions of the nervous system. PSY 1300 with a grade of "C" or better is required for most other Psychology courses.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080
Grade Mode: Standard Letter
TCCN: PSYC 2301

PSY 2100. Professional Seminar.
This course examines the characteristics of Psychology as a discipline and profession. Coverage includes current trends in Psychology and its subfields, degree options in Psychology and its subfields as they relate to professional and/or career issues, and how to be an intelligent consumer of discipline-specific data and information. Prerequisite: PSY 1300 with a grade of "C" or better.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 2101. Introduction to Statistics Laboratory.
This statistics laboratory course provides an introduction to descriptive and inferential statistics used in psychological research with an emphasis on data analysis techniques through the use of computer applications (ex., SPSS, R, etc.). Prerequisite: PSY 1300 with a grade of "C" or better, concurrent enrollment in PSY 2301 or previous completion of PSY 2301 with a grade of "C" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 2301. Introduction to Statistics.
(PSYC 2301) The course provides an introduction to statistical methods in behavioral sciences with special emphasis on application to psychological research. The topics covered include descriptive statistics, principles of statistical inference and common hypothesis testing techniques such as z-test, t-tests, analysis of variance, correlation and regression, and selected non-parametric tests. Prerequisites: Grades of "C" or better in PSY 1300 and MATH 1312 or higher (excluding MATH 1316).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PSYC 2317

PSY 3300. Lifespan Development.
Survey of the psychology of human development from the pre-natal period through adulthood. Emphasis placed on cognitive, motivational, and physiological processes of development in childhood and adolescence. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PSYC 2306

PSY 3312. Adolescent Psychology.
A developmental psychology course designed to examine the complex characteristics of human cognitive and emotional life during the period of adolescence. Emphasis is directed toward the basis of behavior, interpersonal relationships, development, growth, and motivation. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3313. Psychology of Adulthood and Aging.
The development of individuals in the post-adolescent period, particularly after middle age. Topics studied include social, psychological, and physiological changes and problems associated with the aging process. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3314. Psychology of Consciousness.
This course is an introduction to the study of consciousness from the perspective of psychology, neuroscience, and the natural sciences. Topics reviewed included philosophical foundations, cognitive and neuroscientific approaches, the physical correlates of consciousness, introspection, sleep and dreaming and altered states of consciousness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3315. Abnormal Psychology.
An introduction to the study of abnormality. (1) issues in defining and evaluating it, (2) examples, (3) theories and research attempting to categorize, describe, and explain it, and (4) approaches used to prevent or change it when it is deemed a problem by the individual and/or society. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
PSY 3316. Personality Psychology.
A comprehensive introduction to research, theory, and application in the field of personality. Individual differences and situation influences are examined concerning authoritarianism, achievement motivation, anxiety, intelligence, self-concept, interpersonal attraction, aggression, sexuality, and altruism. An integrative model is suggested for describing and predicting human behavior. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
 fools.

Grade Mode: Standard Letter

PSY 3321. Sensation and Perception.
An introduction to the processes of perception. Topics will include perceptual measurement, the physiological bases of perception, basic visual processes, and basic haptic, olfactory, and gustatory processes. Prerequisite: PSY 1300 & PSY 3402 both with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3322. Brain and Behavior.
This course covers research findings and theoretical concepts concerned with the physiological, anatomical, and pharmacological bases of behavior. Topics include sensory systems, the physiological mechanisms of motivation, and the physiological correlates of associate processes such as learning. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3323. Evolution and Behavior.
The course provides a contemporary understanding of human behaviors, emotions, and cognitions through an examination of Darwin's theories of natural selection, sexual selection, and mental evolution. Relevant interdisciplinary perspectives from philosophy, history, anthropology, archaeology, biology, ethology, and genetics are incorporated. Prerequisites: PSY 1300, PSY 3300 both with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3325. Psychology of Persuasion.
This course uses a socio-psychological perspective to understand the dynamics of persuasion and propaganda. It applies selected theories and research on social influence, persuasion and attitude change to such areas as political and educational campaigns, product advertising, mass media and public opinion. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3331. Social Psychology.
The study of how people influence each other. The course covers such topics as conformity, inter-personal attraction, prejudice, and aggression. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3332. Psychology of Women.
The special problems and demands made on the woman within modern western culture. Topics studied include status, roles, values, opportunities, expectations, stress, and self-realization of the modern woman. (MC) (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PSY 3333. Industrial Psychology.
The study of applying psychological knowledge and techniques to the modern industrial environment. Topics studied include employee needs, attitudes, selection, testing, boredom, motivation, anxiety, and job satisfaction. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3334. Psychology of Human Diversity.
Explanations about how the environment, genetics and culture shape human differences, and how these differences are linked to world progress and understanding are addressed. (MC) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PSY 3335. Forensic Psychology.
Examines the relationships between psychology and the processes of the American courtroom. Sample issues to be addressed include: (a) What psychological theories are used to explain jury decisionmaking? (b) How accurate is the memory of eyewitnesses? (c) How do characteristics of defendants influence juries? Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3336. Sport Psychology.
This course examines the relationships, psychological concepts, and individual's thoughts regarding sports, health and exercise. Sample topics include (1) current theoretical perspectives of personality factors at sports and exercise, (2) why people engage in sports, (3) exercise adherence, (4) mental skills, and (5) the psychological effects of sports and exercise. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

PSY 3337. Psychology of Prejudice, Discrimination, and Hate.
This course will explore psychological theories and factors that underlie prejudice, discrimination, and hate. Although the course will focus primarily on these issues as they have developed and influence realities in the United States, global issues will also be explored. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
PSY 3338. Service Learning: Protecting the Vulnerable.
This course examines clinical, legal and psychosocial conditions of adults who, due to mental illness, developmental impairments, brain injuries or aging, are declared “incapacitated” and have court-appointed guardians. Students will serve as the probate court representatives who inspect living conditions and services for individuals under the court-ordered guardianships. Prerequisite: PSY 1300 with a grade of "C" or better and Instructor Approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the acquisition and use of knowledge, contemporary research on perception, pattern recognition, memory, thinking, problem solving, and language comprehension. (WI) Prerequisite: PSY 1300 & 3402 both with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

The course provides theory, research, and application of psychological principles that affect humans in education, business, and personal life. Emphasis is placed on effective use of reinforcement, classroom management, self-control, relaxation, and assertiveness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3352. Group Processes.
A study of how the individual relates to his group membership. Students will analyze the development and functioning of their own groups, with attention to such issues as problems faced by group members in the early phases of a group’s existence, leadership roles, group pressure, and trust. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3353. Computer Applications in the Social and Behavioral Sciences and Education.
The principles of data analysis and interpretation using SPSS. Topics studied include data entry and management, statistical concepts, hypothesis testing and the proper interpretation of SPSS output. Prerequisite: PSY 3301 and PSY 3302.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3361. Health Psychology.
Surveys contemporary theory and research on body/mind interaction in physical and mental health. Emphasis on personality, psychosocial, and stress factors in physical health. Other topics include the effects of physical health on psychological well being, pain management, longevity and aging, and coping with illness and dying. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3402. Experimental and Research Methods.
This course introduces students to basic instruction in experimental design, data collection, and technical report writing in Psychology. By examining applications of various methodologies, this course provides information on the steps involved in crafting and executing empirical research projects as well as instruction on procedures and software. (WI) Prerequisite: PSY 1300, 2301 and PSY 2101 with grades of C or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3404. Advanced Research Methods.
The course provides students with the opportunity to conduct original research in psychology using best practices in research methods. Course requirements include obtaining IRB approval, conducting research, analyzing results and presenting findings in a professional setting. (WI) Prerequisite: PSY 1300 with a grade of "C" or better, PSY 3402 with a grade of "B" or better, and instructor consent.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4318. Psychological Tests and Measurements.
The course provides an introduction to basic principles, research, and theories on testing and measurement of psychological constructs. It includes validity, reliability, item analysis, administration, scoring, and interpretation of existing tests and measures, and construction of new measures including surveys and other psychological instruments. Prerequisites: PSY 1300, 2101 and PSY 2301 with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 4342. Learning and Memory.
A study of memory and learning in humans and animals. Attention is given to comparative cognition, cognitive and neuropsychological aspects of memory, and memory deficits. (WI) Prerequisite: PSY 1300 & 3402 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course focuses on Glasser's concepts of Choice Theory and Reality Therapy. This course explores how the "total behaviors" and choices we make impact our lives, the kinds of relationships we want to have with others, health and quality of the life. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PSY 4352. Introduction to Clinical Psychology.
Overview of clinical psychology. Emphasis on current theories and methods of individual psychotherapy. Class discussions of readings, films, audiotapes, and live examples illustrating approaches. Experiential learning via class exercises in pairs and small groups and by role-playing both therapist and client in a series of helping sessions. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4390B. Emotion and Human Behavior.
This course will provide an advanced understanding of the multifaceted phenomenon of emotion and its effect on human behavior. Students will be introduced to the philosophical and theoretical underpinnings of emotion, the various individual emotions (e.g. fear, anger, happiness) and will learn how emotion can affect physical and psychological health.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4390N. Psychopharmacology.
This course reviews psychopharmacology topics including: neuronal and chemical mechanisms underlying drug action; environmental factors modulating the impact of drugs on emotion, cognition, perception and behavior; the processes underlying drug dependency, tolerance, and withdrawal; and the implications for drug abuse treatment and prevention strategies, especially concerning adolescents. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4390P. Human Factors and Ergonomics.
This course examines characteristics of people that are applicable to the design of systems and technological devices. This course will illustrate how methods and principles of human factors and ergonomics enhance the usability, safety and performance of human-machine systems. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4390Q. Introduction to Developmental Disabilities.
This course will provide students with perspectives on the causes, manifestations, and treatment of developmental disabilities throughout the lifespan. Historical views and societal issues will be investigated along with current practices and research. Prerequisite: PSY 1300 and PSY 3315 with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4390R. Intermediate Statistics.
This course introduces statistical methods designed for psychological research with multiple independent variables. Topics include factorial analysis of variance and multiple regression. Interpreting interaction effects is a main focus. This is a practice-based course that will cover both the theoretical contracts and also step-by-step computer procedures. Prerequisite: PSY 1300, 2301 and PSY 2101 with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4391. History and Theory.
Study of the evolution of psychology as a science through a systematic review of the principal scientific and philosophic antecedents of modern psychology, and analysis of the status of the major contemporary theoretical schools. (WI) Prerequisite: PSY 1300, 3302 or PSY 3402 with grades of "C" or better, and 24 Psychology hours.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4393. International Psychology.
The course focuses on the history, status, and future directions of scientific and professional psychology throughout the world. It requires reading about, discussing, and writing about the relatively new specialty area of international psychology. The objective is to deepen students’ knowledge of psychology’s relevance to the solution of global problems. Prerequisite: PSY 1300 with a grade of "C" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4395. Individual Study.
Students design and execute original research, or engage in extensive fieldwork, in the field of psychology under the supervision of a faculty member. All students planning to attend Graduate School are advised to enroll in the course. May be repeated once for additional credit. Prerequisite: PSY 1300 and 3402 with grades of "C" or better and consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PSY 4396. Internship in Psychology.
Extensive field work in a professional setting related to psychology. May be repeated once for additional credit. Prerequisites: 12 hours of PSY and consent of instructor.
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
Bachelor of Arts (B.A.) Major in Psychology

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors). The minor in Forensic Psychology and the minor in Sport Psychology are not allowed with the B.A. major in Psychology.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses). Of these, at least 18 advanced hours must be in Psychology. Sufficient courses from the minor and other electives must be selected to ensure a total of 36 hours of advanced coursework.

5. Nine hours of writing intensive courses (not including ENG 1310 or ENG 1320) are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the B.A. major in Psychology are required to complete at least one course from each of Groups A-C and to complete PSY 4391.

Total Hours: 120

1. Foundation course for all serious study of psychology; much material covered in later courses depends on a thorough knowledge of topics in these five. These courses are required before students take Group C courses and PSY 4391. PSY 1300 is a prerequisite for all other PSY courses (except PSY 2311).

2. Majors are required to complete their BA Science requirement by taking one additional science and/or mathematics course, to be selected from the following disciplines: ANTH 2414 or ANTH 2415, any advanced Physical Anthropology or Archaeology course, biology (above 1421), chemistry, physics (including astronomy), mathematics (1317 and above), computer science (1319 and above), geology, PHIL 2330 (only), or GEO 1305 or GEO 2410 (only).
Bachelor of Science (B.S.) Major in Psychology

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students in the Bachelor of Science (B.S.) degree with a major in Psychology are required to take at least one course from each of Groups A-C and to take PSY 4391.

3. A science minor must be selected from the Departments of Anthropology (courses to be taken from Physical, Forensic, or Archaeology), Biology, Chemistry and Biochemistry, Computer Science, Geography, Mathematics, or Physics.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses). Of these, at least 18 advanced hours must be in Psychology. Sufficient courses from the minor and other electives must be selected to ensure a total of 36 hours of advanced coursework.

5. Nine hours of writing intensive courses (not including ENG 1310 or ENG 1320) are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Minor in Forensic Psychology

The minor in Forensic Psychology requires 21 semester credit hours.

Required Courses

- PSY 1300 Introduction to Psychology
- PSY 3315 Abnormal Psychology
- PSY 3316 Personality Psychology
- PSY 3331 Social Psychology

Choose 15 hours of any PSY courses, of which 12 hours must be advanced (3000 or 4000 level)

Total Hours 21

Minor in Sport Psychology

The minor in Sport Psychology requires 21 semester credit hours.

Required Courses

- ESS 3323 Psychosocial Aspects of Exercise and Sport Science
- ESS 3329 Motor Learning
- PSY 3321 Sensation and Perception
- PSY 3331 Social Psychology
- PSY 3336 Sport Psychology
- PSY 3350 Cognitive Behavioral Therapies

Choose 3 hours from the following:

- PHIL 3326 Philosophy and Sport
- SOCI 3340 Sociology of Sport and Leisure

Total Hours 21

Department of Sociology

Undergraduate Academic Center Room 449
Telephone: 512-245-2113 Fax: 512-245-8362
Sociology is the scientific study of individuals and groups within society. Through research and critical examination, sociologists study human interaction and social institutions to answer society’s most complex questions. The Department of Sociology is home to student-centered faculty who bring diverse research interests into the classroom. Students have the opportunity to take courses from content areas of race and social class, gender and sexuality, criminology and social deviance, aging and dementia, popular culture, social movements, sustainability, and the environment. Sociology remains essential to a liberal arts education by preparing students to think critically about the world around them while applying practical skills in research methods and data analysis.

Sociology majors may choose the Bachelor of Arts in Sociology or the Bachelor of Science in Applied Sociology. The B.A. degree prepares students for professional or graduate study in the liberal arts tradition; whereas the B.S. provides practical research skills for students who wish to attend graduate school or to enter the work force upon graduation. Both degrees require 39 hours of Sociology coursework; however, the B.S. in Applied Sociology affords students the opportunity to complete an internship prior to graduation. Throughout the internship, students learn how to connect their classroom education to employment or graduate school opportunities.

Both degree programs include a data analysis course where students will use statistical software packages to learn how to collect, analyze, interpret, and present data on a variety of social phenomena. Qualitative and quantitative research courses teach students practical methods for conducting research while enhancing critical thinking and writing skills. Graduates are prepared for a variety of employment opportunities, including law, management, education, non-profit and community work, data analysis, politics and public administration, social services, and human resource management in business, government and industrial settings.

The Department of Sociology provides academic advising and encourages all students - declared and prospective - to take advantage of these services. Suggested degree plans, while helpful in planning an academic schedule, should not be used in lieu of academic advising.

Bachelor of Arts (B.A.)

- Major in Sociology (p. 559)

Bachelor of Science (B.S.)

- Major in Applied Sociology (p. 560)

Minors

- Aging and the Life Course
- Sociology (p. 561)
- Studies in Popular Culture (p. 562)

Courses in Sociology (SOCI)

www.soci.txstate.edu (http://www.soci.txstate.edu)

SOCI 1310. Introduction to Sociology.
A survey of the basic concepts in sociology including social organization, culture, socialization, groups, and human population leading to the development of a sociological perspective of human behavior. SOCI 1310 and SOCI 3300 may not both be counted for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Soc & Behav Sciences Core 080  
Grade Mode: Standard Letter  
TCCN: SOCI 1301

SOCI 2320. Social Problems.
This course examines community problems, significant social issues, and disorganization in major social institutions in contemporary American society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
TCCN: SOCI 1306

SOCI 3300. Principles of Sociology.
Survey of the discipline of sociology, including socialization, social institutions, collective behavior, urban and community studies, demography, race relations, culture, and personality. Emphasis on basic concepts and the behavioral science approach to the study of human groups. SOCI 1310 and SOCI 3300 may not both be counted for credit. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter  
The application of descriptive and inferential statistics of behavioral science data.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
The content of popular culture, including movies, television, genre novels, popular music, fads and fashion, sports, contemporary folklore, festivals and celebrations, clothing and body decoration, and related cultural material, is examined and analyzed for social significance.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
This course introduces the student to some of the uses of various existing statistical software packages including proper application, limitations, and interpretations of results. Prerequisites: Three hours of statistics or departmental approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
TCCN: SOCI 3319. Social Psychology.
The basic course in social psychology; the nature of the individual in society; the process of socialization; the human personality; personality and social adjustment; and social interaction.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter
SOCI 3320. Population Dynamics.
A study of the composition of the world's population, focusing on growth, problems, politics, and controls. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3322. Sociology of Latinos and Immigration.
This class will examine the impact that immigration and migration have on the growth of the Latino population as well as current debates surrounding immigration and its future in the U.S.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

SOCI 3324. Social Stratification.
The study of inequality as it relates to occupational, educational, religious, political, and other social activities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3325. Social Deviance.
Theoretical and descriptive analysis of the major types of deviant behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3327. Multicultural Relations.
The nature and the problems inherent in racial and other minority groups, with special reference to the American scene.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3328. Complex Organizations.
The study and analysis of complex organizations, bureaucracies, and professions and their influence on individuals and society and its institutions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3329. Life Course Sociology.
This course examines major sociological approaches to the study of the human life course. Theoretical approaches reviewed include age stratification, the life course perspective, and constructivist and critical approaches to the life course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3330. Globalization and Development.
This course covers the sociology of globalization and development. Students will learn about theories of globalization; the effects of globalization on cultural, economic and political life; and factors at different levels of analysis affecting socioeconomic development, security, human rights, and democracy around the world.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course explores the dynamic and interactive relationships between music, culture, and society. Popular American music - from blues, gospel, ragtime, jazz, country, and swing to rock, disco, punk, alternative, and rap - will be analyzed as reflections of culture, as society's "voice," and as a powerful instrument of socialization and social change.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3337. The Family.
A comparative study of the family in various cultures, both historical and contemporary, with attention to the family in terms of social organization, social change, and social disorganization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3338. Family Problems.
This course applies sociological knowledge to common problems encountered in families: spouse and child abuse, elder abuse, catastrophic illness, suicide, unemployment, poverty, teen pregnancy, aging and gender issues. Worldwide traditions and norms affecting the institution of the family are also reviewed. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3340. Sociology of Sport and Leisure.
The theories and research in leisure and popular culture will serve as the broad framework. An emphasis will be placed on the sub-area of sport sociology, including such topics as sport and aggression, competition, children, women, minorities, professionalism, and others.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3343. Criminology.
The various theories of crime, the cause of crime, areas of crime, treatment of criminals through the courts, punishment, reform, education, probation, and parole, and means of crime prevention.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3344. The Sociology of Law.
This course introduces students to the function of law in human societies. Theories relevant to the study of law as a mechanism of social control and social change will be discussed. Law as a social institution, the training of lawyer, and their socialization into the role of lawyer will be examined.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3347. Juvenile Delinquency.
Delinquency in modern society, basic factors and conditions of juvenile delinquency, and the problem of delinquency control.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOCI 3348. Social Control.
An examination of the creation and maintenance of order in society, including socialization and institutions which respond to disorder. Included areas are education, religion, law, welfare, and medicine. Focus on law as both a mechanism of control and the basis for control in other institutions in industrial society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3349. Drugs and Society.
A sociological examination of the social context of drug abuse with emphasis on the social factors, processes, and institutions that impact drug abuse. Applications of sociological theories and research methods will be studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3350. Men, Women, and Societies.
This course examines the relations between male and female roles throughout the world, including the United States, Europe, and third world countries. Special attention is given to changes in these roles and the consequences of such changes for societies, including familial, marital, and sexual relationships. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3353. Urban Society.
A study of urbanization as a social phenomenon with attention to traditional sociological studies of the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3358. Work and Society.
This course will explore sociological studies of work and occupations, including the structure of work, economic changes, and concerns of workers such as earnings, promotions, and unemployment. It is divided into three main topics: the social organization of work, current work trends, and inequalities at work.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An examination of the social determinants and consequences of human health, morbidity, and mortality, including considerations of health institutions, organizations, professionals, and clients. Social epidemiology of human diseases and mortality and changing relationships of acute and chronic diseases are stressed. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 3365. Society and Environment.
This course addresses issues emerging from the reciprocal relationship between society and its environment. The impacts of social and economic organization, social class, and government policies on the physical and social milieu will be examined in order to produce a better understanding of social and environmental interactions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3367. Sustainable Cities.
This course uses sociological insight to develop a broader understanding of key concepts and debates about the sustainability of cities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3372. Food and Society.
Consumption is an integral part of social life in the United States, shaping how we see ourselves and others. While consumption can enhance consumers’ lives, it is linked to a host of social and environmental problems. This course critically examines such problems and explores alternatives to the way of life that is consumerism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOCI 3375J. Sociology of Consumption.
Consumption is an integral part of social life in the United States, shaping how we see ourselves and others. While consumption can enhance consumers’ lives, it is linked to a host of social and environmental problems. This course critically examines such problems and explores alternatives to the way of life that is consumerism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOCI 3375K. Social Movements.
This course examines social movements, repeated display of collective action outside sanctioned political channels to bring about social change. Different theoretical approaches to social movements will be reviewed to determine how movements organize, attract members, utilize resources, ideologically frame their issues, and engage in unconventional tactics to influence public policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOCI 3375L. Mind and Society.
This course provides an overview of mental health and illness with an emphasis on how social environments and structures influence mental well-being. We will explore the causes and consequences of mental health disorders. We will also examine policies and programs aimed at improving mental health in society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
SOCI 3375M. Latinos and Aging.
This course offers an understanding of the growing Latino aging population in American society, highlighting issues related to their social, familial, economic, physical, and mental well-being. This course will also cover social programs, health and human service needs, and social policies affecting Latino elders.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOCI 3383. Aging and Society.
This course is an introduction to the sociology of aging and social gerontology. It employs a multicultural perspective to examine diversity in the aging process as influenced by societal forces.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3384. The Sociology of Death and Dying.
A study of the sociological and social psychological perspectives on death and dying in contemporary societies with particular emphasis on the meanings of death, on dying as a social process, and on death in the context of both social organization and the life cycle.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3390. Technology and Society.
The subject of this course is the relationship between technologies and social institutions. Topics covered may include but are not limited to theories of sociotechnical change, diffusion, social constructivism, modernity and rationalism, and case studies of transformative technologies such as the clock, the car, and the birth control pill.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3395. Sociology of Sexuality.
Sexuality is explored from a social constructionist perspective, in contrast to essentialist and biological determinist perspectives dominating the Western understanding of sexual roles and behavior. Sexual identity, desire, behavior, response, and health are viewed as socially constructed, largely in response to concerns about societal order.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 4306. Sociological Theory.
This course will examine classical sociological theories and the contemporary theories that follow from them. The major approaches covered are functionalism, conflict theory, symbolic interaction, and phenomenology. Prerequisites: twelve hours of Sociology or departmental approval. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 4308. Quantitative Research Methods.
Basic issues in social research are introduced, while emphasizing design and analysis of quantitative research studies. Research exercises culminate in a major research paper analyzing secondary data from The General Social Survey. Critique of published research articles is also required. Prerequisites: SOCI 3307 and SOCI 3318. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 4309. Qualitative Research Methods.
This course examines issues in the sociological research process with an emphasis on qualitative methods. Students will design, propose, and submit a qualitative study based on an extensive review of the sociological literature. Prerequisites: twelve hours of Sociology, or departmental permission. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 4360. Directed Study.
(By arrangement) A course of independent study open to superior students by permission of the professor and approval of the Chair of the department. May be repeated with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOCI 4690. Internship in Applied Sociology.
This course is a supervised work experience related to students’ career interests. Requirements include seminars and a 300-hour internship for 15 weeks during long semesters or 10 weeks in the summer. This course is limited to BS majors who meet all prerequisites and can be taken for credit only once.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Sociology

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
Bachelor of Science (B.S.) Major in Applied Sociology

Total Hours: 120

1 In the senior year, majors must complete a field internship (SOCI 4690) related to their applied sociological training and minor concentration. Enrollment in the internship requires completion of all other course work in the major and a Texas State GPA of 2.00, a major GPA of 2.25 and a minor GPA of 2.00.

**Minor in Aging and the Life Course**

The minor in Aging and the Life Course requires 18 semester credit hours. Students who want a minor that may lead to a career studying gerontology or working with people in their various life stages, including their final stage, should select Aging and the Life Course as a minor.

**Required Courses**

Choose 9 hours from the following:

- PSY 3313 Psychology of Adulthood and Aging
- SOCI 3329 Life Course Sociology
- SOCI 3333 Aging and Society
- SOWK 4320 Social Work with Older Adults

Choose 9 hours from the following:

- PSY 3321 Health Psychology
- SOCI 3337 The Family
- SOCI 3338 Family Problems
- SOCI 3358 Work and Society
- SOCI 3383 Aging and Society
- SOCI 3384 The Sociology of Death and Dying
- SOCI 3395 Sociology of Sexuality
- SOWK 4320 Social Work with Older Adults

Total Hours 18

**Minor in Sociology**

The minor in Sociology requires 18 semester credit hours.

**Required Course**

SOCI 1310 Introduction to Sociology or SOCI 3300 Principles of Sociology
Minor in Studies in Popular Culture

The minor in Studies in Popular Culture requires 18 semester credit hours. The minor is designed to acquaint students with trends in American popular culture. Techniques of research, social meanings and consequences of popular culture are the major foci of the minor.

Courses for the Studies in Popular Culture minor were selected because they deal with significant aspects of everyday life ranging from mass media through the history of cultural trends and phenomenon. The courses selected deal with subjects that both are influenced by and influence popular culture.

College of Science and Engineering

Dean
Christine E. Hailey, Ph.D.
Centennial Hall Room 201
Telephone: 512.245.2119 Fax: 512.245.8095
http://www.cose.txstate.edu/

Associate Dean
Gary Beall, Ph.D.
Assistant Dean
Chad Booth, Ph.D.
Assistant Dean
Gregory B. Passy, Ph.D.

Department Chairs/School Directors
Biology—Dittmar Hahn, Ph.D.
Chemistry and Biochemistry—William J. Brittain, Ph.D.
Computer Science—Hongchi Shi, Ph.D.
Engineering—Stan A. McClellan, Ph.D.
Engineering Technology—Andy H. Baty, Ph.D.
Mathematics—Susan Morey, Ph.D.
Physics—Mark W. Holtz, Ph.D.

The mission of the College of Science and Engineering is threefold: to prepare students for careers in the natural sciences, mathematics, computer science, engineering, or technology; to provide general scientific and mathematical backgrounds for non-science majors; and to prepare students for advanced training in professional or graduate schools. To accomplish its mission the College maintains an academic atmosphere conducive to excellence in teaching and research and enforces high standards of performance for faculty and students.

To ensure an understanding of basic scientific concepts, the College offers extensive opportunities for student participation. Students gain experience in laboratories, interact with the environment through field studies, conduct undergraduate research, and train in technologically advanced instrumentation. A combination of student participation, rigorous classroom instruction, and library research gives majors a competitive advantage in career advancement or in the selection of professional or graduate colleges. The non-science major is assured of adequate scientific knowledge to make informed decisions essential to citizens in a science-oriented, technological world.

The seven academic units in the College of Science and Engineering are the Departments of Biology, Chemistry and Biochemistry, Computer Science, Mathematics, Physics, and Engineering Technology, and the Ingram School of Engineering.

Majors offered in the College include applied mathematics, aquatic biology, biochemistry, biology, chemistry, computer science, concrete industry management, construction science and management,
electrical engineering, engineering technology, industrial engineering, interdisciplinary science, manufacturing engineering, mathematics, microbiology, physics, technology management, and wildlife biology. In addition, pre-professional programs of study are available in dentistry, medicine, and pharmacy. Secondary teacher certification may be incorporated into some of the majors.

Academic Advising Center
Centennial Hall Room 202
T: 512.245.1315 F: 512.245.9210
www.cose.txstate.edu/advising

The College of Science and Engineering Undergraduate Academic Advising Center advises current students on academic and administrative issues. Students are informed about matters related to academic general education core requirements, scholarships and awards within the College, the selection of an appropriate major and minor, the selection of appropriate courses, transfer and correspondence courses, academic probation/suspension, the choice of an educational program leading to a bachelor's degree, and participation in pre-professional programs. The Advising Center is a resource for current students who are considering a science major or pre-professional program and provides assistance for students applying for graduation. Career counseling is available in the academic unit of the student's major and through Career Services.

Teacher Certification
Currently, there are eight Texas science-related teacher certification programs available at Texas State University:

- Chemistry (B.S. major in Chemistry),
- Computer Science (B.A. or B.S. major in Computer Science),
- Life Sciences (B.S. major in Biology),
- Mathematics (B.S. major in Mathematics),
- Physical Science (B.S. major in Chemistry or a B.S. major in Physics),
- Physics/Mathematics (B.S. major in Physics),
- Science (B.S. major in Interdisciplinary Science), and
- Technology Education (B.S. major in Technology Management).

Students seeking any of these certifications need to follow coursework leading to a degree in the appropriate science field, in addition to taking the required certification courses. Relevant information can be found within each departmental section of the catalog. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student.

Students interested in certification are strongly encouraged to see the Science and Engineering Advisor early in their undergraduate program or certification process.

The Bachelor of Science (B.S.) major in Interdisciplinary Science is designed to broadly train students in a wide spectrum of science disciplines in preparation for the Science teacher certification exam for grades 7 through 12. Admission into the program requires both admission to the university and to the Teacher Preparation Program. The Teacher Preparation Program admittance requirements are found in the College of Education section of this catalog. Students successfully completing the program and the Science teacher certification exam will be prepared to teach any high school science subject and in informal science educational settings within communities. There is a high job market need for science teachers nationally and in Texas. Students must enroll and complete all of the required courses in the following degree plan in order to sit for the teacher certification exam.

### Bachelor of Science (B.S.)

- Major in Interdisciplinary Studies (Teacher Certification in Science, Grades 7-12) (p. 563)

### Minors

- Second Teaching Field in Life Science (Grades 7-12) (p. 564)
- Second Teaching Field in Physical Science (Grades 6-12) (p. 565)

### Bachelor of Science (B.S.) Major in Interdisciplinary Science (Teacher Certification in Science, Grades 7-12)

**Minimum required: 132 semester credit hours**

#### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. A minor in Secondary Education is required.
3. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a “C”.
4. A GPA of at least a 2.75 in all science courses with no grade below a “C”.
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Nine semester credit hours must be writing intensive (WI).
7. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
8. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
Second Teaching Field in Life Science (Grades 7-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in Life Science, the requirements are:

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

## Department of Biology

Supple Building Room 384  
Telephone: 512-245-2178 Fax: 512-245-8713  
www.bio.txstate.edu (http://www.bio.txstate.edu)

Biology is the study of living systems and how they function. Because the biological sciences have had and continue to have profound impact on questions of concern to human society - longevity, environmental quality, biotechnology - knowledge of the biological sciences is an essential aspect of higher education.

Biologists find employment in research laboratories, regulatory agencies, and education. Interested students should see the major area advisors.

Biology majors take a minimum of 11 courses that include the core curriculum of Functional Biology, Organismal Biology, Genetics, a biological diversity course, a physiology course, Ecology, and Evolution. At the sophomore level and above, a variety of courses in cellular and organismal biology assure a broad education in any of the regions of specialization. Additional required courses in chemistry, mathematics and physics provide a broad scientific background. A minor outside the Biology Department is required for all areas of study except for the Wildlife Biology program. The B.S. major in Biology or in Microbiology is often the choice for those seeking pre-medical and pre-dental education as the courses required for graduation fulfill all the prerequisites required for admission to medical or dental school.

### Teacher Certification

Students may earn the Life Science (Texas Grades 7-12) certification through a B.S. major in Biology. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science and Engineering Advisor early in their undergraduate program or certification process.

### Bachelor of Science (B.S.)

- Major in Aquatic Biology (p. 575)
- Major in Biology (p. 575)
- Major in Biology (Teacher Certification in Life Sciences, Grades 7-12) (p. 576)
- Major in Microbiology (p. 578)
- Major in Wildlife Biology (Leading to The Wildlife Society Certification as a Wildlife Biologist) (p. 579)

### Minors

- Biology (p. 580)

Subjects in this department include: BIO (p. 565), GS (p. 574)

### Courses in Biology (BIO)

BIO 1320 and BIO 1421 may be taken in any order. BIO 1320 and BIO 1421 will not meet the requirements for medical or dental schools.

Total Hours: 46
BIO 1130. Functional Biology Laboratory.
Fundamental techniques and instruments used in cellular biological research will be taught while emphasizing safety, measurements, and scientific methods. Students will design and implement controlled experiments, identify independent and dependent variables, analyze data, draw conclusions, and communicate results with appropriate tables and graphs in oral presentations and written papers.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: BIOL 1106
Course Fee: $5; Fee - Lab BIO

BIO 1131. Organismal Biology Laboratory.
This course introduces the students to the basics of experimental design, scientific method and inquiry, use of statistical analyses and writing research papers. Topics covered include Mendelian and population genetics, natural selection, population ecology, phylogeny, and behavioral ecology.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: BIOL 1107
Course Fee: $5; Fee - Lab BIO

BIO 1320. Modern Biology I, Molecules, Cells, and Physiology.
Provides students with basic scientific and biological principles. Current problems in biology and the ethics of science are presented with perspectives of public policy from a scientific viewpoint. This course is not recommended for majors in the natural sciences, including biology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: BIOL 1308

BIO 1330. Functional Biology.
This course provides the students with a strong foundation in cellular and molecular biology. Topics include biochemistry, energy metabolism, molecular bases of gene regulation and protein functions, cell division and control, and cell signaling. This course is required for all biology majors and is not recommended for non-science majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: BIOL 1306

BIO 1331. Organismal Biology.
This course provides science majors with a foundation in organismal biology, Mendelian and population genetics, evolution and ecology. Topics include: patterns of inheritance, genetics, evolution, speciation, phylogenetics, and behavioral population, community, and ecosystem ecology. This course is required for all biology majors and is not recommended for non-science majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: BIOL 1307

This course provides the non-science major the strong and diverse background necessary to understand the structural and functional diversity of organisms, evolution and behavior, and interactions among organisms and their environment. Topics include issues such as the genetic basis of behavior, overpopulation and extinction, ozone depletion, and conservation biology. This course is not recommended for majors in the natural sciences, including biology.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: BIOL 1409
Course Fee: $5; Fee - Lab BIO

BIO 2400. Microbiology.
Principles of microbiology, morphology, anatomy, physiology and taxonomy of representative groups of non-pathogenic organisms. Laboratory methods stress studies of pure cultures, the use of laboratory apparatus in quantitative determinations and the detection and identification of microbial populations in the environment. Prerequisites: BIO 1330 and BIO 1130, and BIO 1331 and BIO 1131; and CHEM 1341 all with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2421
Course Fee: $5; Fee - Lab BIO

BIO 2410. Intermediate General Botany.
An introduction to the biology of plants and plant-like organisms, emphasizing their role in ecosystem processes, relationships between structure and function, and the evolutionary relationships among the major plant groups. Prerequisites: BIO 1330 and BIO 1130, and BIO 1331 and BIO 1131 with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 2411. Intermediate Zoology.
Provides biology majors a strong foundation in animal biology at the organismal level. The format will include details of animal form and function as well as concepts relating to classification, phylogeny, evolution, and ecology. Topics will include natural history, biogeography, adaptations to local environments, shared characters, and behavior. All material is presented in an accepted phylogenetic sequence. Prerequisites: BIO 1330/BIO 1130, and BIO 1331/BIO 1131 all with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

Mammalian systems will be emphasized. Prerequisites: BIO 2450 with a grade of C or higher.</td>
<td>4</td>
<td>3</td>
<td>0</td>
<td></td>
</tr>
</tbody>
</table>
BIO 3430. Mycology.
A study of the fungal kingdom including slime molds and lichens. Laboratory studies will emphasize taxonomy, morphology and culture techniques. Prerequisites: BIO 2410 or BIO 2400, BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3442. Virology.
The structure, multiplication and genetics of bacterial, plant, and animal viruses. The role of viruses in human and plant disease. Prerequisites: BIO 2400, BIO 2450 with grades of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 3460. Aquatic Biology.
An introduction to plant and animal life in the fresh water habitats of the local area. Prerequisites: BIO 2411, BIO 2450 with grades of "C" or higher; and one year of Chemistry. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 3461. Plant Taxonomy.
Principles of identification and classification of plants; nomenclature and characteristics of various plant groups with emphasis on the higher plants. Prerequisites: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 3465. Plant Physiology.
Basic principles of plant physiology studied in lecture and laboratory. Prerequisite: BIO 2450 with a grade of "C" or higher or consent of instructor. One semester of organic chemistry is strongly recommended.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 3470. Invertebrate Zoology.
A study of the comparative morphology, evolution, systematics and natural history of invertebrates. Prerequisites: BIO 2411, BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 3480. Histology.
A study of the structural and functional relationships between cells and tissues in organs. The laboratory includes the study of prepared slides and of microtechnique. This course is designed to meet the needs of pre-professional students. Prerequisite: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

This course will cover basic principles of developmental biology in both plant and animal systems. Course will mainly address cell, molecular and genetic mechanisms underlying the development of model organisms. Prerequisites: BIO 1430 and BIO 2450.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 4126. Immunology Laboratory.
This laboratory-based course will cover cells of the immune system and basic serological reactions, including bacterial and viral agglutination reactions, precipitation, immunoelectrophoresis, immunofluorescence, and enzyme-linked immunosorbent assays. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher. Pre- or co-requisite: BIO 4326.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 4166. Medical Microbiology Laboratory.
This laboratory-based course will cover pathogenic bacteria emphasizing identification of selected groups of pathogens and the biological basis for virulence. Prerequisites: BIO 2400 and BIO 2450, with grades of C or higher. Corequisite: BIO 4345. (WI).
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

BIO 4299. Undergraduate Research.
Supervised individual research projects in a mentor-student relationship with a biology professor. Available only to biology majors with junior standing and at least a "B" average. May be repeated once for credit. Prerequisites: BIO 2450 with a grade of "C" or higher and consent of the supervising professor.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4300. Neurobiology.
This course will give students an overview of neuroscience, particularly the areas of neuroanatomy, neurophysiology, and evolutionary and developmental neurobiology. Prerequisite: BIO 2450 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
BIO 4301. Evolution.
Basic genetic principles applied to natural selection, adaptation, populations, speciation and man's future. Consideration is given to the origin of life, nature of chromosomal variation, evolution of genetic systems and certain other selected topics. Prerequisite: BIO 2450 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Students will be introduced to the impact human recreational activities have on wildlife habitats and populations. Management practices to enhance human-wildlife encounters or to minimize detrimental effects on wildlife populations will be presented. Prerequisite: BIO 4416.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides a comprehensive survey of natural events. It includes laboratory and field work emphasizing observation, collection and discovery of relationships. It is creditable only for those seeking elementary or middle school certification and is required for those seeking grade 4-8 Science or Science/Mathematics teaching certification. This course must be taken the semester immediately prior to student teaching.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4311. Cancer Biology.
Cancer Biology provides a foundation for understanding the complex molecular, biochemical, and cellular processes associated with cancer development. Topics include the role of tumor suppressor genes, oncogenes, DNA repair, apoptosis, ECM, cell signaling pathways, immune function and cancer-causing viruses. Emerging diagnostics and/or therapeutics will also be discussed. Prerequisite: BIO 2450 Genetics with a grade of C or higher; or approval of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is an introduction to the protection and sustainable use of populations, species, habitats, and ecosystems. Course also includes study of the methods used to analyze biodiversity and population regulation. Prerequisite: BIO 4416 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4326. Immunology.
This lecture-based course will cover the biology of the immune system and its relationship to disease, emphasizing B and T cell immunity, immune diseases, hypersensitivities, transplantation, and cancer. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4350B. Biological Implications of Water Planning in Texas.
Current topics in understanding the biological implications of water planning in Texas. This course will be of particular interest to students who have a background in aquatic biology and who intend to stay in Texas post-graduation. Prerequisites will be determined by topic and faculty offering the course. May be repeated once with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350D. Watershed Management Frameworks and Applications.
Introduction to integrated watershed assessment and management tools for identifying programmatic water quality and quantity issues and their root causes and solutions, and their practical application. The scientific and socio-economic elements are considered within the context of planning and developing watershed protection plans and programs. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350E. Techniques in Aquatic Biology.
This course will provide hands on experience with a suite of physical, chemical, and biological sampling techniques and gear used in applied river studies. Students will be exposed to the fundamentals of data quality objectives, accuracy, precision, detection limits, data visualization, exploratory analysis, univariate and multivariate statistics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350I. Bird Conservation and Management.
This course is an introduction to the conservation and management of bird populations in an ecological context. Course covers a variety of species and spatial scales from landscape to ecoregion. Laboratory portion will involve field trips, intensive computer-based labs, and class discussion. Prerequisites: BIO 4416 or concurrent enrollment.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350J. Environmental Physiology of Animals.
This course is a study of how animals respond physiologically to changes in environmental temperature, moisture, salinity, partial pressure of gases, and toxins. Prerequisites: BIO 1330, BIO 1331, and BIO 2450 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
BIO 4350K. Genomics.
The course is a lecture covering modern genomics, including principles of genome function, the human genome, comparative genomics, genome sequencing, evolution and genomic change, databases and medicine, ethical, legal and social issues. The course also includes discussion of transcriptomics, proteomics, metabolomics, directed evolution, protein design, and systems biology. Prerequisite: BIO 2450 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350L. Bacterial Genetics.
This course will cover concepts and mechanisms involved in the genetics of Archaea and Bacteria.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350M. Wildlife Policy and Law in North America.
This course provides the student with a historical and cultural context within which wildlife policy and law have developed in North America, particularly in the United States. Federal treaties, statutes, case law, and regulations pertaining to wildlife will be presented. Wildlife law from representative states will be referenced as well. Prerequisite: BIO 4423 or 4435 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350N. Aquatic Toxicology.
This course examines the basic concepts of aquatic toxicology, including uptake mechanisms, interactions and elimination of different toxicants. Students will understand how toxic substances impact freshwater and marine environments and identify potential health impacts to humans. Topics to be discussed include nutrients, metals, petroleum, radionuclides, plastics and emerging contaminants. Restricted to Junior standing. Prerequisite: A minimum 2.5 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350O. Tropical Ecology and Conservation.
This laboratory course complements the lecture course BIO 43500, in which students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction in tropical ecosystems. Corequisite: BIO 43500.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This laboratory course complements the lecture course BIO 43500, in which students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction in tropical ecosystems. Corequisite: BIO 43500.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350Q. Biological Oceanography.
This course examines the economic importance of marine resources and the exploitation and fragility of the marine environment. Topics to be examined include ocean ownership, overfishing, aquaculture, shark finning, whaling, ocean mining, marine transportation, tourism, pollution, harvesting energy from the ocean and the importance of creating marine reserves.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350R. Microbial Biotechnology.
This course provides an overview of how microbes (e.g., bacteria, viruses and yeast) are manipulated to solve practical problems through biotechnology. It is designed on topics of applied microbiology recommended by American Society of Microbiology. Prerequisites: BIO 2400 and BIO 2450 (or equivalent), with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350S. Marine Resources.
This course examines the economic importance of marine resources and the exploitation and fragility of the marine environment. Topics to be examined include ocean ownership, overfishing, aquaculture, shark finning, whaling, ocean mining, marine transportation, tourism, pollution, harvesting energy from the ocean and the importance of creating marine reserves.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

BIO 4350T. Field Biology of Ireland.
In this course, students will use multiple techniques to explore biodiversity across multiple ecosystems in Ireland. Must be accepted into the Texas State in Ireland Study Abroad program.
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
BIO 4350U. Ecology of Rarity.
This course will examine the ecology of rarity and its ability to inform public awareness and environmental policy. This course will explore how we define rarity, persistence and viability, is rarity more or less common than might be expected, and is there anything we can or should do about it?
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350V. Fish Physiology.
This course examines the primary physiological functions in fish, including how fish sense and interact with the environment, maintain their energetic metabolism (respiration, digestion and excretion), reproduce and maintain water balance. Students will learn about the diverse adaptations fish use to cope with environmental and physiological challenges. Prerequisite: BIO 2450 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350W. Biology and Conservation of Sharks.
This course examines the biology and conservation of sharks and their relatives (skates, rays and sawfish). Topics to be examined include evolutionary history, distribution, anatomy and physiology, daily movements and migration, diet, reproduction, relationship with humans, fisheries, conservation, and field methods used in shark research. Prerequisite: BIO 2450.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350X. Issues in Irish Biodiversity and Conservation.
In this course, students will learn about Irish flora and fauna, ecosystems, conservation strategies in areas of high ecological concern, and public involvement. Emphasis will be placed on case studies and service-learning opportunities. Prerequisite: BIO 1331 & BIO 1131, Plus student must be accepted into the Texas State in Ireland Study Abroad Program. Corequisite: BIO 4350T.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350Y. Introduction to Laboratory Research Methods.
This course is for students interested in undergraduate research and introduces the fundamental methods and practices utilized in biological research labs. This hands on course covers keeping a lab notebook, following standard protocols, and collecting/analyzing data. Student will be introduced to current research programs offered in the Biology department. Prerequisite: BIO 1330 and BIO 1331 with grades of “C” or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4350Z. Diversity and Cultural Impact of Geoparks.
Students will explore biological differences in diversity across Geoparks in the United States and Ireland. Additionally, students will study the cultural impact that Geoparks have on the local community and national policy by focusing on differences between science communication strategies and community engagement practices conducted at the parks. Prerequisite: Accepted into the summer Texas State Study Abroad program in Ireland.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

BIO 4366. Medical Microbiology.
This lecture-based course will cover pathogenic bacteria and their relationship to disease, epidemiology and the biological basis for virulence. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher. Students may take only one of BIO 4345, BIO 4350G or BIO 4445 for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4369. Biosystematics.
Biological systematics is a multidisciplinary component of most biological disciplines. Course topics include: classification schemes, homology, homoplasy, the application of nomenclature, and phylogeny reconstruction. The course will also present relevant issues in conservation, biodiversity cataloguing, museum and collection management, and identification methods/dichotomous keys. Prerequisite: BIO 2450 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4400. Plants Important for Wildlife.
This course explores plant and plant part (specifically gall, fruit, seed, and twig) identification, phylogenetics, co-evolution of plant defenses, economic and ecological impacts of plant uses by wildlife. Prerequisite: BIO 2410 or BIO 2450.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4402. Earth Science I.
The description and interpretation of earth phenomena considered from the standpoint of meteorology and astrosience. Includes field observations, methods of measurement and interpretation of data related to the physical environment and space technology. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO
BIO 4403. Earth Science II.
The description and interpretation of earth phenomena considered from the standpoint of geology and oceanography. Includes field observations, methods of sampling and interpretation of data related to the physical environment. May not be counted toward a major or a minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4408. Science Processes and Research.
Students will analyze scientific research design, design research, interpret data, and communicate results. Stress will be placed on broad-field structure and integration of major science concepts and research-based science pedagogy. This course must be taken the semester prior to student teaching and is required for those seeking 7-12 Life Science or Science teacher certification. This course may not count as one of the four upper-level Biology courses required of general Biology majors, or one of the three upper-level Biology courses required of Biology minors.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4410. Field Biology of Plants.
Ecological relationships and natural history of plants, including historical geology, geography, soils, vegetational regions and surface geology of central Texas. Emphasis is placed on plant-soil-water relationships to develop conservation concepts. Students will make a representative collection of plants. Prerequisite: BIO 2450 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

The structure, life-cycles and evolution of fossil and living vascular plants. Emphasis on such topics as the origin of land plants, evolution of the ovule, angiospermy, the flower and fruit. Prerequisites: BIO 2411, BIO 2450 with a grade of “C” or higher. Required for those seeking grade 4-8 Science and Mathematics/Science certification.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4412. Plant Anatomy.
The anatomy of vascular plants stressing descriptive, development and comparative aspects of seed plants and the anatomical adaptations of plants to environmental factors. Prerequisites: BIO 2450 with a grade of “C” or higher; one year of Chemistry.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4413. Parasitology.
The biology and biological significance of the common parasites of man and animals. Prerequisites: BIO 2411, BIO 2450 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4415. Ichthyology.
An introduction to the morphology, taxonomy, natural history and evolution of fishes. Field trips will be made to collect specimens and laboratory periods will be devoted to morphological and systematic analysis. Prerequisites: BIO 2411, 2450 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4416. General Ecology.
The ecological relationships that exist between organisms and those relationships that exist between organism and environment. Laboratory sessions will be devoted to literature review and/or specific ecological problems. This course or BIO 4454 is required of all biology majors. Prerequisites: BIO 2450, BIO 2410, BIO 2411, or BIO 2400 with a grade of “C” or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 4418. Field Ornithology.
This course is designed to introduce and provide an advanced knowledge of the application of various field, laboratory, and statistical methods and techniques in the study of avian species. The course will include topics related to survey methodology, sampling design, marking/banding, measurement/sample extraction, and aging/sexing of avian species.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4420. Natural History of the Vertebrates.
Environmental relationships and natural history of vertebrates. Emphasis is upon taxonomy, speciation and biotic provinces. The laboratory will include field trips for the study and collection of animals in their natural habitats. Students will assemble a representative collection of animals. Prerequisites: BIO 2411, BIO 2450 with a grade of “C” or higher and permission of instructor required for non-wildlife majors. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO
BIO 4421. Ornithology.
Introduction to anatomy, behavior, ecology and identification of birds of Texas. Laboratory will emphasize field studies of birds and their habitat requirements. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4422. Mammalogy.
The taxonomy, distribution, ecology, behavior and evolution of mammals with particular emphasis on wild animals of the southwest. Laboratory will emphasize anatomy, identification, preparation of specimens and field exercises in the methods of population analysis. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher. BIO 4416 is also recommended.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4423. Wildlife Management.
Applications of the principles of ecology and natural history to the management of wildlife habitats and control of wildlife populations. Laboratory will involve demonstrations and practice exercises with wildlife management techniques and instrumentation and field trips to observe wildlife management projects. Prerequisites: BIO 2410, BIO 2411, and BIO 2450 with a grade of "C" or higher. BIO 4416, BIO 4421, or BIO 4422 is also recommended. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4425. Biometry.
Basic principles of statistical methods as applied to biological problems such as sampling techniques, analysis of data, experimental design and population dynamics. Emphasis will be on practical application. Prerequisites: BIO 2450 with a grade of "C" or higher; MATH 1315.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4434. Herpetology.
A course treating the origin and evolution of amphibians and reptiles; their reproductive and physiological tactics; taxonomy/systematics; and population biology. Emphasis will be placed on North American species and those groups inhabiting Texas. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4435. Techniques in Wildlife Management.
The basic methodology of practical wildlife management. This involves techniques in monitoring and data collection related to population dynamics and habitat parameters of wildlife species. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher and permission of instructor required for non-wildlife majors.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4441. Cellular Physiology.
Advanced cellular biology, including membrane physiology, thermodynamics, energy transduction and distribution, and cellular movement in non-muscle and muscle cells. Laboratory includes discussion of current research and exercises in cellular physiology. Prerequisites: BIO 2450 and CHEM 2330 or CHEM 2341 or CHEM 2342. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $10; Fee - Lab BIO

BIO 4442. Experimental Techniques.
Use of methods and instruments applicable to biological investigations, including colorimetry; UV-spectrophotometry; fluorescence; flame and atomic absorption spectrophotometry; paper, gas, gel filtration and ion exchange chromatography; radioactive counting; and electrophoresis. Prerequisite: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4446. Microbial Ecology.
This course will illustrate the wide variety of bacteria in nature, their interactions with other organisms and the environments, and their roles in global cycling of elements such as carbon, nitrogen, and sulfur. The laboratories will feature enrichments for selected groups of microorganisms (sulfate reducers, nitrogen fixers) and analysis of these isolates by microscopy, gas chromatography and radiochemical substrate utilizations. Prerequisites: BIO 2400 and BIO 2450 with a grade of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $25; Fee - Lab BIO

BIO 4447. Microbial Physiology and Genetics.
This course will cover fundamental concepts in bacterial physiology and genetics, including central and specialized metabolism, and unique aspects of bacterial genetics. Prerequisites: BIO 2400 and BIO 2450; CHEM 2142 and CHEM 2342 with grades of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $30; Fee - Lab BIO
BIO 4448. Bacterial Genetics.
This course will cover concepts and mechanisms involved in the genetics of Archaea and Bacteria. Prerequisite: BIO 2400 with a grade of C or higher and BIO 2450 with a grade of C or higher.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

BIO 4450. Physiological Ecology of Animals.
This course will cover fundamental concepts in bacterial physiology and genetics, including central and specialized metabolism, and unique aspects of bacterial genetics. Prerequisites: BIO 2400, BIO 2450; CHEM 2142, CHEM 2342 with a grade of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $10; Fee - Lab BIO

BIO 4454. Plant Ecology.
Physiological ecology and community structure and function in the organization of terrestrial plant ecosystems. Quantitative vegetational sampling and the use of field and laboratory physiological equipment are included in the laboratory. This course or BIO 4416 is required of all Biology majors. Prerequisite: BIO 2450 with a grade of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $25; Fee - Lab BIO

BIO 4464. Vertebrate Anatomy.
This course is a comparative study of vertebrate anatomy. Fossil histories are evaluated to understand how vertebrate radiation occurred in the geological past, along with changes in structure of organs and organ systems. Lab includes dissection of representative members of each major vertebrate group. Prerequisite: BIO 2450. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Lab Required Writing Intensive
Grade Mode: Standard Letter
Course Fee: $10; Fee - Lab BIO

BIO 4465. General Entomology.
Principles of morphology, physiology and taxonomy of insects. Laboratory time will be devoted to a taxonomic study of the common orders and families of insects. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $10; Fee - Lab BIO

BIO 4470. Limnology.
The physical, chemical, and biological factors affecting productivity in lakes, ponds, and streams. Limnological sampling methods, chemical, and biological analysis of samples and hydrographic surveying are included in the laboratory. Prerequisites: BIO 2450 with a grade of "C" or higher; one year of chemistry. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required Writing Intensive
Grade Mode: Standard Letter
Course Fee: $25; Fee - Lab BIO

BIO 4472. Animal Behavior.
This course presents all the major facets of the study of animal behavior, giving special attention to its evolution and ecological significance. We will discuss major conceptual models guiding past and present research in the field. Laboratories will emphasize experimental techniques and statistical analysis. Prerequisites: BIO 2450; and BIO 2400, BIO 2410, or BIO 2411 with a grade of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required Writing Intensive
Grade Mode: Standard Letter
Course Fee: $5; Fee - Lab BIO

BIO 4480. Cytology and Microtechnique.
A study of cellular structure and microscopic technique. The lecture portion of the course presents cytology of all cell types and theoretical aspects of microscopy including light and electron-based technologies. The laboratory portion of the course provides training in standard light and electron microscopy, laser scanning confocal microscopy, and digital microscopy. Prerequisite: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $20; Fee - Lab BIO

BIO 4481. Internship in Biological Laboratory Technologies.
The student will participate in the work of a selected biology unit (private, commercial, or governmental). A research paper, reporting the internship experience conducted at the biological unit under the supervision of a faculty member, will be required. This course may be credited toward a biology major with prior approval of the biology department adviser and chair. Prerequisite: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Grade Mode: Standard Letter
Course Fee: $10; Fee - Lab BIO

Courses in General Science (GS)
GS 3310. General Science.
This course is a laboratory course designed to acquaint the student with the fundamentals of chemistry and earth space science. It is non-creditable for science majors but is a required course for Elementary EC-6 Generalist certification. Prerequisites: PHYS 1310, PHYS 1320, and PHYS 1110; or PHYS 1410 and PHYS 1420 all with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
GS 3320. General Science.
This course is a laboratory course designed to acquaint the student with the fundamentals of biological science. It is non-creditable for science majors but is a required course for Elementary EC-6 Generalist certification. Prerequisite: BIO 1320, BIO 1421, BIO 1330 and BIO 1130, or BIO 1331 and BIO 1131 completed with a grade of “C” or higher.

### Bachelor of Science (B.S.) Major in Aquatic Biology

**Minimum required: 120 semester credit hours**

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors). The recommended minor is Chemistry or Biochemistry. Minor and electives should be chosen in consultation with the academic advisor.

4. The minimum number of hours required for this degree program is 120. The number of elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

5. Nine semester credit hours must be writing intensive (WI).

6. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

| ** Bachelor of Science (B.S.) Major in Biology (Teacher Certification in Life Science, Grades 7-12) ** |

**Minimum required: 125 semester credit hours**

### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. A minor in Secondary Education is required.
3. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a “C”.
4. A GPA of at least a 2.75 in all science courses with no grade below a “C”.
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Nine semester credit hours must be writing intensive (WI).
7. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
8. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

tapping new sources of energy; improving health and conquering disease; providing renewable substitutes for dwindling resources; strengthening our national security; and monitoring and protecting our environment. Basic research in chemistry will help future generations address their evolving needs and ensure a higher quality of life.

Chemists and biochemists can work in almost any field and find careers in teaching, research, production, quality control, technical services, and/or sales. Graduates from the Department of Chemistry and Biochemistry have an excellent record of job placement in industrial, academic, and government positions. Many also seek advanced degrees or pursue careers in medicine, dentistry, or pharmacy.

Chemistry and biochemistry majors gain skills in quantitative thinking and problem solving. Majors can work as laboratory instructors and supplemental instructors for lower division courses or as research assistants in faculty research laboratories. Students often participate in internships and research programs both on and off campus during the summer. The faculty, facilities, library holdings, and chemistry curriculum of the Department of Chemistry and Biochemistry have been accredited by the American Chemical Society. Recipients of a B.S. major in Chemistry or B.S. major in Biochemistry who have fulfilled the minimum requirements for professional chemists are awarded certificates by the American Chemical Society. Receipt of the ACS certificate is recommended as preparatory training for work in industry or for continued graduate studies in chemistry or biochemistry. The Biochemistry program is accredited by the American Society for Chemistry and Molecular Biology and recipients of a B.S. major in Biochemistry are awarded an ASBMB-certified degree upon successful completion of a scored examination.

Students seeking a B.S. major in Chemistry begin their studies taking foundation courses in chemistry, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories in physical chemistry, analytical chemistry, inorganic chemistry and organic chemistry. A minor is required for this degree.

Students seeking a B.S. major in Biochemistry begin their studies taking foundation courses in chemistry, biology, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories to gain knowledge and experience in the modern techniques of biochemistry and molecular genetics. The Biochemistry curriculum meets the standards set by the American Society for Biochemistry and Molecular Biology. A minor is required for this degree.

Qualified chemistry or biochemistry majors completing their junior year of chemistry courses who plan to pursue advanced studies have the opportunity to complete both B.S. and M.S. degrees with one additional year of course work and research after receipt of a B.S. degree. Students must be active in undergraduate research prior to their senior year to be eligible for the program.

Department of Chemistry and Biochemistry

Chemistry Building Room 238
Telephone: 512-245-2156 Fax: 512-245-2374
www.txstate.edu/chemistry

Chemistry is the central science and the study of chemistry provides the essential knowledge needed to address many of society’s most pressing needs, such as feeding, clothing, and housing the peoples of the world; tapping new sources of energy; improving health and conquering disease;...
Texas Health Science Center) all require two years of prerequisite courses in chemistry, biology, math, physics, English, humanities and social sciences, but the exact courses required vary by school. Consequently, it is imperative that pre-pharmacy students consult with an advisor prior to and during their pre-pharmacy program. For more information contact the Department of Chemistry and Biochemistry pre-pharmacy advisor.

### Teacher Certification

Students may earn either a Chemistry (Grades 7-12) or Physical Science (Grades 6-12) certification in Texas, while pursuing a B.S. major in Chemistry. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science Advisor early in their undergraduate program or certification process.

### Bachelor of Science (B.S.)

- Major in Biochemistry (p. 585)
- Major in Biochemistry (American Chemical Society approved program) (p. 586)
- Major in Chemistry (p. 586)
- Major in Chemistry (Teacher Certification in Chemistry, Grades 7-12) (p. 587)
- Major in Chemistry (Teacher Certification in Physical Science, Grades 6-12) (p. 588)

### Bachelor of Science and Master of Science (B.S./M.S.)

- Major in Biochemistry (Early-Entry Combined Program) (p. 589)
- Major in Chemistry (Early-Entry Combined Program) (p. 591)

### Minors

- Biochemistry (p. 592)
- Chemistry (p. 592)
- Second Teaching Field in Chemistry (Grades 7-12) (p. 592)

### Courses in Chemistry (CHEM)

#### CHEM 1141. General Chemistry Laboratory I.

First of two laboratory courses in general chemistry for science-related majors. Course introduces the students to the basics of experimental measurements, including density, separation techniques, formula determinations, titrations, thermodynamics, gas laws, and descriptive chemistry. Prerequisite or Co-requisite: CHEM 1341, CHEM 1335, or CHEM 1310.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1111
Course Fee: $6, Fee - Lab CHEM

#### CHEM 1341. General Chemistry Laboratory II.

Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1341 and CHEM 1141. Prerequisite or Co-requisite: CHEM 1342.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1112
Course Fee: $6, Fee - Lab CHEM

#### CHEM 1310. Introductory Chemistry for Non-Science Majors.

A one semester principles course for students in non-science related majors. Course covers the major concepts of chemistry and the role of chemistry in contemporary society. Students will not receive credit for both CHEM 1310 and CHEM 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1305

#### CHEM 1330. Chemistry for Non-Science Majors.

This is the second of two lecture courses for non-science majors. The course surveys organic and biochemistry and current topics which may include energy-related topics, nuclear chemistry, environmental chemistry, medicinal chemistry, and synthetic and natural polymers. Prerequisite: CHEM 1310 or CHEM 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1307

#### CHEM 1335. Engineering Chemistry.

This one semester lecture course is tailored to engineering students. Topics include stoichiometry, gases, chemical bonding and structure, periodic trends, materials, energy, kinetics, equilibrium, electrochemistry and nuclear chemistry. Course is a stand-alone course and does not serve as a prerequisite to any courses currently requiring CHEM 1341 as a prerequisite. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 550 or more, Accuplacer College Mathematics score of 550 or more, or Compass College Algebra score of 46 or more.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1311

#### CHEM 1142. General Chemistry Laboratory II.

Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1341 and CHEM 1141. Prerequisite or Co-requisite: CHEM 1342.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1112
Course Fee: $6, Fee - Lab CHEM

CHEM 1341. General Chemistry I.

Initial lecture course in general chemistry for science-related majors, covering atomic and molecular structure, bonding, states of matter, solutions, and descriptive chemistry. Students will not receive credit for both CHEM 1310 and CHEM 1341. Concurrent registration in CHEM 1141 is recommended. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 550 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1311

#### CHEM 1311. Introductory Chemistry for Non-Science Majors.

A one semester principles course for students in non-science related majors. Course covers the major concepts of chemistry and the role of chemistry in contemporary society. Students will not receive credit for both CHEM 1310 and CHEM 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1305

#### CHEM 1330. Chemistry for Non-Science Majors.

This is the second of two lecture courses for non-science majors. The course surveys organic and biochemistry and current topics which may include energy-related topics, nuclear chemistry, environmental chemistry, medicinal chemistry, and synthetic and natural polymers. Prerequisite: CHEM 1310 or CHEM 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1307

#### CHEM 1335. Engineering Chemistry.

This one semester lecture course is tailored to engineering students. Topics include stoichiometry, gases, chemical bonding and structure, periodic trends, materials, energy, kinetics, equilibrium, electrochemistry and nuclear chemistry. Course is a stand-alone course and does not serve as a prerequisite to any courses currently requiring CHEM 1341 as a prerequisite. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 550 or more, Accuplacer College Mathematics score of 550 or more, or Compass College Algebra score of 46 or more.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1311

#### CHEM 1142. General Chemistry Laboratory II.

Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1341 and CHEM 1141. Prerequisite or Co-requisite: CHEM 1342.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1112
Course Fee: $6, Fee - Lab CHEM
CHEM 1342. General Chemistry II.
Second of two lecture courses in general chemistry for science-related majors, covering equilibrium processes, acid-base chemistry, and kinetics, and electrochemistry. A basic knowledge of algebra is needed. Concurrent enrollment in CHEM 1142 is recommended. Prerequisite: CHEM 1341 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: CHEM 1312

CHEM 2130. Laboratory Technique in Organic Chemistry.
An optional laboratory to accompany CHEM 2330, covers experimental techniques of preparation, purification, and determination of physical and chemical properties of organic compounds. Prerequisites: CHEM 1342 and CHEM 1142. Co-requisite: CHEM 2330.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 2141. Organic Chemistry Laboratory I.
This laboratory introduces the student to the general techniques of organic chemistry. Prerequisites: CHEM 1342 with a grade of “C” or higher, CHEM 1142. Prerequisite or Co-requisite: CHEM 2341.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: CHEM 2123
Course Fee: $6; Fee - Lab CHEM

CHEM 2142. Organic Chemistry Laboratory II.
This laboratory involves the study of typical organic reactions. Prerequisites: CHEM 2341 with a grade of “C” or higher, CHEM 2141. Prerequisite or Co-requisite: CHEM 2342.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: CHEM 2125
Course Fee: $6; Fee - Lab CHEM

CHEM 2150. Biochemistry & Metabolism Lab.
An optional laboratory to accompany CHEM 2350. This laboratory examines the physical properties and chemistry of carbohydrates, amino acids, proteins, lipids and nucleotides. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: CHEM 2330/CHEM 2130 or CHEM 2342/CHEM 2142. Co-requisite: CHEM 2350.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

A one-semester course which covers nomenclature, structure and reactions of organic compounds with an introduction to bioorganic molecules. Course is designed for students majoring in nutrition, clinical laboratory sciences and agriculture. Prerequisites: CHEM 1342 and CHEM 1142.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

CHEM 2341. Organic Chemistry I.
This course covers the nomenclature, reactions and reaction mechanisms of the hydrocarbons and the alkyl halides. Prerequisites: CHEM 1342 with a grade of “C” or higher. Pre- or Co-requisite: CHEM 1142.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2323

CHEM 2342. Organic Chemistry II.
This course covers the nomenclature, reactions and reaction mechanisms of the major functional groups. Prerequisite: CHEM 2341 with a grade of “C” or higher. Prerequisite or Co-requisite: CHEM 2141.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2325

CHEM 2350. Biochemistry & Metabolism.
A one-semester study of carbohydrate, proteins, lipids and nucleotides which presents both structure and intermediary metabolism along with an introduction to the function of enzymes and coenzymes. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: CHEM 2330/CHEM 2130 or CHEM 2342/CHEM 2142.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

CHEM 3245. Physical Chemistry Laboratory.
Experiments illustrating principles and methods of physical chemistry are performed. Written reports on the experiments are prepared. Prerequisites: CHEM 3330 with a “C” or better, and CHEM 3410. Prerequisite or Co-requisite: CHEM 3340. (WI).
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 3276. Experimental Biochemistry.
Course introduces biochemistry minors to the fundamental techniques used in modern biochemistry. Experiments use the essential techniques employed in the study of proteins, enzymes and nucleic acids with emphasis on the use of modern instrumentation and the manipulation and analysis of experimental data. Prerequisites: CHEM 3375 or CHEM 4375 with a grade of “C” or higher.

Grade Mode: Standard Letter

CHEM 3330. Physical Chemistry I.
The course covers principles of thermodynamics and thermochemistry, phase equilibria, electrochemistry and elementary kinetics including rate laws and mechanisms. Prerequisites: CHEM 1142; CHEM 1342 and MATH 2472 with a grade of “C” or higher.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CHEM 3340. Physical Chemistry II.
The course covers kinetics, quantum mechanics, spectroscopy, and other selected topics. Prerequisites: CHEM 3330 with a C or better, MATH 2472 with a "C" or better; and PHYS 2425 with a grade of "C" or higher.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 3341. Descriptive Inorganic Chemistry.
An analysis of atomic, molecular, and solid state bonding and structure with an emphasis on coordination compounds and bioinorganic chemistry. Representative compounds and reactions of the elements will be surveyed. Prerequisite: CHEM 2342 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Course provides biochemistry majors and minors with a rigorous introduction to biochemistry. Topics include the chemical function and structure of proteins, nucleic acids, lipids and carbohydrates; enzyme mechanisms, kinetics and regulation. Prior completion or concurrent enrollment in BIO 2450 is strongly recommended. Prerequisites CHEM 2342 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 3380. Analytical Biochemistry.
This course is designed to acquaint the student with the chemical and physical principles of modern biochemical methods. Emphasis is placed upon the application of the methods to current problems in biochemistry and molecular biology and the interpretation of data. Prerequisite: CHEM 3375 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Course introduces biochemistry majors to techniques in analytical and physical biochemistry. Experiments reinforce fundamental concepts and utilize modern instrumentation. Experimental design, interpretation of results, and data reporting will be emphasized. Prior completion or concurrent enrollment in BIO 2400 is strongly recommended. Prerequisites: CHEM 3375 with a grade of "C" or better; Biochemistry Majors Only. Corequisite: CHEM 3380. (Wi).
3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CHEM 3390. Physical Chemistry for Biochemists.
A study of the theories and laws of physical chemistry as it relates to biochemistry. The topics covered include ideal and real gases, classical thermodynamics, reaction kinetics, phase equilibria, electrochemistry, quantum mechanics, spectroscopy and statistical mechanics. Prerequisite: CHEM 3375 and MATH 2472 with a "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 3410. Quantitative Analysis.
Course covers the general theory and practice of typical methods of gravimetric and volumetric analysis, satisfies the quantitative analysis requirements for chemistry majors, minors, pre-medical and pharmacy students. Prerequisites: CHEM 1342 with a grade of "C" or higher, CHEM 1142.
4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 4231. Advanced Laboratory I.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 3245, CHEM 3340, CHEM 3410. Prerequisite or Co-requisite: CHEM 4331. (Wi).
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 4241. Advanced Laboratory II.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 4331, CHEM 4231. Prerequisite or Co-requisite: CHEM 4341. (Wi).
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 4295. Laboratory Development and Practice.
This course develops the laboratory instructional abilities of students seeking either 8-12 Chemistry or 8-12 Physical Science Teaching Certification. Topics include both traditional laboratory techniques and guided inquiry techniques, safety, laboratory management, pedagogical theory and practical knowledge of laboratory experiments. Prerequisite: Junior standing and an overall GPA of 2.5 or higher.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

CHEM 4299. Undergraduate Research.
This course is available to undergraduate chemistry or biochemistry majors only. It may be repeated for credit but a maximum of four semester hours from this course are applicable toward advanced chemistry electives. Prerequisite: Permission of department.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter
CHEM 4310. Medicinal Chemistry.
This course surveys modern approaches to drug discovery and mechanisms of drug action with the focus on molecular structures of drugs. Examples of drug discovery for the chemotherapy of cancer, microbial and cardiovascular diseases will be examined. Prerequisites: CHEM 2342 and CHEM 2350 or CHEM 3375 or CHEM 4375 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4312. Organometallic Chemistry.
This course will survey the structure, bonding, and reactivity of organometallic complexes. Homogeneous catalysis of the transition metals as well as the main group elements along with specialized "seminal research papers" in the field of organometallic chemistry will also be presented. Prerequisites: CHEM 2342 and CHEM 3341 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4331. Instrumental Analysis.
The theory and methodology associated with the quantitative analysis of materials, i.e., electronics, spectroscopy, electrochemistry and chromatography are presented. Prerequisite: CHEM 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4333. Spectroscopy.
The study of various spectrometric techniques in qualitative and structural analysis of chemical substances. Prerequisite: CHEM 2342 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4341. Advanced Inorganic Chemistry.
This course will use group theory analysis to predict vibrational spectra and bonding in molecules, including metal complexes. Numerous approaches (acid/base, redox, etc.) will be employed to rationalize the products of inorganic and organometallic reactions. The materials properties of solids and nanomaterials will also be discussed. Prerequisites: CHEM 3341 and CHEM 4331.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4350. Modern Molecular Modeling.
A study of the application of computational techniques to molecular modeling. Topics covered include quantum mechanical modeling, forcefield based molecular modeling, molecular energy minimization, molecular dynamics, vibrational spectra, solution of crystalline structures, diffraction patterns, molecular blends, phase equilibria, crystal morphology, physical property prediction and mesoscale modeling. Prerequisite: CHEM 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4351. Introduction to Polymers.
This course is designed to develop the student's general understanding of polymer history and importance as well as terminology, structure, and synthesis. The overall scope of the course will be to develop the student's general knowledge of polymer synthesis and structure. Prerequisite: CHEM 2342 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4360. Molecular Biology.
This course provides Biochemistry majors and minors with advanced knowledge of the field of molecular biochemistry. Topics include gene expression (transcription and translation of genes in bacteria and higher organisms), post-translational modification of proteins, chromosomal DNA replication, cell cycle checkpoint controls, DNA damage and repair, as well as theories of cancer and aging. Prerequisite: CHEM 3375 or CHEM 4375.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4371. Directed Study.
Independent study on a particular subject area in chemistry or biochemistry. The specific study area, resource material, goals, and achievements will be approved by the instructor. Prerequisites: CHEM 2342 with a C or better, and permission of department.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CHEM 4375. Biochemistry.
Course provides Chemistry majors and minors with an overview of biochemistry topics. Topics include a description of the structure and function of proteins, enzymes, nucleic acids, lipids and carbohydrates. Students may not receive credit for both CHEM 3375 and CHEM 4375. Prerequisites CHEM 2342 with C or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHEM 4382. Advanced Biochemistry Research Laboratory II.
This course is the second of two laboratory courses providing instruction in the modern techniques of biochemistry. Students will perform independent research projects involving isolation, manipulation and characterization of biomolecules. Results of these experiments and the scientific literature investigations will be used to prepare formal written reports and oral presentations. Prerequisite: CHEM 4481. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CHEM 4385. Metabolism.
A study of the biodegradation and biosynthesis of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: CHEM 3375 or CHEM 4375.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CHEM 4390. Supramolecular Chemistry.
This course is designed to be a survey of the nature of non-covalent
interactions between host and guest species. Emphasis will be focused
on the rational design of hosts, thermodynamic and kinetic parameters
involved in binding and the applications of various binding/recognition
phenomena. Prerequisite: CHEM 2342 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CHEM 4481. Advanced Biochemistry Lab I.
The first of two laboratory courses providing instruction in the modern
techniques of biochemistry. Experiments are performed on the isolation,
manipulation and characterization of DNA, RNA and proteins. Students
will prepare formal written reports and oral presentations. Prerequisites:
CHEM 3275 with a grade of "C" or higher; CHEM 3380. (WI).
4 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
Course Fee: $6; Fee - Lab CHEM

Bachelor of Science (B.S.) Major in
Biochemistry

Minimum required: 120
semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the
degree plan below along with the statewide component code number.
See the General Education Core Curriculum (p. 66) section of this
catalog for the Texas State requirements and options in the core
curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or
4000 level courses).
3. Majors must select a minor from the approved list of Undergraduate
Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).
The recommended minor is Biology. Minor and electives should be
chosen in consultation with the academic advisor.
4. The minimum number of hours required for this degree program is
120. The number of elective hours a student will complete depends
on the number of hours a student may need to achieve the required
120 total or 36 advanced hours.
5. Nine semester credit hours must be writing intensive (WI).
6. If two years of the same foreign language were taken in high school,
then no additional language hours will be required. In the absence
of such high school language, two semesters of the same modern
language must be taken at the college level.

Course Requirements
Bachelor of Science (B.S.) Major in Biochemistry (American Chemical Society approved program)

Minimum required: 121 semester credit hours

General Requirements

1. This Bachelor of Science (B.S.) degree with a major in Biochemistry will be certified as approved by the American Chemical Society (ACS). The ACS approved program provides external validation for the curriculum, faculty and resources in the Department of Chemistry and Biochemistry that will certify to potential employers that the department and curriculum has met certain industry standards, and thus should increase the student’s marketable skills.

2. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

3. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors). The recommended minor is Biology. Minor and electives should be chosen in consultation with the academic advisor.

5. The minimum number of hours required for this degree program is 121. The number of elective hours a student may need to achieve the required 121 total or 36 advanced hours.

6. Nine semester credit hours must be writing intensive (WI).

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

CHEM 4231 | 2 CHEM Advanced Elective | 3-4
CHEM 4375 | 3 Electives | 3
Minor Advanced Elective | 3 Electives | 2-3
Electives | 2 | 14

Total Hours: 120

1. CHEM 4299 must be taken twice for credit and is required for certification of the degree as approved by the American Chemical Society.

Bachelor of Science (B.S.) Major in Chemistry (Teacher Certification in Chemistry, Grades 7-12)

Minimum required: 120 semester credit hours

Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements

1. In the Bachelor of Science (B.S.) degree with a major in Chemistry CHEM 4299 must be taken twice for credit and is required for certification of the degree as approved by the American Chemical Society.

2. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

3. A minor in Secondary Education is required.

4. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. The minimum number of hours required for this degree program is 120. The number of elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

6. Nine semester credit hours must be writing intensive (WI).

7. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.

8. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

### Bachelor of Science (B.S.) Major in Chemistry (Teacher Certification in Physical Science, Grades 6-12)

**Minimum required: 131 semester credit hours**

**Admission Requirement**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. CHEM 4299 must be taken twice for credit and is required for certification of the degree as approved by the American Chemical Society.
5. Minors in Secondary Education and in Physics are required.
6. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Total Hours: 131**

---

**Bachelor of Science and Master of Science (B.S./M.S.) Major in Biochemistry (Early-Entry Combined Program)**

**Minimum required: 153 semester credit hours**

**Admission Requirement**

1. Students may be admitted to the M.S. program without entrance qualification exams if they have a 3.00 GPA or higher in all chemistry and biochemistry courses, have completed CHEM 3381, CHEM 3380, and two semesters of CHEM 4299, have taken the Graduate Record Exam, and have been accepted by a graduate thesis advisor. Applicants will be evaluated by the Graduate Evaluation Committee to determine their suitability to enter the program. The application process is the same as for other graduate applicants to The Graduate College. Graduate status is provisional until the B.S. degree is awarded. The B.S. degree will be certified as approved by the American Chemical Society for students completing CHEM 3341 (fall only course) as an advanced elective.

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors). The recommended minor is Biology. Minor and electives should be chosen in consultation with the academic advisor.

4. Nine semester credit hours must be writing intensive (WI).

5. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. Students completing 123 semester hours will be eligible for graduation with the B.S. degree. The M.S. degree will be awarded only after the completion of all required courses and the successful defense of a research thesis.

7. The graduate-level courses taken in the senior year are CHEM 5110, CHEM 5395, CHEM 5399A, and a 3-hour elective approved by the graduate advisor. After admission to The Graduate College, 20 additional graduate hours (including a research thesis) and successful completion of a comprehensive examination are required for the M.S. degree.

**Total Hours:** 23
All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

**Department of Computer Science**

Comal Building Room 211  
PH: 512.245.3409 FAX: 512.245.8750  
www.cs.txstate.edu (http://www.cs.txstate.edu)

The Department of Computer Science offers two degree options for students - a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.). The Bachelor of Science degree program in Computer Science is accredited by ABET, Inc. The department offers courses in computer architecture, data structures and algorithms, automata theory, compilers, operating system, object-oriented design and implementation, Web programming, software engineering, computer graphics, computer networks, distributed systems, computer security, digital forensics, database design, data mining, machine learning, human computer interaction, social computing, artificial intelligence, and several programming languages including C, C++, Java, Assembly, LISP, Perl, PHP, and JavaScript. Computer Science graduates can further their studies in graduate schools or seek employment in industry, such as software development; computer applications in the petroleum, aerospace, and chemical industries; and secondary school teaching.

**Mission Statement**

The mission of the Department of Computer Science is to advance the knowledge of computer science and technology through education, research, and service for the betterment of industry, government, and society.

**Vision Statement**

The department seeks to become a competitive doctoral-granting department and to expand its depth and breadth in the research and study of applied computing.

**Computer Science Goals**

1. Graduating students with strong technical backgrounds and communication skills.
2. Graduating students who understand the values and requirements of responsible professionalism and lifelong learning.
3. Building a sustainable research program.
4. Developing international visibility for our research.
5. Providing quality service to the university, the profession, and the community.

**Teacher Certification**

Students may pursue a B.A. or B.S. degree with teacher certification in Computer Science for Texas public schools (grades 8-12). Students follow the curriculum sequence outlined by their major department or college. Undergraduates interested in certification are strongly encouraged to see an academic advisor early in their undergraduate program. Students seeking teacher certification must complete 21 hours of the professional sequence courses under the College of Education. For information about admission requirements to the teacher certification program refer to the Office of Educator Preparation (OEP) (p. 239) section in this catalog. Graduate or post-baccalaureate students should also contact the OEP for further information. The three types of students the OEP provides services to are undergraduate students seeking certification, graduate students seeking certification, and post-baccalaureate students seeking certification only. Admission to teacher education is required for students who want to be certified to teach in Texas accredited schools.

**Bachelor of Arts (B.A.)**

- Major in Computer Science (p. 596)
- Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12) (p. 598)

**Bachelor of Science (B.S.)**

- Major in Computer Science (p. 599)
- Major in Computer Science (Computer Engineering Concentration) (p. 601)
- Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12) (p. 602)

**Minor**

- Computer Science (p. 603)
- Second Teaching Field in Computer Science (Grades 8-12) (p. 604)

**Courses in Computer Science (CS)**

CS 1308. Computer Literacy and the Internet.  
A study of the uses of computers and their effects on society. Text processing, spreadsheets, databases, and Web programming. Does not count for computer science credit towards a minor, a BS, or a BA in computer science.  
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
TCCN: COSC 1301

CS 1319. Fundamentals of Computer Science.  
Provides fundamental knowledge of the six layers of computer science as per the ACM CS0 curriculum. The information, hardware, programming, operating system, applications, and communications layers are presented plus appropriate open computer laboratory exercises. Does not count for computer science credit towards a minor, a BS, or a BA in computer science.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
TCCN: COSC 1336
CS 1428. Foundations of Computer Science I.
Introductory course for computer science majors, minors and others desiring technical introduction to computer science. Contains overview of history and structure of the digital computer, including binary data representation. Problem solving, algorithm development, structured programming, good coding style, and control structures of C++ are emphasized. Prerequisite or co-requisite: MATH 1315.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: COSC 1437

CS 2308. Foundations of Computer Science II.
The course is an introduction to Abstract Data Types (ADTs) including lists, stacks, and queues. Searching and sorting, pointers and dynamic memory allocation, and simple classes and objects also will be covered.
The course is a continuation of CS 1428. Prerequisite: CS 1428 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: COSC 2336

CS 2315. Computer Ethics.
This course is primarily for computer science majors, focusing on the ethical codes of the professional societies, the philosophical bases of ethical decision-making, and the examination of several contemporary case studies. Prerequisites: CS 1428, ENG 1310, COMM 1310, and PHIL 1305 or PHIL 1320 with grades of C or higher. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CS 2318. Assembly Language.
A course covering assembly language programming, including instruction sets, addressing modes, instruction formats, looping, logic, data representation, subroutines and recursion; and the interface between hardware and software. Prerequisites: MATH 2358 and CS 2308 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: COSC 2325

CS 3320. Internet Software Development.
A course providing foundations for the construction and design of static and dynamic Web pages with database applications. This will include server-side and client-side software development. Prerequisite: CS 2308 with a grade of C or higher, or consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Use of fundamental hardware components. Topics include ALU’s, single and multiple cycle datapath and control, RISC vs. CISC, pipelining, caches, I/O, virtual memory and related performance issues. Prerequisite: CS 2318 or EE 3420 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3354. Object-Oriented Design and Programming.
The course covers object-oriented design principles and programming for students with prior programming experience. The topics include inheritance and polymorphism, object-oriented design process, UML diagrams, design patterns, exception handling and multithreading. Students will design and implement programs in Java. Cannot receive credit if the student has taken CS 4354. Prerequisite: CS 2308 with a grade of "C" or higher, or consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3358. Data Structures and Algorithms.
This is a course that covers classic data structures and the analysis of algorithms. Prerequisites: CS 2308 and MATH 2358 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3369. Embedded Computer Systems.
This course studies the architecture of embedded systems, microcontrollers, their peripherals, languages, and operating systems and the special techniques required to use them. Prerequisite: CS 2318 or EE 3420 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3378. Theory of Automata.
An introduction to automata theory, computability, and formal languages. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3379. Software Engineering.
The study of software design, implementation, and validation techniques through team projects. Structured analysis, programming style, and project documentation are emphasized in large software projects. (WI) Prerequisite: CS 2315 or EE 2400; CS 3354, CS 3358; all with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CS 4100. Computer Science Internship.
Provides on-the-job training supervised by computer scientists in industry internship programs approved by the department. Prerequisite: CS majors and minors only.
1 Credit Hour. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit

CS 4298. Undergraduate Research I.
Supervised individual research project in a mentor-student relationship with a computer science faculty member. Cannot be given degree credit until the satisfactory completion of CS 4299. Prerequisites: Junior standing; major GPA of 3.00; departmental approval.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
CS 4299. Undergraduate Research II.
Supervised individual research projects in a mentor-student relationship with a computer science faculty member. Prerequisites: CS 4298 and departmental approval.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CS 4310. Computer Networks.
A survey of network architectures and their components. Emphasis will be on media access, network and transport layer protocols. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4315. Introduction to Data Mining.
This course covers fundamental concepts and techniques in data mining and information retrieval. Data mining topics include classification, cluster analysis and pattern mining. Information retrieval topics include Boolean retrieval, vector space model, and Web search. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4318. Compiler Construction.
This course investigates theoretical and practical issues in the design and construction of modern compilers. Topics covered include lexical and syntactic analysis, syntax-directed translation, type checking, intermediate representation, code generation, and runtime systems. A major portion of the course involves implementing a compiler from scratch for a C-like programming language. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Principles and methods in human factors and ergonomics applied to the design and use of computer systems. Prerequisite: CS 3358 with a grade of C or higher. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course covers the principles of operating systems, algorithms for CPU scheduling, memory management, cooperating sequential processes and device management. Prerequisites: CS 3339 and CS 3358 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4332. Introduction to Database Systems.
Introduction to database concepts, data models, file structures, query languages, database management systems. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4336. Introduction to Artificial Intelligence.
An introduction to the basic concepts of artificial intelligence; search techniques, knowledge representation, problem solving. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4350. Unix Systems Programming.
Fundamentals of Unix operating systems, Unix file system and environment, C memory allocation, development tools, processes and signals, threads, device drivers, and programming for security. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4368. Survey of Computer Languages.
A survey of computer languages. Criteria for choosing languages to be covered include history, important development paradigms and environments, and language implementations. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Course covers practical aspects of computer system security including managing and producing code for secure systems. Theory, such as cryptography, is introduced as needed. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4372. Introduction to Digital Multimedia.
The course covers concepts, problems and techniques in digital multimedia. Topics include digital representation and data compression of text, speech, audio, natural and synthetic images, and video, as well as multimedia applications, transmission, and standards. In addition, the course introduces perceptual aspects of multimedia signals and sources. Prerequisite: CS 3358 with a grade of "C" of higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4378V. Introduction to Machine Learning.
Provides systematic introduction to machine learning, covering basic theoretical as well as practical aspects of the use of machine learning methods. Topics include learning theory, learning methods, recent learning models, etc. Application examples include multimedia information retrieval, text recognition, computer vision, etc. Prerequisite: CS 3358 grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
CS 4378W. Introduction to Human Computer Interaction.
Introduces HCI topics specifically highlighted by new input modalities such as eye-tracking. Considers new input modalities as new channels for data gathering including multimedia compression, interface design, usability evaluation, biometrics. Application of HCI as interdisciplinary research tool also will be discussed. Prerequisite: CS 3358 with grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4378Z. Practical Game Development.
Course teaches practical aspects of computer game design and implementation. Topics include graphics game engines, game physics, AI methods applied to games, and software architectures for computer games. Students will gain knowledge and skills needed for game development via team projects.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4379A. Software Testing.
The concepts used in a formal testing of safety critical and high-quality software applications are investigated. Topics include, but are not limited to, test design, static and dynamic testing tools, and formal testing documentation. Prerequisite: CS 3398 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4379B. Introduction to Graphical User Interfaces.
This course covers abstract and practical foundations of graphical user interface design, evaluation, and implementation. It discusses the fundamentals of computer graphics and interactive computer/human interfaces. The course includes a survey of usability measures, the major GUI standards, and GUI tools. Prerequisite: CS 3358 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4379Q. Introduction to Recommender Systems.
This course covers the basic concepts of recommender systems, including personalization algorithms, evaluation tools, and user experiences. We will discuss how recommender systems are deployed in e-commerce sites, social networks, and many other online systems. Additionally, we will review current research in the field. Prerequisite: CS 3358 with a grade of "C" or higher, or consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4379Y. Introduction to Green Computing.
Reducing energy consumption of mobile devices, cloud computing platforms, and supercomputers is a paramount but daunting problem. This course covers fundamental concepts and techniques in green computing, including a hardware energy efficiency roadmap; energy efficient software design, resource management, and storage solutions; and green data centers and mobile computing. Prerequisites: CS 3339 and CS 3358 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CS 4380. Parallel Programming.
This course teaches practical aspects of parallel programming. The covered topics include multi-core processors and shared-memory programming, hardware accelerator programming, and distributed-memory machines and message-passing programming. The students will gain the knowledge and skills needed for developing parallel software by writing programs for a variety of parallel computers. Prerequisite: CS 3358 with a grade of "C" or higher; or instructor consent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the hardware and software used in graphic representation and interpretation of data. Prerequisites: CS 3358 with a grade of C or higher and familiarity with trigonometric functions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4395. Independent Study in Computer Science.
Open to undergraduate students on an independent basis by arrangement with the faculty member concerned. Requires department chair approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Credit/No Credit

CS 4398. Software Engineering Project.
Students undertake a software development project. They work in teams, developing requirements and designs which they will implement and test. Prerequisite: CS 3398 with a grade of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Computer Science

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three hours of
math/science/logic/computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

3. Students pursuing the B.A. are required to complete an additional 3 hours of English beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the computer science major. Students may select from the following English courses. ENG 3303 or ENG 3311 is recommended.

3. Students pursuing the B.A. are required to complete an additional 3 hours of English beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the computer science major. Students may select from the following English courses.

ENG 3303
ENG 3311

4. Computer Science majors must complete 37 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4371, CS 4380, or CS 4398.

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

7. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

8. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

9. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

1. MATH 2417 or MATH 2471 may substitute for the MATH 1317, MATH 1319, MATH 1329, or MATH 2321 requirement.
 Bachelor of Arts (B.A.) Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12)

Minimum required: 126 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three hours of math/science/logic/computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.
3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.
4. Students pursuing the B.A. are required to complete an additional 3 hours of English beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the computer science major. Students may select from the following English courses. ENG 3303 or ENG 3311 is recommended.
   - ENG 2310 British Literature before 1785
   - ENG 2320 British Literature since 1785
   - ENG 2330 World Literature before 1600
   - ENG 2340 World Literature since 1600
   - ENG 2359 US Literature before 1865
   - ENG 2360 US Literature since 1865
   - ENG 3303 Technical Writing
   - ENG 3311 Practices in Writing and Rhetoric
5. Computer Science majors must complete 37 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4371, CS 4380, or CS 4398.
6. A minor in Secondary Education is required.
7. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
8. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a "C".

1. MATH 2417 or MATH 2471 may substitute for the MATH 1317, MATH 1319, MATH 1329, or MATH 2321 requirement.
2. Computer Science majors must take eight hours (2 courses) of the Life & Physical Sciences Component Code 030 from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125 (or PHYS 1430 & PHYS 2425); CHEM 1341/CHEM 1141, and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. The eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above.

**Bachelor of Science (B.S.) Major in Computer Science**

**Minimum required: 120 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.
3. Students pursuing this B.S. degree program are required to complete an additional 3 hours of English beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the computer science major. Students may select from the following English courses. ENG 3303 or ENG 3311 is recommended.

Bachelor of Science (B.S.) Major in Computer Science
Bachelor of Science (B.S.) Major in Computer Science

4. Students pursuing this B.S. degree program are required to complete a total of 17 hours in mathematics from MATH 2358, MATH 2471, MATH 2472, MATH 3305, and MATH 3398. Therefore, the requirements of a Mathematics or Applied Mathematics minor are included in this degree plan.

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.

8. Computer Science majors must complete 43 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4371, CS 4380, or CS 4398.

9. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

---

1. Computer Science majors must take sixteen hours (4 courses) of Life & Physical Sciences from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125 [or PHYS 1430 & PHYS 2425]; CHEM 1341/CHEM 1141 and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. Eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above.
Bachelor of Science (B.S.) Major in Computer Science (Computer Engineering Concentration)

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science, computer engineering concentration, and mathematics courses used to satisfy the requirements of the computer science major.

3. Students pursuing this B.S. degree program are required to complete an additional 3 hours of English beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the computer science major. Students may select from the following English courses. ENG 3303 or ENG 3311 is recommended.

4. Nine hours of writing intensive (WI) courses are required for graduation.

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. Students pursuing this B.S. degree program are required to complete a total of 17 hours in mathematics from MATH 2471, MATH 2472, MATH 3305, MATH 2358, MATH 3398. Therefore, the requirements of a mathematics or applied mathematics minor are included in this degree plan.

7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirements will be added to the student’s degree audit.

8. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

9. Computer Science majors with the Computer Engineering (CE) concentration must complete one CS project course from: CS 4318, CS 4326, CS 4371, CS 4380, or CS 4398. Cannot be the same computer science course completed to satisfy the CE concentration elective.

10. The concentration in Computer Engineering consists of the following courses:

<table>

Bachelor of Science (B.S.) Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12)

Minimum required: 131 semester credit hours

Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. A minimum of 9 hours must be writing intensive hours, and 36 must be advanced.

Total Hours: 22

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

Ingram School of Engineering

Roy F. Mitte Building Room 5202
Telephone: 512-245-1826 Fax: 512-245-7771
www.engineering.txstate.edu (http://www.engineering.txstate.edu)

The Bachelor of Science (B.S.) degree with a major in Electrical Engineering provides students the background that is essential for the conception, design, development, and manufacture of electrical, electronic, and information technology products and systems. Students may specialize in the areas of networks and communication systems, micro and nano devices and systems, or computer engineering. Proficiency in mathematics is especially important in Electrical Engineering. In order to be admitted to the EE program, a student needs to be qualified to take MATH 2417 or higher. The B.S. with a major in Electrical Engineering and the B.S. with a major in Electrical Engineering with Computer Engineering Concentration are both accredited by the Engineering Accreditation Commission of ABET (www.abet.org (http://www.abet.org)).

The B.S. major in Industrial Engineering provides students the background that is essential for improving the productivity, quality, safety, and cost effectiveness of all types of systems and processes. Industrial engineers are typically engaged in the areas of quality assurance, ergonomics, production and operations management, facilities design, work design, system optimization, information technology, and industrial safety. The B.S. major in Industrial Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org (http://www.abet.org)).

The B.S. major in Manufacturing Engineering is designed to provide students with the mathematics, science, management, engineering, and applications skills needed to become manufacturing engineers. These engineers are typically responsible for promoting manufacturability, process planning, tool design, cost estimation, factory layout, work methods, quality assurance, automation, and systems integration. The degree has a concentration in general manufacturing, mechanical systems or semiconductor/high technology manufacturing. The B.S. major in Manufacturing Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org (http://www.abet.org)).

Annual student enrollment and graduation data is posted by the institution and is accessed through the website http://www.engineering.txstate.edu/About/Data.html.

The Ingram School of Engineering Mission Statement

1. To provide students with an exceptional education in various disciplines of engineering,
2. To establish, through dedicated faculty, a nationally recognized research program, preparing interested students to achieve excellence in graduate studies and research, and
3. To serve the State of Texas and the nation by creating highly skilled, diverse, and motivated professionals capable of technological innovation and dedicated to the improvement of society.

The Ingram School of Engineering Vision Statement

The Ingram School of Engineering will be a nationally recognized institution of higher education, serving students and employers with a complete set of accredited engineering programs supported by a faculty which maintains high standards of teaching, research, and service. To accomplish this vision, we will:

1. Engage undergraduate and graduate students with innovative, multidisciplinary, and nationally recognized funded research programs,
2. Emphasize quality undergraduate and graduate education using a practical, interactive, and contemporary learning environment,
3. Produce first-generation professional college graduates as part of an HSI-designated university; be recognized for exceptional community service; and create tight bonds with alumni who will serve as professional mentors, sponsors, and advisors,
4. Promote a student-centered culture based on collegiality, scholarship, enthusiasm, integrity, and mutual respect among diverse faculty, staff, and students.

The Electrical Engineering Mission Statement, Program Educational Objectives, and Student Outcomes

Our mission is:

To lead students to be innovative, ethical engineering professionals through solid education at the undergraduate level, by providing opportunities to participate in research, and by responding to the needs of the Central Texas region, the state of Texas, and the nation. We achieve this mission by:

- Engaging colleagues and students in new and more effective ways to transmit knowledge to the next generation of electrical and computer engineers.
The objectives of the program are to produce graduates who, in 3-5 years of receiving the EE degree, attain the necessary skills and abilities to:

1. Analyze, design, develop, optimize, and implement complex systems in the context of modern interdisciplinary engineering work.
2. Contribute to the solution of practical problems in industrial, service, and government organizations by applying skills acquired through formal and lifelong learning.
3. Enjoy fulfilling engineering careers, including professional advancement, entrepreneurship, and the pursuit of graduate studies.
4. Practice engineering while observing appropriate technological, organizational, societal, global, and ethical contexts.

Each graduate is expected to have:

(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in lifelong learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
(l) a knowledge of probability, statistics, and mathematics through differential and integral calculus, differential equations, linear algebra, complex variables, and discrete mathematics
(m) a knowledge of sciences and engineering topics (including computer science) necessary to analyze and design complex electrical and electronic devices, software, and systems containing hardware and software components.

Within 3-5 years after graduation, graduates of our IE program are expected to be able to attain the following educational objectives:

1. Perform as industry leaders in the global marketplace, capable of successfully planning, controlling, and implementing large-scale projects.
2. Understand and apply the principles of science, technology, engineering, and math involving industry-relevant problems.
3. Contribute to the profitable growth of industrial economic sectors by using IE analytical tools, effective computational approaches, and systems thinking methodologies.
4. Maintain high standards of professional and ethical responsibility.
5. Work effectively in diverse, multicultural environments emphasizing the application of teamwork and communication skills.
6. Practice life-long learning to sustain technical currency and excellence throughout one’s career. Promote the profession and its benefits to society.

Each student is expected to demonstrate:

(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in life-long learning

(j) a knowledge of contemporary issues

(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

(l) an ability to design, develop, implement, and improve integrated systems that include people, materials, information, equipment, and energy and to accomplish the integration of systems using appropriate analytical, computational, and experimental practices.

The Manufacturing Engineering Mission Statement, Program Educational Objectives, and Student Outcomes

Our mission is:

• To sustain a quality, student-centered, industry-oriented engineering curriculum.

• To attract students and prepare them with the knowledge, practical skills, and abilities to perform as highly competent engineers in the global marketplace and/or in graduate studies.

• To produce graduates skilled in materials and manufacturing processes; process, assembly and product engineering; manufacturing competitiveness and systems design.

Within 3-5 years after graduation, graduates of the Manufacturing Engineering program are expected to be able to attain the following educational objectives:

1. Perform as engineering leaders in the global marketplace.

2. Analyze, design, develop, implement, evaluate, and optimize complex manufacturing systems and processes in the context of modern interdisciplinary engineering work.

3. Contribute to the profitable growth of manufacturing businesses.

4. Maintain high standards of professional and ethical responsibility.

Each student is expected to demonstrate:

(a) an ability to apply knowledge of mathematics, science, and engineering

(b) an ability to design and conduct experiments, as well as to analyze and interpret data

(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability

(d) an ability to function on multidisciplinary teams

(e) an ability to identify, formulate, and solve engineering problems

(f) an understanding of professional and ethical responsibility

(g) an ability to communicate effectively

(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context

(i) a recognition of the need for, and an ability to engage in life-long learning

(j) a knowledge of contemporary issues

(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Admissions Requirements

Electrical Engineering

1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:

• ACT Math score of 24 or higher,

• SAT Math score of 520 (re-centered) or higher, or

• credit for one of the following math courses with a grade of “C” or higher:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Electrical Engineering as their major:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

Industrial Engineering

1. In order to declare Industrial Engineering as a major, students must meet one of the following prerequisites:

• ACT Math score of 24 or higher,

• SAT Math score of 520 (re-centered) or higher, or

• credit for one of the following math courses with a grade of “C” or higher:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Students who do not meet the above prerequisites may choose Pre-Industrial Engineering as their major. Pre-Industrial Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Industrial Engineering as their major:

<table>
<thead>
<tr>
<th>Course</th>

</tr>
</tbody>
</table>
Bachelor of Science (B.S.)

- Major in Electrical Engineering (Computer Engineering Concentration) (p. 613)
- Major in Electrical Engineering (Micro and Nano Devices and Systems Concentration) (p. 614)
- Major in Electrical Engineering (Networks and Communication Systems Concentration) (p. 615)
- Major in Industrial Engineering (p. 617)
- Major in Manufacturing Engineering (General Manufacturing Concentration) (p. 618)
- Major in Manufacturing Engineering (Mechanical Systems Concentration) (p. 619)

Subjects in this school include: EE (p. 607), ENGR (p. 609), IE (p. 610), MFGE (p. 611)

Courses in Electrical Engineering (EE)

EE 2400. Circuits I.
This course provides an introduction to the profession of Electrical Engineering and its specialties. Fundamental DC and sinusoidal steady-state circuit analysis techniques include Ohm's law, power, Kirchoff's laws, and Thevenin and Norton equivalent circuits. Prerequisites: MATH 2471.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

EE 2420. Digital Logic.
An introduction to fundamental computer technologies, including Boolean logic design, logic circuits and devices, and basic computer hardware are studied. Laboratories provide hands-on experience with electricity, combinational and sequential digital circuits, and computer hardware. Prerequisite: CS 1428 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 3340. Electromagnetics.
Wave propagation, Maxwell's equations, transmission lines, wave guides, and antennas. Prerequisites: MATH 3373 and PHYS 2435 with grades of "C" or higher. Co-requisite: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EE 3350. Electronics I.
Analysis and design of active device equivalent circuits with emphasis on transistors, switching circuits, and operational amplifiers. Prerequisites: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 3355. Solid State Devices.
Semiconductor materials, principles of carrier motion, operating principles and circuit models for diodes, bipolar transistors and field-effect transistors. Introduction to integrated circuits. Prerequisites: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 3370. Signals and Systems.
Frequency domain representation of signals and systems and frequency domain concepts for circuit analysis and design. Transfer function and frequency response, Laplace and z-transforms, Fourier series, Fourier transform, and sampling. Prerequisites: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EE 3400. Circuits II.
This course includes a brief review of EE 2400, transient analysis, application of Laplace transforms, Bode plots, and network principles. Materials learning in EE 2400 is extended and applied here. Prerequisites: EE 2400 and MATH 3323.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

EE 3420. Microprocessors.
Introduction to microprocessors, principles of operation, assembly language programming, timing analysis, and I/O interfacing. Prerequisites: EE 2420.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

EE 4321. Digital Systems Design Using HDL.
This course will cover the design of digital systems using HDL including implementation of custom microprocessor and peripheral architectures. Prerequisite: EE 3420 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides the necessary fundamental techniques to analyze and process digital images. It covers principles, concepts, and techniques of digital image processing and computer vision. Prerequisites: CS 1428 and EE 3420 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EE 4350. Electronics II.
Analysis and design of integrated circuits, feedback, and frequency response. Prerequisites: EE 3350.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
EE 4351. Fundamentals of Electroceramics.
Introduction to binary and ternary phase diagrams, non-centro-symmetric crystal structures and symmetry groups, nonlinear dielectrics (including ferroelectricity, piezoelectricity, pyroelectricity), nonlinear magnetics, oxide wideband gap semiconductors, detectors and sensors, brief introduction to MEMS, radhard electronics, and spintronics technology. Research oriented labs related to materials processing, characterization, fabrication, and testing. Prerequisite: ENGR 2300 or equivalent; Co-requisite: EE 3355; GPA of 2.25 or higher.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

EE 4352. Introduction to VLSI Design.
Analysis of design of CMOS integrated circuits. Introduction to CAD tools for VLSI design. Prerequisites: CS 2420, EE 2420, and EE 3350 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4353. Fundamentals of Advanced CMOS Technology.
Key concepts of advanced semiconductor technology including Moore's law, transition from NMOS to CMOS, CMOS scaling, high-K gate dielectrics, metal electrodes, source/drain scaling technology, new channel materials replacing silicon, and three dimensional device structures. Prerequisite: EE 3355 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4354. Flexible Electronics.
This course will cover the materials systems, processes, device physics and applications of flexible electronics. The materials range from amorphous and nanocrystalline silicon, organic and polymeric semiconductors to solution cast films of carbon nanotubes. Real device discussions include high speed transistors, photovoltaics, flexible flat-panel displays, medical image sensors, etc. Prerequisites: EE 3350, EE 3355, and EE 4350 with grades of "C" or higher, or permission of the instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EE 4355. Analog and Mixed Signal Design.
Operational amplifier design applications, feedback, offset, stability, and compensation. Introduction to random signals and noise, discrete time circuitry analog-to-digital converters, and digital-to-analog converters. Prerequisites: EE 3370 and EE 4350.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4356. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Transmission of signals through linear systems, analog and digital modulation, filtering, and noise. Prerequisites: EE 3300, EE 3370, and IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4358. Data Compression and Error Control Coding.
Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4359. Introduction to Telecommunications.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4360. Introduction to Wireless Communication.
Principles, practice, and system overview of mobile systems. Modulation, demodulation, coding, encoding, and multiple access techniques. Prerequisites: EE 4370.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4361. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4362. Introduction to VLSI Design.
Analysis of design of CMOS integrated circuits. Introduction to CAD tools for VLSI design. Prerequisites: CS 2420, EE 2420, and EE 3350 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4363. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4364. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4365. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4366. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4367. Introduction to Digital Signal Processing.
Discrete systems, convolution, spectral analysis, and FIR and IIR filter design. Prerequisites: EE 3370.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4368. Data Compression and Error Control Coding.
Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4369. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Transmission of signals through linear systems, analog and digital modulation, filtering, and noise. Prerequisites: EE 3300, EE 3370, and IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4371. Communication Networks.
Data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, FDDI, TCP/IP and related standards. Prerequisite: EE 2400 and EE 3420.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4372. Communication Networks.
Data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, FDDI, TCP/IP and related standards. Prerequisite: EE 2400 and EE 3420.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4373. Communication Networks.
Data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, FDDI, TCP/IP and related standards. Prerequisite: EE 2400 and EE 3420.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4374. Introduction to Wireless Communication.
Principles, practice, and system overview of mobile systems. Modulation, demodulation, coding, encoding, and multiple access techniques. Prerequisites: EE 4370.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4375. Building a Smart Grid Architecture.
In this course, students will learn the current 20th-century power grid structure and the key elements required to transform it to a 21st-century Smart Grid. Topics include two-way power/data flow to monitor, control, manage and integrate traditional bulk generation and bulk/renewable/distributed generation. Prerequisite: EE 3370.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EE 4376. Introduction to Telecommunications.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4377. Introduction to Digital Signal Processing.
Discrete systems, convolution, spectral analysis, and FIR and IIR filter design. Prerequisites: EE 3370.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 4378. Data Compression and Error Control Coding.
Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Courses in Engineering (ENGR)

An introductory communications course in the tools and techniques utilized to produce various types of working drawings. Principles of multiview projections, geometric relationships, shape and size description, and pictorial methods are included with emphasis on technical applications and design problem solving.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

ENGR 2300. Materials Engineering.
Structure, properties and behavior of engineering materials including metals, polymers, composites and ceramics. Mechanical, electrical, magnetic, thermal, and optical properties are covered. Prerequisites: CHEM 1341 or CHEM 1335; CHEM 1141.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENGR 3190. Cooperative Education.
This course provides special problems in engineering for cooperative education students. Problems are related to the student's work assignment and culminate in a technical report. Three hours may be used as technical elective, and one additional hour may be used as free elective; 4 hours may be used toward graduation. Prerequisite: Overall GPA 2.5 or above and approval of department head.
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This course covers the principles of mechanic materials and includes the following topics: stress and strain; elastic modulus and Poisson's ratio; constitutive equations; torsion; bending; axial, shear and bending moment diagrams; deflection of beams; and stability of columns. Prerequisite: ENGR 3375.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

ENGR 3360. Structural Analysis.
Structural engineering fundamentals to include design loads, reactions, force systems, functions of a structure, and the analysis of statically determinate and indeterminate structures by classical and modern techniques. Prerequisite: ENGR 3311.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

ENGR 3373. Circuits and Devices.
DC and AC circuit analysis, network theorems, electromechanical devices, electronic devices and an introduction to amplifiers, oscillators and operational amplifiers. Prerequisite: PHYS 2425.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

ENGR 3375. Mechanics for Engineers.
This course covers statics, using a vector approach to mechanics. Prerequisite: PHYS 1430. Co-requisite: MATH 2472.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENGR 4390. Internship.
Supervised on-the-job professional learning experience in engineering and other technical areas. This course provides practical work experience in their particular field of interest.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
Open to undergraduate students on an independent basis by arrangement with the faculty member concerned. Requires school director’s approval. Repeatable for credit with different emphasis. Prerequisite: junior or senior standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Industrial Engineering (IE)

IE 3310. Project Management for Engineers.
Basic principles governing the efficient and effective management of engineering projects. Topics include project planning, scheduling, and cost estimation procedures. Prerequisite: ENGR 3315. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Fundamentals of probability and statistical inference for engineering applications, probability distributions, parameter estimation, and hypothesis testing. Prerequisite: MATH 2472.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

IE 3330. Quality Engineering.
Quality assurance systems, quality costs, statistical quality control, and approaches for ensuring quality into products and processes. Prerequisite: IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course teaches models in operations research including linear programs, the simplex method, duality theory, sensitivity analysis, integer programs, and network flows. The emphasis is in learning to recognize, formulate, solve, and analyze practical industrial problems. The course also teaches commercial mathematical programming languages. Prerequisites: CS 1428, MATH 3377, ENGR 3315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 3360. Methods Engineering and Ergonomics.
This course is a survey of methods for assessing and improving performance of individuals and groups in organizations. Techniques include various basic industrial engineering tools, work analysis, data acquisition and application, performance evaluation and appraisal, and work measurement procedures. Prerequisite: IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4310. Statistical Design of Experiments.
Statistically designed experiments for engineering applications. Topics include analysis of variance, randomized complete designs, factorial designs, empirical models generated from controlled experiments, and response surfaces. Prerequisite: IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4320. Integrated Production Systems.
Basic concepts in the design and control of integrated production systems to include forecasting, inventory models, material requirements planning, scheduling, planning, and shop floor control. Prerequisite: IE 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4330. Reliability Engineering.
Reliability of components and systems, reliability models, life testing, failure analysis, and maintainability. Prerequisite: IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4340. Optimization Techniques.
Mathematical modeling and computational methods for linear, integer, and nonlinear programming problems. Prerequisite: IE 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4350. Supply-Chain Engineering.
The analysis of supply chain problems to include facility location, customer assignment, vehicle routing, inventory management, and the role of information and decision support systems in supply chains. Prerequisite: IE 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4355. Facilities Planning.
Planning, design, and analysis of facilities. Emphasizes the principles and methods used for solving plant layout, facility location, material handling, automation, computer integration, and warehouse operations. Prerequisite: ENGR 3315 and MFGE 2332.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4360. Human Factors Design.
This course will emphasize the applications of human factors engineering to systems design. Prerequisites: IE 3360. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

Probabilistic models in operations research to include queuing theory, simulation, and Markov chains. Emphasis will be placed on modeling applications to solve problems in industry and computing. Prerequisite(s): IE 3320 and CS 1428.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4380. Industrial Safety.
This course is a survey of occupational safety and hazards control. Topics include the history of occupational safety; hazard sources related to humans, environment, and machines; and engineering management of hazards.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
IE 4390. Industrial Engineering Capstone Design.
Students form teams and apply industrial engineering principles to develop and implement solutions to industrial problems and/ or systems engineering issues. Prerequisites: IE 3310, IE 3330, and at least two of: IE 3360, IE 4310, IE 4355, IE 4370 and MFGE 4396. Corequisites: IE 4320 and IE 4350.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4392. Industrial Engineering Design I.
Student teams apply engineering principles and standards under realistic constraints to develop solutions for industrial problems and/ or systems engineering issues. This course is the first part of a two-course sequence and is followed by Industrial Engineering Design II (IE 4393). Prerequisite: IE 3330, IE 3340, and IE 3360. Corequisite: At least two of: IE 4310, IE 4355, and IE 4370.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4393. Industrial Engineering Design II.
Student teams complete implementation of solutions to industrial problems and/ or systems engineering issues with realistic constraints. This course is the the second in a two-course sequence, and is continuation of Industrial Engineering Design I (IE 4392). Prerequisite: IE 4392, at least two of: IE 4310, IE 4355, or IE 4370. Corequisite: At least two of IE 4320, IE 4350, and MFGE 4396.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4399A. Lean Six Sigma Methodologies.
This course covers the principles and methodologies of Six Sigma and Lean Manufacturing. Emphasis is on the tools and techniques used in Lean Six Sigma projects, including statistical process control, experimental design, project management and lean tools. Students will develop and complete a Lean Six Sigma project in industry. Prerequisite(s): IE 3310, ID 3330, and ID 4310.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

IE 4399B. Modern Heuristic Optimization Techniques.
Heuristic methods that search beyond local optima such as simulated annealing, tabu search, genetic algorithms, ant-colony systems, and particle swarm. Papers from the literature, problem-specific heuristics, evaluation methods and serial/parallel implementations are discussed. This course is an advanced undergraduate course for students in engineering and related fields. Prerequisites: IE 3340, CS 1428.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

IE 4399E. Introduction to Systems Engineering.
This course includes introductory topics in systems engineering and the systems-thinking process. The focus of the course is on the development of complex systems. Important topics include system understanding, modeling and design, the system development process, needs analysis, concept exploration and definition, design, integration and evaluation, and systems engineering management. Prerequisite: IE 3320.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

IE 4399F. Introduction to Data-Intensive Analysis and Simulation.
This course covers the foundational topics in data science and consists of three parts: The first part focuses on data extraction from databases, sensors and social media. The second part reviews data-intensive analysis through statistics and machine learning tools. The third part introduces the concept of farming data using design of experiments methodologies and computer simulation. Prerequisites: IE 3340 and IE 4310.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Courses in Manufacturing Engineering (MFGE)

MFGE 2132. Manufacturing Processes Lab.
Hands-on experience in variety of material removal processes such as turning, milling, drilling, and CNC machining; joining processes such as gas/arc welding, and soldering; metal casting, polymer and composite processing, and microelectronics manufacturing. Prerequisite or corequisite: MFGE 2332.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

MFGE 2332. Material Selection and Manufacturing Processes.
Overview of material processing, material selection and process parameter determination. Processes covered include: material removal, forming, casting, polymer processing, semiconductor manufacturing and assembly processes. Laboratory activities provide opportunities for applying the design through manufacture activities of the product cycle. Prerequisite: ENGR 2300. Corequisite: ENGR 2300.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

Topics include design process, description of wireframe/surface/solid models, transformation and manipulation of objects, finite element analysis, data exchange, process planning, machine elements, fundamentals of numerical control programming for turning and milling processes, fundamentals of CAD/CAM systems, CNC code generation by CAD/CAM software, waterjet, and plasma cutting. Prerequisites: ENGR 1313 and MFGE2332.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
**MFGE 4355. Design of Machine Elements.**
This course will cover the general procedures in designing various machine elements. These elements include shafts and flexible elements, springs, welded/riveted/brazed joints, screw fasteners, rolling/sliding contact bearings, gears, cams, and followers. Emphasis will be placed on using standard design practices. Prerequisite: ENGR 3311 or TECH 2351.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**MFGE 4357. Dynamics of Machinery.**
This course will cover kinematics and kinetics of particles; kinematics and kinetics of rigid bodies in two and three dimensions; application of dynamics to the analysis and design of machine and mechanical components; mechanical vibrations; linkages; gear trains; and balancing of machines. Prerequisite: MATH 3323.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hours.
Grade Mode: Standard Letter

**MFGE 4363. Concurrent Process Engineering.**
Integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports; plans or specifications; cost estimation; project management, communication and the fabrication of an engineered product/system. Prerequisites: ENGR 3311, MFGE 4365, and senior standing. Corequisite: IE 3330. (WI).

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

**MFGE 4365. Tool Design.**
Design of single and multi-point cutting tools, jig and fixture design, gage design, and the design of tooling for polymer processing and sheet metal fabrication. Laboratory projects will involve the use of computer aided design and rapid prototyping. Prerequisite: MFGE 3316 or ENGR 3316 or TECH 2310.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

**MFGE 4367. Polymer Properties and Processing.**
Structure, physical & mechanical properties, design considerations and processing methods for polymer-based materials are presented. Processing methods include: injection molding, blow molding, thermoforming, compression molding, extrusion, filament winding, lay-up methods, vacuum bag molding and poltrusion. Prerequisite: MFGE 2332 or TECH 4362.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

**MFGE 4376. Control Systems and Instrumentation.**
The theory of automated control systems and its applications to manufacturing systems are covered in this course. Topics covered include: modeling of systems, time and frequency domain feedback control systems, stability analysis, transducer and sensor technology and digital control. Prerequisite: PHYS 1430; MFGE 2332 or TECH 4362 or EE 3370. Corequisite: MATH 3323.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

**MFGE 4390. Manufacturing Engineering Design I.**
This course is the first of a two course sequence involving integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports, plans and specifications; cost estimation; project management; and communication. Prerequisites: ENGR 3311 and MFGE 4365. Corequisite: IE 3330.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

**MFGE 4391. Manufacturing Engineering Design II.**
This course is the second of a two course sequence involving implementation of integrated design and development of products and processes; impact of ethical issues; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports, plans and specifications; cost estimation; project management; and communication. Prerequisites: IE 3330 and MFGE 4390.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

**MFGE 4392. Microelectronics Manufacturing I.**
Provides an overview of integrated circuit fabrication including crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisites: CHEM 1141 and CHEM 1341.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

**MFGE 4394. Microelectronics Manufacturing II.**
Topics include: atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes i.e. CVD, PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: MFGE 4392.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

**MFGE 4395. Computer Integrated Manufacturing.**
This course is an overview of computer integrated manufacturing is presented. Topics include: control strategies for manufacturing systems, automated material handling systems, production planning, shop floor control, manufacturing execution systems, manufacturing databases and their integration, data communication and protocols and man/machine interfaces. Prerequisite: MFGE 3316. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
MFGE 4396. Manufacturing Systems Design.
Applications of simulation modeling to the design and analysis of manufacturing systems are presented in this course. Topics covered include queuing theory and discrete event simulation methods. Design projects will involve the use of current simulation language for modeling and analysis of manufacturing systems. Prerequisites: MFGE 3320. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

MFGE 4399A. Reverse Engineering and Rapid Prototyping.
In the course 3D scanning technology for design, analysis, and inspection, is covered. Also, applications of the 3D scanning in reverse engineering and different rapid prototyping processes in a hands-on approach will be explained in this course.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MFGE 4399B. Introduction to Reinforced Polymer Nanocomposites in Industrial Applications.
Introductory course in reinforced polymer nanocomposites focusing on materials, manufacturing, characterization, and applications. Include, primarily nanoclay polymer matrix composites. Thrust will be the challenges in low-cost manufacturing for industrial applications, commercial successes, its impact on current material market, and future.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MFGE 4399C. Introduction to Industrial Robotics.
This course will cover the basic principles and techniques involved in industrial robotics. Emphasis will be placed on industrial robot applications, analysis of robot manipulators, components of industrial robots, robot programming and control. Prerequisite: MFGE 4376.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Bachelor of Science (B.S.) Major in Electrical Engineering (Computer Engineering Concentration)
Minimum required: 136 semester credit hours

Admission Requirements
1. The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext
2. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   - ACT Math score of 24 or higher,
   - SAT Math score of 520 (re-centered) or higher, or
   - credit for one of the following math courses with a grade of "C" or higher:
     - MATH 1315 College Algebra 3
     - MATH 1317 Plane Trigonometry 3
     - MATH 1319 Mathematics for Business and Economics I 3
     - MATH 1329 Mathematics for Business and Economics II 3

   3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of "C" or higher may declare Electrical Engineering as their major:
     - MATH 1315 College Algebra 3
     - MATH 1317 Plane Trigonometry 3
     - MATH 1319 Mathematics for Business and Economics I 3
     - MATH 1329 Mathematics for Business and Economics II 3

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.
5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
6. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

   - ACT Math score of 24 or higher,
   - SAT Math score of 520 (re-centered) or higher, or
   - credit for one of the following math courses with a grade of "C" or higher:
     - MATH 1315 College Algebra
     - MATH 1317 Plane Trigonometry
     - MATH 1319 Mathematics for Business and Economics I
     - MATH 1329 Mathematics for Business and Economics II

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of "C" or higher may declare Electrical Engineering as their major:
   - MATH 1315 College Algebra
   - MATH 1317 Plane Trigonometry
   - MATH 1319 Mathematics for Business and Economics I
   - MATH 1329 Mathematics for Business and Economics II

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine semester credit hours must be writing intensive (WI).

4. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

Bachelor of Science (B.S.) Major in Electrical Engineering (Networks and Communication Systems Concentration)

Minimum required: 137 semester credit hours

Admission Requirements

1. The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext

2. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:

   - ACT Math score of 24 or higher,
   - SAT Math score of 520 (re-centered) or higher, or
   - credit for one of the following math courses with a grade of "C" or higher:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
</tr>
</tbody>
</table>

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students
who complete one of the following math courses with a grade of "C" or higher may declare Electrical Engineering as their major:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine semester credit hours must be writing intensive (WI).

4. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

A minimum of eight (8) hours of approved, senior-level Electrical Engineering electives are required.

### Bachelor of Science (B.S.) Major in Industrial Engineering

**Minimum required: 135 semester credit hours**

#### Admission Requirements

1. The Bachelor of Science (B.S.) degree with a major in Industrial Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext
2. In order to declare Industrial Engineering as a major, students must meet one of the following prerequisites:
   - ACT Math score of 24 or higher,
   - SAT Math score of 520 (re-centered) or higher, or
   - credit for one of the following Math courses with a grade of "C" or higher:

<table>
<thead>
<tr>

### Credits

| Total Hours | 15 |

---

1. The Industrial Engineering major includes all the courses required for an Applied Mathematics minor.
Bachelor of Science (B.S.) Major in Manufacturing Engineering (General Manufacturing Concentration)

Minimum required: 132 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine semester credit hours must be writing intensive (WI).

4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

5. The Manufacturing Engineering degree programs include all the courses required for an Applied Mathematics minor.

Bachelor of Science (B.S.) Major in Manufacturing Engineering (Mechanical Systems Concentration)  
Minimum required: 132 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
5. The Manufacturing Engineering degree programs include all the courses required for an Applied Mathematics minor.
The mission of the Department of Engineering Technology is to prepare students for professional management positions in industry, or to become public school teachers in the field of Technology Education. Industry bound graduates will be prepared for work involving materials, processes, product design and development, quality management, safety management, supply chain issues, facility planning, and similar concepts in industrial management. Graduates of the Technology Education track will be prepared to teach a variety of industry and technology related subjects in Texas public schools. This degree program is accredited by the National Steering Committee of CIM.

The Bachelor of Science major in Concrete Industry Management

The Bachelor of Science (B.S.) degree with a major in Concrete Industry Management (CIM) prepares students who are grounded in basic construction management, who are knowledgeable in concrete technology and techniques and who are able to manage people and systems to promote products and devices related to the concrete industry. CIM professionals find a wide array of opportunities in the concrete industry including positions in sales, operations, technical services and construction management. This degree program is accredited by the National Steering Committee of CIM.

The Bachelor of Science major in Construction Science and Management

The Bachelor of Science (B.S.) degree with a major in Construction Science and Management (CSM) prepares students to enter professional careers in the construction industry. Graduates may become construction project managers, estimators, schedulers, field engineers, general and/or subcontractors, code inspectors, material suppliers and technical sales representatives. Students learn the technical aspects of how construction projects are built through classes in residential, commercial, engineering and industrial construction, and learn how to manage construction through the required business administration minor and courses in estimating, scheduling and project management. Career opportunities are many in this industry, which comprises 16% of the Gross National Product. Students entering this degree need to successfully complete the Pre-Construction Curriculum before they will be allowed to register for advanced Construction Science and Management courses. Also, a sophomore level internship is required, where students spend 10 weeks and 400 hours working in the construction industry. Students interested in pursuing the Construction Science and Management degree program can receive more information on the major contacting a CSM Faculty Advisor. This degree program is accredited by the American Council for Construction Education.

The Bachelor of Science major in Technology Management

The Bachelor of Science (B.S.) degree with a major in Technology Management prepares students for professional management positions in industry, or to become public school teachers in the field of Technology Education. Industry bound graduates will be prepared for work involving materials, processes, product design and development, quality management, safety management, supply chain issues, facility planning, and similar concepts in industrial management. Graduates of the Technology Education track will be prepared to teach a variety of industry and technology related subjects in Texas public schools. This degree has three specializations, Manufacturing Technology, Electronics Technology, and Technology Education. Students interested in pursuing the Bachelor of Science in Technology Management should see a faculty advisor in the Department of Engineering Technology for more details.

The Bachelor of Science in Technology major in Engineering Technology

The Bachelor of Science in Technology (B.S.T.) degree with a major in Engineering Technology provides students with the technical background
to work with engineers in planning production processes, developing
tooling, establishing quality assurance procedures, developing safety
programs, establishing work methods, and setting time standards.
Students can specialize in Electrical Engineering Technology, Civil
Engineering Technology, Environmental Engineering Technology,
Manufacturing Engineering Technology, and Mechanical Engineering
Technology. The Bachelor of Science in Technology major in Industrial
Technology prepares students for work in industry in materials,
processes, industrial safety, and concepts of industrial management. This
degree has program majors in Manufacturing, and General Technology.
The General Technology major, under Industrial Technology, can be
customized to meet specific student needs offering opportunities in
electronics, industrial safety, education, etc. Students interested in
exploring such opportunities should see an Engineering Technology
Department advisor for more details.

**Teacher Certification**

A student seeking certification to teach at the secondary level must take:

<table>

The student who has further questions should see the undergraduate advisor in Engineering Technology.

**Admissions Requirements**

**Construction Science and Management**

1. Construction Science and Management majors must complete 30 semester credit hours of Pre-Construction coursework, which will consist of:

<table>

2. When a student completes their Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major" in the Construction Science and Management program.

3. After completing the Pre-Construction coursework, students will be allowed to enter the Bachelor of Science major in Construction

Science and Management, and will be allowed to enroll in the following Construction classes:

<table>

**Bachelor of Science (B.S.)**

- Major in Concrete Industry Management (p. 627)
- Major in Construction Science and Management (p. 629)
- Major in Technology Management (Electronics Technology Concentration) (p. 630)
- Major in Technology Management (Manufacturing Technology Concentration) (p. 631)
- Major in Technology Management (Teacher Certification in Technology Education, Grades 6-12) (p. 632)

**Bachelor of Science in Technology (B.S.T.)**

- Major in Engineering Technology (Civil Engineering Technology Concentration) (p. 633)
- Major in Engineering Technology (Electrical Engineering Technology Concentration) (p. 635)
- Major in Engineering Technology (Environmental Engineering Technology Concentration) (p. 636)
- Major in Engineering Technology (Manufacturing Engineering Technology Concentration) (p. 637)
- Major in Engineering Technology (Mechanical Engineering Technology Concentration) (p. 638)

**Minor**

- Technology (p. 639)

**Certificate**

- Driver and Traffic Safety Education (p. 638)

**Subjects in this department include:** CIM (p. 622), CSM (p. 622), TECH (p. 624).
Courses in Concrete Industry Management (CIM)

CIM 3330. Concrete Construction Methods.
This course covers forming, shoring, placing and reinforcing operations. Transporting, placing, consolidating, finishing, jointing and curing concrete for cast-in-place foundations, pavements, slabs on ground, structural frames, and other structural members are studied. Other topics include waterproofing concrete foundations and erecting precast concrete members. Prerequisite: CIM 3420.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIM 3340. Understanding the Concrete Construction System.
A detailed look at how the concrete construction industry works. The course includes a review of model building codes, building officials and their function, concrete industry codes and standards, concrete construction processes, quality assurance systems, contract documents, estimating, construction scheduling and concrete construction markets. Prerequisite: MATH 2328 and CIM 3420.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIM 3366. Applications of Concrete in Construction.
This course is a detailed study of the many uses of concrete in the construction of buildings, pavements and other facilities. Emphasis will be placed on the advantages, disadvantages, and unique problems faced by materials suppliers, contractors and design professionals when concrete is chosen for specific applications. Prerequisite: CIM 3330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Concrete mixture proportioning calculations and statistical analysis of strength tests are also studied. Prerequisite: CSM 2342.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CIM 4310. Senior Concrete Lab.
This course provides students with an opportunity to further develop their technical and laboratory knowledge and pursue a project of individual interest. A formal report/presentation will be required at the conclusion of the course. Prerequisites: CIM 3366 and CIM 3420 with grades of C or better.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter

CIM 4330. Management of Concrete Products – Ordering and Scheduling.
This course is designed to provide the student with a basic understanding of managing the ordering and delivery process common to all concrete products. Emphasis will be in planning, organizing and controlling at both the first-line supervisory and managerial levels. Prerequisites: CIM 3340 and MGT 3303.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIM 4340. Concrete Problems: Diagnosis, Prevention and Dispute Resolution.
Course involves diagnosing/preventing problems related to concrete production, testing, construction and performance. Students learn to identify causes of fresh and hardened concrete problems, i.e. fast and slow setting, air content variations, low strength, cracking and scaling. Pre-job conferences and dispute resolution methods are examined. Prerequisite: CIM 3366.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIM 4398. Capstone.
An intensive study of a problem(s) appropriate to the major/student’s career interests. Requires knowledge from previous technical/business coursework. Solution(s) for the problem(s) will be presented to an industry committee. Presentation must emphasize depth of analysis, completeness/effectiveness of solution, and presentation skills. Prerequisite: CIM 4330, (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Courses in Construction Science and Management (CSM)

CSM 1260. Introduction to the Construction and Concrete Industry.
This is an introductory course for Construction and Concrete Industry Management (CIM) majors. Residential, commercial, heavy, civil and highway construction is explored including the concrete industry. The role of the contractor, architect/engineer and owner are covered including contracts, careers, sustainability and economic importance of the construction industry.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CSM 2160. Introduction to Construction Surveying and Site Layout.
Common construction surveying and site layout techniques are studied using both optical levels and total stations. Benchmarks, building lines, property lines, differential and profiling are discussed in lecture with applied exercises performed in the laboratory.
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CSM 2313. Architecture Design I - Construction Documents.
Students are introduced to the language and process of producing architectural construction documents in residential projects utilizing computers and CAD software. Site plans, floor plans, sections, elevations, and details are drawn individually and as a team as orthographic projection theory and its importance in resolving complex building geometry are covered.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CSM 2314. Architecture Design II - Construction Documents.
Students are introduced to the language and process of producing architectural construction documents in residential projects utilizing computers and CAD software. Site plans, floor plans, sections, elevations, and details are drawn individually and as a team as orthographic projection theory and its importance in resolving complex building geometry are covered.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
CSM 3342. Construction Materials and Processes.
This course will introduce students to various types of construction materials including ceramics, ferrous, non-ferrous, and organic materials used in construction. Their properties, working characteristics and processes used to manufacture and assemble these materials are studied. Laboratory activities are used to reinforce lecture material. Prerequisites: PHYS 1315/PHYS 1115 or PHYS 1410 or PHYS 1430 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

A residential construction course, which deals with interpreting plans and specifications, along with studying site work, foundations, walls, roofing, ceilings, floor and finishing systems. Also, residential MEP systems are covered along with applicable building codes and construction financing.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CSM 3360. Structural Analysis.
This is a structural engineering fundamentals class to include design loads, reactions, force systems, functions of a structure, and both the analysis and design of determinate structures by classical and modern techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This is a commercial building construction systems class that deals with soils, site work, heavy foundations, steel, reinforced concrete and pre-cast structures along with common assemblies. Commercial MEP’s are studied along with CSI master format, as-built and shop drawings, schedule of values, AIA documents and appropriate building codes.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CSM 3363. Heavy, Civil and Highway Construction Systems.
Selection, acquisition and capabilities of heavy construction equipment are presented. Applications of economics to performance characteristics and production of equipment is discussed. Sector-specific construction management methods are covered, including unit price estimating, equipment fleet design, repetitive scheduling and major components of highways, bridges and engineered facilities.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Properties of subsurface materials and the principles of subsurface construction are studied. Topics include soil classification and testing, soil mechanics and foundation systems, including site layout, excavation, caissons, piles, slurry wall, slab and spread footings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CSM 3367. Mechanical, Electrical and Plumbing Systems.
This course covers typical Mechanical, Electrical and Plumbing (MEPs) systems found in residential and commercial construction along with design and installation methods used to conserve both energy and water in new and remodeled structures.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Students create individual and group commercial projects which include plans, elevations, sections, details, and 3D drawings utilizing 3D building information modeling (BIM) and other current technologies used in the industry. Structural, mechanical, electrical, plumbing, accessibility, and sustainable building issues are discussed. Prerequisite: CSM 2313.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CSM 4360. Senior Construction Management Capstone.
Students work in groups to prepare a bid proposal based on a real life construction project involving contract negotiations, construction documents interpretation, estimating, bidding, scheduling and developing safety and quality control plans. Emphasis is on developing leadership, team building, and written and oral communication skills. For senior construction majors. Prerequisites: TECH 2190, CSM 4313, CSM 4361, CSM 4364, CSM 4369.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

The fundamentals of construction estimating are covered including feasibility, conceptual, square feet, cubic feet, unit in place, preliminary, engineering, range and contractor’s detail bid estimates. Plans and specifications are used along with contemporary estimating software to develop estimates commonly used in the construction industry. Prerequisite: CSM 3361.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CSM 4364. Construction Project Management and Scheduling.
Concepts of construction management are studied beginning with contract documents through the effective management of manpower, machines, material and money necessary to complete construction projects on time and within budget. Gantt Charts and PERT/CPM schedules are developed, using contemporary software. Prerequisites: CSM 4361. Corequisite: CSM 4361.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
This course covers environmentally sustainable practices used in building design and construction. THE LEED system will be used to guide the course, which covers aspects of sustainable sites, water efficiency, energy and atmosphere, materials and resources, indoor environmental quality and the CAD design process. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required Writing Intensive
Grade Mode: Standard Letter

CSM 4369. Construction Contracts, Liability and Ethics.
Legal aspects of design and construction contract documents are presented, including contract formation, interpretation, rights and duties and changes. Legal liabilities are explored in the context of professional ethics for design firms and constructors. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Courses in Technology (TECH)

This course provides an introduction to the fundamentals of technical drawing and the related graphical tools used to communicate engineering design concepts. The topics include two dimensional graphics, orthographic projections, geometric dimensioning and tolerancing, computer-aided graphics, parametric solid modeling, and introduction to three dimensional graphics.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 1363. Manufacturing Processes I.
The course will provide an overview of the manufacturing processes. Major emphasis is placed on machining theory, setup and tooling. Metal forming and fabrication procedures are introduced. Joining and assembly includes welding, mechanical fastening, adhesive bonding and surface finishing concepts. Laboratory demonstrations and tutorials involve machining, joining and forming techniques.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 1393. Manufacturing Processes II.
The course involves the fundamentals of casting and molding processes. Emphasis is placed on casting terminology, molding sand, molding processes, pattern making, coremaking and quality control. Ferrous and non-ferrous alloy composition and casting geometry are explored. Plastic and composite forming concepts are included. Microelectronic manufacturing principles and processes are introduced. Prerequisite: TECH 1363.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 2190. Industrial Internship.
This course is a supervised experiential learning course in various technical disciplines as appropriate to a student’s degree program. This work integrated learning course helps the student link theory with practice. Repeatable for credit. Prerequisites: 45 hours completed with at least 12 having been completed at Texas State and a minimum major GPA of 2.25.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

TECH 2310. Introduction to Computer-Aided Design (CAD).
Principles of 3D modeling are introduced in the preparation of drawings for manufacturing processes. Emphasis includes the parametric solid modeling of machine elements and geometric dimensioning and tolerancing. The laboratory component involves production of engineering drawings and simulations connecting this course to computer-aided engineering. Prerequisite: TECH 1311 or ENGR 1313 or instructor’s approval.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Fundamentals of Material Removal. (3-0) An overview of the micro and macro structure of materials is studied. Assessment of materials with regard to their chemical and mechanical properties and how these properties relate to machining is explored. Machining conditions with regard to feed, speed, surface finish, tooling requirements, horsepower capabilities, time, and cost analysis complete the class. Prerequisite: MATH 1315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 2340. Environmental Technology I.
This course emphasizes the fundamental chemical, biological, ecological and hydrological principles, and mass and energy balances involved in solving environmental problems. Specific environmental areas covered include water, water quality and wastewater treatment. Environmental regulations and testing as pertinent to water will be covered. Prerequisites: CHEM 1342 and PHYS 1430.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 2344. Power Technology.
This class deals with understanding the basic laws of thermo-dynamics. It probes efficiency and examines energy-converting devices from the inputs, processes, outputs model. Internal combustion engines, electric motors, hydraulic, pneumatic, and gearing systems, and fuel analysis are reviewed from a practical and theoretical perspective. Prerequisites: MATH 1315 and PHYS 1315 and 1115 or PHYS 1410 or PHYS 1430.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
Course covers principles of statics and strength of materials to include forces, equilibrium, friction, centroids, and stress/strain relationships, axial stress and deformation, thermal stress and deformation, stress concentrations, factor of safety, torsional stress, beam stresses and combined stress. Prerequisites: CSM 2342 or ENGR 2300, PHYS 1315 and PHYS 1115 or PHYS 1410 or PHYS 1430, all courses with a grade of C or higher. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 2370. Electricity/Electronics Fundamentals.  
Fundamentals of safety, Ohm's Law, series, parallel, and series-parallel circuits, meters, relays, and basic transistor circuits. (WI).  
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
TCCN: ENGR 2305

TECH 3322. Development of Technology.  
The role of technology in the development of Western World culture is studied from a technical perspective. Social repercussions resulting from the introduction of foundational technical developments are reviewed. Examples of technical areas examined are agriculture, transportation, manufacturing, engineering, defense, and communications. Readings focus discussions and papers on specific topics and encourage synthesis level understanding. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

TECH 3340. Environmental Technology II.  
This course covers air pollution, solid waste and hazardous waste management, sustainability and risk management. Environmental regulations and testing as pertinent to soils, sediments, residual and air will be covered. Prerequisite: TECH 2340.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 3344. Applied Thermofluids.  
Basic concepts, first and second laws of thermodynamics, thermodynamic properties, heat transfer by conduction, convection and radiation, fluid statics and fluid dynamics are studied. Prerequisites: TECH 2344 and PHYS 1430.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, SS, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. Prerequisite: TECH 3364.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 3357. Facilities Planning and Design.  
This project-based course provides students with a practical knowledge of designing efficient facility layout and material handling system. Systematic layout planning (SLP) based on a product and process information is studied in depth. Simulation tools are used for flow analysis. Prerequisites: TECH 2310.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 3364. Quality Assurance.  
This course covers the principles of quality management to include basic probability and statistics concepts, control charts for attributes and variables, sampling plans, quality audits and costs. The laboratory component of this class includes exercises that provide exposure to basic metrology and data collection.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 3370. Electronics.  
This course is a study of the characteristics of basic electronic circuits and their component parts. Course content includes the use of electronic test equipment, inductance, capacitance, reactance, impedance, rectification, switching, amplification, and electronic circuit fabrication. Prerequisite: TECH 2370 or EE 2400.  
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter

This course deals with basic principles of communication systems. Specific topics include analysis of signals and systems, modulation techniques (digital and analog), analysis of transmitters and receivers, networking, and wireless communication systems. Prerequisites: TECH 2370 or EE 2400.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

TECH 4197. Special Problems.  
The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis.  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter

TECH 4330. Foundry & Heat Treatment.  
The technical aspects of foundry and heat treatment of ferrous and nonferrous metals are reviewed. Students gain proficiency with interpretation of binary phase diagrams, mathematical modeling of gate and runner systems, micro-structural analysis, process cost evaluation, sand casting, and investment casting. The course includes writing technical reports and conducting experiments. Prerequisites: TECH 1311 or ENGR 1313; TECH 2351 or MFGE 2332; and ENGR 2300.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter
TECH 4340. Design for Environment.
This course covers the basic principles of design for environment. Topics covered include: industrial ecology, resource depletion, product design, process design, material selection, energy efficiency, product delivery, use, end of life and life cycle analysis. Prerequisite: TECH 3340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 4345. Method Engineering and Ergonomics.
The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, SS, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. Prerequisite: TECH 3364.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 4346. Manufacturing Process Engineering.
This course will provide students with fundamentals of manufacturing processes planning and engineering. Major emphasis will be placed on make-buy analysis, tolerance analysis and dimensional control, tool and fixture design, process and material selection, design for manufacturing, design for assembly, and process planning. Prerequisites: TECH 1393 and TECH 2310.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Principles of the design of mechanical components; theories of failure; material selection; design of shafts, gears, cams, fasteners, springs and brakes; dynamics; balancing of machinery and vibration control are studied. Prerequisites: TECH 1393 and TECH 2351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 4348. Electronic Devices and Circuits.
This course covers transistor configurations, field effect transistors and circuits, voltage regulation, amplifier feedback principles, operational amplifiers and circuitry, and unijunction transistors and applications. Prerequisites: TECH 2370 or EE 2400.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 4349. Control Systems and Instrumentation.
This course is an introduction to modern control systems and instrumentation. Topics covered include transducers, sensors, actuators, instrumentation, open and closed loop control systems, PID controllers, programmable logic controllers and ladder logic, and computer interface software and hardware. Prerequisites: TECH 2370 or EE 2400.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 4374. Digital Systems.
Solid state digital electronics from basic concepts to current industrial needs in terms of logic gates (all types), number systems counters (all types), registers (all types), sequential control circuits, and shift register generator. Prerequisite: TECH 2370 or PHYS 2425.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 4375. Industrial Safety.
Introduction to the field of industrial safety with emphasis on compliance with Federal and State regulations. Prerequisite: Junior standing. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Writing Intensive
Grade Mode: Standard Letter

TECH 4376. Driver and Traffic Safety Education I.
Content, methods, and materials for instruction in the classroom phase of driver education in Texas. Topics include Texas traffic law; Texas Education Agency standards for high school driver education; driver behavior, attitude, and psychomotor skills; and safety in the highway transportation system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TECH 4377. Driver and Traffic Safety Education II.
Content, methods and materials for instruction in the laboratory phase of driver education in Texas. Topics include in-car instruction, multi-car range, and simulation. During laboratory sessions participants will observe in-car instructors, peer teach in the car, and teach a high school student how to drive. TECH 4383 and 4385 will be taken simultaneously. Prerequisites: TECH 4383 and a good driving record.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TECH 4378. Motorcycle Safety and Rider Education.
Techniques and methods of teaching beginner rider education. Includes classroom techniques as well as laboratory experience in on-street and off-street riding. Not applicable to the BS in Technology program.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TECH 4379A. Advanced Residential Construction.
Advanced concepts in residential construction are covered including land acquisition, land development, infrastructure, deed restrictions, cash flow, financial forecasting, marketing, scheduling and sustainable building practices. Prerequisite: CSM 2360 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TECH 4389B. Construction Industry Best Practices.
This course will cover current issues facing the construction industry today including the best practices used to resolve these issues. Several industry leaders will lecture on these contemporary problems facing the industry. Restricted to Junior level Construction Science and Management Majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TECH 4390. Internship.
Supervised on-the-job professional learning experience in construction, manufacturing, electronics, and other technical areas. This course provides practical work experience in their particular field of interest. Repeatable for credit. Prerequisites: Consult internship coordinator. (WI).
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Dual Enrollment Permitted/Time Conflicts Permitted/Write Intensive
Grade Mode: Standard Letter

TECH 4392. Micro and Nano Manufacturing.
This course covers the basic principles of micro and nano manufacturing. Emphasis is placed on the process descriptions, terminology, equipment requirements, and processes for micro and nano systems. Basic physics and process chemistry is combined with control schemes to arrive at overall systems descriptions. Prerequisites: CHEM 1335 or CHEM 1341, and PHYS 1325 or PHYS 1420 or PHYS 2425.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 4393. Driver and Traffic Safety Education III.
Content, procedures, and administration of multi-phase driver education programs. Topics include scheduling, maintenance and operation of laboratory equipment, record keeping, lesson plan development, and driver education for the handicapped. Practicum in classroom and/or simulation instruction. Not applicable to the Bachelor of Science in Technology degree program. Prerequisite: TECH 4383, TECH 4385, and TECH 4393 may be taken simultaneously.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Lab Required
Grade Mode: Standard Letter

TECH 4395. Automated Manufacturing Systems I.
This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies at a system level. This course includes topics such as simulation of manufacturing systems, flexible manufacturing systems, automated quality control, automated identification, and automated material handling. Prerequisites: TECH 4395.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 4396. Automated Manufacturing Systems II.
This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies at a system level. This course includes topics such as simulation of manufacturing systems, flexible manufacturing systems, automated quality control, automated identification, and automated material handling. Prerequisites: TECH 4395.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

TECH 4397. Special Problems.
The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TECH 4398. Senior Design.
This course deals with application of technical and non-technical skills and knowledge using a multidisciplinary team-based approach for solving real-world problems related to product and process development. The topics include systematic product development, development of business plans, project management, cost estimation, documentation and presentation, prototyping, fabrication and concurrent engineering. Prerequisites: TECH 4395 or TECH 4372 or EE 3400 or GEO 4313. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required/Write Intensive
Grade Mode: Standard Letter

TECH 4399. Seminar in Technology.
The topics for this course will vary. The course will involve the identification of the topic, its nomenclature, its processes, tools, equipment or materials, and its application to technology. The topic may apply to either the certification program or technology program or to both. A final report summary or presentation will conclude each seminar. Repeatable for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Bachelor of Science (B.S.) Major in Concrete Industry Management
Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
5. A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.

Total Hours: 120
Bachelor of Science (B.S.) Major in Construction Science and Management

Minimum required: 120 semester credit hours

Admission Requirements

1. This degree program requires admission to the university and admission to the program. Information about the program admissions can be found at: http://mycatalog.txstate.edu/undergraduate/science-engineering/technology/#admissionstext

2. Students must complete the following 30 semester credit hours of Pre-Construction coursework:

- MATH 2328 Elementary Statistics 3
- MATH 2417 Pre-Calculus Mathematics 4
- PHYS 1315 General Physics I 4 & PHYS 1115 and General Physics I Laboratory 4
- CHEM 1335 Engineering Chemistry 4 & CHEM 1141 and General Chemistry Laboratory I 4
- PHYS 1325 General Physics II 4 & PHYS 1125 and General Physics II Laboratory 4
- CSM 1260 Introduction to the Construction and Concrete Industry 2
- CSM 2313 Architecture Design I - Construction Documents 3
- CSM 2342 Construction Materials and Processes 3
- TECH 2351 Statics and Strength of Materials 3

Total Hours 30

2. When a student completes the above Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major".

General Requirements

1. After completing the Pre-Construction coursework, students will be allowed to enter the major and to enroll in the following Construction courses:

- CSM 2160 Introduction to Construction Surveying and Site Layout 1
- CSM 2360 Residential Construction Systems 3
- CSM 3360 Structural Analysis 3
- CSM 3361 Commercial Building Construction Systems 3
- CSM 3363 Heavy, Civil and Highway Construction Systems 3
- CSM 3366 Soils and Foundations 3
- CSM 3367 Mechanical, Electrical and Plumbing Systems 3
- CSM 4360 Senior Construction Management Capstone 3
- CSM 4361 Construction Estimating 3
- CSM 4364 Construction Project Management and Scheduling 3
- CSM 4368 Environmentally Conscious Design and Construction 3
- CSM 4369 Construction Contracts, Liability and Ethics 3

Total Hours 34

2. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

3. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine semester credit hours must be writing intensive (WI).

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.

7. No “D” grades received at other institutions will be credited towards the major.

Total Hours: 120
Bachelor of Science (B.S.) Major in Technology Management (Teacher Certification in Technology Education, Grades 6-12)

**Minimum required: 122 semester credit hours**

**Admission Requirement**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine semester credit hours must be writing intensive (WI).

4. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.

5. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a “C”.

6. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Bachelor of Science in Technology (B.S.T.) Major in Engineering Technology (Civil Engineering Technology Concentration)**

**Minimum required: 120 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Total Hours: 120

Driver and Traffic Safety Education Certification

Students seeking State of Texas Certification in Driver’s Education must complete nine semester hours of:
Bachelor of Science (B.S.)

- Major in Mathematics (p. 643)

Bachelor of Arts (B.A.)

- Major in Mathematics (p. 644)
- Major in Applied Mathematics (p. 644)

Minors

- Major in Mathematics (Teacher Certification in Mathematics, Grades 7-12) (p. 646)
- Applied Mathematics (p. 647)
- Mathematics (p. 647)
- Second Teaching Field in Mathematics (Grades 7-12) (p. 647)

Courses in Mathematics (MATH)

MATH 1300. Elementary Algebra.
A course to remediate and review basic academic skills in mathematics, including number concepts, computation, elementary algebra, geometry and mathematical reasoning. Credit earned for this course does not count toward any degree offered by the university.

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Remedial/Lab Required
Grade Mode: Developmental

MATH 1311. Intermediate Algebra.
This preparatory course for college algebra includes linear equations and inequalities, rational expressions, exponents and radicals, quadratics and word problems. This course is designed for students who've graduated from high school with no more than the minimum mathematics requirements or for students who've been away from mathematics for years. Prerequisites: MATH 1300 with a grade of C or better.

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Remedial/Lab Required
Grade Mode: Developmental

MATH 1312. College Statistics and Algebra.
A course covering linear and quadratic equations, inequalities, functions and their graphs, logarithms, systems of equations, and applications of mathematics. Special emphasis on statistical concepts including linear and quadratic regression, distributions, confidence intervals, & hypothesis testing. This course is not intended to substitute for MATH 1315 as a prerequisite. Prerequisite: College Readiness in Mathematics according to the TSI regulations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1342

MATH 1315. College Algebra.
A course covering linear and quadratic equations, inequalities, word problems, functions, logarithms, systems of equations and other college algebra topics as time permits. Prerequisite: College Readiness in Mathematics according to the TSI regulations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1314

For more information on this program contact the Director of the Traffic Safety Center.

Minor in Technology

The minor in Technology requires 18 semester credit hours of Technology courses, of which 9 hours must be advanced. Courses will be determined by conference with a departmental faculty advisor or the Chair of the Department of Engineering Technology.

Department of Mathematics

Math/Computer Science Building Room 470
T: 512.245.2551 F: 512.245.3425
www.math.txstate.edu/ (http://www.txstate.edu/math/welcome.html)

The study of mathematics is more than four thousand years old and comprises an enormous body of knowledge. Mathematics remains a very active area of research continually giving rise to new theories and questions. The knowledge accumulated and the questions being considered concern both mathematics itself and its many applications.

Mathematics is a fundamental skill required at some minimal level of all educated people, and required in depth in many professions. The teaching objective of our Department includes the development of reasoning and computations skills, and the preparation of students for careers requiring a significant mathematical background.

Centers for Excellence

The department houses two Centers for Excellence. Mathworks, a center for innovation in mathematics and math education, designs and hosts programs for students from kindergarten to high school, conducts research on math curriculum, and provides training for teacher education students as well as current teachers. Mathworks received the 2001 Star Award for Closing the Gaps from the Texas Higher Education Coordinating Board and the 2007 Siemens Founders Award.

The mission of the Center for Mathematics Readiness is to provide students with a fresh perspective, immersing them into the world of Mathematics through infrastructure planning, content and curriculum, technical support and evaluation. This will ensure that all students are afforded the opportunity to succeed, not just in college, but in life as well.

Majors

The department offers the Bachelor of Science with a major in Mathematics with or without teacher certification, the Bachelor of Science with a major in Applied Mathematics, and the Bachelor of Arts with a major in Mathematics.

Bachelor of Arts (B.A.)

- Major in Mathematics (p. 643)

Bachelor of Science (B.S.)

- Major in Applied Mathematics (p. 644)
- Major in Mathematics (p. 645)
MATH 1316. Survey of Contemporary Mathematics.
(MATH 1332) A study of the uses of mathematics in society today. Emphasis is on concepts rather than technical details. May not be used as a prerequisite for any other mathematics course. Prerequisite: College Readiness in Mathematics according to TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1332

MATH 1317. Plane Trigonometry.
A course covering trigonometric functions, right triangles, radian measure, graphs of trigonometric functions, trigonometric identities, including multiple and half-angle identities, inverse trigonometric functions, trigonometric equations, oblique triangles, and complex numbers. Prerequisite: MATH 1315 with a grade of C or higher, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1316

MATH 1319. Mathematics for Business and Economics I.
Topics from college algebra and finite mathematics which apply to business and economics including applications of equations and inequalities, simple and compound interest and annuities. Prerequisite: College Readiness in Mathematics according to the TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1324

MATH 1329. Mathematics for Business and Economics II.
Topics from finite mathematics and elementary differential calculus which apply to business and economics. Prerequisites: MATH 1315 or 1319 with a grade of C or higher, ACT Mathematics score of 27 or more, SAT Mathematics score of 580 or more, SAT Math Section score of 600 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 1325

MATH 2311. Principles of Mathematics I.
Logical deductive reasoning, number theory, a rational development of the real numbers with the associated number structures and algorithms for the fundamental operations, including historical, philosophical and cultural significance. Prerequisite: MATH 1315 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 1350

MATH 2312. Informal Geometry.
Geometric measuring, Euclidean Geometry, and topics associated with informal geometry, including historical, philosophical, and cultural significance. Prerequisite: MATH 2311 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 1351

MATH 2321. Calculus for Life Sciences I.
This course is designed to serve the needs of students in the life sciences. Topics will include: graphs, derivatives, exponents and logarithms, scientific notation, sequences, summation, and applications. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score 520 or more, SAT Math Section score of 550 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020
Grade Mode: Standard Letter
TCCN: MATH 2313

MATH 2328. Elementary Statistics.
This course is an algebra-based introduction to descriptive statistics, random sampling, design of experiments, probability and the Central Limit Theorem. Inferential statistics topics include the foundational concepts for confidence intervals and hypothesis testing for simple experiments. Prerequisites: MATH 1315 with a grade of C or higher, MATH 2321 with a grade of D or higher, MATH 2417 with a grade of D or higher, MATH 2471 with a grade of D or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 520 or more or SAT Math Section score of 550 or more.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 1342

MATH 2331. Calculus for Life Science II.
Topics in this course will include: trigonometric functions, probability, integral calculus, differential equations, and applications. Prerequisites: MATH 2321 with a grade of “C” of higher, MATH 2471 with a grade of “D” of higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 2305

MATH 2351. Calculus for Life Science III.
This course is a study of discrete mathematical structures that are commonly encountered in computing hardware and software. Prerequisites: MATH 1315 with a grade of “C” of higher, MATH 2417 with a grade of “D” of higher, or MATH 2471 with a grade of “D” of higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 2351
MATH 2417. Pre-Calculus Mathematics.
A survey of functions, trigonometry and analytic geometry to prepare students for calculus. Prerequisites: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 520 or more, SAT Math Section score of 550 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2412

MATH 2471. Calculus I.
This is the first course in differential and integral calculus which stresses limits as well as the applications of calculus to the problems of science. Prerequisites: MATH 2417 with a grade of C or higher, ACT Mathematics score of 27 or more, SAT Mathematics score of 580 or more, SAT Math Section score of 600 or more, Accuplacer College Mathematics score of 103 or more, Compass Trigonometry score of 46 or more.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2413

MATH 2472. Calculus II.
A continuation of differential and integral calculus including methods of integration, sequences and series, and introduction to partial derivatives. Prerequisite: MATH 2471 with a grade of "C" or higher.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2414

MATH 3305. Introduction to Probability and Statistics.
Basic probability models, generating functions and conditional probability, also discrete and continuous, univariate and bivariate distributions of random variables. Concepts of estimation, tests of hypothesis and statistical inference. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3306. Introduction to Statistical Methods.
This calculus-based statistics course covers basic descriptive statistics, concept of probability, binomial and normal probability distributions, sampling distributions, concepts of estimation and hypothesis testing, confidence intervals, t-test, chi-square tests, simple linear regression, and one-factor analysis of variance. Prerequisites: MATH 2472 with a grade of "C" or better; 2.75 overall GPA. Restricted to Mathematics majors seeking teacher certification.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3315. Modern Geometry.
Modern geometry with an emphasis on the triangle, circle, plane and Euclidean geometry, an historical aspects will be integrated into the course. May not be applied toward a minor in mathematics. Prerequisites: MATH 2321 or MATH 2471 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3323. Differential Equations.
A course covering solutions to the more common types of ordinary differential equations, especially those of first and second order, with emphasis on geometrical and physical interpretations. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3325. Number Systems.
Algebraic construction of the natural numbers. Covers the basic vocabulary and proof techniques of abstract algebra, and the structural properties of the natural numbers, integers, rational, real and complex number systems. Prerequisite or Co-requisite: MATH 2471.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3330. Introduction to Advanced Mathematics.
An introduction to the theory of sets, relations, functions, countable and uncountable sets, and other selected topics. Algebraic structure and topological properties of Euclidean Space, and an introduction to metric spaces. Prerequisite: MATH2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides a broad overview of deterministic operations research techniques. Linear programming will be covered including the simplex method, duality and sensitivity analysis. Further selected topics are from integer programming, dynamic programming, scheduling models, game theory, and associated topics. Prerequisite: MATH 2472 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3337. Calculus III.
A course covering sequences and series, vectors, functions of several variables, partial derivatives, multiple integrals, line and surface integrals, and applications. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3373. Calculus III.
A course covering sequences and series, vectors, functions of several variables, partial derivatives, multiple integrals, line and surface integrals, and applications. Prerequisite: MATH2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A course covering statics, using a vector approach to mechanics. The course is designed to satisfy the requirements of engineering Colleges. This course cannot be used to satisfy the requirements of Engineering degrees. Prerequisite: PHYS 1430. Prerequisite or Co-requisite: MATH 2472.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3377. Linear Algebra.
An introductory course in linear algebra covering vector spaces, linear transformation, matrices, systems of linear equations, and inner product spaces. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MATH 3380. Analysis I.
A course covering the introduction to the theory of real functions. Topics include limits, continuity and derivatives and associated topics. Prerequisite: MATH 3330 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3383. Numerical Analysis I.
This course focuses on basic numerical methods in mathematics to the solution of functional problems in fields such as engineering and applied sciences. This course covers instructions in computer arithmetic, solutions of equations, interpolation, numerical differentiation/integration, and applications to scientific and industrial applications. Prerequisite: MATH 2472 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3398. Discrete Mathematics II.
A continuation of discrete Mathematics I. Prerequisite: MATH 2358 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4302. Principles of Mathematics II.
Algebraic reasoning and probability with selected topics from quantitative reasoning, measurement, statistics, and geometry are integrated with middle school pedagogical practices such as inquiry learning and use of technology. Appropriate correlated lessons, writing components, and culturally responsive teaching are incorporated. Prerequisite: MATH 2312 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

MATH 4303. Capstone Mathematics for Middle School Teachers.
A rigorous, integrated, analytical perspective of mathematical topics; quantitative reasoning, geometry and measurement, probability and statistics, number theory and algebraic reasoning. May not be applied towards a mathematics minor. Must be taken before student teaching. Prerequisites: MATH 2331 or 2472 and MATH 3315 with grades of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Basic concepts underlying algebra, geometry, trigonometry, and calculus taught from an advanced standpoint, including historical, philosophical, and cultural significance. May not be applied toward a minor in mathematics. Must be taken before student teaching. Prerequisite: MATH 3315 and MATH 2331 or MATH 2472 with grades of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4305. Probability and Statistics.
A course covering sample spaces, probability of events, binomial and multinomial distributions, random variables, normal approximations, statistical inference, and applications. Prerequisite: MATH 3305 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4306. Fourier Series and Boundary Value Problems.
Advanced solution methods for differential equations; partial differential equations; series approximations, Fourier series; boundary value problems typical of scientific applications. Prerequisite: MATH 3323 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4307. Modern Algebra.
A course covering elementary set theory, structures, functions, and concepts of modern algebra. Prerequisites: MATH 3330 with a grade of “C” or higher and MATH 3325 or 3377 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4311. Introduction to the History of Mathematics.
A survey of the development of major mathematical topics, including geometry, algebra, calculus, and advanced mathematics. Philosophical and cultural aspects will be integrated with the structure, theorems, and applications of mathematics. May not be applied toward a minor in mathematics. Prerequisite: MATH 3315 with a grade of “C” or higher and MATH 2331 or MATH 2472 with a grade of “C” or higher. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

MATH 4315. Analysis II.
A continuation of MATH 3380. Topics include integration, series and sequences of functions and associated topics. Prerequisite: MATH 3380 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4330. General Topology.
Topics include introductory treatment of convergence, continuity, compactness, connectedness and fixed points in topological spaces with special emphasis on metric spaces. Prerequisite: MATH 3330 or MATH 3380 with a grade of “C” or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Selected topics including Laplace transforms, complex variables, advanced calculus for applications, calculus of variations, integral equations, intermediate differential equations, vector analysis, etc. May be repeated once for credit with a different topic. Prerequisite: Consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
MATH 4350. Introduction to Combinatorics.
This course introduces fundamental concepts and results in combinatorics such as counting techniques, binomial coefficients, and recurrence relations; and applications in different fields such as complexity of algorithms and graph theory. Mathematical proofs are an essential part of this course. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 4382. The Literature and Modern History of Mathematics and Its Applications.
This course will focus on mathematical articles in recent journals. The articles will be re-written so that the proofs and comments are more easily understood by the casual reader. This embellishment of journal articles will take place in class with the class participating, in groups for outside work and as individual assignments. May not be applied toward a minor in mathematics. Prerequisites: A grade of "C" or higher in two of these three: MATH 3380, MATH 4307, or MATH 4330. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

MATH 4383. Numerical Analysis II.
This course focuses on a broad range of mathematical and computational methods in modeling, analysis, and simulation of scientific and engineering problems. This course covers instructions in numerical computation, and applications to scientific and engineering problems. This course covers instructions in numerical computation, and applications to scientific and engineering problems.

Prerequisites: MATH 3383 and MATH 3323 with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Mathematics
Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, and a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Bachelor of Science (B.S.) Major in Mathematics

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors).

4. Nine semester credit hours must be writing intensive (WI).

5. Students pursuing this B.S. degree program are required to complete an additional 3 hours of English beyond the general education core curriculum. Students may select from the following English courses.

6. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Bachelor of Science (B.S.) Major in Mathematics (Teacher Certification in Mathematics, Grades 7-12)

Minimum required: 120 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. A minor in Secondary Education is required.
3. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
4. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a "C".
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Nine semester credit hours must be writing intensive (WI).
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

| MATH 4307 | Modern Algebra | |
| MATH 4350 | Introduction to Combinatorics | |
| MATH 4383 | Numerical Analysis II | |

Total Hours: 20

1. Students can take only one of: PHYS 3320, CS 3378, or IE 3320

**Second Teaching Field in Mathematics (Grades 7-12)**

For students who are seeking a teacher certification within their major and would like a second teaching field in Mathematics, the requirements are:

| MATH 2471 | Calculus I | 4 |
| MATH 2472 | Calculus II | 4 |
| MATH 3305 | Introduction to Probability and Statistics | 3 |
| MATH 3315 | Modern Geometry | 3 |
Bachelor of Arts (B.A.)
- Major in Physics (p. 652)

Bachelor of Science (B.S.)
- Major in Physics (p. 653)
- Major in Physics (Teacher Certification in Physical Science, Grades 6-12) (p. 664)
PHYS 1315. General Physics I.
The first course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of mechanics and heat. Designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisite: MATH 1315 with a grade of "C" or higher. Prerequisite or Co-requisite: PHYS 1115. MATH 1317 is recommended.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): PHYS 1115
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: PHYS 1301

PHYS 1320. Elementary Physics.
A non-mathematical survey of electricity, magnetism, light, relativity, and atomic and nuclear physics. These topics are described in a conceptual way with applications relating to the world around us. The laboratory experience may be obtained in a separate one-hour credit lab (PHYS 1110). PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science. The laboratory experience is recommended with the second course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: PHYS 1307

PHYS 1325. General Physics II.
Second course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of waves, light, electricity and magnetism. Designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisites: PHYS 1315 and MATH 1315 with a grade of "C" or higher. MATH 1317 and concurrent enrollment in PHYS 1125 are recommended.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): PHYS 1125
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: PHYS 1302

A study of the solar system. Topics included are a study of the sun, the planets and their satellites, the comets, and other components of the solar system. Some aspects of telescopes and ancient astronomy will be included also.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: PHYS 1312

PHYS 1350. Astronomy: Stars and Galaxies.
A study of the universe beyond the solar system. Topics included are a study of the stars and star clusters, nebulae, galaxies, and an introduction to some aspects of cosmology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: PHYS 1311

This studio-style course is designed for preservice K-8 teachers. Course content includes development of physics concepts and research on elementary physics teaching and learning, with focus on deep understanding of fundamental concepts and how these help make sense of everyday experience. It is first in a sequence of two courses.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 1370. Development of Concepts in Physics II.
This studio-style course is designed for preservice K-8 teachers. Course content includes developing concepts of force, motion, waves, light, and matter, and on research on elementary physics teaching and learning. Focus is on how physics helps make sense of everyday experience. It is second in a sequence of two courses. Prerequisite: PHYS 1360.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the principles of classical mechanics through problem solving and laboratory investigations. PHYS 1430, PHYS 2425, and PHYS 2435 are designed for students majoring and minoring in physics and/or other disciplines within the college of science and engineering. Credit for both PHYS 1315 and PHYS 1115 and PHYS 1430 cannot be given. Pre or Co-requisite: MATH 2471 with a C or higher or concurrent enrollment in MATH 2471.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2425

PHYS 2230. Introduction to Computational Modeling for Physics.
This course is an introduction to computational concepts and tools that physicists use for data analysis, simulation and modeling, and visualization in research and dissemination. Python and its various libraries are emphasized. Prerequisite: PHYS 1430. Corequisite: PHYS 2425 or PHYS 2435.
2 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 2425. Electricity and Magnetism.
This course is a study of the field of electricity and magnetism for physics majors and minors. PHYS 1430, PHYS 2425, and PHYS 2435 are designed for those students majoring or minoring in physics and for pre-engineering students. Credit in both PHYS 1325 and PHYS 1125 and PHYS 2425 cannot be given. Prerequisites: PHYS 1430 and MATH 2472 with grades of C or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2426
PHYS 2435. Waves and Heat.
This course is a study of the fields of wave motion, sound, light, and heat at a beginning level for physics majors and minors. Prerequisites: PHYS 1430 and MATH 2471 with grades of C or higher. Co-requisite: MATH 2472.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2427

PHYS 3210. Physics Cognition and Pedagogy.
This course is an introduction to physics-specific pedagogy and the methods and results of physics education research (PER). Students will investigate relevant literature in PER and cognitive science, engage in discussions about physics teaching and learning, and reflect on their own teaching practice in the role of Physics Learning Assistants. (WI).
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A survey of the physics of sound and acoustic measurement. Special emphasis will be placed on sound production, propagation, and perception as applied to music. Prerequisites: PHYS 1410 and PHYS 1420 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3311. Mechanics I.
This course discusses the fundamentals of classical mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics included are advanced problem solving strategies for systems with position and velocity dependent forces, simple harmonic oscillators, and non-inertial reference frames. Prerequisite: PHYS 2435 with a C or higher. Co-requisite: PHYS 3320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3312. Modern Physics.
This course is an introduction to the foundations of modern physics, including the following topics: relativistic mechanics, kinetic theory of matter, quantization of charge, light and energy, the atom, wave nature of particles, and the Schroedinger equation. Prerequisite: PHYS 2435 with a C or higher. PHYS 2425 with a grade of C or higher, or concurrent enrollment allowed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3313. Astrophysics.
This course surveys a variety of issues in astrophysics through problem solving, quantitative measurements, and theoretical reasoning. Topics include celestial mechanics, stellar dynamics and evolution, galaxy evolution, and cosmology. Corequisite: PHYS 3312.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3315. Thermodynamics.
This course is a fundamental study of thermodynamics and statistical mechanics. Prerequisites: MATH 3323 and (PHYS 2435 or PHYS 1325 and PHYS 1125 or (PHYS 2425 and ENGR 2300)).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3320. Introduction to Mathematical Physics.
An introduction to the mathematical methods of theoretical physics with emphasis on the vectorial-functional approach emphasized in current research literature. Applications will be made to certain fundamental problems of mechanics and electromagnetic field theory. Prerequisites: PHYS 2425 and MATH 3373 with grades of C or higher; MATH 3323 with a grade of C or higher, or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 3411. Advanced Physics Laboratory.
Experiments in modern physics, with emphasis on demonstrating quantum effects and introducing nuclear physics. Prerequisites: PHYS 2425 with a grade of C or higher; PHYS 3312 with a grade of C or higher, or concurrent enrollment. (WI).
4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

This Laboratory/lecture course is an introduction to electronic test bench methods for the construction, operation and analysis of important DC/AC circuits utilizing resistors, capacitors, diodes, BJTs, FETs, and OpAmps. The behavior of the circuits will be modeled in SPICE. Elementary semiconductor device physics and microfabrication methods will be discussed. Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHYS 3417. Optics.
This course is a one-semester survey of geometrical and physical optics accompanied by laboratory experience. Topics covered include electromagnetic waves and their propagation, geometrical optics, polarization, interference, diffraction, Fourier optics, and holography. Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHYS 4121. Undergraduate Research.
This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Instructor's approval required.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
PHYS 4150A. Physics Cognition and Pedagogy Lab.
In this lab course, students will apply principles introduced in PHYS 3210, which include observation of student interactions, reflection on the process of learning and the use of evidence based reasoning, metacognition, and facilitation, of discourse around difficult concepts. Corequisite: PHYS 3210. Prerequisite: PHYS 1430 with grade of "C" or better, or Instructor approval.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

PHYS 4150B. Computational Modeling Lab: Mechanics.
This lab provides experience in computational modeling of problems in classical mechanics. Students design and code computer programs to simulate physical dynamics and analyze data. Co-requisite: PHYS 3311.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

PHYS 4221. Undergraduate Research.
This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Instructor's approval required.
2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PHYS 4305. Statistical Physics.
This course will examine the physics that describes the equilibrium thermal properties of systems. Statistical physics explains the microscopic properties of systems that give rise to their measureable macroscopic behavior. This includes thermodynamic properties, transport processes, fluctuations from equilibrium, phase transitions and critical phenomena, and quantum fluids. Prerequisites: PHYS 3312, PHYS 3320, and MATH 3323 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4310. Electromagnetic Field Theory I.
An introduction to the electromagnetic field theory of classical physics for static fields. Topics included will be the electrostatic field, polarization and dielectrics, electrostatic energy, magnetic field of steady currents, magneto static energy, and magnetic properties of matter. Prerequisites: MATH 3323, MATH 3373 and PHYS 3320 with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Application of physics principles to solid materials. Topics include crystal structure and the reciprocal lattice, including x-ray diffraction, crystal binding and elastic properties, lattice vibrations, energy bands, semiconductors and metals. Prerequisites: PHYS 3312 and PHYS 3320 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4312. Quantum Mechanics I.
An introductory course in quantum mechanics. Topics include mathematical foundations, fundamental postulates, time development, and one dimensional problems. Prerequisites: MATH 3323, PHYS 3312, and PHYS 3320 with grades of C or higher; and six additional hours of advanced physics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4313. Quantum Mechanics II.
An advanced course in quantum mechanics intended as an elective for students intending to pursue graduate study in physics. Topics include angular momentum, three dimensional problems, matrix mechanics, and perturbation theory. Prerequisite: PHYS 4312 with a C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4314. Mechanics II.
Fundamentals of Classical Mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics include central force motion, rigid body rotation, and coupled oscillations. This course is intended as an elective for students intending to pursue graduate study in physics. Prerequisites: PHYS 3311 and MATH 3323 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4315. Electromagnetic Field Theory II.
An introduction to the electromagnetic field theory of classical physics for time varying fields. Topics included will be electromagnetic induction, time varying electric and magnetic fields, Maxwell's equations, electromagnetic energy, electromagnetic waves and radiation, and a brief introduction to some specialized topics. Prerequisite: PHYS 4310 with a C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHYS 4317. Computational Physics.
Introduction to computational techniques for problem-solving and research beyond the standard techniques of most physics courses. Numerical, symbolic, and simulation methods applied to modern physics using advanced mathematical software and a highlevel programming language. Prerequisites: PHYS 3320 and six additional hours of advanced physics or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHYS 4320. Selected Study in Physics.
Topics are chosen in theoretical and experimental areas of current interest in physics with specific topic to be discussed agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
PHYS 4321. Undergraduate Research.
A research project in physics to be carried out under the supervision of a faculty member by upper division physics majors. Student must contact a faculty member in advance to arrange topic and specific course objective. Course may be repeated only as an elective towards the BS or BA in physics. Prerequisite: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PHYS 4340. Materials Physics Laboratory.
A laboratory based course introducing a broad array of materials synthesis and characterization methods. The specific subjects will be coordinated with topics of current interest in the literature and will be chosen by mutual consent of the student and faculty advisor. Prerequisites: PHYS 3416, PHYS 3411, and PHYS 4311. (WI).
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHYS 4350A. Thin Film Photovoltaic Devices.
This course is a survey of the Physics of photovoltaic devices with emphasis on device physics including the photovoltaic effect, photon absorption, electrons and holes, generation and recombination, the pn-junction, charge separation, monocrystalline solar cells, thin film solar cells, and losses. Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PHYS 4350B. Relativity.
This course includes a review of Special Relativity, an introduction to the mathematics of tensor calculus and differential geometry, and such topics from General Relativity as the Schwarzschild solution and black holes, tests of General Relativity, cosmological models, and applications of relativity in the Global Positioning System (GPS). Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PHYS 4350C. Physics Cognition and Pedagogy II.
This course addresses historical, philosophical, and cognitive perspectives on the learning, teaching, and discovery of physics, including results from contemporary research on learning. It is recommended for students pursuing teacher certification. Prerequisite: PHYS 3312 and PHYS 3210.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHYS 4360. Physics Cognition and Pedagogy II.
This course addresses historical, philosophical, and cognitive perspectives on the learning, teaching, and discovery of physics, including results from contemporary research on learning. It is recommended for students pursuing teacher certification. Prerequisites: PHYS 3210 and PHYS 3312 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Physics

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 71) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Majors must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors). Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing a minor.

5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours. Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing the electives.

7. If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Bachelor of Science (B.S.) Major in Physics (Teacher Certification in Physical Science, Grades 6-12)

Minimum Required: 129 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 239).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. A minor in Secondary Education is required.
3. In addition to the major, minor and general education core curriculum requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
4. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a “C”.
5. Majors must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Nine semester credit hours must be writing intensive (WI).
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**University College**

**Dean**

Daniel A. Brown, Ph.D.

Telephone: 512-245-3579  Fax: 512-245-8765

Undergraduate Academic Center Room 149
Achievement within and outside the classroom through five student-centered programs:

1. **Academic Coaching** - helps students take an active approach to learning and self-advocacy by utilizing intentional methods and developing essential critical and academic skills to improve overall success.

2. **Academic Advising** - helps students select the right classes, build a class schedule customized to meet their personal and academic needs, and develop a plan for educational success focused on graduation.

3. **Career Counseling** - helps students clarify career interests and develop the resume needed to successfully transition to the professional world.

4. **Mentoring** - helps students become engaged in their major and connect to mentors and peers, and develop networking skills essential to career success.

5. **University Seminar (US 1100)** - this required course helps students transition to Texas State by leading them in discovering campus support networks, offering opportunities to make new friends, and providing mentoring from one of the University’s exceptional faculty.

University College Advising Center provides academic advising for students who are undecided about a major, those who are changing majors, those who are working toward admission into a particular program, and those majoring in General Studies. Advisors will assist students in researching options, evaluating alternatives, and making decisions so that they may make realistic and satisfying choices of majors. They will also provide guidance in completing general education requirements. The advising goal is to provide accessible, friendly, and accurate advising.

University College Advising Center and PACE Center are located on the first floor of the Undergraduate Academic Center and is open between 8:00 a.m. and 5:00 p.m., Monday through Friday. Services include one-on-one appointments, advising sessions before and during registration, and probation advising sessions.

**Bachelor of General Studies**

The Bachelor of General Studies (B.G.S.) provides an individualized, interdisciplinary degree that allows students with a broad range of academic interests to achieve personal educational goals. The program helps each student who enters develop a unique career or academic goal that is matched by three Texas State minors. Those best suited for the B.G.S. (1) have a clear interest that overlaps the boundaries or blends the disciplinary areas of other academic majors available at Texas State; (2) have invested in a traditional degree program but wish to redirect their career or academic goals while building on some of the courses already completed; or (3) have difficulty choosing an existing major and are willing to assemble three minors based on organized career research and preparation.

The B.G.S. includes GNST 3350 – Interdisciplinary Preparation, a course that helps students learn how to assess their talents, match them with potential careers, and maximize or choose three Texas State minors to best prepare them for the requirements of the career. Then they practice interviewing and preparing resumes, cover letters, etc., and discover how to market themselves. Following completion of most of the courses in the three B.G.S. minors, the capstone B.G.S. course (GNST 4350 – Interdisciplinary Project) challenges students to make use of their education in tailoring a research-based project that innovatively contributes to the career or academic goal, incorporates all three minors, and gives them good supporting material to use in job interviews and graduate and professional school applications.

Information about admission into the B.G.S. is available at www.txstate.edu/ucollege/bgs. (http://www.txstate.edu/ucollege/bgs.html)

As with any major, it is important to check with a University College advisor on a regular basis to ensure that progress is being made in meeting B.G.S. program requirements.

The following B.G.S. policies are particularly important to note:

- In order to be advised for the B.G.S. program, register for GNST 3350 or GNST 4350, or enter the B.G.S. program, students must be in good academic standing at Texas State University. Those who are not in good academic standing and/or have questions about potential
The National Student Exchange (NSE) is a University College program that offers Texas State students a unique opportunity to expand their educational horizons by enrolling at a participating university for one or two semesters while paying an in-state resident tuition rate. Students can benefit from the NSE program by accessing different courses, internships, career options, and exploring graduate schools at over 200 colleges and universities in the United States, U.S. territories (including Guam, Puerto Rico, and the U.S. Virgin Islands) and Canada.

Credits earned at these host institutions can be transferred back to Texas State, allowing students to maintain progress toward their academic objectives. For the privilege of NSE participation, Texas State students enjoy in-state tuition and fees at their host institution on Plan A payment status, or 15 hours of coursework at Texas State in-state rates on Plan B payment.

Applications for the NSE program are due in February for fall and spring exchanges. Requirements of the program include a 2.5 cumulative GPA, completed application and a $185 application fee. For more information about the National Student Exchange, contact University College or refer to the Texas State-NSE web site at www.txstate.edu/ucollege/programs/nse.html (http://www.txstate.edu/ucollege/programs/nse.html).

Bachelor of General Studies (B.G.S.)

- Major in General Studies (p. 659)

Courses in General Studies (GNST)

GNST 3150. Career and Major Exploration.
Students unsure about career choice will determine interests and abilities linked to appropriate careers and the Bachelor of General Studies (BGS) or other majors. Varied group and individual projects will be guided by instructional teams from the PACE Center and/or Career Services. Required for some BGS major options. Prerequisite: Instructor permission.

1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GNST 3350. Interdisciplinary Preparation.
This course includes assignments designed to encourage self-analysis of career interests and planning, and selection of component minors for BGS majors. Students will develop a degree plan matched to their career interests and/or their initial proposal for the GNST 4350 project. Successful completion requires a grade of C or higher. Prerequisite: Declaration of the BGS major, Texas State GPA 2.0 or better, instructor permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GNST 4350. Interdisciplinary Project.
In this course students will complete an applied, interdisciplinary project incorporating all BGS component minors. The Project will consist of research, interviews, literature reviews, graphic support and other information gathering, presentation and analysis resulting in a written product targeted at the student's chosen area. Prerequisite: GNST 3350 with a grade of "C" or higher, Texas State GPA 2.0 or better, and instructor permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
Bachelor of General Studies (B.G.S.)
Major in General Studies

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 66) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine semester credit hours must be writing intensive (WI).

4. If two years of the same foreign language were taken in high school, then enough additional hours to total the minimum 120 hours required for the degree will fulfill this requirement. In the absence of such high school language, two semesters of the same foreign language must be taken at the college level.

University Seminar

Undergraduate Academic Center Room 146
T: 512.245.7952 F: 512.245.7908
www.txstate.edu/ucollege/universityseminar (http://www.txstate.edu/ucollege/universityseminar)

University Seminar (US 1100) helps incoming freshmen transition to college life and is designed to be taken during a student’s first semester at Texas State. Its small class setting allows students to get to know each other as well as their instructor. Classes meet once a week for 16 weeks during the fall semester.

University Seminar connects new students to the campus and its resources, gets them involved in the university community, and supports PACE initiatives through related instruction, activities, and guidance. Through US 1100 career readiness projects, students learn about individual career interests, find organizations and activities related to their academic fields, and develop a plan that will lead to graduation and professional success.

The course is taught by a diverse group of professors, staff members, and administrators from departments across the Texas State campus. All instructors have at least a master’s degree and lend their unique and varied perspectives to enrich each classroom. Distinct sections of the course may serve freshmen with common interests. These are labeled in the Schedule of Classes.

Subjects in this department include: US

Course in University Seminar (US)

University Seminar is an introduction to the nature and aims of university education, with special emphasis on the value of broad learning. US 1100 is required of all undergraduate students entering the university with 0-15 semester credit hours completed since high school graduation.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

Texas Success Initiative Program

Undergraduate Academic Center, First Floor
The Texas Success Initiative Program (TSIP) is a statewide initiative created to improve student success in college-level coursework. As part of the program, all students enrolled in Texas public colleges or universities complete required assessments to determine math, reading, and writing proficiency. Developmental course instruction is provided to students needing to strengthen their basic academic skills. More information about this program, assessment requirements, and exemptions can be found in the Academic Policies section of the catalog under Texas Legislative Requirements.

**Athletic Academic Center**

Harris Hall 1st Floor  
T: 512.245.2978 F: 512.245.1736  
www.txstatebobcats.collegesports.com/academic/txst-academics.html  
(http://www.txstatebobcats.collegesports.com/academic/txst-academics.html)

The Athletic Academic Center (AAC), located on the lower level of Harris Dining Hall, provides services and resources that aid student-athletes in maintaining excellence both in the classroom and on the playing field. The AAC staff strives to ensure the fulfillment of all five components of the program: Academic Excellence, Athletic Excellence, Community Service, Career Development, and Personal Development.

The AAC, open six days a week, houses a computer lab, a learning lab, individual tutoring rooms, areas for both individual and group study, and offices for the AAC staff. The ACC is staffed by an assistant dean and director, a CHAMPS Life Skills director, an associate director, two student development specialists, an administrative assistant and a graduate student who serve as liaisons between the Athletic Department, college academic advising centers and academic departments, and the administrative units of the University. In coordination with the Assistant Athletic Director for Compliance, the AAC staff also monitors academic eligibility and ensures that all athletes are maintaining satisfactory progress toward their degrees.
GRADUATE

Texas State will not discriminate against any person in employment or exclude any person from participating in or receiving the benefits of any of its activities or programs on any basis prohibited by law, including race, color, age, national origin, religion, sex, disability, veterans’ status, or sexual orientation. Equal employment opportunities include: personnel transactions of recruitment, employment, training, upgrading, promotion, demotion, termination, and salary.

The information in the 2017-2018 Graduate Catalog is subject to change without notice and may not reflect the most recent changes. This catalog is a general information publication only. It is not intended to, nor does it contain, all regulations that relate to students. In the event of a conflict between the provisions of this catalog and the Rules and Regulations of the Board of Regents of the Texas State University System, the latter shall prevail. The provisions of this catalog do not constitute a contract, express or implied, between an applicant, a student, a faculty member, or a staff employee and Texas State University or the Texas State University System. Texas State reserves the right to withdraw courses at any time, to change fees or tuition, calendar, curriculum, degree requirements, admissions and graduation requirements or procedures, and other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both prospective students and those already enrolled. Questions regarding current information should be addressed to the office of the Provost and Vice President for Academic Affairs.

This catalog was published in May 2017 and becomes effective with the beginning of the fall semester, 2017.

General Information

University Organization

Texas State University is organized into the College of Applied Arts, the Emmett and Miriam McCoy College of Business Administration, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, the College of Science and Engineering, Honors College, University College, and The Graduate College.

Overview of Graduate Studies

Authorization

The establishment of The Graduate College at Texas State was authorized by the Board of Regents at its meeting on June 15, 1935. Graduate courses were first offered during the summer of 1936, and the first master of arts degree was conferred at the 1937 spring commencement. The first doctoral programs were authorized by the Board of Regents in 1996 in geographic education and environmental geography. The first doctorates were awarded in 2000.

Objectives of The Graduate College

The purpose of The Graduate College is to provide the means for continued intellectual growth through advanced and specialized education. The ultimate aim is to develop leaders who will make significant professional contributions to their fields of specialization.

More explicitly, The Graduate College has adopted the following objectives that will add both breadth and depth to the academic and professional preparation received at the undergraduate and master’s degree levels:

• To reinforce and extend students’ academic and professional experience as a means of improving professional competence;
• To afford students with the opportunity to undertake original research in their areas of specialization, both independently and in collaboration with the faculty;
• To provide students with the ability and resources to integrate their research into the community of scholars and professionals in a particular academic discipline;
• To challenge students intellectually, to develop their powers of independent thought, and to direct them toward positions of intellectual leadership in their personal and professional lives.

Characteristics of Graduate Study

Graduate study affords students of exceptional academic ability many opportunities to continue their intellectual growth and development. Doctoral study in particular seeks to integrate students into the professional community of scholars in a manner that emphasizes the completion, presentation, and publication of original research.

Graduate education differs from study at the undergraduate level in at least the following respects:

• Graduate students are expected to assume greater responsibility and demonstrate more self-initiative in meeting their academic goals;
• Graduate students are expected to engage in more extensive reading, emphasizing primary source material in a specialized field;
• Graduate students are expected to become familiar with the current literature in their fields, with emphasis on recently published developments in research methods and results;
• Doctoral students are expected to assume responsibility for the planning, completion, and presentation of original scholarly research;
• Doctoral programs utilize seminar courses that stress active participation by students in intellectual exchange with both faculty and peers and in the critique of published research;
• Doctoral course-work emphasizes integrating student research into the norms of an academic discipline; and:
• Master’s courses differ from undergraduate courses, and doctoral courses differ from master’s courses in their learning outcomes and in the breadth and depth of readings and assignments.

• Teacher Education Accreditation Council
• The Association to Advance Collegiate Schools of Business
  International AACSB
• University Council for Educational Administration

History of the University

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. During the first century, the Legislature retained the regional designation in the name, but as its mission changed it became first Normal College, then successively Teachers College, College and University. These changes reflected the change from a teacher-preparation institution to a regional university. In 2003 the Legislature dropped the regional designation and the institution became Texas State University-San Marcos, and in 2013 the place name was eliminated as Texas State University became an emerging research university within the state.

Though Texas State originally became renowned for preparing public school teachers, today it does far more. Texas State, a major institution of higher education approaching an enrollment of 40,000, currently offers programs not only in a College of Education, but also in the College of Applied Arts, Emmett and Miriam McCoy College of Business Administration, College of Fine Arts and Communication, College of Health Professions, Honors College, College of Liberal Arts, College of Science and Engineering, and University College. University College oversees freshman advising as well as other activities of the freshman year experience in addition to housing students who have not yet chosen a major. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research up through the doctoral degree.

As Texas State’s student population has grown — from 303 in 1903 to nearly 39,000 in 2016 — the campus, too, has expanded and today Texas State is the fifth largest public university in the state. Overlooking the campus from Chautauqua Hill and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur.

In 1979, after adding a number of classroom buildings and residence halls, Texas State purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1981, South Texas entrepreneur Harry M. Freeman donated a 3,500-acre ranch to Texas State to be held in perpetual trust as the Harold M. Freeman Educational Foundation. The working ranch is used as a laboratory for students in agriculture, animal science, anthropology, biology and a variety of other academic disciplines. In 1990, the university opened the seven-story Albert B. Alkek Library. The building, conveniently located in the center of campus, is named for the noted Texas rancher, oil man and educational philanthropist who died in 1995.

Texas State acquired one of the most unique ecosystems in the world in 1994 when it purchased the former Aquarena Springs resort and theme park. The purchase allowed Texas State to serve as steward of the headwaters of the San Marcos River, preserving and protecting one of the oldest inhabited spots in North America for future generations of Texans. Now called the Aquarena Center, the 90-acre property is the site of a wide variety of educational and research pursuits. Aquarena Center is home to eight endangered species of plants and animals that exist nowhere else in the world.

In 1998, as the lead institution, Texas State joined forces with other area universities to establish the Round Rock Higher Education Center, now known as the Texas State University Round Rock Campus (RRC). The RRC, located on 101 acres north of Austin, offers upper-division and graduate educational opportunities in Williamson County and Austin.

Texas State’s main campus is located in San Marcos, a Hill Country community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

Texas State became part of the Texas State University System in 1911. The System, governed by a nine-member Board of Regents, also includes Lamar University, Lamar Institute of Technology, Lamar State College—Orange, Lamar State College—Port Arthur, Sam Houston State University, Sul Ross State University and Sul Ross University Rio Grande College.

Graduate Council

Function

Recommends Graduate College policies to the dean of The Graduate College, who in turn administers the policies or submits recommendations to the Provost and Vice President for Academic Affairs and the President’s Cabinet. The Graduate Council also reviews standards for admissions, retention and enrollment patterns, in concurrence with the dean. The Graduate Council also approves membership standards for graduate faculty.

Mission Statement

Texas State University is a doctoral-granting, student-centered institution dedicated to excellence and innovation in teaching, research, including creative expression, and service. The university strives to create new knowledge, to embrace a diversity of people and ideas, to foster cultural and economic development, and to prepare its graduates to participate fully and freely as citizens of Texas, the nation, and the world.

The mission of The Graduate College is to provide vision, leadership, and direction for excellence in graduate education at Texas State University with the aim of providing the appropriate infrastructure and learning environment for the training of innovative and successful scholars, teachers, and professionals. The Graduate College does so by

- articulating, promoting, and supporting the highest standards of quality in graduate education in keeping with the university’s overall mission of teaching, research, including creative expression and service;
- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs;
- supporting programs’ efforts to foster a diverse student population which participates in a global society;
- promoting and supporting rigor in graduate education;
- providing key process and procedure guidance and support to graduate programs from admission to graduation;
- aiding in student recruitment, application processing, policy monitoring, and degree auditing;
- promoting initiatives designed to provide best practices in graduate education leading to timely degree completion;
- providing support to graduate students for creative and scholarly activities;
- offering professional development opportunities for graduate students at key stages in their graduate careers; and
- engaging in research on graduate education.

The stakeholders of The Graduate College include students, faculty, and staff involved in graduate education at Texas State University.
Shared Values Statement

In pursuing our mission, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values:

• Teaching and learning based on research, student involvement, and the free exchange of ideas in a supportive environment;
• Research and creative activities that encompass the full range of academic disciplines–research with relevance, from the sciences to the arts, from the theoretical to the applied;
• The cultivation of character, integrity, honesty, civility, compassion, fairness, respect, and ethical behavior in all members of our university community;
• A diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a sense of community as essential conditions for campus life;
• A commitment to service and leadership for the public good;
• Responsible stewardship of our resources and environment; and
• Continued reflection and evaluation to ensure that our strengths as a community always benefit those we serve.

Multicultural Policy Statement

Texas State believes that freedom of thought, innovation and creativity are fundamental characteristics of a community of scholars. To promote such a learning environment, the university has a special responsibility to seek diversity, to instill a global perspective in its students, and to nurture sensitivity, tolerance and mutual respect. Discrimination against or harassment of individuals on the basis of race, color, national origin, religion, sex, sexual orientation, age, disability, veterans’ status, gender identity or expression are inconsistent with the purposes of the university.

Students’ Rights, Privileges, and Expectations

Texas State is committed to the value of a racial and ethnic diversity and believes that the primary purpose of higher education is to promote learning for all and to stimulate inquiry for truth in an atmosphere of freedom. Accordingly, Texas State encourages students to exercise the rights of citizenship. However, these rights are subject to reasonable limitations necessary for the orderly operation of the university. Texas State expects students to accept their responsibilities as citizens and members of a scholarly community. Paramount among these responsibilities is respect for the rights of others, academic and personal integrity, and adherence to federal, state, and local law as well as university regulations.

The faculty and administration are genuinely concerned with the physical and ethical welfare of students. To that end, Texas State has established rules of conduct and has published these in a Code of Student Conduct and Honor Code. These regulations guide students in achieving personal and academic goals and help the university function in an orderly way. Since students voluntarily associate themselves with Texas State, they should know that these rules are honestly and faithfully enforced. The rules include clear prohibitions against sexual or discrimination and racial harassment.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination or harassment. Texas State, to the extent not in conflict with federal or state law, prohibits discrimination or harassment on the basis of race, color, national origin, age, sex, religion, disability, veterans’ status, sexual orientation, gender identity, or expression. This grievance procedure is described in University Policy and Procedure Statement 04.04.46 (http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination. The Texas State University System Sexual Misconduct Policy outlines our policy and procedure related to Title IX (sexual misconduct). Students should follow the procedures for reporting instances of discrimination or harassment.

The administration and faculty encourage students to participate in managing Texas State through its system of advisory councils and committees. Students are invited to serve as voting members on many of these groups, and are expected to contribute actively to their success. Students may submit recommendations for changes in policy, not only through the committee structure, but also through their own student government.

Student Right-to-Know and Campus Security Act

The Student Right-to-Know and Campus Security Act was enacted in 1990 by federal law. The law requires institutions that receive student aid assistance to prepare and distribute an Annual Security Report (Campus Watch). The Campus Watch for Texas State University at San Marcos and Round Rock campuses includes descriptions of campus crime prevention programs, procedures for reporting crimes and information about the number and frequency of crimes reported to the University Police Department for the last three years. It also provides Texas State’s policies for campus security and law enforcement related to sexual offenses, liquor law violations, and controlled substance offenses. In addition to publishing crime statistics, the act requires the institution to provide timely warnings to the campus community of certain crimes reported to the University Police Department or local law enforcement which may be considered a threat to the campus community. The Campus Watch is available on the Texas State website at http://www.police.txstate.edu/Clergy.html, in the offices of Undergraduate Admissions, The Graduate College, Human Resources, and the University Police Department.

For a hard copy of the Campus Watch, contact the University Police Department, Nueces Building or to have a hard copy mailed free of charge call 512-245-2890.

Student Data, Privacy, and Communications

Correct Data

All students are responsible for making certain Texas State has correct demographic data. A student’s name will appear on official records as it is stated on the application for admission, unless a student has previously attended Texas State under a different name. Changes in name, local and/or permanent address, telephone number, marital status, etc. should be reported immediately to the office of the University Registrar. Texas State is not responsible for loss of correspondence credits due to unreported name changes. Address changes can be submitted at http://www.registrar.txstate.edu/our-services.html.
Family Educational Rights and Privacy Act of 1974 (FERPA)

FERPA protects the privacy of educational records, establishes the right of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data. Students also have the right to file complaints with the FERPA Office concerning alleged failures by Texas State to comply with the Act. University policy explains in detail the procedures to be used in complying with the Act. The policy is available at http://www.registrar.txstate.edu/persistent-links/ferpa. The Dean of Students and the University Registrar both presume that each student is independent of his or her parents when dealing with the student’s educational records. Procedures for establishing dependency status are available in both offices.

Communications

Most university offices use Texas State email as the official means of communication. Students are expected to set up and read their Texas State email frequently.

Abandoned and Unclaimed Personal Property

Abandoned and unclaimed personal property discovered on campus is turned over to the University Police Department (UPD) for safekeeping and standard handling. Property is considered abandoned if it appears that the owner has thrown it away, has voluntarily left it, or has lost it without any intent or expectation to regain it.

Abandoned and unclaimed personal property is held by UPD for a minimum of 120 days from the time the department acquires the property. A reasonable effort will be made to notify the owner and UPD will facilitate the return of unclaimed personal property to the proper owners. If the property is reclaimed during the 120-day period, the university may charge the owner a reasonable storage fee.

If not reclaimed after 120 days, the property will be declared abandoned and, the property may be sold as part of a normal surplus property sale. For specifics on the handling and processing of abandoned and unclaimed property, please refer to University Policy and Procedure Statement 05.01.20.

Albert B. Alkek Library

Alkek Library
www.library.txstate.edu (http://www.library.txstate.edu)
Telephone: 512-245-2686 Fax: 512-245-0392

The Alkek Library contains more than 1.4 million print materials, including books, documents, theses/dissertations, and other resources. The library provides access to 870,000 ebooks, 600+ databases, more than 200,000 audiovisual materials, and more than 700,000 microform materials.

Special holdings of the Library include the Wittliff Collections (comprised of the Southwestern Writers Collection and the Southwestern and Mexican Photography Collection,) and the University Archives. The Library is also a selective depository for federal government documents. As a member of the Texas Digital Library, the Library's Digital Collections (http://digital.library.txstate.edu/) provide access to unique Texas State collections, including scholarship authored by university faculty, students, and staff and selected materials from the Wittliff Collections and the University Archives.

The Library's online catalog (http://catalog.library.txstate.edu) provides information on the Library's holdings. Wireless access to the university network is available within the Library. Laptop computers may be checked out for building use. The Learning Commons provides workstations, laser printers, scanners, video conferencing and video-editing equipment, presentation and Geographic Information Systems technology support, an Open Theater workshop space, and adaptive equipment for individuals with disabilities.

The Library maintains cooperative borrowing agreements with other libraries in the region. Through TexShare, a statewide resource sharing program, students and faculty may borrow materials held by most public and private university libraries in the state. Materials may be transferred, by request, to the Texas State University Library in Round Rock.

Career Services

LBJ Student Center, 5th Floor
www.careerservices.txstate.edu (http://www.careerservices.txstate.edu)
Telephone: 512-245-2645

Career Services provides compassionate, comprehensive career assistance to the Texas State family. Services incorporate leading practices to guide students through all stages of their career development and progression from college to career.

Students have access to a wide array of career-related programs, resources, and career development support.

Career Planning and Exploration

Individual career counseling and planning assistance is available to students as they select a major and establish their career goals. Career assessments and web-based guidance programs are also available to facilitate this process. In addition, counselors can review job search materials and assist with post-graduate program applications.

Career Advising and Job Search Strategies

Career Advisors are available to meet one-on-one with students to discuss their job search preparation. Topics of discussion include résumé and cover letter writing, interviewing techniques, and salary negotiations. Workshops focused on career development and professionalism are offered throughout the school-year to help in the transition from student to professional.

Employment

Resources are available to help students find part-time and full-time work, college work-study, internships and summer employment. These opportunities can be searched in an online database, Jobs4Cats. Students should be prepared in advance with résumés, class schedules, applications, and proof of employment eligibility.

Job Shadowing and Internships

Job shadowing is a short term opportunity for students to discover various career options. This experience includes spending time with professionals inside different organizations gaining firsthand knowledge about diverse career fields, and serves as a critical component of career
Employer Connections

Career Services provides students and alumni the opportunity to interact with numerous employers for networking and employment purposes. Bobcats have access to Jobs4Cats, Texas State's exclusive job search database, as well as many additional online resources that can be viewed at www.careerservices.txstate.edu (http://www.careerservices.txstate.edu).

Career Services hosts multiple career events each semester, including “All Majors” Spring and Fall Job and Internship Fairs, a STEM (Science, Technology, Engineering and Math) Job and Internship Fair, a Health Professions Fair, and a Mass Communication Career Fair. These events bring hundreds of employers to campus with internship, part-time, and full-time opportunities for students and alumni.

Additional networking is available through employer information sessions and panel presentations, annual externship days, and résumé referrals.

Career Services hosts a robust on-campus interviewing program. Each fall and spring semester, approximately 70 employers conduct 700+ interviews on campus for internship and full-time opportunities. All on-campus interviewing opportunities can be found in Jobs4Cats.

Disability Services

LBJ Student Center 5-5.1
www.ods.txstate.edu (http://www.ods.txstate.edu)
Telephone: 512-245-3451 Fax: 512-245-3452

The Office of Disability Services (ODS) at Texas State University is dedicated to supporting the lives of students with disabilities who seek the goal of higher education. Because each individual's situation is unique, the ODS asks that any interested student meet with office staff. Since documentation requirements vary by situation, the ODS staff member will discuss documentation during the initial consultation, but no student should delay out of concern for not having appropriate paperwork.

Texas State University does not discriminate on the basis of disability in the recruitment and admission of students though students with disabilities must meet the same admission requirements as all other prospective students. A student whose educational and/or personal goals for success have been negatively impacted due to disability-based reasons may wish to address this in the supplemental essay portion of the admission application. Students needing sign language or oral interpreting services for admissions counseling, disability counseling or academic advising should contact ODS one week prior to the event to ensure interpreter availability.

Students with disabilities may be entitled to financial assistance from the Department of Assistive and Rehabilitative Services (DARS).

Texas State University has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination on the basis of disability. This grievance procedure is described in UPPS No. 04.04.46 (http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination or Harassment. A copy is available in the university library, the office of Disability Services and most other university offices. Students who have concerns or complaints should contact the ODS Director at 512-245-3451 or the university Americans with Disabilities Act Coordinator at 512-245-2278.

Veterans Affairs

J.C. Kellam Building Room 105
www.va.txstate.edu (http://www.va.txstate.edu)
Email: veteransaffairs@txstate.edu
Telephone: 512-245-2641 Fax: 512-245-3271

Students attending Texas State while receiving educational assistance under one of the public laws for veterans and/or their dependents must contact the Texas State Office of Veterans Affairs to complete the required forms. Information and forms are also available at www.va.txstate.edu (http://www.va.txstate.edu).

New and transfer students applying for educational benefits under the U.S. Department of Veterans Affairs (VA) for the first time must provide the Office of Veterans Affairs with a Certificate of Eligibility for the respective benefit, a photocopy of the DD214, Certificate of Release or Discharge from Active Duty, and a Change of Place of Training VA Form 22-1995 for transfer students. Reserve and National Guard members applying for Chapter 1606 benefits must provide DD 2384 Notice of Basic Eligibility. Active duty military and dependents are exempt from the DD-214 requirement.

All students must follow their degree requirements in order to receive the maximum benefit payout. It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Any student enrolling under any of the provisions for VA educational benefits should bring sufficient funds to defray the initial cost of tuition, fees, and living expenses for approximately three (3) months. Benefit payments are made at the end of each month.

Graduate students receiving veteran benefits must file with the office an official degree outline, a certification deficiency plan, or other similar documentation showing the requirements needed. As with undergraduate students, it is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Dependents of Texas veterans and veterans who have exhausted VA educational benefits, should check with the office for information about the Hazlewood Exemption. Note: dependent students who are eligible for Hazlewood are subject to federal satisfactory academic progress (SAP) policies. For more information, go to http://www.va.txstate.edu/benefits/hazlewood.html. Applications and information sheets for the Hazlewood Exemption may be obtained at the Office of Veterans Affairs or at www.va.txstate.edu (http://www.va.txstate.edu).

International Office

Thornton International House
344 W. Woods Street
www.international.txstate.edu (http://www.international.txstate.edu)
Telephone: 512-245-7966 Fax: 512-245-8264

The mission of the International Office is to support the comprehensive internationalization goals of Texas State University and assist the university in developing and maintaining an internationally diverse student body, faculty, and staff by:

- Serving as immigration and cultural advisors to international students and scholars; advocating on their behalf, and providing
services and information that facilitate their cultural adjustment, social integration, retention and success;

- Assisting the university at large, international students, scholars, alumni, faculty and staff in particular, in complying with various governmental policies and regulations;
- Contributing to the research and teaching mission of the university by assisting with employment authorization for distinguished international scholars, faculty and staff;
- Promoting global awareness and internationalization at the university by facilitating international agreements, and by administering international programming through hosting and sponsoring international events.

**Health Insurance Requirement for Non-immigrant International Students**

Texas State University has a health insurance requirement for international students that must be met each semester. All international students on non-immigrant visas are required by university policy to have health insurance coverage while enrolled in classes at Texas State. International students have two options for meeting this requirement - purchase the student health plan or request a waiver by submitting proof of health insurance coverage that is provided by a U.S. employer or paid for by the student’s home country or U.S. Government.

Exchange students must purchase the student plan. There is no option to submit a waiver request.

Effective Fall 2016 the university will not add the health insurance charge to student's account and will not enroll students in the student plan.

Email notifications to the student’s Texas State email account will be sent regarding this requirement each semester. Information is available at: [http://www.international.txstate.edu/current/Health-insurance-.html](http://www.international.txstate.edu/current/Health-insurance-.html).

Students who do not meet this requirement by the deadline date, will have a "Hold" placed on their student account. A "Hold" will prevent them from changing classes, registering for the next semester classes, applying for graduation, and applying for OPT. These holds can jeopardize status due to not maintaining F-1 requirements of enrollment. After this deadline, students will only be able to have their "Hold" removed by showing proof of purchase and enrollment in the student health plan. An email copy of the payment receipt or email confirmation from Academic Health Plan will need to be sent to intlhealth@txstate.edu in order for the hold to be removed. Waiver requests will not be allowed after the waiver deadline.

Contact the International Office at intlhealth@txstate.edu for questions about this requirement.

**Round Rock Campus**

[www.rrc.txstate.edu](http://www.rrc.txstate.edu) (512.716.4001 F: 512.716.4110)

In 1998, as the lead institution, Texas State joined with other area universities and colleges to establish the Round Rock Higher Education Center, known today as Texas State University Round Rock Campus (RRC). In 2005, Texas State opened the Round Rock Campus in Williamson County, which offers both bachelor’s and master’s programs.

Texas State is addressing the educational needs of North Austin and the Central Texas area at the RRC. Located at 1555 University Boulevard in northeast Round Rock, the RRC offers small class sizes as well as supportive, engaging faculty and staff in a state-of-the-art collegiate environment. The RRC offers upper-level coursework in select bachelor's degree programs, as well as several, post-baccalaureate certificates and master's degree programs. Round Rock students pay the same tuition as those attending in San Marcos, but certain fees may be waived.

**Study Abroad**

Thornton International House
344 W. Woods Street
[www.studyabroad.txstate.edu](http://www.studyabroad.txstate.edu) Telephone: 512-245-1967 Fax: 512-245-1644

A study-abroad experience expands students’ intellectual and personal development as they become immersed in other cultures. Students gain a critical self-awareness, an appreciation for a multicultural world, and a clearer understanding of their own culture. Study abroad prepares students to assume their role as responsible world citizens and to succeed professionally in today’s global economy.

The Study Abroad office offers students the opportunity to participate in a variety of study abroad programs in hundreds of locations around the world. The academic credit students earn may be applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Through Texas State Study Abroad Programs, students can spend from one week to a full academic year in another country either learning another language, concentrating their studies related to a specific topic in their field of study, or participating in an internship. Texas State Study Abroad Programs include a variety of activities that allow students to learn and experience the culture of the host country. In some of these programs students have the opportunity to live with a host family and become totally immersed in the culture of the host country for a more comprehensive learning experience.

Program locations vary from year to year. Students may learn more about these programs from current information located on the Study Abroad website.

A Study Abroad Fair is held every semester. During this event representatives of different programs provide information to students interested in studying, teaching, interning, working and/or researching abroad.

**Financial Assistance for Study Abroad Programs**

Most of the financial aid that students would normally receive for studying at Texas State may be applied toward Texas State Study Abroad Programs. Additionally, there are many schools and study abroad providers that offer financial aid for attending their programs. If a student is receiving federal or state financial aid, it is recommended that the student speak with a representative of the Texas State Office of Financial Aid and Scholarships to determine the application of such aid to any study abroad program and the possible adjustment to meet the student’s needs.

The Study Abroad Office also has information on scholarships that are available to students who plan to study abroad. At Texas State, students are eligible for the International Education Fee Scholarship (IEFS) as well. The IEFS is funded through the student service fee account. The scholarships are distributed in a competition open to all undergraduate...
and graduate Texas State students, including international students, who meet the established eligibility requirements.

Financial Aid

Financial Aid and Scholarships
JC Kellam Suite 240
http://www.financialaid.txstate.edu (http://www.financialaid.txstate.edu)
Email: financialaid@txstate.edu (FinancialAid@txstate.edu)
T: 512.245.2315

Texas State makes every effort to help students who need assistance in paying for the cost of their education. Various financial aid programs are available. Interested students should contact Financial Aid and Scholarships or visit the office's website to view the types of assistance that are available.

Federal and State Aid Programs

Texas State participates in both federal and state financial aid programs. Financial Aid and Scholarships offers grants, work study, student loans, and other types of aid.

Applying for Financial Aid

To apply for financial aid, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov and include the Texas State University school code – 003615.

Deadlines

• March 15 is the priority date for filing a FAFSA for the upcoming academic year (fall and spring). If the deadline is missed, a student may still apply and receive some types of assistance such as student loans.
• March 1 is the priority deadline for filing the separate summer financial aid application prior to the upcoming summer semester. This separate summer application, which can be found online at http://www.financialaid.txstate.edu/, is in addition to filing the appropriate year’s FAFSA.

Satisfactory Academic Progress Requirements

Federal regulations require students to meet certain minimum academic standards in order to remain eligible for financial assistance. The requirements are that a student:

1. maintain a minimum cumulative Texas State GPA;
2. complete at least 67% of all course work; and
3. not exceed a maximum limit of attempted hours toward their degree.

Additional program-specific requirements also exist. View these SAP criteria in more detail at http://www.financialaid.txstate.edu/ by selecting Graduate Aid from the dropdown menu and then Maintain My Eligibility.

Alternative Loan Resources

For information on alternative loans, visit http://www.financialaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Types of Aid.

Official Withdrawals and Financial Aid

If a student withdraws or is expelled from the university on or prior to the 60-percent point of the semester, the student is required to repay any unearned portion of their federal Title IV aid. For more details, visit http://www.financialaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Unofficial Withdrawals and Financial Aid

If the student fails to earn a passing grade in at least one of their courses (i.e., all U’s, all I’s or a combination of all U’s, W’s or I’s) during a semester, the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the university. As a result, a federal withdrawal calculation must be performed to determine the amount of Title IV funds the student must repay. For more details, visit http://www.financialaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Non-Attendance and Financial Aid

If the student is a Pell Grant, Iraq-Afghanistan Service Grant (IASG) or TEACH Grant recipient, federal regulations require the student to have begun attending the courses for which the student is enrolled and receiving these grants. If on the census date roster (e.g., 12th day of each fall and spring semester) the student is reflected as not attending a course, the student is assumed (for financial aid purposes) not to have begun attendance for that course. The student’s grant will then be adjusted or cancelled based on the courses the student has actually begun attending. For more details, visit http://www.financialaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

To Withdraw

The student must complete the form entitled “Texas State Official Withdrawal Request” from the University Registrar’s Office. Financial aid recipients should speak with a Financial Aid and Scholarships representative before the withdrawal is processed. The withdrawal date is defined as the date on which a student first indicates his or her intent to withdraw.

Scholarships and Fellowships

The scholarships listed below are competitively based and are available to qualified students who are regularly admitted through The Graduate College. Students who are not Texas residents and receive a Texas State competitive scholarship of at least $1,000 may be eligible to pay resident tuition. More information regarding eligibility criteria, the application procedures and deadlines for each of the scholarships and fellowships listed below is available on our funding page.

Information about additional scholarships, as well as teaching and research assistantships, may be available through individual academic departments.

Texas State Celebrity Classic Scholarships

The Graduate College awards these scholarships to encourage students with intellectual, creative, and leadership promise to complete a master’s or doctoral degree at Texas State University. These scholarships are available for both newly admitted and continuing students.
Graduate College Scholarships
The Graduate College provides these scholarships to encourage students with intellectual, creative, and leadership promise to complete a master’s or doctoral degree at Texas State University. These scholarships are available for newly admitted and continuing students.

Graduate College Doctoral Research Support Fellowships
The Graduate College provides Doctoral Research Support Fellowships to support graduate student research at the doctoral level. Each award of up to $5,000 is to be used to cover expenses directly related to conducting dissertation research. There are two rounds of funding applications each year.

Graduate College Thesis Research Support Fellowships
The Graduate College provides Thesis Research Support Fellowships to support graduate student research at the master’s level. Each award of up to $2,000 is to be used to cover expenses directly related to conducting thesis research. There are two rounds of funding applications each year.

Texas State Doctoral Merit Fellowships
The Graduate College’s Texas State Doctoral Merit Fellowships are intended for use in recruiting doctoral students of the highest quality to Texas State University. The Texas State Doctoral Merit Fellowship provides $9,000 to doctoral students for their first academic year of study (paid in early September, January, and June). These fellowships can be combined with graduate assistantships or departmental scholarships to create an attractive financial aid package for top-quality applicants. Doctoral program directors are encouraged to identify and nominate eligible applicants. (Prospective students cannot apply directly.)

Texas State Graduate Merit Fellowships
The Graduate College’s Texas State Graduate Merit Fellowships are prestigious awards intended for use in recruiting doctoral students of the highest quality to Texas State University. The Texas State Graduate Merit Fellowship provides $2,500 to new master’s students for their first academic year of study (paid in early September, January, and June). These fellowships can be combined with graduate assistantships or departmental scholarships to create an attractive financial aid package for top quality applicants. Graduate advisors are encouraged to identify and nominate eligible applicants. (Prospective students cannot apply directly.)

External Funding
The Graduate College provides resources to assist students seeking or applying for external funding. The Graduate Funding Opportunities Database houses grants, scholarships, fellowships, internships and other awards/prizes specific to Texas State graduate students. Through the Shop Talks professional development series, funding experts present general information about external funding as well as details about specific opportunities. The Graduate College also employs an in-house external funding coordinator to advise students with funding applications and grant proposals.

Admission Information

Admission Requirements
The requirements set forth on each individual program page (detailed both in the Graduate Catalog and The Graduate College website) are the minimum standards for admission to enter a graduate program at Texas State. Meeting these requirements does not necessarily ensure acceptance into a graduate program. Some programs recommend that applicants arrange a personal interview with the appropriate graduate faculty.

Applicants who are currently on probation or suspension at other colleges or universities are not eligible for admission consideration by The Graduate College. The dean of The Graduate College may refuse admission to any applicant, regardless of whether or not the applicant meets the admission requirements, if the dean of The Graduate College judges that such action is in the individual’s or the University’s best interest. The University reserves the right to deny admission to any prospective or former student who have criminal records including any conviction of a felony, offenses involving moral turpitude, or other offenses of a serious nature.

Start Term
Applications are for specific terms. If a program is not available in ApplyTexas for a specific term, then the program does not offer admission for that term or the deadline to apply for that program has passed. Applicants wishing to change their application to a future term will be required to submit a new application and pay the application fee.

Communication
The Graduate College will email applicants important information pertaining to their admissions application and application decision; therefore, it is imperative that applicants provide a working email address on their ApplyTexas application that will remain active throughout the entire application process. It is the responsibility of the applicant to confirm that they are receiving emails from The Graduate College, to check their email accounts often, and to read all communication sent from the Graduate College.

Decision Process
Applicants are encouraged to check the status of their application online in order to expedite the process of completing the application. After all admission requirements have been received by The Graduate College, the grade point average will be calculated and the graduate advisor will make an admission recommendation. Final admission decisions are made by the dean of The Graduate College, and The Graduate College will notify the applicant of the admission decision. Applicants will receive an email notification when admitted to a program. Degree-seeking students admitted to The Graduate College will also receive a letter via U.S. mail. Students who have been admitted into a degree program and do not enroll for the term of acceptance are not guaranteed acceptance for future terms.

Decision Timeline
For most programs, an admission decision will follow within 4-6 weeks from the time all application materials have been received by The Graduate College. The number of applicants for a particular program influences the response time.
Admissions Appeal
Applicant may submit an admission appeal to the graduate dean for a denial decision within three weeks of the date of the decision. The written appeal should include additional supporting documentation. Admission appeals will be answered via email within three weeks of receipt of the applicant’s appeal.

Application Deadlines
Deadlines represent the last date an application will be guaranteed to be considered for admission. Many programs strictly enforce the published deadlines and applications received after the deadline will not be considered for admission. However, other programs will review applications for domestic applicants received after the published deadline dates on a space-available basis only. For more information about specific program deadline types and dates, visit the program's admissions page on our website.

All required application materials should be submitted to The Graduate College no later than the following standard deadline dates (though some programs may have earlier deadlines and others may continue to receive applications after these deadlines) to ensure admissions consideration for the desired term:

Master's and Doctoral Degree-Seeking Applicants

Admission Requirements for U.S. Citizens

Each program's catalog or web page details the specific admission requirements for the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). Changes beyond the 2017-2018 academic year (if applicable) are noted on each program's web page.

Admission Requirements for International Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

In addition to meeting the application requirements found on each program’s catalog or web page, international applicants must submit:

- $50 non-refundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60)
- official transcripts from every institution attended: one in the native language and one certified English translation (if transcripts are issued in a language other than English)
- a copy of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or the international applicant web pages for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under an F-1 student visa must be enrolled full-time (nine hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session. Please contact the International Office at 512-245-7966 for more information.

Regular Admission Requirements

Regular degree-seeking admission, for most programs, may be granted if an applicant:

1. has a minimum* grade-point average (GPA) of 2.75 on a 4.0 scale calculated on:
   a. the last 60 semester hours of undergraduate work before the bachelor’s degree at an accredited four-year institution,
   b. the last 60 semester hours of undergraduate work before the bachelor’s degree at an accredited four-year institution plus any completed graduate course work taken at an accredited institution, or,
   c. the last 60 semester hours of undergraduate work, including those on a second baccalaureate degree. (This is the only circumstance in which undergraduate credit hours taken beyond the first baccalaureate degree are used in admission evaluation.)
2. **AND** meets any special requirements imposed by the graduate program for which an application is made.

Only courses with letter grades or numerical equivalents will be used in calculating the grade-point average.

* Some graduate programs have higher GPA requirements and/or subject-specific GPA requirements. These requirements are detailed on each program's catalog or web page.

Conditional Admission Status

The graduate advisor in the degree program that applicants seek to enter may recommend to the dean of The Graduate College that they be conditionally admitted even though they may or may not meet the minimum requirements for admission. This recommendation is based...
on evidence that an applicant can successfully pursue graduate study and is governed by the stated admission policies in the prospective program. Conditional admission is considered an official admission status. (Conditional admission is not available for all programs.)

When students are conditionally admitted to a graduate degree program, the graduate advisor, with the approval of the dean of The Graduate College, will impose certain requirements, or "conditions of admission". Each term, the graduate advisor or department chair will review the progress of students admitted conditionally. When students meet the conditions of their admission, they will be eligible for regular admission to the program. When students do not satisfy the conditions of their admission, the graduate advisor and dean of The Graduate College will discontinue their enrollment.

Graduating Senior Admission Requirements
If an undergraduate student at Texas State has a superior academic record and lacks 12 or fewer semester hours toward graduation, the student may apply for graduate admissions to a degree-seeking program during the final term of undergraduate study. Graduate course(s) taken under this status will be applied to the student's prospective master's degree. The following requirements must be met:

1. The student must be admitted with regular admission status.
2. The graduate advisor in the student's proposed major program must submit a recommendation to the dean of The Graduate College requesting that the student be admitted into the proposed major program of study as a graduating senior.

Since concurrent registration in an undergraduate and graduate program may affect financial aid awards, students should contact a financial aid officer prior to seeking graduating senior status.

Non-Degree-Seeking Applicants
Applicants who would like to take graduate courses for personal enrichment or to fulfill prerequisites for another program, can take course(s) as a non-degree-seeking student. Non-degree-seeking students are not pursuing any of The Graduate College's programs.

Admission Requirements for U.S. Citizens
The items listed below are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). For submission instructions, additional details and admission requirements for semesters beyond 2017-2018 (if applicable), please visit the appropriate program web page.

- completed online ApplyTexas application
- $10 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- a baccalaureate degree from a regionally accredited university
- official transcripts required from the institution that shows the highest degree earned
- completed non-degree-seeking student form

Admission Requirements for International Applicants
An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

The following items, in addition to those listed above, are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018).

1. $50 non-refundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. official transcripts from every institution attended: one in the native language and one certified English translation (if transcripts are issued in a language other than English).
3. a copy of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned.
4. official English proficiency exams scores.
5. non-degree graduate study approval form (for F-1/J-1 visa applicants).

F-1 Visa Enrollment Requirements
A student under an F-1 student visa must be enrolled full-time (nine hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session. Please contact the International Office at 512-245-7966 for more information.

Visiting/Exchange Applicants
If a student is currently pursuing a graduate degree at another institution, the student may enroll in graduate courses at Texas State with the permission of the dean of The Graduate College and the graduate advisor of the Texas State program, and the student's primary institution. The intent of this program is for students to transfer the degree credit earned at Texas State back to the primary institution; therefore credit earned as a visiting student may not be eligible for Texas State degree programs should students decide to pursue one at later time.

Admission Requirements for U.S. Citizens
The items listed below are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). For submission instructions, additional details and admission requirements for semesters beyond 2017-2018 (if applicable), please visit the appropriate program page.

- completed online ApplyTexas application
- $10 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- transcripts not required
- visiting student form requiring:
  - approval to take the course from the primary institution, or the institution granting the degree.
• approval from the graduate advisor or department chair in the program/department offering the course at Texas State

Return the visiting student form signed by all appropriate parties for the dean of The Graduate College to approve at least two weeks prior to registration. The form must be completed prior to enrollment each term students enroll as a visiting student.

Admission requirements for International Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants fall under regulation of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

The following items, in addition to those listed above, are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018 and/or Summer I and II 2018).

International Visiting Applicants

• $50 nonrefundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60)
• official English proficiency exams scores

International Exchange Students

• the $10 application and the $50 international evaluation fees are waived
• official English proficiency exams scores or the completed English Proficiency Waiver Form for Graduate Exchange Students

Refer to the International Admission Documents section of this catalog or the international applicant webpages for more information about these requirements. Immigration documents should be submitted to the International Office.

Texas State Certificate Program Applicants

Texas State offers a number of certificate programs. Applicants who hold baccalaureate degrees from regionally accredited institutions must apply through The Graduate College. All certificate coursework must be completed within four years of initial enrollment.

Admission Requirements for U.S. Citizens

Each certificate’s catalog or web page details the specific admission requirements for the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). Changes beyond the 2017-2018 academic year (if applicable) are noted on each program’s web page.

Admission Requirements for International Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

In addition to meeting the application requirements found on each certificate’s catalog or web page, international students must submit:

• $50 non-refundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
• official transcripts from every institution attended: one in the native language and one certified English translations (if transcripts are issued in a language other than English).
• a copy of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned
• official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or the international applicant web pages for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full time for that summer session. Please contact the International Office at 512-245-7966 for more information.

Certificate Course Work

Students must maintain a minimum GPA of 3.0 in order to receive a certificate of completion for the program. A final course grade of “C” or higher is required for any graduate course that may be applied towards a graduate certificate at Texas State. All certificate course work must be completed within four years of initial enrollment.

Students who apply and are admitted to a degree program can petition up to six hours of certificate course work to count toward the degree as long as the course work is graduate-level and completed with a grade of “B” or higher.

Texas State Certificate of Completion

In order for students to receive their certificates, they must submit the graduation application (even though they are technically not “graduating”) in the semester in which they plan to complete their certificate course requirements. Students in both a degree program and a certificate program who wish to apply for both programs at once must select both at the time the graduation application is submitted. Students who finish their certificate course requirements prior to their degrees can apply for the certificate of completion before they finish the degree.

It is the student’s responsibility to ensure completion of all degree requirements as listed on the degree audit and required by the department. It is also the student’s responsibility to apply for graduation by the published deadline. Students who miss the graduation application deadline will have to apply for graduation during the next semester.

Teacher Certification Applicants

The Educator Preparation Program (EPP) prepares candidates for numerous initial teacher certificates. The program produces teachers
who are certified to teach in Texas public, charter, and private Pre-K - 12 schools.

Post-baccalaureate students can earn initial teacher certification through the following options:

- teacher certification only (stand-alone)
- master's degree + certification
- second bachelor's degree program with teacher certification (see undergraduate catalog for admittance and program requirements)

**Admission Requirements for U.S. Citizens**

**Stand-Alone Teacher Certification**

The items listed below are required for admission during the 2017-2018 academic year (Fall 2017, Spring 2018). For submission instructions, additional details and admission requirements for semester beyond 2017-2018 (if applicable), please visit the program's web page.

- completed online ApplyTexas application
- $10 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 2.75 GPA on your last 60 hours of undergraduate course work

**Admission Requirements for International Applicants**

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). These items apply to both stand-alone certifications and master's degree + certification programs.

1. $50 non-refundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. official transcripts from every institution attended: one in the native language and one certified English translation (if transcripts are issued in a language other than English)
3. a copy of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned
4. official (iBT) TOEFL scores of 78 or higher, with a minimum of 26 on the speaking section and a minimum of 19 in all other sections. The Texas Education Agency (TEA) does not accept any other English proficiency exams

Refer to the International Admission Documents section of this catalog or the international applicant web pages for more information about these requirements.

**F-1 Visa Enrollment Requirements**

A student under F-1 student visa must enroll full-time (nine hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session. Please contact the International Office at 512-245-7966 for more information.

**Admittance Requirements for the Educator Preparation Program (EPP)**

In addition to the above requirements, the State Board for Educator Certification (SBEC) and Texas State University require the following items:

- completed application to the Educator Preparation Program
- accepted offer of admittance and nonrefundable $55 fee
- completed application for a Certification Plan and nonrefundable $75 fee

Admittance requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website for current admittance information and processes.

**Program Requirements**

Successful teaching requires a combination of both academic and interpersonal skills. Behaviors, skills, abilities, and dispositions which are required for successful teaching as well as the candidate’s general level of readiness for teaching in Pre-K - 12 classrooms are regularly assessed.

All candidates requesting placement in Pre-K - 12 schools must complete a criminal background check. Each school district has its own background check process and requirements that must be met before the school district will approve a candidate's placement.

**Coursework Requirements**

Once admitted to the program, candidates must apply for a certification plan and pay a fee. Each certification has different course requirements
that may vary according to a candidate’s academic background. Up to six semester credit hours of graduate-level courses may be substituted or transferred with the approval of a program advisor. Candidates seeking secondary or all-level certification may be required to repeat or enroll in undergraduate courses to meet subject-specific content requirements.

Field Experience
A minimum of 30 hours of field experience observation is required; students must complete this requirement the semester before student teaching either in a field block experience or as a stand-alone placement embedded in specific coursework. Candidates must consult OEP and/or a program advisor before deciding how to fulfill this requirement.

Student Teaching
Student teaching is the state-required culminating experience of the teacher certification process. This is a one-semester (six credit hours), unpaid, full-time experience in a local public school classroom. However, some candidates with advance approval from a program advisor and the OEP may choose to pursue a year-long, paid internship. All coursework from the certification plan must be completed prior to the student teaching semester.

Teacher Certification Exams
The Texas Examination of Educational Standards (TExES) is the state required teacher examination for all Texas Educators. A candidate’s certification area and level will determine which TExES tests are required. Candidates are allowed five attempts for each certification test and must request approval from the OEP for each attempt. Review the OEP website for the test approval process. Candidates are eligible for test approval up to 2 years after completing the program or until the exams expire.

Certification Recommendation
The certification officer will recommend candidates to the state for issuance of a teaching certification, after all of the following have been completed:

• passing scores on all of the required certification exams
• credit for student teaching posted to the transcript
• bachelor’s degree on file with the university
• completed application for certification through TEA

* Program requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website for current program requirements and processes.

Holders of Valid Out-of-State Certificates
The State Board for Educator Certification (SBEC) reviews out-of-state teacher certificates. Contact the SBEC at 888-863-5880.

Professional and Master Teacher Certification Applicants
Professional and master teacher certifications are available in: principal, master reading teacher, master mathematics teacher, master technology teacher, counselor, superintendent, and reading specialist. To sit for the state exams, students must have a master’s degree and teaching experience in Texas public schools. These programs are offered as stand-alone certifications or as part of a master’s degree (master’s degree + certification). Refer to each individual departmental section of this catalog for specific information or visit our certification web page.

Admission Requirements for U.S. Citizens
Stand-Alone Certifications (Principal, Superintendent, Master Technology Teacher, and Master Math Teacher - Elementary)
The items listed below are required for admission during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). For submission instructions, additional details and admission requirements for semesters beyond 2017-2018 (if applicable), please visit the program’s web page.

• completed online ApplyTexas application
• $10 nonrefundable application fee
• $50 nonrefundable international evaluation fee (if applicable)
• baccalaureate degree from a regionally accredited university (for superintendent and principal certification applicants only)
• official transcripts required from each institution where course credit was granted
• official transcripts required from each four-year institution where course credit was granted (master technology teacher only)
• minimum 2.75 GPA on the last 60 hours of undergraduate coursework
• copy of official teaching certificate documenting initial teaching certification
• copy of official teaching service record documenting at least one year’s teaching experience
• copy of official principal certificate* (for superintendent certification applicants only)
• three letters of recommendation (master math teacher only)
• statement of purpose (master math teacher and master technology teacher only)

* The program will also accept the equivalent of a principal certificate issued by another state or country or the completion of the superintendent certificate application and approval from the Texas Education Agency (TEA) to substitute three years’ managerial experience in lieu of a principal certificate.

Admission Requirements for International Applicants
An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. All international applicants
fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants, including permanent residents, differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration for semesters of entry during the 2017-2018 academic year (Fall 2017, Spring 2018, and/or Summer I and II 2018). These items apply to both stand-alone certifications and master’s degree + certification programs.

- $50 nonrefundable international evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
- Official transcripts from every institution attended: on in the native language and one certified English translation (if transcripts are issued in a language other than English)
- A copy of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned
- Official (iBT) TOEFL scores of 78 or higher, with a minimum of 26 on the speaking section and a minimum of 19 in all other sections. The Texas Education Agency (TEA) does not accept any other English proficiency exams.

Refer to the International Admission Documents section of this catalog or the international applicant web pages for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under F-1 student visa must be enrolled full-time (nine hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if they student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session. Please contact the International Office at 512-245-7966 for more information.

Texas Certified Public Manager (CPM) Program

www.txstate.edu/cpm (http://www.txstate.edu/cpm)
Telephone: 512-245-3453 Fax: 512-331-7293

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer this program in Texas. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two to three months depending on location. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not-for-profit sector. The program’s primary goal is to improve the performance of public and not-for-profit sector managers and the organizational performance of state, local, and federal government. It is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant, their agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program, a 7-course sequence which leads to a nationally accredited public manager certification is offered by Texas State University’s William P. Hobby Center for Public Service.

Reapplication Policy and Procedure

Applicants wishing to change their application to a different term will be required to submit a new application and pay the non-refundable application fee.

Admitted Students

Students who are accepted into a degree program and fail to enroll for the term of acceptance are not guaranteed acceptance for future terms. In some programs students may contact The Graduate College about the possibility for a one-time deferral for up to two terms only.

Any student failing to enroll within a one-year period will be required to submit a new admission application and non-refundable application fee. Other application documents may be required. Students should review additional enrollment requirements and policies that relate to their program of study. Please see the leave of absence policy in the Academic and Grading Policies section of this catalog for more information.

Applicants Seeking a Second Graduate Degree or Changing Majors

If a student wishes to pursue a second simultaneous or subsequent graduate degree or change a major, the student must submit an application for admission as well as the appropriate admission requirements as indicated on the program’s catalog or web page. This procedure must be completed in ample time to meet the admission deadlines.

Acceptance in one program does not guarantee acceptance in another program. No courses applied toward one graduate degree may be applied toward another graduate degree.

Students on probation or suspension (p. 686) may not change programs without a recommendation and special request from the prospective department. The dean of The Graduate College will review the request when making the final decision.

Changing Certification/Certificate/Non-Degree Status to Degree-Seeking Status

If a student has been granted admission as a post-baccalaureate/post-graduate student and wishes to apply for admission to a degree program, the student must submit an application for admission as well as the appropriate admission requirements as indicated on the program’s catalog or web page. This procedure must be completed in ample time to meet the admission deadlines.

After students are regularly admitted to a graduate degree program, they may be permitted to count some of the courses taken under the post-
baccalaureate or post-graduate status toward their graduate degrees. At the recommendation of the student's graduate advisor, up to six hours of graduate-level courses taken under the post-baccalaureate or post-graduate status with a grade of "B" or better may be petitioned to the dean of The Graduate College for degree credit.

Texas State Intensive English Language Program (TSIE)

Thornton International House
344 W. Woods Street
www.txstate.edu/ie (http://www.txstate.edu/ie)
Telephone: 512-245-7810 Fax: 512-245-3752

Texas State Intensive English (TSIE) is a non-credit university intensive English-as-a-Second-Language (ESL) program for students who:

- want to improve their command of the English language before entering college or university-level programs of study;
- are participating in the TSIE Bridge Programs; or
- would like to polish their English language abilities for academic readiness, test preparation, self-improvement and/or cultural integration.

Beginning, intermediate, and advanced classes, emphasizing academic reading, writing, grammar, and oral skills, are offered during the fall, spring, and summer sessions.

Graduate Student Academic Advising

Academic advising for students is handled through the student's major department (or minor department if applicable) after the student has received formal acceptance to The Graduate College. This method of advisement ensures that students will receive sound academic advice from faculty in their chosen field of study.

Admission Documents

All admission materials must be submitted to The Graduate College through the appropriate channel and in the requested format. Materials submitted become the property of the university and cannot be released, except in accordance with the Federal Family Educational Rights and Privacy Act or the Texas Public Information Act. Non-required admission materials mailed or emailed to The Graduate College will not be retained, nor will documents submitted without the ApplyTexas application. Submission instructions and information can be found on our website.

General Admission Documents

Submission Instructions

Additional details for the items below are located on The Graduate College's submission information web page.

ApplyTexas Application

An application for admission to The Graduate College must be submitted online through ApplyTexas. Applications are for specific semesters. Applicants wishing to change their application to a different semester or program will be required to submit a new application and repay the non-refundable application fee. See the Readmission Policy and Procedures section of this catalog for more information.

Application Fees

A non-refundable application fee of $40 is required for all degree-seeking applicant. A $50 nonrefundable international evaluation fee is required for international applicants and any domestic applicant with foreign credentials and/or English proficiency exam scores that must be evaluated. A $10 non-refundable application fee is required of applicants seeking certification, certificate, non-degree, or visiting student status. $25 non-refundable application fee is required for applicants to the doctor of physical therapy program. No application will be processed until the necessary fees are paid.

Official Transcripts

Applicants must submit official transcripts from each senior-level post-secondary institution from where credit was received to The Graduate College. (Transcripts from community colleges may be required for some programs as noted on the program’s catalog or web page.)

Applicants applying for a master’s or doctoral degree must at least hold a four-year baccalaureate degree from regionally accredited institution. The requirements for international transcripts can be found in the International Admission Documents section of the catalog.

Test Scores

Graduate Record Examination (GRE)

Some programs require official GRE scores to be on file in The Graduate College prior to admission consideration. Official GRE scores may be required by other programs if the GPA is below the minimum. Preferred scores and other information can be found on each program’s catalog or web page.

Applicants who must submit official GRE scores should take the general portion (verbal and quantitative sections) of the exam. The writing section is also required for some programs. Subject examinations are not accepted.

The GRE is valid for five years after the exam date and must be sent directly from the testing center.

Scores requested by the student before the deadline, but arriving in The Graduate College after the deadline, will be considered late.

Graduate Management Admission Test (GMAT)

The GMAT is required to be on file in The Graduate College prior to admission consideration for some programs. Preferred scores and other information can be found on each program’s catalog or web page.

The GMAT is valid for five years after the exam date and must be sent directly from the testing center. Scores requested by the student before
the deadline, but arriving in The Graduate College after the deadline, will be considered late.

**English Proficiency Exam Scores**
The Requirements for the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) can be found in the International Admission Documents section of this catalog.

**Documentation of Meningitis Immunization**
Universities in Texas are required by state law to collect proof of bacterial meningitis vaccination, or proof of an exemption, for incoming students under the age of 22. Magnus Health Student Medical Records (SMR) collects, reviews, and confirms students’ bacterial meningitis vaccination information. For more information on this requirement, please visit the vaccine policy web page or contact Magnus Health SMR customer service via email (service@magnushealthportal.com) or at 877-461-4831.

**International Admission Documents**
In addition to all general admission requirements, applicants with international credentials (including any study abroad or exchange coursework) or English proficiency exam scores, may be required to submit the following requirements for admission consideration.

**International Evaluation Fee**
If an application requires the review of any non-U.S. credentials (including any courses taken through a study abroad or exchange program) or English proficiency exam scores, the applicant must submit a nonrefundable international evaluation fee of $50 in addition to the $40 application fee. No application will be considered until the necessary fees have been paid.

**Official Transcripts/Marks Sheets**
The Graduate College requires two official, university-sealed transcripts from every university attended: one in the native language of the university and one certified translation into English (only when the native language transcripts of the university are issued in English). Transcript evaluations are not required. Academic records (transcripts and mark sheets) must be submitted directly to The Graduate College by post in an envelope sealed by the university recognized by the appropriate bodies of that country and must include official stamps, seals, and/or signatures from the university’s Registrar or Controller of Examinations. These documents must be printed on university letterhead in order to be considered official.

**Graduation/Degree Certificate (Diploma)**
The Graduate College requires two copies of official diplomas or degree certificates: one in the native language of the university and one certified translation into English. Certificates must include the type of degree earned and the date the degree was awarded, as well as all official stamps, seals, and/or signatures from the university's Registrar or Controller of Examinations Office.

**Official English Proficiency Exam Scores**
Fluency in English is expected of all accepted students, specifically in the areas of listening, reading, speaking, and writing; therefore, English proficiency exam scores through the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) are required of all applicants if English is not their native language or if they are not eligible for an automatic TOEFL/IELTS waiver.

ALL TOEFL or IELTS scores submitted for admission consideration must be less than two years old as both Educational Testing Services (ETS) and International English Language Testing System (IELTS) will not maintain or release official score records beyond this time. ALL TOEFL or IELTS scores must be submitted to The Graduate College by ETS or IELTS directly; score reports bearing the designation of “applicant copy” or “institutional scores” will not be considered official for admission purposes. Scores requested by the student before the deadline, but arriving in The Graduate College after the deadline, will be considered late.

**English-Proficiency Admission Requirements**
Applicants must submit a TOEFL internet-based test (IBT) score of at least 70 overall or an IELTS (academic) test score of at least 6.0 overall with 6.0 in each individual module scores in order to be considered for regular admission based on English proficiency*. (Only students currently enrolled in the Texas State Intensive English (TSIE) Bridge Program (see below) may submit a TOEFL paper-based test score of at least 550 for regular admission.) Some programs may require a higher overall score or 4 out of 4 minimum individual iBT section scores in order to be considered for regular admission. Additionally, some programs may require that applicants submit scores for one specific type of test. These requirements are listed on each program's catalog or web page.

* Regular admission based on English proficiency does not guarantee regular academic admission.

**Bridge Admission Requirements**
In conjunction with the Texas State Intensive English (TSIE) Bridge Program, certain programs may allow English-based conditional admission. “Bridge Admission” requires a TOEFL internet-based overall score 59 - 77 or an IELTS (academic) overall score of 5.5 - 6.0 with minimum individual module scores of at least 5.5. Please note that some programs may require 4 out of 4 minimum individual iBT section scores in order to be considered for English-based conditional admission.

**Immigration Documents**
All immigration-related documents will be collected by the International Office. Visit the International Office web site for more information or contact the office directly via 512-245-7966 or international@txstate.edu.

**Registration and Course Credit**
Since applications are for specific semester or terms, applicants should notify The Graduate College as soon as possible if they will not be enrolling for the semester of admission.

Texas State uses an online registration system referred to as Texas State Self-Service which requires admission to the university and an associated NetID and password. Texas State Self-Service can be accessed through CatsWeb (http://www.catsweb.txstate.edu). It provides step-by-step instructions on how to register online and information on how to search for courses. For more information, students should access the University Registrar's website at http://www.registrar.txstate.edu.
Registration Termination

Registration in The Graduate College beyond the first term depends on satisfactory progress in fulfilling any admission conditions that may have been imposed and making satisfactory progress.

The dean of The Graduate College may terminate the registration of any student who fails to comply with Graduate College and/or other appropriate university regulations.

Course Load and Overloads

Course Load

At the graduate level, the full-time course load during the fall, spring, and summer is nine semester hours. Seven hours is considered ¾ time and five hours is half-time. Students may take up to 15 hours during the fall and spring terms and up to twelve hours during the summer.

An international student on an F-1 visa must register as a full-time student each fall and spring term. As a graduate student, an international student must carry a minimum of nine semester credit hours, as required by immigration regulations, to be considered full-time.

The department or operating unit will determine the permissible course load of employees of the university under their supervision. Graduate assistants should refer to the Salaried Graduate Student Employment Procedures outlined in UPPS 07.07.06.

A student receiving Veterans Affairs (VA) benefits must check with the VA office (512-245-2641) for enrollment requirements.

Overloads

Course loads up to 18 hours require written approval from the dean of The Graduate College. To request an overload, the student must make a request to the major department advisor who must submit a written request to the dean of The Graduate College at least three days before registration.

Credit Hour

For purposes of this catalog and in accord with federal regulations regarding the definition and assignment of credit hours under section 600.0 and 600.24(f) of the Higher Education Opportunity Act, a credit hour is an amount of work that reasonably approximates:

- not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately 15 weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;
- at least an equivalent amount of work as outlined in the item above for other academic activities as established by the institution including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.

A semester credit hour is defined by Texas Higher Education Coordinating Board as a unit of measure of instruction consisting of 60 minutes, of which 50 minutes must be direct instruction over a 15-week period in a semester system. Credit hours must be presented in whole numbers. Academic administrative units are responsible for ensuring that credit hours are awarded only for work that meets this requirement. Students should expect to invest a minimum of two hours of additional work for each hour of classroom or faculty instruction per week.

Adds and Drops/Schedule Changes

Information regarding schedule changes can be found on the University Registrar’s website at http://www.registrar.txstate.edu/. Schedule changes and withdrawal dates are published each term in the official university calendar that can be found at: http://www.registrar.txstate.edu/persistent-links/academic-calendar.html.

For assistance, contact the office of the University Registrar.

Auditing a Course

To audit a course, a student must be admitted to The Graduate College. After the student has registered on CatsWeb, he or she must contact the office of the University Registrar in person by the 4th class day in the summer or by the 12th class day in the fall or spring. Check the University Academic Calendar for the exact date. A student will pay the same fees as if the course were taken for credit and the course will be entered on his or her transcript record, but the student will not receive credit for the course.

Senior citizens, 65 or older, may audit courses without payment of a fee if space is available. Registration is permitted just prior to the start of the term, with reductions made by the tuition adjustment clerk, Student Business Services (JC Kellam Administration Building 188), after registering.

Course Numbers

Texas State follows a four-digit numbering system. The first digit indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior, 5- and 6-graduate and post-graduate, and 7-doctoral. Courses numbered 5000-6000 are open to all graduate students. Courses numbered 7000 are designed for doctoral students but may be open to other graduate students. The second digit of the course number indicates the semester credit hours the course carries. For example, a course numbered 5300 would carry three semester hours of graduate-level credit. The last two digits usually indicate the location of the course in the department's curriculum. A letter (A, B, C, etc.) or symbol (#, @, etc.) attached to a course number indicates an area of concentration within the course. Numbers in parentheses (3-4) following a course title indicate the clock hours per week spent in lecture and laboratory, respectively.

Dropping a Class

Dropping a class is an official action whereby a student drops one or more courses, yet remains enrolled in at least one hour. Refer to the registration instructions at http://www.registrar.txstate.edu for details on dropping a class.

1. The drop deadline is the first 60 percent of the term. Please refer to the academic calendar on the University Registrar’s website for the most current dates.
2. A “W” grade will be assigned automatically when a student drops one or more classes by the automatic “W” deadline, the first 60 percent of the term.

Withdrawal

Withdrawing from the university (dropping all classes) is an official action whereby a student informs the University Registrar, who in turn informs the instructor(s) of record, that the student will cease attending all classes in which he or she is enrolled.
1. The deadline to receive an automatic "W" is the first 60 percent of the term. Refer to the academic calendar on the University Registrar’s website for the most current dates.

2. After the automatic "W" period, faculty assign grades to students who officially withdraw from the university. Faculty assign a "W" grade only to those students who have a passing average at the time the withdrawal action is officially completed. Otherwise, faculty assigns a "U" grade.

3. Please refer to the academic calendar on the University Registrar’s website for the withdrawal deadline.

The student must contact the office of the University Registrar in person, by letter, by email, or by fax to withdraw officially from the university. Visit the registrar’s office website at http://www.registrar.txstate.edu/ or contact the registrar’s office at 512.245.2367 for the proper procedures. Students living in university residence halls must also contact the Department of Housing and Residential Life in person, by letter, or by fax.

**Course Credit**

**Course Credit and Level**

A student must be in attendance in class, fulfill the course requirements, and be evaluated by the course instructor in order to receive course credit for that class. The attendance requirement to receive class credit does not affect enrollment for thesis or independent study.

A student must be enrolled in the course during the term or summer session in which he or she receives credit for that class. A student may not enroll in a class to:

1. Receive credit for course work performed in a preceding term or summer session.
2. Receive credit for work performed at another college or university.

**Course Level**

All courses required for the graduate degrees offered at Texas State are at the 5000-level or above. Courses required for the doctoral level are at the 7000-level.

**Repeating Courses**

A student may repeat a course but cannot receive credit for the course more than once unless the course description in the catalog specifically provides that the course may be repeated for credit. When a course is taken more than once, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Texas State hours attempted, grade points earned, and GPA. "W," "PR," and "I" grades are excluded. If a course taken at Texas State University is to be repeated, it must be retaken at Texas State University.

**Post-Graduate Credit**

After a student is regularly admitted to a graduate degree program, they may be permitted to utilize some of the courses taken as a post-graduate, teacher certification, non-degree, or certificate student toward their graduate degree. At the recommendation of the student's graduate advisor and with approval of the dean of The Graduate College, up to six hours of graduate-level courses taken under the post-graduate status with a grade of "B" or better may be petitioned for degree credit.

**Transfer Credit**

After a student is regularly admitted to a graduate degree program, they may be permitted to utilize some graduate level courses taken at another institution toward their graduate degree. Acceptable transfer credit may be applied to a graduate degree as follows:

- up to 6 hours for degrees with 30-35 credit hours,
- up to 9 hours for degrees with 36-41 credit hours, and
- up to 12 hours for degrees with 42+ hours.

Exceptions to the standard maximums are the mathematics education doctoral program and the communication design master's program. The mathematics education doctoral program requires completion of 78 semester hours of course work, of which 24 credit hours of transfer course work may be approved by the dean of The Graduate College upon recommendation from the Ph.D. program director. The master's in communication design is a 60 semester hour degree program, in which a maximum of 27 semester credit hours of transfer credit may be approved by the dean of The Graduate College upon recommendation from the program's graduate advisor. Transfer credit will be accepted and applied upon confirmation of the following requirements:

1. The credit was earned in graduate courses completed in residence at a regionally accredited institution.
2. The courses are at the appropriate level and applicable to the student's degree program at Texas State.
3. Courses have not been, and will not be, used for credit toward another degree.
4. If the credits were earned prior to the student's admission to his or her program of study within The Graduate College, the student must have his or her departmental graduate advisor submit a written request to the dean of The Graduate College asking for acceptance of the transfer work toward the student's Texas State degree.
5. If the credits are to be earned after the student is admitted to The Graduate College or enrolled in a graduate degree, the student must initiate a request for a letter of good standing well in advance of the time of anticipated enrollment at another university. Transfer credit cannot be permitted if the student fails to obtain a letter of good standing from the dean of The Graduate College prior to enrollment in the course(s) to be transferred. In order to obtain a letter of good standing, the student will need to:
   a. Receive permission from the departmental graduate advisor to take a course elsewhere.
   b. Have the graduate advisor submit a written request to the dean of The Graduate College so that the dean can issue an official letter of good standing. The request from the advisor should identify the course(s) by name and number and show what term(s) and where the course(s) will be taken. If the dean of The Graduate College approves the request, a letter of good standing will be sent by the dean of The Graduate College to the university where the student will enroll.
   c. Have an official transcript of the work forwarded to The Graduate College at Texas State as soon as the grade(s) posts to the transcript at the other institution.

Transfer work will be accepted only if it bears a letter grade of "B" or higher, or a numerical equivalent. A grade of "Credit," "Pass," "Satisfactory," etc., is unacceptable. Transfer work will not be accepted for graduate degree credit from another institution if such courses are designated as non-degree, background, preparatory, etc. No credit will be awarded until an official transcript showing the course work to be transferred is on file.
in The Graduate College. The student may also be requested to provide a catalog from the transferring university that gives course descriptions for any transfer work requested. Students admitted on “Conditional Admission” or students on “Probation/Suspension” will not receive credit for transfer work taken under the aforementioned status.

Transcripts for Transfer Work
Texas State transcripts will separate transfer course work from Texas State course work. On the transcript, transfer work will be listed first, followed by Texas State course work. In each section, course work will be listed chronologically. The transcript will show the number of hours transferred, Texas State hours attempted, Texas State hours passed, Texas State grade points, and Texas State GPA.

Courses taken at other institutions will not be included in the GPA at Texas State. The Texas State GPA will be the only GPA calculated toward graduation.

Background Course Work
Courses taken at another institution to fulfill background requirements at Texas State will be accepted only if such courses are at the same level as those specified on the official degree audit.

Distance and Extended Learning
Continuing Education Study
With a wide range of learning opportunities, the Office of Continuing Education offers programs that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs go to http://www.txstate.edu/continuinged/.

Extended and Distance Learning
The university offers many courses and programs via distance learning and at the San Marcos campus and at extended hours on evenings and weekends.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos campus.

For F-1 international students, no more than the equivalent of one class or three credits per term may be counted toward the full course of study requirement if the class is taken online or through distance education and does not require the student’s physical attendance for classes, examination, or other purposes integral to completion of the class.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more information on extended and distance learning at Texas State, visit http://www.distancelearning.txstate.edu.

Correspondence Study
When factors such as family, jobs, business travel, etc. compete for time, and students find that it is difficult to schedule their on-campus classes, correspondence study offers a solution. Courses are offered through various disciplines including art, humanities, health-related fields, mathematics, psychology, modern languages and sociology. Courses are revised frequently, so students are encouraged to contact the Office of Distance and Extended Learning for current course offerings or visit the office's website.

The office offers graduate and undergraduate courses. It is up to the individual academic departments/graduate schools at a student’s university to determine if these courses may be applied to a graduate degree. Therefore, any student who wishes to apply a graduate-level course towards a degree should determine prior to enrolling if that course will be accepted. Students may enroll in courses at any time of the year and take up to nine months to complete them. Instruction for most courses is online, and all courses offer online assignment submission.

Enrollment in a correspondence course does not constitute acceptance to the university nor to any of its graduate programs. Correspondence course work cannot be used toward a doctoral degree at Texas State. For more information on correspondence studies at Texas State and a current list of course offerings, visit http://www.correspondence.txstate.edu/.

Extension Courses
Texas State’s Office of Distance and Extended Learning also serves those persons who are unable to come to campus and who wish to earn degree credit or to pursue in-service training, as well as those who wish to enroll in college courses not normally offered through the academic departments/schools. Extension courses are offered on campus and at various off-campus locations. The times and locations for such courses depend on student need, faculty availability, and demand. Extension courses are from the regular Texas State curriculum. Registration for an extension class is completed through the Office of Distance and Extended Learning and does not constitute acceptance as a regular student at Texas State.

Degree Credit for Extension Course Work
The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the “Master’s and Doctoral Degree-Seeking Applicants” section and be accepted in a degree program before extension work can receive degree credit. Extension course work cannot be used toward a doctoral degree at Texas State.

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

Extension Transfer Credit
Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on “Conditional Admission” or students on “Probation/Suspension” will not receive credit for transfer work taken under the aforementioned status.

For more information on Extension Studies at Texas State, visit our website at http://www.extension.txstate.edu/.

Academic and Grading Policies
Class Attendance
It is the policy of the university to required regular, punctual attendance at all classes. However, the university recognizes that attendance policies
may vary from department to department and in course to course. The university has no mandatory class attendance requirements except:

1. Each faculty member will inform students of the course attendance policy at the initial class meeting.
2. Students are responsible for understanding the attendance policy for each course in which they enroll and for meeting the attendance requirements.

Religious Holy Days

"Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. In accordance with Texas Education Code Section 51.911, Texas State will allow a student who is absent from classes for the observance of a religious holy day to take an examination or complete an assignment scheduled for that absent day within a reasonable time after the absence if the student notifies the instructor of each class that they would be absent for a religious holy day. The Education Code includes excused absences for travel to and from the religious holy day observance. The student may make up class assignments or examinations without penalty within a reasonable time after the absence. Students may obtain notification forms from the Dean of Students’ Office. The student should personally deliver completed forms to the instructor for each class. The instructor will sign and date the form, thus acknowledging notification. If the student cannot personally deliver the form to an instructor, the student should mail the form to the instructor by certified mail, return receipt requested. A student who is excused under this section shall not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time. Each instructor may establish additional procedures to accommodate the needs of students who are absent from classes to observe a religious holy day. These procedures must not conflict with the state law.

Coordinating Board rules now provide for an appeal of a disagreement between the student and a faculty member over an absence related to a religious holy day. If a student and an instructor disagree about the nature of the absence being for the observance of a religious holy day, or if there is a disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the president or the president’s designee. The president or the president’s designee must take into account the legislative intent of Education Code Section 51.911. The student and instructor shall abide by the decision of the president or the president’s designee. The academic dean of each college serves as the president’s designee to hear requests for decisions on these matters from either the faculty member or the student. Any questions concerning this policy should be directed to the Office of the Dean of Students.

Course Grades

Grades

Texas State grades are assigned as follows “A,” excellent; “B,” good; “C,” passing (not at the doctoral level); “D,” passing (not at the graduate level); “F,” failure; “I,” incomplete; “U,” unearned “F”; and “W,” withdrawn passing. A grade of “PR,” in most instances may be temporary and non-punitive, but may be assigned in selected courses where the required clock hours needed to complete requirements extend beyond the regular term or summer session. A grade of “CR” is assessed when credit only is given for a course, as in the case of the thesis course, after completion of the thesis. For a complete list of grades currently and previously used at Texas State visit the University Registrar’s website at http://www.registrar.txstate.edu/our-services/grades.html

Incomplete Grade (http://www.registrar.txstate.edu/our-services/grades.html)

If any course work is incomplete during any term, the work must be completed by an indicated deadline arranged between the student and the course instructor. The “I” grade may be assigned when, due to unusual circumstances beyond the student’s control, a significant portion of a course, such as a term paper or final examination, has not been completed. An “I” grade from Texas State will not count as hours completed until another grade is substituted for the “I.” If the course work has not been completed in twelve months’ time, the grade will automatically change to “F.”

Withdrawal Grade

A “W” grade is assigned only if a student drops a course by the published deadline. See also “Registration and Course Credit” section under “Withdrawal.”

Change of Grade

An individual course grade may be changed when the involved faculty member certifies to the Office of the University Registrar that an error was made in computing the original grade. The grade change must be approved by the department chair/school director and the appropriate college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair. If no satisfactory conclusion can be reached at this level, the student may appeal to the college dean in which the course is offered, whose decision is final. In accordance with Texas State’s records retention policies, a student appeal for a change of grade must be filed no later than two years after the grade is issued.

Grade Point Average (Four-Point System)

The GPA is the number of grade points earned divided by the number of semester hours attempted. Term grade symbols have the following values:

A = 4 points
B = 3 points
C = 2 points
D = 1 point
U/F = 0 points

Grades are not calculated for “I,” “CR,” “PR,” or “W.”

Doctoral Leave of Absence Policy

To Whom the Policy Applies

Doctoral students who have achieved candidacy, and thus have a continuous enrollment requirement during long (fall and spring) semesters, may take an approved Leave of Absence during graduate study under certain conditions and for certain periods of time. A Leave of Absence must be approved by both the student’s graduate advisor and the dean of The Graduate College. A Leave of Absence cannot be approved retroactively for a previous semester and must be submitted no later than the 12th class day of the semester for which the leave is being requested.
Pre-candidacy doctoral students and master’s students are not required to complete Leave of Absence paperwork if stopping out; however, it is recommended that they do so as the process provides a vehicle for more easily resuming their studies.

Purpose and Limitations
Students may need to discontinue their studies ("stop out") for a short period of time for reasons of personal or family exigency. Students who do not receive an approved Leave of Absence may be denied readmission to their program when attempting to reenter the program. Students who do not receive an approved Leave of Absence but are still readmitted may experience delays in registration and/or face additional fees. An approved Leave of Absence preserves the student’s status in their degree program. Leaves of Absence may not be granted for the student in order to avoid exceeding the state doctoral hour limit, to avoid paying tuition, to avoid the regulation on continuous enrollment of doctoral students, or to avoid the full-time requirement for international students.

Access to University Resources During a Leave of Absence
Because the Leave of Absence is intended to be taken for reasons of personal or other exigency as opposed to degree progress, there is no support — whether faculty or university resources (library, office space, etc.) — provided to the student during the Leave of Absence period; students must register if making use of university resources or faculty time. A Leave of Absence does not extend a student’s time-to-degree requirement. Discontinuing students for a semester or more, with or without a Leave of Absence, may affect the student’s eligibility for other university areas beyond The Graduate College’s domain (such as financial aid, health insurance, etc.), and the student is responsible for consulting with those offices about the impact of not maintaining enrollment in the degree program.

Length Limitations of a Leave of Absence
A Leave of Absence can be granted for no more than three long semesters (fall and spring) total. The exact length of the Leave must be made explicit in the Leave of Absence request. Rationale for the Leave must be documented by the applicant.

Process for Requesting a Leave of Absence
Doctoral students who have advanced to candidacy must fill out the Doctoral Candidate Leave of Absence form, found here http://www.gradcollege.txstate.edu/docs/doctoral-leave-of-absence.pdf, which will require justification from the appropriate graduate advisor. The form must be submitted to The Graduate College for the dean’s review and approval.

Process for Returning to the University after an Approved Leave of Absence
Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not an approved Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Application form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program through ApplyTexas.

Depending on the length of time the student is away from the university, a new graduate catalog and/or program degree requirements may be in effect. With an approved Leave of Absence, the student may opt to complete their degree under the previous degree requirements or the new requirements with the approval of the graduate advisor; if the student was away from the university for a semester or more without an approved Leave of Absence on file, the student must complete their degree under the new degree requirements.

Leave of Absence Policy: Master’s Degree, Specialist Degree, and Pre-Candidacy Doctoral Students
The university has a continuous enrollment policy for one category of graduate students, namely doctoral students who have achieved candidacy. For other categories of graduate students — pre-candidacy doctoral students, specialist degree students, and master’s degree students — while there is an expectation of enrollment each semester in order to make progress toward the degree, there is no specific continuous enrollment requirement. For that reason, The Graduate College does not require notification if a student decides not to enroll in a given semester. However, students may want to inform their program that they are stopping out for a period of time, and programs may find that information useful in tracking student progress. In those cases, students may complete the Leave of Absence Form for Master’s Degree, Specialist Degree, and Pre-Candidacy Doctoral Students form found here http://www.gradcollege.txstate.edu/docs/leave-of-absence-masters.pdf and provide it to their program. The program should then provide the form to The Graduate College to expedite processing readmit applications.

Process for Returning to the University after a Leave of Absence
Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not a Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Application form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program through ApplyTexas.

Honor Code
As members of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by the principles in this Honor Code. These principles require all members of this community to be conscientious, respectful, and honest.

We are Conscientious
We complete our work on time and make every effort to do it right. We come to class and meetings prepared and are willing to demonstrate it. We hold ourselves to doing what is required, embrace rigor, and shun mediocrity, special requests, and excuses.

We are Respectful
We act civilly toward one another and we cooperate with each other. We will strive to create an environment in which people respect and listen to one another, speaking when appropriate, and permitting other people to participate and express their views.
We are Honest
We do our own work and are honest with one another in all matters. We understand how various acts of dishonesty, like plagiarizing, falsifying data, and giving or receiving assistance to which one is not entitled, conflict as much with academic achievement as with the values of honesty and integrity.

The Pledge for Students
Students at our university recognize that, to ensure honest conduct, more is needed than an expectation of academic honesty, and we therefore adopt the practice of affixing the following pledge of honesty to the work we submit for evaluation:

“I pledge to uphold the principles of honesty and responsibility at our university.”

The Pledge for Faculty and Administration
Faculty at our university recognize that the students have rights when accused of academic dishonesty and will inform the accused of their rights of appeal laid out in the student handbook and inform them of the process that will take place:

“I recognize students’ rights and pledge to uphold the principles of honesty and responsibility at our university.”

Addressing Acts of Dishonesty
Students accused of dishonest conduct may have their cases heard by the faculty member. The student may also appeal the faculty member’s decision to the Honor Code Council. Students and faculty will have the option of having an advocate present to insure their rights. Possible actions that may be taken range from exoneration to expulsion. Information about the Honor Code Council and its policies and procedures may be found at www.txstate.edu/honorcodecouncil.

Academic Information for Graduate Assistants (GA’s)
A prospective graduate/doctoral assistant must be enrolled as a regular, degree-seeking student in The Graduate College. Graduate/doctoral assistants may be employed as teaching assistants, instructional assistants, research assistants, or graduate assistants in either an exempt or non-exempt status from the Fair Labor Standards Act (FLSA). The information below can also be found in UPPS 07.07.06.

Types of Graduate Assistantships
- Graduate Teaching Assistants and Doctoral Teaching Assistants (GTA/DTA) are employed by an academic department, paid from faculty salaries and reported as the “teacher of record” for an organized undergraduate class. Graduate teaching assistants and doctoral teaching assistants receive a faculty contract for a semester or the academic year, are paid on a monthly basis, and are exempt from The Fair Labor Standards Act (FLSA) under the learned professional exemption.
- Graduate Instructional Assistants and Doctoral Instructional Assistants (GIA/DIA) are employed by an academic department, paid from faculty salaries, but are not reported as the “teacher of record.” Graduate instructional assistants and doctoral instructional assistants are responsible for a specific group of students (typically undergraduate students) and assign some portion of these same students’ grades. If graduate students are assigned as instructional assistants in graduate courses, they cannot grade other students’ work nor have access to their grades. In rare circumstances, the dean of The Graduate College will allow an exception for doctoral instructional assistants assigned to master’s level classes, provided there is no conflict of interest. The academic department may pay graduate instructional assistants’ salaries for those assisting in the operation of a lab or an activity or recitation group from course fees collected for this purpose. Graduate instructional assistants and doctoral instructional assistants are appointed for a semester or the academic year, paid on a monthly basis, and are exempt from the FLSA under the learned professional exemption.
- Graduate Research Assistants and Doctoral Research Assistants (GRA/DRA) are employed by a department or university office and may receive pay from grant or university funds. Chapter 10 of the US Department of Labor’s Field Operation Handbook defines research assistants as students “engaged in research in the course of obtaining an advanced degree and the research is performed under the supervision of a member of the faculty in a research environment provided by the institution under a grant or contract.” If employed on a grant, the work performed must directly relate to the objectives of the grant. Graduate research assistants and doctoral research assistants can be appointed for a semester, the academic year, or the duration of a research project or any portion thereof, and paid on a monthly basis. They are exempt from the FLSA under the graduate research exemption, as provided in the June 28, 1994 DOL opinion letter #1263.
- Graduate Assistants and Doctoral Assistants (GA/DA) are employed by a department or university office and may receive pay from grant or university funds. Responsibilities may include research (not under the supervision of a faculty member), technical assistance, and institutional support. To avoid conflicts of interests, graduate and doctoral assistants cannot have access to records of graduate students of their degree-granting department. Graduate assistants and doctoral assistants who have access to records must be Family Educational Rights and Privacy Act (FERPA) trained and sign a confidentiality agreement. Within this role, there are two types of categories:
  - Exempt - A graduate/doctoral assistant is considered exempt if the job is not subject to the minimum wage and overtime provisions of the Fair Labor Standards Act. The Human Resource Office is responsible for determining the exemption/non-exemption status of a position. These assistants are required to record working times on an exception basis and are not eligible for paid leave, including holidays.
  - Non-Exempt - A graduate/doctoral assistant is non-exempt if the job is subject to the minimum wage and overtime provisions of the Fair Labor Standards Act. The Human Resource Office is responsible for determining whether students need to record working times on an exception basis and are not eligible for paid leave including holidays. Non-exempt students who work over 40 hours in a week will be compensated at time and one-half. Graduate assistants cannot hold an exempt and non-exempt position concurrently.

Academic Expectations
All assistants must maintain a minimum 3.0 Texas State GPA in course work leading toward completion of a graduate degree.
**Course Load**

The minimum course load required during a fall/spring term of employment is nine graduate semester hours. Students who enrolled in nine graduate semester hours during the prior spring and fall semesters (or with an approved exception on file) are not required to enroll during the summer; otherwise, enrollment in three graduate hours is required for the summer term. Assistants taking more than 12 graduate semester hours during the fall/spring terms must have approval from the dean of The Graduate College. Similarly, assistants taking more than six graduate semester hours per summer session must have approval from the dean of The Graduate College.

**Required Teaching Assistantship Courses**

As a condition of employment, all GTAs, DTA, GIAs, and DIAs must complete a total of three hours of professional development course work. The course titles for the required in-service teaching courses vary by department. Some departments offer one three-hour course; some departments offer a two-hour and one-hour course for a combination of three hours, and other departments offer a one-hour course to be taken three times. Assistants enroll in the course offered by the department in which they are employed during their first term of employment and continue to enroll in subsequent terms until the three-hour requirement is met, as applicable. **Students may not enroll in this course work beyond the required three hours.** Up to a total of three semester hours may be used with other graduate courses to satisfy the minimum nine semester hours of enrollment required as a condition of employment. The University administration will cover the fees and tuition for the required teaching assistantship course (up to a total of three semester credit hours only).

**Allowable Work Hours**

During the fall and spring terms, assistants may work up to 50% (20 hours per week) full time equivalent (FTE). An exception request with justification from the graduate advisor or department chair approved by the dean of The Graduate College must be on file with The Graduate College for employment requested over 50% FTE. Only under exceptional circumstances may the dean of The Graduate College approve up to a maximum of 75% FTE (30 hours per week) for non-international students. The graduate dean may approve up to a maximum of 75% FTE (30 hours per week) during the fall and spring terms for non-international students. International student appointments may not exceed a combined total of 50% FTE. International graduate/doctoral assistants cannot be employed more than 50% FTE during the fall and spring terms.

**Teaching Load for Graduate/Doctoral Teaching Assistants**

The usual semester hour teaching load during the fall or spring term is six semester hours or two classes. The usual semester hour teaching load during a six-week or eight-week summer session is one course (up to a maximum of four hours). A twelve-week summer session carries a normal teaching load of six hours. The dean of The Graduate College must approve any exceptions to these teaching loads.

These policies are designed to protect the graduate/doctoral assistant from bearing an unfair employment and course load, which could impede the timely completion of the degree. Refer to UPPS 07.07.06 (http://www.txstate.edu/effective/UPPS/UPPS-07-07-06.html), Salaried Graduate Assistant Employment Procedures, for more detailed information regarding salaried graduate student employment procedures.

**Assistantship Orientation**

Most departments conduct one or more orientation sessions for new assistants. Newly-hired assistants should inquire about orientation attendance requirements with the department or university office at the time they apply for employment.

**Academic Eligibility Requirements**

To see a detailed list of academic and enrollment requirements needed to be eligible for a specific assistantship position, please view The Graduate College’s guide.

**How to Apply for a Graduate Assistantship**

Applications for assistantships should be made directly to the department or university office following their application procedure. It is also possible to apply for certain assistantship positions online through Career Services at Jobs4Cats (http://www.careerservices.txstate.edu/resources/jobs4cats.html).

**Selection and Appointment**

Offers of assistantships are contingent on available funds and admission of the applicant to a degree-seeking graduate program. Graduate assistantship appointments range from a four and one half month period during a summer term to a nine or twelve-month period during the fall or spring term. The term of an appointment for a Research Assistant may be based on the period of available grant funding. Renewal is at the discretion of the department or university office for which the student is employed. In all cases, the account manager or the manager’s designee will decide who is hired in accordance with the qualifications and standards required for the position.

**Supervision and Evaluation**

Teaching assistants are the “teacher of record” for the course(s) assigned; however they are under the direct supervision of a faculty member experienced in the teaching discipline. Instructional assistants are supervised by the Instructor of Record or Laboratory Coordinator of the courses assigned. Research assistants are usually supervised by the faculty member or office supervisor with whom they work. All assistantship positions undergo regular evaluation as required by the department in which they are employed.

**Salaries and Benefits**

Assistants are paid in accordance with the University Pay Plan salary schedule which can be viewed at http://www.hr.txstate.edu/univpayplan/student.html.

**Eligibility for In-state Tuition**

Certain assistantship types may qualify for tuition waivers through the office of Student Business Services. For more details, please refer to the Tuition Waivers and Exceptions list here: http://www.sbs.txstate.edu/students/waivers-exemptions.html.

**Health Insurance**

Assistants, employed at least half-time (50% FTE) for a minimum period of four and a half consecutive months, are eligible for employer group insurance plans administered by the Human Resources Benefit Office. Assistants may choose between the Student Insurance Plan administered by the Student Health Center and the Employer Group Insurance Program administered by the Human Resources Office. Also, some assistants may already be covered by insurance outside the university and, therefore, may choose not to enroll in a health insurance option offered by Texas State. Assistants should refer to the comparison

---

Information sourced from: Texas State University
summary on the Human Resources Office web site in order to make an educated decision.

Non-Discrimination

No person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under, any program or activity sponsored or conducted by Texas State University on any basis prohibited by applicable law, including race, color, age, national origin, religion, gender, sexual orientation, or disability.

Probation and Suspension

A graduate or post-graduate student as defined in this catalog is required to maintain a 3.0 cumulative grade-point average (GPA) for all Texas State University 5000-, 6000-, and 7000-level courses (excluding required leveling courses) listed on a student’s degree audit for a graduate degree. Cumulative GPA’s are computed at the end of the fall term, the spring term, and the summer.

If a graduate student’s cumulative GPA falls below 3.0 during any term of enrollment at Texas State, the student will be placed on academic probation. In the next term of enrollment, the student must raise his or her cumulative graduate GPA to 3.0 or above or be suspended from further graduate study at Texas State. When the student has achieved a cumulative GPA of at least 3.0 at the end of the term of probation, the student will be removed from probation status.

Readmission

A student on suspension may petition the graduate dean for permission to re-enroll in The Graduate College. This written appeal should include additional supporting documentation. The appeal will be reviewed by the graduate advisor and subsequently by the dean of The Graduate College. Each readmission decision is made on an individual basis and the dean of The Graduate College’s decision is final. Typically a student would be reinstated six months after suspension, but, in some cases, reinstatement is permissible prior to the sixth month period. If a student is readmitted after being suspended, the student must maintain a 3.0 cumulative GPA or be suspended again. Individual graduate programs may also impose additional cumulative GPA or course restrictions for their students.

Change of Major

Graduate students on probation may not change programs or admission status without a recommendation and special request from the prospective department. The dean of The Graduate College will review the request when making the final decision. If a suspended student wants to pursue a different program, the student must petition the dean of The Graduate College for permission. The written appeal should include a justification. If the dean of The Graduate College grants permission to a student to pursue a different program, the student must submit an application for admission and comply with instructions as identified earlier under the degree-seeking admission requirements section of the catalog. This procedure must be completed in ample time to meet the admission deadlines. Acceptance in one program does not guarantee acceptance in another program.

Financial Aid

If a student is receiving financial aid, the student must also meet the satisfactory academic progress requirements for financial aid. See the Financial Aid section under General Information for further details.

Degree Information

Degree Audit

On the admission application, a student must identify the following choices: major, minor, cognate, no minor option, area of concentration, degree type (M.A., M.Ed., M.S., Ph.D., etc.), and, for the Master’s degree, thesis or non-thesis track. After being admitted to a program, the student may access a degree audit from Texas State Self-Service (CatsWeb) using DegreeWorks software. The degree audit will guide the student in selecting courses for registration each term. The student should meet with his or her graduate advisor during the first term of admission to discuss options and review the degree program. Requests for changes to a student’s degree audit must be submitted by the student’s advisor to the dean of The Graduate College for approval.

Because graduate degree programs are individualized according to degree type and student goals, a student’s particular degree program may exceed the number of hours identified for the program in this catalog.

Students receiving Veterans Administration educational assistance must provide the Texas State Office of Veteran Affairs with a copy of the graduate degree audit.

Background/Leveling Course Requirements

Generally, background requirements are placed on the degree audit when a student is deficient in certain coursework. Students should refer to the appropriate departmental pages in this catalog for specific information about background/leveling requirements or contact the graduate advisor for their program of study.

Coursework identified on a student’s official degree audit as background/ leveling is not used in the computation of the graduate GPA. However, this coursework is computed in the overall GPA of the Texas State transcript for students graduating prior to fall 2011. See the “Grade-Point Requirements for Graduation” section. Any coursework required for background/leveling is not awarded graduate degree credit.

Graduate advisors may stipulate that one undergraduate course be taken as a background requirement. All other background course deficiencies must be satisfied by the student enrolling in graduate-level leveling courses.

Degree Time Limit

A program leading to a master’s degree must be completed within six years from the date of a student’s initial enrollment in graduate courses used toward the degree. No credit will be applied toward the master’s degree for work completed more than six years before the date on which a student’s degree is to be conferred. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extension must be submitted to a student’s graduate advisor, who in turn submits a recommendation to the dean of The Graduate College for final approval.

A program leading to a Ph.D. or Ed.D. degree must be completed within ten years from the date of a student’s initial enrollment in graduate courses used toward the degree. No credit will be applied toward the doctoral degree for coursework completed more than ten years before the date on which a student’s degree is to be conferred. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests
for time extension must be submitted to a student’s doctoral program director, who in turn submits a recommendation to the dean of The Graduate College for final approval. Doctoral students should refer to the appropriate departmental section of this catalog for specific time limit requirements regarding advancement to candidacy and dissertation completion.

99 Hour Rule
In accordance with Texas Education Code, Section 54.066, the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99. Courses taken by a doctoral student at the master’s or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor’s degree, the count begins after 30 hours of graduate coursework. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as graduate assistants. Students should contact their doctoral program directors regarding the appeal process.

Catalog
Students completing master’s programs within a six-year time limit may graduate under the catalog in effect when they began the graduate program. Students completing doctoral programs within a ten-year time limit may graduate under the catalog in effect when they began the graduate program. In certain programs, additional hours may be added to the degree for accreditation purposes. Should a program change occur, a student must submit a written request to The Graduate College to graduate under the new program requirements. A student who has questions should contact either The Graduate College at 512-245-2581 or the graduate advisor.

General Graduation Requirements
Applying for Graduation and Participation in Commencement
In order to graduate and/or participate in commencement activities, students must apply for graduation during the semester after which they plan to graduate. It is the responsibility of the student to ensure completion of all degree requirements as listed on the degree audit and required by the department. It is also the student’s responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates and instructions outlining how to apply for graduation, are posted on The Graduate College website each term and communicated via the GradBulletin and social media. Late applications will not be accepted. For further information, contact The Graduate College at 512-245-2581 or visit our website (http://www.gradcollege.txstate.edu/students/graduation.html).

Participation in Commencement
Participation in Commencement is optional and not a degree requirement. Students normally participate in the commencement ceremony of their academic college at the end of the semester in which they graduate. With approval from their graduate advisor, a student can petition to participate in the commencement activities early if they have one degree requirement left. A student who has applied to graduate can petition with advisor approval to defer participation in the commencement activities for one semester if there are extenuating circumstances (convenience is not an acceptable reason).

Letter of Completion
If a student fails to apply for graduation by the published deadline date, a letter of completion may be requested. A student must submit a new graduation application by the published deadline on the University Academic Calendar, and the student’s diploma will be mailed the following term.

Reapplication for the Degree
If students fail to complete degree requirements in time for their planned graduation, they should notify The Graduate College. The student must then reapply for the next (or later) graduation within the period announced in the University Academic Calendar for degree application.

Comprehensive Examination
All candidates for graduate degrees must pass one or more comprehensive examinations, either written, oral, or both, covering at least the field of concentration and the thesis or dissertation if one is written. Students seeking more than one degree must take a comprehensive examination for each degree major. The examination for a master’s degree may not be taken until the student has completed at least 18 semester hours of graduate degree credit and may not be taken before the final term if the student has a grade deficiency. Master’s degree students may take the comprehensive exam without being enrolled in course work. However, F-1 non-immigrant international students must contact the International Office at 512-245-7966 to verify that they are in lawful F-1 status, especially if the comprehensive examination is the final requirement remaining.

Arrangements for the examination may be made with the student’s graduate advisor or the department chair. The Master’s Comprehensive Examination form or the Dissertation Defense Report form must be filed in The Graduate College at least ten days before the commencement at which the degree is to be conferred. The department is responsible for submitting the report to The Graduate College.

GPA Requirements for Graduation
To be eligible for graduation, a student must have a GPA of at least 3.0 for each major or minor/cognate listed on the degree audit. Some degree programs may call for higher minimum requirements. A final course grade of “C” or higher is required for any graduate course that could be applied towards a graduate degree at Texas State. In addition, no grade earned below “B” on any graduate course may apply toward a doctoral degree at Texas State.

Background/Leveling Work
Background/leveling work is not computed in the graduation GPA requirement, nor is graduate-degree credit granted for background work for the degree to be earned.

Incomplete Grades
Incomplete grades should be cleared through the University Registrar’s Office at least ten days before the commencement for which the degree is to be conferred.
Hours Requirements
Graduate degree programs range from 30-99 hours of coursework. Most master's degree programs require a minimum of 36 semester credit hours with a maximum of 80. Students obtaining certification may be required to complete additional hours.

Doctoral students should refer to the appropriate departmental section of this catalog for specific credit hours to satisfy degree requirements.

Residency Requirement
Graduate students must satisfy a residency requirement defined as one third of their graduate credit hours (as part of the required hours of coursework) taken in residence at Texas State.

Recommendation for the Degree
The dean of The Graduate College certifies candidates for graduation after the completion of all requirements for the appropriate graduate degree and with the approval of the departments concerned. Degrees are conferred publicly at the close of the fall term, the spring term, and the second summer session.

Thesis Requirements for a Master's Degree
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members' signatures, the graduate advisor's signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under "Current Students." The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for
publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

**Dissertation Requirements for Doctoral Degrees**

The dissertation must demonstrate the student’s capability for original scholarly contribution to the field of study. Preparation of the dissertation must conform to the [Graduate College Guide to Preparing and Submitting a Thesis or Dissertation](https://www.gradcollege.txstate.edu/forms.html). All forms referenced in this section can be found on The Graduate College website.

**Dissertation Committee**

The dissertation committee must be composed of approved doctoral graduate faculty members. The minimum number of committee members varies by doctoral program. The student should consult with the doctoral program director regarding committee composition. To form the dissertation committee, the Dissertation Committee Request form must be completed and signed by the student, the committee members, the committee chair, the doctoral program director, and the department chair and then forwarded to the dean of The Graduate College for approval and signature.

**Dissertation Proposal and Defense**

The student must submit the dissertation proposal and an official Dissertation Proposal and Proposal Defense Form (http://www.gradcollege.txstate.edu/forms.html) (Form D) to his or her dissertation committee. If the dissertation research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the dissertation research involves vertebrate animals, the Dissertation Proposal and Proposal Defense Form (Form D) must include the Texas State IACUC approval code. Each Ph.D./Ed.D. program prepares its own procedures for the dissertation proposal defense. The procedures may be obtained from the doctoral program director. Following the dissertation proposal defense, members of the dissertation committee, the doctoral program director and the department chair sign the Dissertation Proposal and Proposal Defense Form (Form D). The signed form and one copy of the proposal is then submitted to the dean of The Graduate College for approval before proceeding with research on the dissertation.

**Dissertation Enrollment and Credit**

A Ph.D./Ed.D. student may begin enrolling in a dissertation course during the term following completion of required course work as specified by the Ph.D./Ed.D. program. The number of dissertation credit hours students enroll in must reflect the amount of work being done on the dissertation that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the dissertation process. Once the student begins enrolling in a dissertation course, the student must continue to enroll in a dissertation course each term in which the student receives direct dissertation supervision or guidance and/or in which the student is using university resources until the dissertation has been completed, defended, and submitted to the Texas State Alkek Library. The minimum hours of required dissertation credit varies by Ph.D./Ed.D. program. Dissertation projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the dissertation requires work beyond the minimum number of dissertation credits needed for the degree, the student may enroll in additional dissertation credits at the committee chair’s discretion.

The only grades assigned for dissertation courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a dissertation course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the dissertation is completed. The minimum number of hours of dissertation credit ("CR"), as specified by the Ph.D./Ed.D. program, will be awarded only after The Graduate College has received the Survey of Earned Doctorates, and the dissertation has been approved by The Graduate College and released to Alkek Library.

A student must be registered for a dissertation course during the term or Summer I (during the summer, the dissertation course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Dissertation Deadlines and Approval Process**

Dissertation deadlines are posted on The Graduate College website under "Current Students." The completed dissertation must be submitted to the chair of the dissertation committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the dissertation deadline listed on The Graduate College website:

1. The Dissertation Submission Approval Form (Form G), bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the dissertation in final form, approved by all committee members, uploaded in the on-line Vireo submission
system (Vireo On-line Submission Option). Some doctoral programs may require additional copies; check with the doctoral program director regarding additional program requirements.

After the dean of The Graduate College approves the dissertation, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). Ph.D./Ed.D. students must submit the completed Survey for Earned Doctorates (SED) online by 5pm on the Thursday two weeks prior to commencement. This deadline is also available on The Graduate College website, listed above.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

### Graduate Degrees

**Doctor of Philosophy (Ph.D.)**
**Doctor of Education (Ed.D.)**
**Doctor of Physical Therapy (D.P.T.)**
**Specialist in School Psychology (S.S.P.)**
**Master of Accountancy (M.Acy.)**
**Master of Applied Geography (M.A.Geo.)**
**Master of Arts (M.A.)**
**Master of Arts in Interdisciplinary Studies (M.A.I.S.)**
**Master of Business Administration (M.B.A.)**
**Master of Fine Arts (M.F.A.)**
**Master of Healthcare Administration (M.H.A.)**
**Master of Music (M.M.)**
**Master of Public Administration (M.P.A.)**
**Master of Science (M.S.)**
**Master of Science in Communication Disorders (M.S.C.D.)**
**Master of Science in Criminal Justice (M.S.C.J.)**
**Master of Science in Interdisciplinary Studies (M.S.I.S.)**
**Master of Science in Nursing (M.S.N.)**
**Master of Science in Recreation and Leisure Services (M.S.R.L.S.)**
**Master of Science in Respiratory Care (M.S.R.C.)**
**Master of Social Work (M.S.W.)**

Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and the Texas State University System Board of Regents.

### Graduate Majors

The table below lists all graduate majors and degrees as they appear on a diploma and a transcript. Please note that a number of these programs have additional options or concentrations available. Program hours depend on degree options selected. Consult the program page inside this catalog for more detailed information.

**Texas State Certificate Program**

**Application of Completion**

Students in the certificate programs must maintain a minimum GPA of 3.0 in order to receive a certificate of completion for the program. See the table above for the specific GPA and course grade requirements per certificate program. A final course grade of "C" or higher is required for any graduate course that may be applied towards a graduate certificate at Texas State. All certificate course work must be completed within four years of initial enrollment.

In order to receive the certificate, a student must apply for graduation in the semester in which they plan to complete the certificate. Late applications will not be accepted. It is the responsibility of the student to ensure completion of all degree requirements as listed on the degree audit and required by the department. It is also the student’s responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates, and instructions outlining how to apply for graduation are posted on The Graduate College website each term. Deadlines are also communicated via the GradBulletin. Students who have missed the application deadline will have to apply for graduation during the next semester. For further information regarding the graduation application deadline, contact The Graduate College at 512.245.2581 or visit our website at: http://gradcollege.txstate.edu/students/deadlines.html.

Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and the Texas State University System Board of Regents.

**Tuition and Fees**

The following are general descriptions of the various tuition and fees charged for registration for academic courses. Refer to http://www.sbs.txstate.edu/billing/fee_definitions.html for the most current information on the amounts charged for tuition and fees. Texas State reserves the right to change tuition and fees, in keeping with the actions of the Texas Legislature, the Texas State University System Board of Regents, and university administration.

**Tuition**

Faculty and staff salary increases, new faculty and staff positions, new academic programs and other strategic initiatives, and financial aid.

**Student Service Fee**

Activities that involve or directly benefit students that are separate and apart from regularly scheduled academic functions. Includes student government, student cultural activities, artist & lecture series, University Star, KTSW and student programming (such as Career Services and Counseling Center).

**Student Center Fee**

Operate and maintain Student Center. (Fee is waived for students enrolled exclusively in off-campus courses.)

**Bus Fee**

Operate shuttle buses. (Fee is waived for students enrolled exclusively in off-campus courses.)

**Computer Services Fee**

Classroom technology, academic computer labs, and campus connectivity.

**Student Publications Fee**

Pays for administrative publications. (Does not pay for The University Star or the Pedagogy yearbook.)

**Recreational Sports Fee**

Operate and maintain Rec Sports Center and Campus Rec operations. (Fee is waived for students enrolled exclusively in off-campus programs.)

**ID Card Services Fee**

Supports the operation of the Bobcat Card and the Texas State University One Card System which provides access, identification, and debit card functionality.

**International Education Fee**

Scholarships for students studying abroad

**Medical Service Fee**

Basic operations of the Student Health Center. (Fee is waived for students enrolled exclusively in off-campus programs.)

**Off-Campus Fee**

All students enrolled in classes held at off campus locations are required to pay $30 per hour that will help defray the cost of services provided at these locations.

Note: For students enrolled in both on-and off-campus courses, the off-campus fee is in addition to all other fees.

**Electronic Course Fees**

An electronic course fee of $50 per hour will be charged for courses taught via the internet or hybrid instructional method. Same as off-campus, fees may be waived if enrolled exclusively in electronic course and/or off campus courses.

**McCoy Graduate Program Fee**

A fee of $150 per credit hour enrolled will be charged to students admitted to the McCoy College of Business Administration graduate degree programs. The McCoy Graduate Program fee funds a variety of initiatives to enhance the graduate student educational experience, including a career support professional to work directly with master's students, scholarships for study abroad experiences, graduate research assistant positions, professional development events for students,
including the McCoy Graduate Boot Camp twice each year, and field projects with area businesses.

**Other Special Fees and Charges**
(In addition to registration fees)

**Laundry Service Fees for Physical Education Uniforms**

**Laundry Service Fees**
For individuals who wish to use the university physical education uniforms, fees are as follows:

- **Student**: $7.00 per summer term
- **Faculty/Staff**: $50.00 per twelve months

**Additional Fees and Expenses**

**International Evaluation Fee**
If an applicant is considered for admission on the basis of foreign credentials, the student must submit a non-refundable international evaluation fee of $50, in addition to the $40 application fee, with the application for admission to The Graduate College. No applications will be considered until the necessary fee is paid. International Students who have earned a bachelor's degree from Texas State and do not require the F-1 visa do not have to pay the $50 international evaluation fee.

**International Students Operations Fee**
International students with an immigration status of "F-1" or "J-1" will be charged an international student operations fee in the amount of $60 per long term/$30 per summer session for the maintenance of records, compliance with government regulations, and services for nonimmigrant students.

---

**Mandatory Health Insurance for International Students**
All International students on non-immigrant visas are required by university policy to have health insurance coverage while at Texas State University.

1. International students will be required to purchase the Blue Cross Blue Shield student health insurance plan endorsed by the university.
2. Students will have to purchase the health insurance directly through Academic Health Plans.
3. Students with existing health plans may qualify for a waiver.

Detailed information with instructions on how to purchase the health insurance or submit documents to request a waiver will be sent to international students by the Student Health Center. The health insurance plan must be purchased or a waiver approved prior to the start of classes. Questions about the international student health insurance requirement should be directed to the Student Health Center at 512-245-2161. Please feel free to visit the website at http://www.healthcenter.txstate.edu/international for more information.

**Auditing Fees**
Where auditing of a course is permitted, all fees will be the same as if the course were taken for credit. Senior citizens, 65 or older, may audit courses without payment of a fee if space is available.

**Fee Reduction**

**Qualifications**
A master's or doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054, if the student is registered for thesis or dissertation credit only and provided such credit is the final credit hour requirement for the degree in progress. Only Texas residents can qualify for this fee reduction.

**Procedure**
If a student meets the above qualifications, these are the steps to follow during registration:

1. Register on CatsWeb. Immediately after completing the registration process, contact The Graduate College to request a “Fee Reduction Verification of Enrollment” form.
2. The Graduate College will verify student eligibility to obtain reduction and then forward the Fee Reduction Verification of Enrollment form to the Student Business Services office, which will adjust the bill.
3. The adjustment should be made before paying fees if possible, but not later than the 12th class day (4th class day in summer terms).

**Student Financial Obligations**
Students are expected to meet financial obligations to the university when they are due. Tuition is due on the date given in the academic calendar, and students are not entitled to attend classes unless the tuition bill has been paid in full or in accordance with an approved payment plan. Refer to the Student Business Services website (http://www.sbs.txstate.edu/students/payment-options.html) for detailed information on payment options and requirements of payment plans.
Failure to pay the amount owed in the allotted time, or payments made with checks that are returned to Texas State unpaid by the bank may result in any or all of the following:

1. Dismissal from the university,
2. Withholding of future registration privileges,
3. Withholding of grades or an official transcript,
4. Withholding the conferring of a degree,
5. Bar against re-admission for the student,
6. Warrant hold with the State of Texas,
7. Referral of debt to a collection agency.

**Late Registration Fee**

A late fee will be charged if a student registers during the late registration period.

**Campus Parking/Vehicle Registration**

Every student, faculty, and staff person who operates or parks a vehicle on campus must:

1. register the vehicle with Parking Services;
2. purchase a permit;
3. properly display the permit any time the vehicle is parked on campus; and
4. become familiar with and abide by the Traffic and Parking Rules.

The rules are enforced at all times throughout the year. The purchase of a permit and registration of the vehicle do not guarantee a parking space. Residence hall students must first submit an application to the Parking Services office before bringing a vehicle to campus. Residence hall parking spaces are limited, and it is recommended that on-campus residents not bring a vehicle to campus unless absolutely necessary. Commuters may register their vehicles on-line at http://www.parking.txstate.edu/.

Fees for vehicle registration will be published each year in the official rules and regulations and on the Parking Services website. Additional information concerning the purchase and issuance of parking permits may be obtained by contacting Parking Services at 512.245.2887.

**Payment of Fees**

The university reserves the right to change fees in keeping with the acts of the Texas Legislature and the Board of Regents, Texas State University System.

Registration fees must be paid before classes begin. Payment may be made by check or money order payable to Texas State University. Students can make on-line payments using E-Checks or Credit/Debit Card. Credit/Debit Cards are accepted on-line only. For credit card or electronic check payments log on to http://www.sbs.txstate.edu/.

Please note:

- A 2.75% convenience fee with a minimum $3 per transaction fee is applied to credit/debit card payments. The convenience fee is not collected by the university and is therefore non-refundable.
- Mailed payments must be received — not postmarked — by the due date. Students must make allowances for any postal delays.

- Students must have their NetID and password to access their account.

Tuition/fees and room/board may be paid through the following alternatives:

1. Payment for tuition, fees, room, and board in full. See the Registration Information booklet for specific dates.
2. Enrollment in a payment plan.

During the fall and spring terms, a down payment of 30% is due at the time of enrollment into the payment plan. Two additional installments of the remaining balance will be due on the designated due dates. See the Registration Information booklet for specific dates.

During the summer term, a down payment of 50% is due at the time of enrollment into the payment plan. The payment plan is only available for the first part of term. One additional installment of the remaining balance will be due on the designated due date. See the Registration Information booklet for specific dates.

A STUDENT WHO FAILS TO MAKE FULL PAYMENT OF TUITION AND FEES, INCLUDING ANY INCIDENTAL FEES, BY THE DUE DATE MAY BE PROHIBITED FROM REGISTERING FOR CLASSES UNTIL FULL PAYMENT IS MADE. A STUDENT WHO FAILS TO MAKE PAYMENT PRIOR TO THE END OF THE TERM MAY BE DENIED CREDIT FOR THE WORK DONE THAT TERM.

**Returned Checks**

If a check or EFT is returned unpaid for any reason other than the admitted error of the bank, the student must pay for the returned check with cash, cashier’s check, money order or credit card (MasterCard, VISA, Discover, Diners Club or American Express) immediately. A $30 service fee is assessed for each returned check. Until the check is paid, the student will be on “Cash Only” status. Cash Only status is a denial of check cashing privileges on campus.

Individuals who have three returned checks or EFT within a 12-month period will be placed on Cash Only status.

Stopping payment on a check for fees or allowing the check to be returned unpaid by the bank for any reason does not constitute official withdrawal. Failure to follow procedures for withdrawing from Texas State may result in financial penalties and delays with future enrollment in the university.

**Residency for Tuition Purposes**

The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student or applicant is classified either as a resident of Texas, a non-resident, or a foreign student for tuition purposes. An individual’s residency classification is based on information from his or her admission application. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, it is necessary to submit the Residency Core Questions available from the Office of Undergraduate Admission. Documentation may be requested by the institution in order to resolve issues raised by the information provided in response to the Core Residency Questions.

Chapter 21 of the Texas Higher Education Coordinating Board Rules includes the following provisions covering some of the more common residency situations. They are neither exhaustive nor complete and
Determination of Residence Status

1. The following persons shall be classified as Texas residents and entitled to pay resident tuition:
   a. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic term in which the person enrolls in an institution.
   b. a person who established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
   c. a dependent whose parent established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.

2. The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (a) (2) or (3) of this section:
   a. a Permanent Resident;
   b. a person who is eligible for permanent resident status;
   c. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available on the Coordinating Board website at http://www.thecb.state.tx.us/Rules/
   d. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;
   e. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;
   f. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A (b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; and
   g. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the “registry” program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a) (27) (J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

3. The domicile of a dependent’s parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a) (1) of this section.

4. A domicile in Texas is presumed if, at least 12 months prior to the census date of the term in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

5. The temporary absence of a person or a dependent’s parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person’s ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent’s parent shall provide documentation of the reason for the temporary absence.

6. The temporary presence of a person or a dependent’s parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

Exceptions
A non-resident or foreign student may qualify to pay in-state tuition. Students should direct questions and documentation for these waivers to Student Business Services.

1. The student or student’s spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered to be Texas residents.)
2. The student or student’s spouse or parent is employed at least half-time as a teaching or research assistant in a position related to the assistant’s degree program at a Texas public institution of higher education.
3. The student or student’s spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.
4. The student holds an approved competitive scholarship from Texas State of at least $1000 for the academic year or summer awarded by an official Texas State scholarship committee.
5. The student or student’s spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program. (Note: Go to http://www.thecb.state.tx.us/Rules/ Chapter 21, Sub Chapter X for a list of qualified employers.)
6. The student is a New Mexico resident who resides in a county bordering Texas.
7. The student is a Louisiana resident who resides in a parish bordering Texas.
8. The student is a resident of Mexico who has demonstrated a financial need as determined by the financial aid office.

Refund of Fees
Refer to the ”Refund Information” section of the Student Business Services (SBS) website for detailed information of the university’s refund policy: http://www.sbs.txstate.edu/students/refunds.

- Withdrawal – Dropping all classes. Students must do this through the Office of the University Registrar.
- Dropping a class – Removing one or more classes from the student’s schedule while remaining enrolled in at least one course.
College of Applied Arts

Assistant Dean
Donna Vandiver, Ph.D.

Department Chairs/School Directors
Agriculture—Madan M. Dey, Ph.D.
Criminal Justice—Christine Sellers, Ph.D.
Family and Consumer Sciences—Sylvia Crixell, Ph.D., Interim
Military Science—Lt. Col. Jose A. Garcia, M.A.
Occupational, Workforce, and Leadership Studies—Mary Jo Biggs, Ph.D.
Social Work—Jose E. Coll, Ph.D.

The College of Applied Arts’ mission is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

Department of Agriculture

Agriculture Building Room 206
T. 512.245.2130 F. 512.245.3320
http://www.ag.txstate.edu/

The Department of Agriculture at Texas State prepares students to work as professionals in the agriculture industry, in leadership and management positions, and in educational settings such as community colleges or public schools. The department offers an emphasis on teaching development with research possibilities. The campus is located near the Freeman Center, a 3,500-acre, university-operated teaching and research ranch that provides a unique learning environment. Agricultural education has a long history at this university. When Southwest Texas State Normal School (now Texas State University) was created in 1899, it was charged with the responsibility of teaching agriculture to teachers who were training to work in rural schools. Today, agricultural education students enjoy a unique education experience with practical, hands-on classes combined with valuable educational insight. A variety of courses are offered such as Research Methods, Adult Education, Curriculum Development, Philosophy of Agricultural Education, and Methods of Technological Change, all of which help build a strong foundation to a successful career in agricultural education.

Master of Education (M.Ed.) Major in Agricultural Education (Non-thesis Option)

Major Program

The Master of Education (M.Ed.) degree with a major in Agricultural Education offered through the department prepares students to work as professionals in the agriculture industry and in positions of leadership and management in secondary schools and adult education.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

• completed online ApplyTexas application
• $40 nonrefundable application fee
• $50 nonrefundable international evaluation fee (if applicable)
• baccalaureate degree in agriculture or a closely related field from a regionally accredited university
• official transcripts required from each institution where course credit was granted
• minimum 2.75 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)*
• official GRE scores not required*
• three letters of recommendation with at least two coming from academia

TOEFL or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

• official TOEFL iBT scores required with a 78 overall
• official IELTS (academic) scores required with a 6.5 overall and
  • minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Additional Information

If your last-60-hours GPA falls between 2.5-2.75, please submit the following:

• official GRE scores with a preferred minimum of 293 (verbal and quantitative sections combined)

Degree Requirements

The Master of Education (M.Ed.) degree with a major in Agricultural Education requires 36 semester credit hours. The major and supportive courses are to be taken with the advice and consent of the student's
advisory committee, which consists of three or more faculty selected with the help of the graduate advisor.

Minor in Integrated Agriculture

Choose 15 hours of advisor-approved courses

Total Hours 36

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Agriculture: AG (p. 699), AGED (p. 699)

Courses Offered

Agriculture (AG)

AG 5360. Advancements in Animal Science.
Survey of the current knowledge and concepts in animal production including economic considerations and current production problems in breeding and feeding livestock.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is an advanced study of the utilization and requirements of minerals and vitamins in farm and ranch animals. It emphasizes ruminant and non-ruminant mineral and vitamin metabolism and utilization. The utilization of specific minerals and vitamins by different species will be used to explain and predict subsequent performance.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5370. Special Problems in Technical Agriculture.
Special problems will be selected to meet the needs of the individual student. May be repeated (once) for additional credit when the problem differs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5426. Soil Health and Development.
This course focuses on the fundamental topics of soil health and development. These fundamentals include pedogenesis, mineral composition, tillage practices, soil ecosystem and sustainability, soil biology and soil physics.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

Agricultural Education (AGED)

AGED 5101. Instructional Skill Development.
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Agricultural Education. Topics covered are essential teaching strategies, techniques, evaluation design, ethical classroom behavior, and effective instructional motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

AGED 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AGED 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AGED 5314. Special Problems in Agricultural Education.
The student is given the opportunity to work on problems of special interest and need in the discipline of agricultural education. May be repeated (once) for additional credit when the problem differs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5318. Administration and Supervision of Vocational Education.
The administration of comprehensive vocational education programs with emphasis on the operation and implementation of programs governed by state and national laws.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5319. Principles and Methods of Adult Education.
The rationale, planning, implementing, conducting, and evaluation of adult education programs in formal and non-formal settings will be discussed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
AGED 5320. History and Philosophy of Agricultural Education.
This course covers the history, basic principles, and philosophy of different programs of agricultural education existing today.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5321. Methods of Technological Change.
The dynamics of cultural change as theoretical framework for planned technological change, methods of implementing change, the effects of change, and the prediction of change will be discussed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5330. Research Methods in Agricultural Education.
The principles and procedures of using and communicating both quantitative and qualitative research in agricultural education will be addressed. Special emphasis will be given to using appropriate methods to address research problems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5331. Guidance.
Analysis of occupational and vocational opportunities for vocational students; includes work in interpersonal communications as well as in the techniques of individual and group counseling in guidance. Practice in personality and occupational interest testing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5335. Curriculum Development of Vocational Programs.
Principles and practices in developing curricula for different areas of vocational education will be emphasized. The dynamics of cultural and technological changes on methods of planning and implementing vocational curricula as it relates to the educational needs of vocational youth will be stressed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AGED 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Agricultural Education, AGED 5399B.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AGED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Education (M.Ed.) Major in Agricultural Education (Thesis Option)

Major Program
The Master of Education (M.Ed.) degree with a major in Agricultural Education offered through the department prepares students to work as professionals in the agriculture industry and in positions of leadership and management in secondary schools and adult education.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

Thesis

Choose a minimum of 3 hours from the following:

- AGED 5199B Thesis
- AGED 5299B Thesis
- AGED 5399B Thesis
- AGED 5599B Thesis
- AGED 5999B Thesis

Total Hours 36

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members' signatures, the graduate advisor's signature if required by the program and the department chair's signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair's discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under "Current Students." The
completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is insufficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master's level courses in Agriculture: AG (p. 702), AGED (p. 702)

Courses Offered

Agriculture (AG)

AG 5360. Advancements in Animal Science.

School of Criminal Justice

Hines Building Room 108  
Telephone: 512-245-2174 Fax: 512-245-8063  
http://www.cj.txstate.edu/

Located in the Hines Academic Center, the School of Criminal Justice offers master’s- and doctoral-level curricula that address a wide range of social issues and research opportunities.

The School of Criminal Justice is a vibrant department, with approximately 50 master’s students and 40 doctoral students. Twenty-five full-time faculty members are involved in educating students as well as engaging in a wide range of research endeavors. The School of Criminal Justice also administers a number of institutes and centers, such as the Center for Geospatial Intelligence and Investigation and the Advanced Law Enforcement Rapid Response Training (ALERRT).

The goals of the department are two-fold:

1. the preparation of competent and responsible public servants to assume roles in criminal investigation and apprehension, agency administration, prosecution, and correctional services, and  
2. the preparation of graduates with advanced theoretical knowledge and research skills in criminal justice for leadership roles in academic, public policy, and administrative positions.

These goals are pursued in the context of a broad university curriculum that provides a foundation of knowledge necessary to function in a challenging world.

Doctor of Philosophy (Ph.D.)

- Major in Criminal Justice (p. 704)
Master of Science in Criminal Justice (M.S.C.J.)

- Major in Criminal Justice (Non-thesis Option) (p. 711)
- Major in Criminal Justice (Non-thesis with Minor Option) (http://mycatalog.txstate.edu/graduate/applied-arts/criminal-justice/cj-nonthesis-minor-mscj)
- Major in Criminal Justice (Thesis Option) (http://mycatalog.txstate.edu/graduate/applied-arts/criminal-justice/cj-thesis-nominor-mscj)
- Major in Criminal Justice (Thesis with Minor Option) (http://mycatalog.txstate.edu/graduate/applied-arts/criminal-justice/cj-thesis-minor-mscj)

Minor

- Criminal Justice (p. 726)

Certificate

- Intelligence Analysis (p. 726)

Doctor of Philosophy (Ph.D.) Major in Criminal Justice

The School of Criminal Justice at Texas State offers a doctoral program for:

1. criminal justice professionals who seek advanced education and
2. students who will pursue academic appointments at colleges and universities in Texas and around the nation.

Texas State is located in the heart of the central Texas corridor, near 16 state criminal justice offices and 13 Texas counties, including Travis (Austin) and Bexar (San Antonio). The university's geographic proximity to state criminal justice agency headquarters for law enforcement, criminal courts, and corrections, and to managers and executives in these agencies, makes it an ideal location for offering a doctoral-degree program.

The doctoral program is part of a vibrant school, with approximately 1000 bachelor's students and 30 master's students. Twenty-three full-time faculty members are involved in a wide range of research. A list of faculty and their research interests is available at http://www.cj.txstate.edu/people/faculty. The School of Criminal Justice also administers a number of institutes and centers, including the Center for Geospatial Intelligence and Investigation and the Advanced Law Enforcement Rapid Response Training Center (ALERRT).

Courses are offered in the evenings for the convenience of working professionals. Students are classified as either full-time (nine hours per term) or part-time. All students will be given the opportunity to initiate, complete, present, and publish original research. Each student develops an appropriate degree plan to meet their career and academic goals. The degree plan will include a mix of theoretical, analytical, and elective courses that will prepare students to work independently and in multidisciplinary teams.

It is expected that students will pursue their courses and research activities in an efficient and timely manner. If it is determined that a student is not making adequate progress toward completion of the doctoral degree requirements, consultations will be undertaken between the student, the student's dissertation chair (when applicable), the program director, and the School's doctoral executive council to develop a remediation plan, which may include revising a student's program of study or research. Failure to successfully remedy documented deviances will result in termination of the student's enrollment in the doctoral program at the discretion of the doctoral executive council. Students removed from the doctoral program in this manner may appeal to the dean of The Graduate College for reinstatement in the program.

Educational Goal

The central educational goal of the Ph.D. program in criminal justice at Texas State is to prepare doctoral students to assume leadership roles in academic, public policy, and administrative positions within a rapidly changing criminal justice system. The Ph.D. program produces outstanding researchers who are qualified for academic positions and prepares practitioners to conduct research in criminal justice agencies. The school has developed a programmatic perspective that is sensitive to the importance of research skills, balanced with theoretically informed policy analysis, so that students can more effectively address the challenges in criminal justice in Texas and across the nation. Students gain expertise to apply statistically advanced research methodologies to conduct empirical studies in crime, law, public policy, and administration of the criminal justice system.

Other educational goals and objectives are to:

- Identify the theoretical perspectives and foundations of current research in the study of crime, law, and public policy decision-making undertaken by criminal justice agencies to assist law enforcement, court personnel, and corrections staff to plan, develop, and implement timely, efficient, and sound responses to crime.
- Apply precise, empirically validated, and tested research methods to investigate, analyze, and improve theory and policy to provide policy makers with the most current research and applicable technology to address emergent public safety growth areas.
- Communicate effectively to educate and inform professional managers and administrators of criminal justice agencies, their service personnel (e.g., police) and the community at-large about the 'best practices' for addressing the control of crime at the neighborhood, community, state, and national levels.
- Recognize ethical dilemmas and make ethically sound decisions to ensure that recommended criminal justice policy becomes a useful guide, if not benchmark procedure, for executives and heads of criminal justice agencies as they develop their strategic plans to address crime and public safety at the local, state, and national levels.

Apply a broad understanding of the legal and empirical elements of criminal justice administration in leadership positions to encourage current and future working professionals and executives in criminal justice agencies to incorporate more comprehensive training using the 'best practices' in leadership and management theory when developing, planning, and implementing policies that effect their own agencies and the surrounding communities they serve.

Financial Assistance

Assistantships and scholarships are available to qualified applicants. The School of Criminal Justice offers doctoral instructional assistantships and teaching assistantships on a competitive basis to full-time students enrolled in the criminal justice Ph.D. program. An offer of financial support will normally be made at the time that a student is accepted.
into the program. The Graduate College can provide further information regarding scholarships.

**Application Requirements**

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- master’s degree in criminal justice or a related field from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 3.5 GPA in all completed graduate course work
- official GRE scores required with a preferred minimum of 300 (verbal and quantitative sections combined) with no less than 150 in the verbal section and 150 in the quantitative section
- statement of purpose describing the student’s personal history and life goals that are relevant to obtaining a doctoral degree
- three letters of recommendation indicating the student’s skills and capacity to be successful in the Ph.D. program

**TOEFL or IELTS Scores**

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

**Degree Requirements**

The Doctor of Philosophy (Ph.D.) degree with a major in Criminal Justice requires 51 semester credit hours.

All doctoral students are required to enroll in CJ 7309 Proseminar during their second or third year to learn about the criminal justice discipline, teaching, publishing, grants and fellowships, writing dissertations, and post-doctoral employment. Doctoral students selected for teaching assistantships will be required to enroll in CJ 7301 Instructional Assistant Supervision during the first semester they teach.

**Total Hours**

51

**Qualifying Examination**

All students take a qualifying examination one to two weeks after completion of their first year in the program. The qualifying examination
integrates criminological theory, quantitative methods, and regression. The examination is graded by those professors who taught the first-year required courses or those in a pool who have previously taught the courses. One re-examination is offered at midsummer for those who fail. Students who fail the re-examination will be dismissed from the program.

Comprehensive Examination Requirements
All candidates for graduate degrees must pass one or more comprehensive examinations.

Advancement to Candidacy

Application for Advancement to Candidacy
Students can download the “Application for Advancement to Candidacy form” from The Graduate College website. The student should complete and sign the upper portion of the form and return it to the program director. When all requirements for admission to candidacy have been met (completion of course work, a passing grade on the comprehensive examination, approval of dissertation chair and committee, and submission of an approved dissertation proposal), the program director will forward the Application for Advancement to Candidacy form to the dean of The Graduate College for review and approval.

The dean of The Graduate College approves advancement to candidacy once all requirements are met and at the recommendation of the program director.

In addition, before advancement to candidacy, students are required to complete the following:

1. Completion of all courses toward the doctoral degree with a GPA of 3.5 or higher on a 4.0 scale.
2. Passing grade on the comprehensive examination. “Pass” is the only satisfactory grade.
3. The student must select a dissertation chair, and that chair must be approved by the doctoral executive council. The student also must select a dissertation committee comprised of three additional members of the doctoral faculty, one of whom must be an external member from outside the School of Criminal Justice of Texas State University.
4. The student must choose a topic with the approval of the student’s dissertation advisor and committee.
5. The student will submit a title and a written proposal for the dissertation to the student’s dissertation committee and successfully defend the proposal in an oral presentation with the dissertation committee. The proposal will include a statement of the problem to be studied, a discussion of the relevant literature, and the research method of the proposed dissertation topic.
6. The program director will make a recommendation to the graduate dean who makes the final decision on the student’s advancement to candidacy. The Graduate College will notify the student once the decision has been made.

Advancement to Candidacy Time Limit
Full-time, traditional students should be advanced to candidacy within five years of initiating Ph.D. course-work applied toward the degree. Non-traditional, part-time students may request extensions from the Doctoral Executive Council as long as they maintain a GPA of 3.0 and are making consistent progress toward fulfilling their degree requirements. The Doctoral Executive Council will review part-time students’ requests for extensions on an individual, case-by-case basis.

No credit will be applied toward a student’s doctoral degree for coursework completed more than five years before the date on which the student is admitted to candidacy. This time limit applies to course credit earned at Texas State, as well as course credit transferred to Texas State from other accredited institutions.

Grade-Point Requirements for Advancement to Candidacy
A minimum GPA of 3.0 on all course work undertaken as a doctoral student in the criminal justice program is required for admission to candidacy. No grade earned below “B” on any course work may apply toward a Ph.D. degree in criminal justice at Texas State.

Incomplete grades must be cleared through The Graduate College at least ten days before approval for advancement to candidacy will be granted.

Dissertation Proposal
A dissertation proposal prepared by the student and approved by the student’s dissertation chair and a majority of the other members of the dissertation committee is a requirement for Advancement to Candidacy status. The proposal must outline the substance and scope of the dissertation research, present the methodology to be used, and survey the relevant literature. The student’s dissertation chair and other dissertation committee members must indicate approval of the dissertation proposal on the “Dissertation Proposal and Proposal Defense” form. This form can be downloaded from The Graduate College website. A final copy of the dissertation proposal, accompanied by the signed approval form, must be turned in to the program director, who will forward it to the dean of The Graduate College for review and final approval.

Advancement to Candidacy Comprehensive Examination
The comprehensive exam involves completion of an empirical research project (with data analysis) and a single-authored article about it (not to exceed 6,000 words, excluding references) that, in the examination committee’s view, is suitable for publication in a refereed journal. The purpose of the comprehensive exam is to assess a student’s ability to critically assess previous research on a topic, develop a research question on it, and complete independent research to address the question. Students need to disclose to the examining committee if the article originated in a class or if there are other potential conflicts with it.

The examining committee is comprised of a chair and two other members. All must be members of the doctoral faculty, and the chair must be a member of the Core Doctoral Faculty. The chair is chosen by the student, and the other two committee members are chosen at random by the Doctoral Program Director from a list of doctoral faculty members. A form with the committee’s composition must be filed with Doctoral Program Director when the committee is constituted. The committee must be constituted no later than when a student has completed 27 hours of doctoral coursework. The committee must approve the topic for a student’s article, and a written description of the topic will be distributed to all members of the doctoral faculty. The examining committee’s assessment of the student’s article will be based on: (1) the quality of the research question, (2) the appropriateness of the methods and data analysis, (3) the adequacy of the articles connection to previous research, (4) the appropriateness of the interpretations of the data analysis, and (5) the quality of writing. A simple majority vote (2 of 3) is sufficient for deciding a grade. After completing 27 hours
Dissertation Research and Writing

All doctoral students are required to complete a dissertation. The dissertation must present a systematic inquiry into a relevant research question, be informed by prior research, and add to the body of knowledge in the field. In most cases, the research will be quantitative in nature, although qualitative or legal research may be utilized in some cases. It is expected that the dissertation will provide the content for one or more publishable articles in academic journals.

Students are required to complete the following dissertation requirements:

1. The student will complete the dissertation, which must be an original contribution to scholarship and the result of independent research in a significant area of criminal justice. The student is expected to write the dissertation and orally defend it in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee membership. However, at the discretion of the presiding chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation chair and the approval of a majority of the other members of the committee. A written notice of the dissertation committee’s approval will be forwarded to the program director and then to the graduate dean.

2. If the dissertation committee decides not to approve the candidate’s dissertation, the dissertation chair will prepare a written response to the doctoral executive council, accounting for the decision and outlining the steps required for approval. These steps will also be communicated to the candidate.

3. The student will submit the final, approved dissertation to The Graduate College in the prescribed format.

4. The program director will conduct a final review of the coursework and recommendation from the student’s dissertation committee before making a recommendation to the graduate dean that the student be awarded the Ph.D. degree with a major in criminal justice. The graduate dean will certify that the student has met all of the requirements and can be awarded the degree.

Dissertation Enrollment Requirements

After being admitted to candidacy, students must be continuously enrolled for dissertation hours each term until the defense of their dissertation. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the semester in which the degree is to be conferred. Students must complete a minimum of 12 semester hours of dissertation credit.

Dissertation Time Limit

It is expected that the dissertation will, in most cases, be completed in two terms of concentrated effort and in no more than six terms. Students must appeal to the doctoral executive council for an extension beyond six terms. The student must pass an oral defense of their dissertation before final completion of the doctoral program.

Fee Reduction

A master’s or doctoral-degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Committee

The dissertation committee will oversee the research progress of a doctoral student and the writing of the student’s dissertation. The committee will consist of at least four members, including the student’s dissertation chair and three additional members of the doctoral faculty, one of whom must be an external member from outside the School of Criminal Justice of Texas State University. The student’s dissertation chair will be a member of the core doctoral faculty in the School of Criminal Justice. The student, program director, school director, and the dean of The Graduate College will approve the composition of dissertation committee. The student is responsible for obtaining committee members’ signatures on the "Dissertation/Research Advisor Assignment form" and the "Dissertation Committee Request form" which can be downloaded from the Graduate College website.
Dissertation Defense
The dissertation defense may not be scheduled until all other academic and program requirements have been fulfilled. A complete draft of the dissertation must be given to the members of the dissertation committee at least 65 days before the date of commencement during the term in which the student intends to graduate. After committee members have reviewed the draft with the student and provided comments, the student, in consultation with the dissertation chair, will incorporate the recommended changes into a second draft of the dissertation. When each committee member is satisfied that the draft dissertation is defendable, the dissertation defense may be scheduled.

The student is expected to orally defend the dissertation in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee. However, at the discretion of the dissertation chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation chair and the approval of a majority of the other members of the committee. A written notice of the dissertation committee’s approval will be forwarded to the program director, and then to the dean of The Graduate College. Specific information on the examination procedure can be found in the School of Criminal Justice Ph.D. Handbook or obtained from the doctoral director.

Approval and Submission of the Dissertation
Following approval of the dissertation by the members of the dissertation committee, the student must submit one copy of the dissertation and a signed "Thesis/Dissertation Committee Approval form" to the office of The Graduate College for final approval. Specific guidelines for approval and submission of the dissertation can be obtained from The Graduate College.

Doctoral level courses in Criminal Justice: CJ

Courses Offered
Criminal Justice (CJ)
Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CJ 7301. Instructional Assistant Supervision.
This course prepares doctoral students employed as research or teaching assistants to perform effectively in diverse instructional settings. The course provides for regular and planned opportunities for continuing evaluation of students. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Standard Letter

CJ 7309. Proseminar.
This course introduces students to information that is useful to their success as Ph.D. students and after graduation. Topics include the criminal justice discipline, teaching, publishing, grants and fellowships, writing dissertations, and post-doctoral employment. Emphasis is placed on identifying and coordinating opportunities for research and scholarship among faculty and students. Must have completed 12 hours of doctoral credit in Criminal Justice to enroll in this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7310. Philosophy of Law, Justice, and Social Control.
A current, thorough, and comprehensive review of the criminal justice system focused on how the system functions, and its current needs and future trends. Students submit extensive critiques and participate in panel discussions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7311. Advanced Criminological Theory.
An overview of the major criminological paradigms is presented focusing on the causes of crime and deviant behavior. The course includes a discussion of criminological theories from a philosophy of science perspective focusing on such issues as theory construction, theoretical integration, and the formal evaluation of theory and policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7312. Criminal Justice Ethics, Administration, and Public Policy.
This course addresses the role of ethics in criminal justice organizations and policymaking. Topics include the moral philosophy of criminal justice, the role of natural and constitutional law, codes of ethics and ethical review systems, and ethical decision-making by criminal justice professionals with attention to training issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An exploration of how issues related to racial and ethnic minorities and criminal behaviors impact criminal justice reactions. Topics include racial disparities related to law enforcement and sentencing, and policy implications related to policing, probation, pre-sentencing and post-release issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CJ 7314. Policing.
This course examines current problems in American policing and the role of research in their examination and solution. Official crime and victimization statistics and measure of police performance are explained, with a focus on their collection, development, limitations, and utility. Methods and issues in policing research are explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7315. Corrections.
This course examines the history, forms, and functions of correctional institutions, their programs and policies, as well as theories of punishment. Topics include the structure and functions of prisons and jails, community corrections, intermediate sanctions, reentry, supermax prisons, and the death penalty.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A course that demonstrates the practical aspects of conducting criminal justice research that uses quantitative methodologies and design. Topics include the philosophy of science; research ethics; methodological designs in establishing causation; nonexperimental/descriptive research; sampling techniques; secondary data sources and data gathering techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7321. Linear Regression for Criminal Justice Research.
Instruction on the use of advanced linear modeling techniques in criminal justice research is addressed. After completing this course, students should be able to evaluate quantitative research articles in the major criminal justice journals and be prepared to complete a major quantitative research project of their own.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7322. Advanced Research for Planning and Evaluation.
An introduction to evaluation and research design methodologies, assessment techniques including modeling and case studies, agency management issues, and on-going policy implications. Course gives students an understanding of the principles and techniques commonly used to evaluate the effectiveness and efficiency of criminal justice interventions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7323. Applied Statistics and Quantitative Data Analysis.
This is a course in statistics and data analysis for the purposes of original quantitative research. Topics include descriptive statistics, statistical inference for single and multivariable analysis, and principles underlying the techniques. This course makes extensive use of statistics software and data preparation techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7330. Qualitative Research Methods.
A discussion of the methods and techniques used for achieving interpretable qualitative results in social research. Topics covered include ethnography, focus groups, in-depth interviewing and case studies. Students will be trained in inductive reasoning and coordinating qualitative with quantitative methods.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7331. Law and Behavioral Science.
A review of the issues addressed in the application of the behavioral sciences to the criminal law system. Topics include criminal sanctions and diminished responsibility, civil commitment, victimology, psychology in the courtroom, the role of media, drugs, and alcohol to violence, and how the justice system reacts to violent offenders.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7332. Law and Public Policy.
An examination of the intersections between law and public policy, its effect on criminal justice administration, its role in a free society and the function of law as a tool of social change. Topics include affirmative action, race, gender, privacy rights, and the process of criminalization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7333. Legal and Legislative Research.
This course presents the methods of research used in the legal system. Students learn to locate and interpret constitutional, statutory and case law, use secondary sources such as scholarly legal treatises, and apply research techniques using both print and electronic sources.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7334. Organizational Theory.
A critical examination of organizational theories with applications to criminal justice where students analyze the developmental state of organizational theory, including historical derivations and the implications of various theoretical paradigms for understanding the functional quality of criminal justice organizations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7335. Criminal Justice Leadership and Management.
A course focused on identifying problems and solutions in criminal justice management. The case study method and current literature provide a mixture of practical and educational experiences on how leadership styles, human resources, and the organizational environment impact management decisions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course addresses the procedures and techniques used to create social surveys including question formulation, metrics, and question scaling. Students learn how to prepare face-to-face, telephone, and mail surveys, and are trained in sampling procedures related to survey administration.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
A comprehensive study of law, including common, Roman, socialist, and religion-based, including a critical assessment of the major organizational, administrative, and philosophical principles governing the operation of criminal justice systems worldwide, with special attention to international criminal law and human rights.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 7350A. Forecasting, Trend Analysis, and Data Interpretation.
A review of quantitative approaches to public policy analysis, the diverse conceptions of the goals and objectives that should be served by policy, and the appropriate role of the policy analyst. Policy consequences are traced to indirect and subtle incentives and disincentives.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350B. Academic Scholarship and Communication.
A course on conducting academic research, interpreting results and how to prepare manuscripts for publication in refereed journals. Included is a survey of the audiences, topical focus, and submission requirements of the major criminal justice, criminology, and law publications, along with specialized knowledge on achieving success in the scholarship environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350C. Qualitative Data Collection, Coding and Analysis.
This course takes a structured approach to understanding and implementing the various information collection methods used in qualitative research, including formatting the information for coding, coding schemes, and information interpretation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350D. Ethnography of Criminal Justice.
A course on the procedures and techniques required to conduct ethnography, fieldwork, in Criminal Justice. Students examine the culture, subculture, and groups within specific components of the criminal justice system in order to develop a deep ethnographic description. Prerequisite: CJ 7330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350E. Discrete Multivariate Models.
This course focuses on regression models for discrete outcome variables, sometimes called limited or categorical dependent variables. Topics include maximum likelihood estimation, binary and multinomial logistic models and negative binomial models. Prerequisite: CJ 7321 or its equivalent or approval/permission of both the Instructor and the Doctoral Coordinator.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350F. Environmental Criminology.
Crime distributes unevenly in space/time. As such, the course examines such questions as (1) What places are dangerous? (2) Why do we study specific crime types? (3) Where do crime types concentrate? (4) Where do offenders go in their normal activities? (5) What are the temporal patterns for crime? Prerequisite: CJ 7311 or its equivalent or approval/permission of both the Instructor and the Doctoral Coordinator.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350G. Seminar in Macro Criminology.
This course has a macro focus, examining criminological theory and research that takes cities, geographical regions, states, and nations as the units of comparison. The importance and relevance of macro criminology for understanding the causes of crime and key criminal justice issues, such as police resources, are explored in depth. Prerequisite: CJ 7311 or its equivalent or permission of both the Instructor and the Doctoral Coordinator.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350I. Introduction to Structural Equation Modeling.
The course provides an introduction to structural equation modeling, which is sometimes called mean and covariance structure analysis or latent variable analysis. Topics include recursive and non-recursive models, path analysis, measurement models, and factor analysis. Prerequisite: CJ 7321 or its equivalent or approval/permission of both the Instructor and the Doctoral Coordinator.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 7350J. Advanced Methodological Paradigms in Criminal Justice.
This course examines the assumptions, foundations, and implications of the methodological paradigms used in criminal justice research. The dominant paradigms are closely examined and alternatives are explored. Prerequisites: CJ 7311, CJ 7320, CJ 7321.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

This course examines the inputs and outputs of criminal justice programs. It covers forecasting methods using statistical bootstrapping techniques including line fitting methods, moving averages, cohort propagation matrices, and systems simulations. Prerequisites: Graduate statistics and a working knowledge of Excel and SPSS.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
Master of Science in Criminal Justice (M.S.C.J.) Major in Criminal Justice (Non-thesis Option)

The School of Criminal Justice offers a Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice. The curriculum provides for the development of skills in criminal justice program planning, implementation, and evaluation to ensure a meaningful contribution to this important area of community and human services.

Additional Course Requirements

Any student accepted into the M.S.C.J. program may be required to take undergraduate course work in criminal justice as a prerequisite to graduate course work.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree in criminal justice or related field from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- official GRE scores required with a preferred competitive minimum
- TOEFL or IELTS Scores
  - Non-native English speakers who do not qualify for an English proficiency waiver:
    - official TOEFL iBT scores required with a 78 overall
    - official IELTS (academic) scores required with a 6.5 overall and
    - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice requires 36 semester credit hours. Students will be required to complete a professional quality paper. A committee composed of three graduate faculty members must approve this paper.

**Comprehensive Examination Requirements**

All students must pass an oral comprehensive examination. The purpose of this examination is to provide a structured situation in which the candidate can demonstrate proficiency in various areas of study. A student must see the graduate advisor for a detailed description of the comprehensive examination procedures.

Master's level courses in Criminal Justice: CJ

**Courses Offered**

**CJ 5101. Graduate Assistant Supervision.**
Prepares graduate student teaching and instructional assistants to perform effectively in diverse instructional settings and in their assigned instructional support roles. The course provides for regular and planned opportunities for continuing evaluation of instructional and assistive responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

**CJ 5199B. Thesis.**
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

**CJ 5299B. Thesis.**
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

**CJ 5300. Foundation Studies in Criminal Justice.**
This course is designed for students who do not have a sufficient background in the foundations of criminal justice studies. Coursework will vary depending on the student's prior academic history. This course does not earn graduate degree credit. Repeatable with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA Leveling
Grade Mode: Leveling/Assistantships

**CJ 5310. Administration of Justice.**
Introduction to the study of crime; explanations of criminal behavior; typologies of criminal behavior; the criminal justice system; and social reaction to crime and the criminal justice system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5311. Administrative Law in Criminal Justice.**
Legal principles and doctrines applicable to state and federal criminal justice agencies delegated quasi-legislative and quasi-judicial authority by legislatures are studied and evaluated in this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5315. Advanced Research Methods in Criminal Justice.**
The study of scientific research methods as used in the criminal justice system to include a review and critique of research on crime causation, law enforcement, courts, and corrections.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5320. History and Philosophy of Justice.**
An exploration of historical approaches to social control of nonconforming behavior. The principal contributions of architects and theorists of systems of social justice are examined with emphasis on major Western European schools of thought. Special emphasis given to the development of the scientific method and its role in the contemporary system of justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5321. Current Legal Issues in Criminal Justice.**
Case law and legislation, both state and federal, which have contemporary impact on practices and policies of criminal justice agencies will be examined in this course. Topics may vary to include such matters as civil rights liability, substance abuse and the law, juvenile crime, organized crime, tactics of enforcement, unionization, and other legal issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5322. Police in Society.**
This course provides an in-depth assessment of policing and the various types of community crime control. Core topics include the history of police, organizational and individual police discretion, police culture, use of force, minorities and the police, community oriented policing, and police problem-solving.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5323. Special Operation Units.**
A course designed to acquaint students with basic principles of Special Operation Units (SOUs) within law enforcement, including the necessity for such units in the changing nature of policing communities. The principles of crisis management, the development of SOUs, selection/training/operationalizing of personnel and other strategic planning issues are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**CJ 5324. Investigations.**
This course explores issues related to investigations. Topics covered include the history and state of investigations, investigative theory, interviewing, interrogation, polygraph, geographic profiling, serial crimes, and investigative failures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
The study of basic and advanced descriptive and inferential statistics, with an emphasis on applications in the criminal justice system will be taught. Focus will be given to various multivariate statistical procedures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of behavior in complex bureaucratic or administrative organizations with an emphasis on organizational behavior, group processes, and the managerial function. Concepts and practices of managing criminal justice agencies within the United States will be stressed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will develop and apply analytical skills surrounding a wide range of theoretical concepts, assumptions, propositions, and variables aimed at explaining crime-related outcomes. In the process, students will learn how social scientists empirically (i.e., quantitatively and qualitatively) access theory and how theory influences public policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of personnel decisionmaking within the criminal justice agency. Topics emphasized will include recruitment and selection, promotion, training, performance evaluation, and human resource allocation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An in-depth presentation and discussion of vital contemporary issues in criminal justice, including research, process, procedure, and substance. General issues addressed remain constant and specific emphasis will vary depending on changes in contemporary issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5355. Intelligence Gathering and Operational Issues As Applied to Terrorism and Counterterrorism Operation.
This course provides an overview of the importance of intelligence gathering in the global and domestic war of terrorism, and critically examines issues involved with the gathering of intelligence, techniques for the gathering of intelligence, methods of collecting, collating, analyzing and disseminating intelligence, and a review of current terrorist threats.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Student will work directly with a faculty member and develop in-depth knowledge in a specific topic area of Criminal Justice. Repeatable for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Students in the non-thesis option will complete their professional paper while enrolled in this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5380A. Ethics and the Criminal Justice System.
This special topics course will explore ethical issues that are faced by criminal justice professionals, basic ethical systems, and applications to dilemmas of criminal justice professionals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380C. Drugs in Society.
This special topics course will explore issues related to the “War on Drugs.” Topics covered include theories of addiction, legal and philosophical issues of government response to drug use, and treatment strategies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380F. Police Problem-Solving Practicum.
This course applies contemporary police problem-solving tools and techniques (including SARA, COMPSTAT, crime mapping, intelligence led policing and computer enhanced problem solving) to real world problems with practicum problems derived from situations commonly facing police practitioners such as common law enforcement “problems” such as noise abatement, property offenses and traffic violations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380H. Police Problem Solving Methodologies.
This course addresses police problem solving methodologies. The course covers the history, state, and theory of police problem solving. Emphasis is placed on using problem solving methodologies to address real issues facing the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380I. Race, Class, and Crime.
This course addresses issues related to racial/ethnic minorities, socioeconomic status, crime trends, perceptions of crime and criminal behaviors. The social/historical constructions of race and class are covered as well as their intersectionality within the criminal justice system. Topics include racial/ethnic and socioeconomic disparities in offending, victimization, law enforcement and sentencing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
CJ 5380J. Sex Offender and the Criminal Justice System.
This course explores sex offenders and the criminal justice system and
the issues faced by criminal justice professionals. Recent trends in
assessment tools, treatment approaches, and legal responses to sex
offenders are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380L. Geospatial Intelligence and Geographic Profiling.
This course addresses the use of geospatial intelligence and geographic
profiling in the military and intelligence environments. The course covers
the theory, concepts, methods, and analysis of human geographic
information. Emphasis is placed on understanding how geospatial
knowledge can inform decision making and action plans.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380M. Crime Analysis.
This course teaches students step by step how to evaluate and
synthesize local crime data and present it to others. It helps students
identify local crime trends and cycles, develop usable crime maps, and to
think of practical local police responses.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

This course provides structured assistance to students who are preparing
for significant independent research projects (i.e. Thesis, Professional
Paper) by exposing them to the organizational tools, processes and
techniques used by productive scholars. Ideally, students should expect
to complete a viable research prospectus by the end of the semester.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380P. Quantitative Data Analysis.
This course provides an introduction to quantitative data analysis. For the
purposes of research and exploratory data analysis, topics include data
construction and cleaning, variable coding, descriptive and inferential
statistics, summary measures, and visual presentations of data. This
course makes extensive use of statistical software.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CJ 5399A. Thesis.
This course represents a student’s initial thesis enrollment. Credit is
not awarded until student has completed the thesis in Criminal Justice
5399B.
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

This course represents a student’s continuing thesis enrollment. The
student continues to enroll in this course until the thesis is submitted for
binding.
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CJ 5599B. Thesis.
This course represents a student’s continuing thesis enrollment. The
student continues to enroll in this course until the thesis is submitted for
binding.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CJ 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The
student continues to enroll in this course until the thesis is submitted for
binding.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Science in Criminal Justice
(M.S.C.J.) Major in Criminal Justice
(Non-thesis with Minor Option)

The School of Criminal Justice offers a Master of Science in Criminal
Justice (M.S.C.J.) degree with a major in Criminal Justice. The curriculum
provides for the development of skills in criminal justice program
planning, implementation, and evaluation to ensure a meaningful
contribution to this important area of community and human services.

Additional Course Requirements
Any student accepted into the M.S.C.J. program may be required to
take undergraduate course work in criminal justice as a prerequisite to
graduate course work.

Application Requirements
The items listed below are required for admission consideration for
applicable semesters of entry during the 2017-2018 academic year.
Submission instructions, additional details, and changes to admission
requirements for semesters other than the 2017-2018 academic year can
be found on the program’s web page (http://gradcollege.txstate.edu/
programs). International students should review the International
Admission Documents (p. 678) section of the catalog for additional
requirements.

• completed online ApplyTexas application
• $40 nonrefundable application fee
• $50 nonrefundable international evaluation fee (if applicable)
• baccalaureate degree in criminal justice or related field from a
regionally accredited university
• official transcripts required from each four-year institution where
course credit was granted
• minimum 3.0 GPA in your last 60 hours of undergraduate course work
(plus any completed graduate courses)
• official GRE scores required with a preferred competitive minimum
TOEFL or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
- minimum individual module scores of 6.0

This program does **not** offer admission if the scores above are not met.

**Degree Requirements**

The Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice require 36 semester credit hours. Students will be required to complete a professional quality paper. A committee composed of three graduate faculty members must approve this paper.

**Course Requirements**

**Total Hours**

36

**Comprehensive Examination Requirements**

All students must pass an oral comprehensive examination. The purpose of this examination is to provide a structured situation in which the candidate can demonstrate proficiency in various areas of study. A student must see the graduate advisor for a detailed description of the comprehensive examination procedures.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

[Thesis Proposal](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf)

The student must submit an official Thesis Proposal Form and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.
Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txsate.edu) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.

2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Criminal Justice: CJ

Courses Offered

CJ 5101. Graduate Assistant Supervision.

Prepares graduate student teaching and instructional assistants to perform effectively in diverse instructional settings and in their assigned instructional support roles. The course provides for regular and planned opportunities for continuing evaluation of instructional and assistive responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA

Grade Mode: Leveling/Assistantships

CJ 5199B. Thesis.

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

CJ 5299B. Thesis.

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit
This course is designed for students who do not have a sufficient background in the foundations of criminal justice studies. Coursework will vary depending on the student's prior academic history. This course does not earn graduate degree credit. Repeatable with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

CJ 5310. Administration of Justice.
Introduction to the study of crime; explanations of criminal behavior; typologies of criminal behavior; the criminal justice system; and social reaction to crime and the criminal justice system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5311. Administrative Law in Criminal Justice.
Legal principles and doctrines applicable to state and federal criminal justice agencies delegated quasi-legislative and quasi-judicial authority by legislatures are studied and evaluated in this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of scientific research methods as used in the criminal justice system to include a review and critique of research on crime causation, law enforcement, courts, and corrections.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5320. History and Philosophy of Justice.
An exploration of historical approaches to social control of nonconforming behavior. The principal contributions of architects and theorists of systems of social justice are examined with emphasis on major Western European schools of thought. Special emphasis given to the development of the scientific method and its role in the contemporary system of justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Case law and legislation, both state and federal, which have contemporary impact on practices and policies of criminal justice agencies will be examined in this course. Topics may vary to include such matters as civil rights liability, substance abuse and the law, juvenile crime, organized crime, tactics of enforcement, unionization, and other legal issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides an in-depth assessment of policing and the various types of community crime control. Core topics include the history of police, organizational and individual police discretion, police culture, use of force, minorities and the police, community oriented policing, and police problem-solving.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5323. Special Operation Units.
A course designed to acquaint students with basic principles of Special Operation Units (SOUs) within law enforcement, including the necessity for such units in the changing nature of policing communities. The principles of crisis management, the development of SOUs, selection/training/operationalizing of personnel and other strategic planning issues are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5324. Investigations.
This course explores issues related to investigations. Topics covered include the history and state of investigations, investigative theory, interviewing, interrogation, polygraph, geographic profiling, serial crimes, and investigative failures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of basic and advanced descriptive and inferential statistics, with an emphasis on applications in the criminal justice system will be taught. Focus will be given to various multivariate statistical procedures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of behavior in complex bureaucratic or administrative organizations with an emphasis on organizational behavior, group processes, and the managerial function. Concepts and practices of managing criminal justice agencies within the United States will be stressed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will develop and apply analytical skills surrounding a wide range of theoretical concepts, assumptions, propositions, and variables aimed at explaining crime-related outcomes. In the process, students will learn how social scientists empirically (i.e., quantitatively and qualitatively) access theory and how theory influences public policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The study of personnel decisionmaking within the criminal justice agency. Topics emphasized will include recruitment and selection, promotion, training, performance evaluation, and human resource allocation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An in-depth presentation and discussion of vital contemporary issues in criminal justice, including research, process, procedure, and substance. General issues addressed remain constant and specific emphasis will vary depending on changes in contemporary issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CJ 5355. Intelligence Gathering and Operational Issues As Applied to Terrorism and Counterterrorism Operation.
This course provides an overview of the importance of intelligence gathering in the global and domestic war of terrorism, and critically examines issues involved with the gathering of intelligence, techniques for the gathering of intelligence, methods of collecting, collating, analyzing and disseminating intelligence, and a review of current terrorist threats.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Student will work directly with a faculty member and develop in-depth knowledge in a specific topic area of Criminal Justice. Repeatable for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Students in the non-thesis option will complete their professional paper while enrolled in this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CJ 5380A. Ethics and the Criminal Justice System.
This special topics course will explore ethical issues that are faced by criminal justice professionals, basic ethical systems, and applications to dilemmas of criminal justice professionals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380C. Drugs in Society.
This special topics course will explore issues related to the “War on Drugs.” Topics covered include theories of addiction, legal and philosophical issues of government response to drug use, and treatment strategies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380F. Police Problem-Solving Practicum.
This course applies contemporary police problem-solving tools and techniques (including SARA, COMPSTAT, crime mapping, intelligence led policing and computer enhanced problem solving) to real world problems with practicum problems derived from situations commonly facing police practitioners such as common law enforcement “problems” such as noise abatement, property offenses and traffic violations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380H. Police Problem Solving Methodologies.
This course addresses police problem solving methodologies. The course covers the history, state, and theory of police problem solving. Emphasis is placed on using problem solving methodologies to address real issues facing the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380I. Race, Class, and Crime.
This course addresses issues related to racial/ethnic minorities, socioeconomic status, crime trends, perceptions of crime and criminal behaviors. The social/historical constructions of race and class are covered as well as their intersectionality within the criminal justice system. Topics include racial/ethnic and socioeconomic disparities in offending, victimization, law enforcement and sentencing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380J. Sex Offender and the Criminal Justice System.
This course explores sex offenders and the criminal justice system and the issues faced by criminal justice professionals. Recent trends in assessment tools, treatment approaches, and legal responses to sex offenders are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380L. Geospatial Intelligence and Geographic Profiling.
This course addresses the use of geospatial intelligence and geographic profiling in the military and intelligence environments. The course covers the theory, concepts, methods, and analysis of human geographic information. Emphasis is placed on understanding how geospatial knowledge can inform decision making and action plans.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380M. Crime Analysis.
This course teaches students step by step how to evaluate and synthesize local crime data and present it to others. It helps students identify local crime trends and cycles, develop usable crime maps, and to think of practical local police responses.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

This course provides structured assistance to students who are preparing for significant independent research projects (i.e. Thesis, Professional Paper) by exposing them to the organizational tools, processes and techniques used by productive scholars. Ideally, students should expect to complete a viable research prospectus by the end of the semester.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Credit/No Credit

CJ 5380P. Quantitative Data Analysis.
This course provides an introduction to quantitative data analysis. For the purposes of research and exploratory data analysis, topics include data construction and cleaning, variable coding, descriptive and inferential statistics, summary measures, and visual presentations of data. This course makes extensive use of statistical software.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
Master of Science in Criminal Justice (M.S.C.J.) Major in Criminal Justice (Thesis with Minor Option)

The School of Criminal Justice offers a Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice. The curriculum provides for the development of skills in criminal justice program planning, implementation, and evaluation to ensure a meaningful contribution to this important area of community and human services.

Additional Course Requirements

Any student accepted into the M.S.C.J. program may be required to take undergraduate course work in criminal justice as a prerequisite to graduate course work.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree in criminal justice or related field from a regionally accredited university

• official transcripts required from each four-year institution where course credit was granted
• minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
• official GRE scores required with a preferred competitive minimum

TOEFL or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice requires 36 semester credit hours. Students will be required to complete a thesis.

Comprehensive Examination Requirements

All students must pass an oral comprehensive examination. The purpose of this examination is to provide a structured situation in which the candidate can demonstrate proficiency in various areas of study. A student must see the graduate advisor for a detailed description of the comprehensive examination procedures.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must be in conformity with
The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380F. Police Problem-Solving Practicum.
This course applies contemporary police problem-solving tools and techniques (including SARA, COMPSTAT, crime mapping, intelligence led policing and computer enhanced problem solving) to real world problems with practicum problems derived from situations commonly facing police practitioners such as common law enforcement “problems” such as noise abatement, property offenses and traffic violations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380H. Police Problem Solving Methodologies.
This course addresses police problem solving methodologies. The course covers the history, state, and theory of police problem solving. Emphasis is placed on using problem solving methodologies to address real issues facing the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380I. Race, Class, and Crime.
This course addresses issues related to racial/ethnic minorities, socioeconomic status, crime trends, perceptions of crime and criminal behaviors. The social/historical constructions of race and class are covered as well as their intersectionality within the criminal justice system. Topics include racial/ethnic and socioeconomic disparities in offending, victimization, law enforcement and sentencing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380J. Sex Offender and the Criminal Justice System.
This course explores sex offenders and the criminal justice system and the issues faced by criminal justice professionals. Recent trends in assessment tools, treatment approaches, and legal responses to sex offenders are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
CJ 5380L. Geospatial Intelligence and Geographic Profiling.
This course addresses the use of geospatial intelligence and geographic profiling in the military and intelligence environments. The course covers the theory, concepts, methods, and analysis of human geographic information. Emphasis is placed on understanding how geospatial knowledge can inform decision making and action plans.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

CJ 5380M. Crime Analysis.
This course teaches students step by step how to evaluate and synthesize local crime data and present it to others. It helps students identify local crime trends and cycles, develop usable crime maps, and to think of practical local police responses.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

This course provides structured assistance to students who are preparing for significant independent research projects (i.e. Thesis, Professional Paper) by exposing them to the organizational tools, processes and techniques used by productive scholars. Ideally, students should expect to complete a viable research prospectus by the end of the semester.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Credit/No Credit

CJ 5380P. Quantitative Data Analysis.
This course provides an introduction to quantitative data analysis. For the purposes of research and exploratory data analysis, topics include data construction and cleaning, variable coding, descriptive and inferential statistics, summary measures, and visual presentations of data. This course makes extensive use of statistical software.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

CJ 5399A. Thesis.
This course represents a student’s initial thesis enrollment. Credit is not awarded until student has completed the thesis in Criminal Justice 5399B.
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CJ 5599B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CJ 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Minor in Criminal Justice
The graduate minor in Criminal Justice requires 9 semester credit hours.

Required Course
CJ 5310 Administration of Justice 3

Elective
Choose 6 hours of advisor-approved electives 6

Total Hours 9

Certificate in Intelligence Analysis
Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $10 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree in criminal justice, computer science, history, geography or a field related to security and/or intelligence studies from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 2.75 GPA in your last 60 hours of undergraduate course work
- minimum 3.0 GPA in all completed graduate course work if you already hold a master's degree in criminal justice, computer science, history, geography or a field related to security and/or intelligence studies
- GRE scores not required
- resume/CV
- statement of purpose
- two letters of recommendation

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
- minimum individual module scores of 6.0
If you do not meet the scores above, you may qualify for English-based conditional admission if you meet the minimum scores below:

- official TOEFL iBT scores required with a 59 overall
- official IELTS (academic) scores required with a 5.5 overall and
- minimum individual module scores of 5.5

## School of Family and Consumer Sciences

Family and Consumer Sciences Building Room 101
Telephone: 512-245-2155 Fax: 512-245-3829
http://www.fcs.txstate.edu/

### Mission

To educate, inspire and lead to optimize the human condition.

### Vision

From Local to Global Communities, we will empower people throughout the lifespan by embracing diversity and innovation.

### Student Fitness and Performance

#### Program Standards

Students enrolled in all academic programs in the School of Family and Consumer Sciences must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted by others in the profession, and conform to the code of ethics of their respective discipline and the university's honor code. A student's acceptance in any program does not guarantee the student's fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

## Evaluation of Student Fitness and Performance

Members of the faculty, using their professional judgments, evaluate student fitness and performance continuously. The criteria used by the faculty to make such judgments include instructors' observations of student performance in class or in activities related to courses, evaluations of student performance on theses and practica, site supervisors' evaluations of student performance in practica, and the codes of ethics noted above. Students who are not making satisfactory progress or who are not meeting program standards should consider withdrawing from the program.

In this context, the term "satisfactory progress" refers to an academic judgment made regarding the student's fitness and performance. It is a judgment that the student has failed to meet program standards rather than a judgment made on the basis of the student's violation of valid rules of conduct. Disciplinary matters are referred to Student Justice.

### Student Review Process

If a faculty member believes that a student is not making satisfactory progress or meeting program standards, they should discuss the situation with the student. If the faculty member believes that the student's performance cannot improve to acceptable standards, the faculty member should refer the student to the Program Standards Committee of the appropriate department. The Program Standards Committee consists of three faculty members appointed by the department chair in consultation with the department's senior faculty.

The Committee will notify the student of the reasons that they are not making satisfactory progress or meeting program standards and will give the student an opportunity to meet with the Committee to respond and to present information and witnesses to the committee. The Committee will also meet with the faculty member who referred the student to the Committee. After considering the matter, and within ten working days of meeting with the student, the Committee will report to the student and the department chair. The Committee will recommend that the student either be allowed to remain in the program or be removed from the program. The Committee may make other recommendations, such as placing restrictions or conditions on the student's continuing in the program. Within ten working days of receiving the Committee's recommendations, the student will notify the department chair of the student's acceptance or rejection of the Committee's recommendation.

### Evaluation of Student Fitness and Performance

Within ten working days of receiving the Committee's recommendation, the chair will make a decision as to the student's continued presence in the program. Before making the decision, the chair will give the student an opportunity to meet with the chair and to present information on the student's behalf. However, the chair need not meet with the student before making a decision if the chair has given the student a reasonable opportunity to meet, and the student has either failed or refused to meet. The chair will notify the student of the decision.

If the student is dissatisfied with the chair's decision, he or she may appeal to the dean of the appropriate college. However, in order for an appeal to be considered, the student must submit a written notice for an appeal to the chair and to the dean within ten working days of receiving the chair's decision. The dean will consider the matter based on information compiled by the chair and notify the student of his or her decision within ten working days of the dean's receipt of the appeal from the chair. The dean may meet with the student and give the student an opportunity to address the issues. The dean's decision is final.
Master of Science (M.S.)

• Major in Family and Child Studies (Child Life Specialist Concentration with Non-thesis Option) (p. 728)

Total Hours 37

1 The child life internship is a full-time, non-paid internship required by the Child Life Council. It should be completed in the final year of the master’s program. Child life internships are extremely competitive in nature and interns are selected by the individual hospitals. Therefore, internships are not guaranteed. Also, due to the competitive nature of internships, it might be necessary to apply to hospitals outside of the Central Texas area.
Comprehensive Examination Requirements
All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Family and Child Studies: FCD

Courses Offered
Family and Child Development (FCD)
FCD 5100. Introduction to Family and Child Studies.
Focus on gaining information and competencies important to graduate study success. Includes academic expectations for graduate students as well as information related to the Family and Child Studies graduate program. Required for Family and Child Studies majors.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Credit/No Credit

FCD 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5340. Advanced Cultural Diversity of Families.
Survey study of family diversity through selected family science research methods and topics including family structure and function, family life patterns, multicultural groups, agents of enculturation, and family life education. Prerequisite: Graduate Standing. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FCD 5341. Advanced Child Development.
Focus on developmental processes and influences from conception through early childhood period. Includes interactive relationship of biological and environmental factors in total development of the child. Child observations required. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5342. Early Childhood Intervention.
This course provides an interdisciplinary introduction, study, and application of information to the professional discipline of early childhood intervention and the early intervention specialist (EIS). Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5343. Hospitalized Child: Child Life Specialist.
This course enhances students’ ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5344. Infant and Early Childhood Mental Health.
This course provides an interdisciplinary understanding of the social and emotional development of infants and young children within the context of the family. Focus will be on the role of the infant mental health specialist in strengthening the development of young children and the parent-child relationship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5345. Advanced Methods in Child Life.
This course focuses on the applied techniques and methodologies essential to the child life profession. In addition, this course offers guided experience and opportunities for stepping into the child life profession, ongoing career development and self care.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will cover the foundations of family and child studies. Topics will include child development, principles of guidance, and family relationships. Prerequisite: Graduate standing. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

FCD 5347. Grief and Bereavement in Children, Adolescents, and Parents.
This course includes a historical review of theoretical models on grief and bereavement, influences on grief and bereavement responses, and current perspectives on helping the bereaved cope. Implications for child life specialists will be analyzed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
FCD 5348. Pain and Anxiety Management for Children. 
This course provides child life students with theoretical foundations and applied non-pharmacological strategies for assessing children's pain and anxiety and assisting them with alleviation during painful healthcare and other life experiences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Evaluation of research concepts, methods, and strategies in family and child studies. Topics include the nature of scientific research, sampling, measurement, data collection, types of socio-behavioral research, data analysis, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A critical evaluation of theoretical concepts and current research in family and child studies. Emphasis on recent trends in family and child theories.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Seminar to examine current issues in family and child studies. Emphasis on current research, theories, and applications. Also includes orientation to the conceptual and methodological perspectives of multi-disciplinary study in the field of family and child studies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Study of the diversity and effectiveness of family and child services programs at the federal, state, and community levels. Program evaluation strategies and measures, fiscal management, and grant writing will be included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5355. Advanced Independent Study. 
Individual work on problems related to student’s primary area of specialization. Work may consist of empirical research or of critical reviews and integration of existing literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5356. Advanced Program Administration. 
Study of family and child services systems. Management theory and strategies, strategic planning, program development and implementation, personnel management, and public policy are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5357. Comparative Studies in Child Development. 
The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5358. Practicum in Family and Child Studies I. 
Structured practical experience in family and child studies in a private or public setting. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Focus will be on experiential learning. Prerequisite: Departmental approval required; online practicum form required for registration.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5359. Practicum in Family and Child Studies II. 
Continued practical experience in family and child studies at a private or public setting with supervision provided by a member of the graduate faculty and a designated individual at the work site. A research report will be integrated with practical application. Prerequisite: FCD 5358.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399A. Thesis. 
This course represents a student’s initial thesis enrollment. Focus is on identification of thesis topic, review of literature, and research design. No thesis credit is awarded until student has completed the thesis in FCD 5399B.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399B. Thesis. 
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5599B. Thesis. 
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5659. Internship in Child Life. 
Structured hospital experience for individuals who plan to pursue a career in child life. Provides opportunity to work in a hospital setting under the direction of a certified child life specialist. Prerequisite: 30 hours of graduate coursework or approval of graduate advisor; online practicum form required.
6 Credit Hours. 0 Lecture Contact Hours. 32 Lab Contact Hours.
Grade Mode: Credit/No Credit
FCD 5999B. Thesis.  
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.  
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

Master of Science (M.S.) Major in Family and Child Studies (Child Life Specialist Concentration with Thesis Option)

Major Program
The graduate program provides students with the knowledge and expertise to attain professional positions and advancement opportunities in programs serving families and children.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- background course work
- official GRE scores required with a preferred minimum of 285 (verbal and quantitative sections combined) with no less than 145 in the verbal section and 140 in the quantitative section
- resume/CV
- statement of purpose (approximately 500 words)
- three letters of recommendation

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements
The Master of Science (M.S.) degree in Family and Child Studies with a concentration in child life specialist requires 37 semester credit hours, including a thesis. Students who do not have the appropriate background course work may be required to complete leveling courses.

Total Hours 37

The child life internship is a full-time, non-paid internship required by the Child Life Council. It should be completed in the final year of the master’s program. Child life internships are extremely competitive in nature and interns are selected by the individual hospitals. Therefore, internships are not guaranteed. Also, due to the competitive nature of internships, it might be necessary to apply to hospitals outside of the Central Texas area.
Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under "Current Students." The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.
If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Family and Child Studies: FCD

Courses Offered

Family and Child Development (FCD)

FCD 5100. Introduction to Family and Child Studies.
Focus on gaining information and competencies important to graduate study success. Includes academic expectations for graduate students as well as information related to the Family and Child Studies graduate program. Required for Family and Child Studies majors.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

FCD 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5340. Advanced Cultural Diversity of Families.
Survey study of family diversity through selected family science research methods and topics including family structure and function, family life patterns, multicultural groups, agents of enculturation, and family life education. Prerequisite: Graduate Standing. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FCD 5341. Advanced Child Development.
Focus on developmental processes and influences from conception through early childhood period. Includes interactive relationship of biological and environmental factors in total development of the child. Child observations required. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5342. Early Childhood Intervention.
This course provides an interdisciplinary introduction, study, and application of information to the professional discipline of early childhood intervention and the early intervention specialist (EIS). Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5343. Hospitalized Child: Child Life Specialist.
This course enhances students’ ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5344. Infant and Early Childhood Mental Health.
This course provides an interdisciplinary understanding of the social and emotional development of infants and young children within the context of the family. Focus will be on the role of the infant mental health specialist in strengthening the development of young children and the parent-child relationship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5345. Advanced Methods in Child Life.
This course focuses on the applied techniques and methodologies essential to the child life profession. In addition, this course offers guided experience and opportunities for stepping into the child life profession, ongoing career development and self care.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will cover the foundations of family and child studies. Topics will include child development, principles of guidance, and family relationships. Prerequisite: Graduate standing. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5347. Grief and Bereavement in Children, Adolescents, and Parents.
This course includes a historical review of theoretical models on grief and bereavement, influences on grief and bereavement responses, and current perspectives on helping the bereaved cope. Implications for child life specialists will be analyzed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
FCD 5348. Pain and Anxiety Management for Children.
This course provides child life students with theoretical foundations and applied non-pharmacological strategies for assessing children's pain and anxiety and assisting them with alleviation during painful healthcare and other life experiences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Evaluation of research concepts, methods, and strategies in family and child studies. Topics include the nature of scientific research, sampling, measurement, data collection, types of socio-behavioral research, data analysis, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A critical evaluation of theoretical concepts and current research in family and child studies. Emphasis on recent trends in family and child theories.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Seminar to examine current issues in family and child studies. Emphasis on current research, theories, and applications. Also includes orientation to the conceptual and methodological perspectives of multi-disciplinary study in the field of family and child studies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Study of the diversity and effectiveness of family and child services programs at the federal, state, and community levels. Program evaluation strategies and measures, fiscal management, and grant writing will be included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5354. Advanced Independent Study.
Individual work on problems related to student's primary area of specialization. Work may consist of empirical research or of critical reviews and integration of existing literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5355. Advanced Program Administration.
Study of family and child services systems. Management theory and strategies, strategic planning, program development and implementation, personnel management, and public policy are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5356. Advanced Program Administration.
The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5357. Comparative Studies in Child Development.
The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5358. Practicum in Family and Child Studies I.
Structured practical experience in family and child studies in a private or public setting. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Focus will be on experiential learning. Prerequisite: Departmental approval required; online practicum form required for registration.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5359. Practicum in Family and Child Studies II.
Continued practical experience in family and child studies at a private or public setting with supervision provided by a member of the graduate faculty and a designated individual at the work site. A research report will be integrated with practical application. Prerequisite: FCD 5358.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399A. Thesis.
This course represents a student's initial thesis enrollment. Focus is on identification of thesis topic, review of literature, and research design. No thesis credit is awarded until student has completed the thesis in FCD 5399B.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399B. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5599A. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5599B. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5659. Internship in Child Life.
Structured hospital experience for individuals who plan to pursue a career in child life. Provides opportunity to work in a hospital setting under the direction of a certified child life specialist. Prerequisite: 30 hours of graduate coursework or approval of graduate advisor; online practicum form required.
6 Credit Hours. 0 Lecture Contact Hours. 32 Lab Contact Hours.
Grade Mode: Credit/No Credit
FCD 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit

Master of Science (M.S.) Major in Family and Child Studies (Program Administration and Evaluation Concentration with Non-thesis Option)

Major Program
The graduate program provides students with the knowledge and expertise to attain professional positions and advancement opportunities in programs serving families and children.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- background course work
- official GRE scores required with a preferred minimum of 285 (verbal and quantitative sections combined) with no less than 145 in the verbal section and 140 in the quantitative section
- resume/CV
- statement of purpose (approximately 500 words)
- three letters of recommendation

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:
- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements
The Master of Science (M.S.) degree in Family and Consumer Studies with a concentration in program administration and evaluation requires 37 semester credit hours. Students who do not have the appropriate background course work may be required to complete leveling courses.

**Grade Mode:** Standard Letter
FCD 5348. Pain and Anxiety Management for Children.  
This course provides child life students with theoretical foundations and applied non-pharmacological strategies for assessing children's pain and anxiety and assisting them with alleviation during painful healthcare and other life experiences.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

Evaluation of research concepts, methods, and strategies in family and child studies. Topics include the nature of scientific research, sampling, measurement, data collection, types of socio-behavioral research, data analysis, and evaluation of research reports.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

A critical evaluation of theoretical concepts and current research in family and child studies. Emphasis on recent trends in family and child theories.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

Seminar to examine current issues in family and child studies. Emphasis on current research, theories, and applications. Also includes orientation to the conceptual and methodological perspectives of multi-disciplinary study in the field of family and child studies.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

Study of the diversity and effectiveness of family and child services programs at the federal, state, and community levels. Program evaluation strategies and measures, fiscal management, and grant writing will be included.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

FCD 5355. Advanced Independent Study.  
Individual work on problems related to student's primary area of specialization. Work may consist of empirical research or of critical reviews and integration of existing literature. Course may be repeated once for credit when topics vary.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

FCD 5356. Advanced Program Administration.  
Study of family and child services systems. Management theory and strategies, strategic planning, program development and implementation, personnel management, and public policy are emphasized.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

FCD 5357. Comparative Studies in Child Development.  
The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

FCD 5358. Practicum in Family and Child Studies I.  
Structured practical experience in family and child studies in a private or public setting. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Focus will be on experiential learning. Prerequisite: Departmental approval required; online practicum form required for registration.  
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Credit/No Credit

FCD 5359. Practicum in Family and Child Studies II.  
Continued practical experience in family and child studies at a private or public setting with supervision provided by a member of the graduate faculty and a designated individual at the work site. A research report will be integrated with practical application. Prerequisite: FCD 5358.  
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Credit/No Credit

FCD 5399A. Thesis.  
This course represents a student’s initial thesis enrollment. Focus is on identification of thesis topic, review of literature, and research design. No thesis credit is awarded until student has completed the thesis in FCD 5399B.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

FCD 5399B. Thesis.  
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

FCD 5599B. Thesis.  
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.  
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

FCD 5659. Internship in Child Life.  
Structured hospital experience for individuals who plan to pursue a career in child life. Provides opportunity to work in a hospital setting under the direction of a certified child life specialist. Prerequisite: 30 hours of graduate coursework or approval of graduate advisor; online practicum form required.  
6 Credit Hours. 0 Lecture Contact Hours. 32 Lab Contact Hours.  
Grade Mode: Credit/No Credit
FCD 5999B. Thesis.
This course represents a student’s continuing thesis enrollment.
Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding.
Prerequisite: FCE 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Science (M.S.) Major in Family and Child Studies (Program Administration and Evaluation Concentration with Thesis Option)

Major Program
The graduate program provides students with the knowledge and expertise to attain professional positions and advancement opportunities in programs serving families and children.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- background course work
- official GRE scores required with a preferred minimum of 285 (verbal and quantitative sections combined) with no less than 145 in the verbal section and 140 in the quantitative section
- resume/CV
- statement of purpose (approximately 500 words)
- three letters of recommendation

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements
The Master of Science (M.S.) degree in Family and Consumer Studies with a concentration in program administration and evaluation requires 37 semester credit hours, including a thesis. Students who do not have the appropriate background course work may be required to complete leveling courses.

Course Requirements

Required Courses
- FCD 5100 Introduction to Family and Child Studies 1 1
- FCD 5341 Advanced Child Development 3
- FCD 5351 Advanced Theory in Family and Child Studies 3
- FCD 5352 Seminar. Issues in Family and Child Studies 3
- FCD 5353 Program Evaluation in Family and Child Studies 3
- FCD 5356 Advanced Program Administration 3
- FCS 5310 Research Methods in FCS 3
- FCD 5358 Practicum in Family and Child Studies I 3

Electives
Choose 9 hours from the following:

- ADED 5321 Adult Learning and Development 9
- ADED 5344 Multicultural Perspectives in Postsecondary Education and Adult Education
- COUN 5316 Counseling Diverse Populations
- COUN 5340 Loss and Grief Recovery Counseling
- COUN 5368 Developmental Issues in Counseling Children, Adolescents, and Adults
- COUN 5369 Child and Adolescent Counseling Methods
- DE 5324 Teaching Learning Strategies and Critical Thinking
- FCD 5343 Hospitalized Child: Child Life Specialist
- FCD 5344 Infant and Early Childhood Mental Health
- FCD 5355 Advanced Independent Study
- FCD 5357 Comparative Studies in Child Development
- PA 5300 Introduction to Public Policy and Administration
- PA 5330 Public Personnel Administration
- PA 5332 Management Practices in Public Personnel Administration
- PA 5370 Public Management and Ethics
- PSY 5320 Principles of Measurement and Statistics
- PSY 5342 Professional Ethics and Standards of Practice
- PSY 5370 Learning, Cognition, and Motivation
- SOCI 5307 Advanced Statistics for the Social Sciences
- SOCI 5309 Seminar in Qualitative Research Methods
- SOCI 5323 Grant Writing for the Social Sciences
- SOCI 5337 Seminar in the Family
- SOCI 5370 Seminar in Multi-Cultural Relations
- SOWK 5308 Human Behavior in Individual and Family Social Environments
- SOWK 5310 Social Welfare Policy and Services
- SOWK 5315 Social Work Intervention in Child Abuse & Neglect
- SPED 5314 Advanced Educational Strategies for Students with Disabilities
- SPED 5334 Assessment and Evaluation of Students with Disabilities
Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A.

After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student's progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university's licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master's level courses in Family and Child Studies: FCD

Courses Offered

Family and Child Development (FCD)

FCD 5100. Introduction to Family and Child Studies.
Focus on gaining information and competencies important to graduate study success. Includes academic expectations for graduate students as well as information related to the Family and Child Studies graduate program. Required for Family and Child Studies majors.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

FCD 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5340. Advanced Cultural Diversity of Families.
Survey study of family diversity through selected family science research methods and topics including family structure and function, family life patterns, multicultural groups, agents of enculturation, and family life education. Prerequisite: Graduate Standing. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FCD 5341. Advanced Child Development.
Focus on developmental processes and influences from conception through early childhood period. Includes interactive relationship of biological and environmental factors in total development of the child. Child observations required. Prerequisite: Graduate Standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5342. Early Childhood Intervention.
This course provides an interdisciplinary introduction, study, and application of information to the professional discipline of early childhood intervention and the early intervention specialist (EIS). Prerequisite: Graduate Standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5343. Hospitalized Child: Child Life Specialist.
This course enhances students’ ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5344. Infant and Early Childhood Mental Health.
This course provides an interdisciplinary understanding of the social and emotional development of infants and young children within the context of the family. Focus will be on the role of the infant mental health specialist in strengthening the development of young children and the parent-child relationship.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5345. Advanced Methods in Child Life.
This course focuses on the applied techniques and methodologies essential to the child life profession. In addition, this course offers guided experience and opportunities for stepping into the child life profession, ongoing career development and self-care.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will cover the foundations of family and child studies. Topics will include child development, principles of guidance, and family relationships. Prerequisite: Graduate standing. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
FCD 5347. Grief and Bereavement in Children, Adolescents, and Parents. This course includes a historical review of theoretical models on grief and bereavement, influences on grief and bereavement responses, and current perspectives on helping the bereaved cope. Implications for child life specialists will be analyzed.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5348. Pain and Anxiety Management for Children. This course provides child life students with theoretical foundations and applied non-pharmacological strategies for assessing children's pain and anxiety and assisting them with alleviation during painful healthcare and other life experiences.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5350. Research Design and Methods in Family and Child Studies. Evaluation of research concepts, methods, and strategies in family and child studies. Topics include the nature of scientific research, sampling, measurement, data collection, types of socio-behavioral research, data analysis, and evaluation of research reports.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5352. Seminar: Issues in Family and Child Studies. Seminar to examine current issues in family and child studies. Emphasis on current research, theories, and applications. Also includes orientation to the conceptual and methodological perspectives of multi-disciplinary study in the field of family and child studies.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5353. Program Evaluation in Family and Child Studies. Study of the diversity and effectiveness of family and child services programs at the federal, state, and community levels. Program evaluation strategies and measures, fiscal management, and grant writing will be included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5355. Advanced Independent Study. Individual work on problems related to student's primary area of specialization. Work may consist of empirical research or of critical reviews and integration of existing literature. Course may be repeated once for credit when topics vary.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5356. Advanced Program Administration. Study of family and child services systems. Management theory and strategies, strategic planning, program development and implementation, personnel management, and public policy are emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5357. Comparative Studies in Child Development. The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 5358. Practicum in Family and Child Studies I. Structured practical experience in family and child studies in a private or public setting. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Focus will be on experiential learning. Prerequisite: Departmental approval required; online practicum form required for registration.

3 Credit Hours. 0 Lecture Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5359. Practicum in Family and Child Studies II. Continued practical experience in family and child studies at a private or public setting with supervision provided by a member of the graduate faculty and a designated individual at the work site. A research report will be integrated with practical application. Prerequisite: FCD 5358.

3 Credit Hours. 0 Lecture Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399A. Thesis. This course represents a student's initial thesis enrollment. Focus is on identification of thesis topic, review of literature, and research design. No thesis credit is awarded until student has completed the thesis in FCD 5399B.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5399B. Thesis. This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5599A. Thesis. This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5599B. Thesis.
FCD 5659. Internship in Child Life.
Structured hospital experience for individuals who plan to pursue a career in child life. Provides opportunity to work in a hospital setting under the direction of a certified child life specialist. Prerequisite: 30 hours of graduate coursework or approval of graduate advisor; online practicum form required.
6 Credit Hours. 0 Lecture Contact Hours. 32 Lab Contact Hours.
Grade Mode: Credit/No Credit

FCD 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Prerequisite: FCD 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Science (M.S.) Major in Human Nutrition (Non-thesis Option)

Major Program
The Graduate program in Human Nutrition promotes the study of human nutrition, food science, and biotechnology with emphasis on promoting health and preventing disease. Graduate instruction is based on a variety of learning strategies, including lecture, seminar-style discussion, participation in research, and practical laboratory work using state of the art equipment and techniques. Graduates achieve the technical skills, scientific knowledge, and local, national, and global perspectives to integrate the fields of nutrition, food science and food biotechnology to address human health concerns of the 21st century.

Dietetic Internship Concurrent Enrollment
Students enrolled in the M.S. program who are interested in obtaining the registered dietitian (RD) credential are encouraged to apply for admission to the Texas State dietetic internship (DI) after they have completed at least one term. While up to nine hours of courses taken in the DI may count towards the M.S. degree, completion of both the M.S. and DI may require more course work than needed to complete the M.S. alone. Students interested in this dual option are required to meet with the graduate coordinator to determine courses required to complete both programs. It is important to note that admission to the M.S. does not guarantee acceptance into the Texas State DI.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree (preferably in nutrition, food science or a related field) from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- background course work in:
  - Introductory Biology
  - Introductory Nutrition
  - Microbiology
  - Anatomy and Physiology
  - Introductory Chemistry (at least two semesters)
  - Organic Chemistry (at least one course)
  - Biochemistry
- GRE scores not required
- resume/CV
- statement of purpose describing professional aspirations and rationale for pursuing graduate study
- three letters of recommendation

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
- minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements
The Master of Science (M.S.) degree with a major in Human Nutrition requires 39 semester credit hours.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Human Nutrition: NUTR

Courses Offered

Nutrition and Foods (NUTR)

NUTR 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships

NUTR 5199B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5299B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

This course is designed for students who do not have a sufficient background in the foundations of nutrition and food science to be successful in graduate level courses. This course does not earn graduate degree credit. Prerequisite: consent of graduate advisor. Course is repeatable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

NUTR 5302E. Nutrition and Disease.
An advanced study of the ability of various nutrient and non-nutrient compounds found in food to prevent and treat disease. Diseases covered include cancer, diabetes, cardiovascular disease, among others. Prerequisite: graduate standing and permission of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302F. Nutritional Supplements.
An advanced study of the efficacy of dietary supplements. Both nutrient and non-nutrient supplement components will be discussed. Clinical trials, epidemiological data and molecular mechanisms of action of dietary supplements will be compared to manufacturer's claimed action. Prerequisite: graduate standing and consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302G. Pediatric Obesity.
An advanced study of pediatric obesity, including causes, economic and health related consequences, evidence-based treatment and prevention strategies. Prerequisite: graduate standing and consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5303. Nutrition and Food Science Project.
Directs the graduate student to review, analyze and compile current scientific literature pertaining to a specific, advanced topic in nutrition under guidance of faculty. Course includes preparation of a manuscript (review of literature) in publication format. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5305. Seminar in Nutrition and Disease.
An advanced study of a selected topic in nutrition concerning nutrients and functional foods and their role in disease prevention or treatment. Class topics will enter on clinical trials, epidemiological data and molecular mechanisms of action concerning the ability of nutrients to prevent or treat disease. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
NUTR 5306. Seminar in Nutrition in the Lifespan.
An advanced study of a selected topic in nutrition and the lifespan from a multidisciplinary perspective, including review of scientific literature in nutrition, physiology, biochemistry, sociology, exercise sports science, epidemiology, endocrinology and genetics. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Evaluation of research concepts, methods, and strategies used in nutrition and food science research. Topics include the nature of scientific research, sampling, measurement, data collection, types of research methodology, use of data analysis and management software, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Individual work with specific guidance from graduate nutrition faculty. Work may include participation in research, professional practice, and/or critical review of the scientific literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5360. Practicum for Dietetic Internship.
Students observe and engage in the practice of dietetics under the supervision of practitioners in facilities for health care, public health, and food systems. Repeated twice to meet requirements to complete the dietetic internship program. Prerequisites: Admission to Texas State Dietetic Internship.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

NUTR 5361. Advanced Food Systems Administration.
Techniques and procedures for management, service, and marketing of meals in commercial and noncommercial food service facilities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5362. Advanced Medical Nutrition Therapy.
Advanced study of medical nutrition therapy with emphasis on application of principles and techniques of nutritional assessment emphasizing current clinical nutrition practices. Current scientific literature will be used extensively to discuss most recent advances in the area of medical nutrition therapy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5363. Advanced Community Nutrition.
Assessment of the nutritional needs of the community and of programs that serve the needs. Experiences include survey techniques, nutritional education, and management of programs to meet specific nutritional needs through community agencies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An advanced course focusing on the physiological and biochemical impact of nutrient intake on physical performance, health and fitness. Special emphasis will be placed on the investigation of a variety of dietary supplements, including purported ergogenic aids. The course requires significant reading and interpreting of the scientific literature.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Individual work with specific guidance from graduate nutrition faculty. Work may include participation in research, professional practice, and/or critical review of the scientific literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5366. Nutrient Metabolism I.
An advanced study of the biochemical and physiological foundations of nutrition and metabolism and its relevance to health and wellness. Scientific literature pertaining to biochemical structure, metabolism and physiological regulation of macronutrients and water-soluble vitamins. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5367. Nutrient Metabolism II.
An advanced study of the biochemical and physiological foundations of nutrition with emphasis on fat-soluble vitamins and minerals. Current scientific information pertaining to structure, metabolism and physiological regulation of these micronutrients. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5369. Nutrition and Immune Function.
This course integrates existing knowledge in several areas - nutrition, food science, metabolism and immunology. Discussion will focus on the effect of dietary components on activation of cells and genes related to immune system and underlying mechanisms of nutritional immunomodulation. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5370. Food and Nutritional Toxicology.
Basic principles of nutritional and food toxicology. Absorption, metabolism and excretion of xenobiotics, allergenic and toxic constituents in diet. Effect of dietary toxins on nutritional status, mutagenesis, carcinogenesis and disease. Regulation and safety assessment of foods including food additives, environmental contaminants, pesticides and antibiotic residues. Prerequisite: Graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5371. Externship in Human Nutrition.
Structured practical experience in human nutrition, food science, food biotechnology. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Requires a minimum of 150 hours of supervised experience. Prerequisites: Graduate standing and approval by graduate advisor and faculty supervisor.
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Standard Letter
Master of Science (M.S.) Major in Human Nutrition (Thesis Option)

Major Program

The Graduate program in Human Nutrition promotes the study of human nutrition, food science, and biotechnology with emphasis on promoting health and preventing disease. Graduate instruction is based on a variety of learning strategies, including lecture, seminar-style discussion, participation in research, and practical laboratory work using state of the art equipment and techniques. Graduates achieve the technical skills, scientific knowledge, and local, national, and global perspectives to integrate the fields of nutrition, food science and food biotechnology to address human health concerns of the 21st century.

Dietetic Internship Concurrent Enrollment

Students enrolled in the M.S. program who are interested in obtaining the registered dietitian (RD) credential are encouraged to apply for admission to the Texas State dietetic internship (DI) after they have completed at least one term. While up to nine hours of courses taken as part of the DI may count towards the M.S. degree, completion of both the M.S. and DI may require more course work than needed to complete the M.S. alone. Students interested in this dual option are required to meet with the graduate coordinator to determine courses required to complete both programs. It is important to note that admission to the M.S. does not guarantee acceptance into the Texas State DI.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree (preferably in nutrition, food science or a related field) from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- background course work in:
  - Introductory Biology
  - Introductory Nutrition
  - Microbiology
  - Anatomy and Physiology
  - Introductory Chemistry (at least two semesters)
  - Organic Chemistry (at least one course)
  - Biochemistry
- GRE scores not required
- resume/CV

NUTR 5372. Advances in Nutrition Policy and Ethics.
This course considers the disparate influences on the US food supply, on federal and state nutrition and food-related policies, and ultimately, on individual dietary intake. Potential influences, including current state and federal policies, industry, interest groups, and the media, driven by economics and ethical consideration, will be addressed. Enrollment restricted to students in the MS in Human Nutrition program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will examine the specific processes in intermediary nutrient metabolism and their genetic regulation. The effects of nutrients on gene expression, cell signaling, cell physiology, and disease processes will also be explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5375. Advances in Life Span Nutrition.
An advanced study of the nutritional requirements throughout the life span involving a multidisciplinary approach including, biochemistry, endocrinology and genetics, and perspectives of human psychological and social development. Prerequisite: consent of graduate advisor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5399A. Thesis.
Initial thesis enrollment. Focus is on identification of thesis topic, review of literature, research design and preparation of thesis proposal. No thesis credit is awarded until completion of NUTR 5399B. Prerequisite: Graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5399B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5599B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5372. Advances in Nutrition Policy and Ethics.
This course considers the disparate influences on the US food supply, on federal and state nutrition and food-related policies, and ultimately, on individual dietary intake. Potential influences, including current state and federal policies, industry, interest groups, and the media, driven by economics and ethical consideration, will be addressed. Enrollment restricted to students in the MS in Human Nutrition program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will examine the specific processes in intermediary nutrient metabolism and their genetic regulation. The effects of nutrients on gene expression, cell signaling, cell physiology, and disease processes will also be explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5375. Advances in Life Span Nutrition.
An advanced study of the nutritional requirements throughout the life span involving a multidisciplinary approach including, biochemistry, endocrinology and genetics, and perspectives of human psychological and social development. Prerequisite: consent of graduate advisor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5399A. Thesis.
Initial thesis enrollment. Focus is on identification of thesis topic, review of literature, research design and preparation of thesis proposal. No thesis credit is awarded until completion of NUTR 5399B. Prerequisite: Graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5399B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5599B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Total Hours 33

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the
responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.084. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form

- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Human Nutrition: NUTR

Courses Offered

Nutrition and Foods (NUTR)

NUTR 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships

NUTR 5199B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5299B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

This course is designed for students who do not have a sufficient background in the foundations of nutrition and food science to be successful in graduate level courses. This course does not earn graduate degree credit. Prerequisite: consent of graduate advisor. Course is repeatable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

NUTR 5302E. Nutrition and Disease.
An advanced study of the ability of various nutrient and non-nutrient compounds found in food to prevent and treat disease. Diseases covered include cancer, diabetes, cardiovascular disease, among others. Prerequisite: graduate standing and permission of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
NUTR 5302F. Nutritional Supplements.
An advanced study of the efficacy of dietary supplements. Both nutrient and non-nutrient supplement components will be discussed. Clinical trials, epidemiological data and molecular mechanisms of action of dietary supplements will be compared to manufacturer's claimed action. Prerequisite: graduate standing and consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302G. Pediatric Obesity.
An advanced study of pediatric obesity, including causes, economic and health related consequences, evidence-based treatment and prevention strategies. Prerequisite: graduate standing and consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302J. Diet Therapy and Pathophysiology.
This course will investigate the use of diet as a treatment for a variety of acute and chronic disease states. Students will also learn to apply the nutrition care process to treat patients/clients with acute and chronic diseases.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

NUTR 5303. Nutrition and Food Science Project.
Directs the graduate student to review, analyze and compile current scientific literature pertaining to a specific, advanced topic in nutrition under guidance of faculty. Course includes preparation of a manuscript (review of literature) in publication format. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5305. Seminar in Nutrition and Disease.
An advanced study of a selected topic in nutrition concerning nutrients and functional foods and their role in disease prevention or treatment. Class topics will enter on clinical trials, epidemiological data and molecular mechanisms of action concerning the ability of nutrients to prevent or treat disease. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5306. Seminar in Nutrition in the Lifespan.
An advanced study of a selected topic in nutrition and the lifespan from a multidisciplinary perspective, including review of scientific literature in nutrition, physiology, biochemistry, sociology, exercise sports science, epidemiology, endocrinology and genetics. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Evaluation of research concepts, methods, and strategies used in nutrition and food science research. Topics include the nature of scientific research, sampling, measurement, data collection, types of research methodology, use of data analysis and management software, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Individual work with specific guidance from graduate nutrition faculty. Work may include participation in research, professional practice, and/or critical review of the scientific literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5360. Practicum for Dietetic Internship.
Students observe and engage in the practice of dietetics under the supervision of practitioners in facilities for health care, public health, and food systems. Repeated twice to meet requirements to complete the dietetic internship program. Prerequisites: Admission to Texas State Dietetic Internship.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

NUTR 5361. Advanced Food Systems Administration.
Techniques and procedures for management, service, and marketing of meals in commercial and noncommercial food service facilities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5362. Advanced Medical Nutrition Therapy.
Advanced study of medical nutrition therapy with emphasis on application of principles and techniques of nutritional assessment emphasizing current clinical nutrition practices. Current scientific literature will be used extensively to discuss most recent advances in the area of medical nutrition therapy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5363. Advanced Community Nutrition.
Assessment of the nutritional needs of the community and of programs that serve the needs. Experiences include survey techniques, nutritional education, and management of programs to meet specific nutritional needs through community agencies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An advanced course focusing on the physiological and biochemical impact of nutrient intake on physical performance, health and fitness. Special emphasis will be placed on the investigation of a variety of dietary supplements, including purported ergogenic aids. The course requires significant reading and interpreting of the scientific literature.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
NUTR 5366. Nutrient Metabolism I.
An advanced study of the biochemical and physiological foundations of nutrition and metabolism and its relevance to health and wellness. Scientific literature pertaining to biochemical structure, metabolism and physiological regulation of macronutrients and water-soluble vitamins. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5367. Nutrient Metabolism II.
An advanced study of the biochemical and physiological foundations of nutrition with emphasis on fat-soluble vitamins and minerals. Current scientific information pertaining to structure, metabolism and physiological regulation of these micronutrients. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5369. Nutrition and Immune Function.
This course integrates existing knowledge in several areas - nutrition, food science, metabolism and immunology. Discussion will focus on the effect of dietary components on activation of cells and genes related to immune system and underlying mechanisms of nutritional immunomodulation. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5370. Food and Nutritional Toxicology.
Basic principles of nutritional and food toxicology. Absorption, metabolism and excretion of xenobiotics, allergenic and toxic constituents in diet. Effect of dietary toxins on nutritional status, mutagenesis, carcinogenesis and disease. Regulation and safety assessment of foods including food additives, environmental contaminants, pesticides and antibiotic residues. Prerequisite: Graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5371. Externship in Human Nutrition.
Structured practical experience in human nutrition, food science, food biotechnology. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Requires a minimum of 150 hours of supervised experience. Prerequisites: Graduate standing and approval by graduate advisor and faculty supervisor.
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5372. Advances in Nutrition Policy and Ethics.
This course considers the disparate influences on the US food supply, on federal and state nutrition and food-related policies, and ultimately, on individual dietary intake. Potential influences, including current state and federal policies, industry, interest groups, and the media, driven by economics and ethical consideration, will be addressed. Enrollment restricted to students in the MS in Human Nutrition program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will examine the specific processes in intermediary nutrient metabolism and their genetic regulation. The effects of nutrients on gene expression, cell signaling, cell physiology, and disease processes will also be explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5375. Advances in Life Span Nutrition.
An advanced study of the nutritional requirements throughout the life span involving a multidisciplinary approach including, biochemistry, endocrinology and genetics, and perspectives of human psychological and social development. Prerequisite: consent of graduate advisor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 5399A. Thesis.
Initial thesis enrollment. Focus is on identification of thesis topic, review of literature, research design and preparation of thesis proposal. No thesis credit is awarded until completion of NUTR 5399B. Prerequisite: Graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5399B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5599B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

NUTR 5999B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Science (M.S.) Major in Merchandising and Consumer Studies (Non-thesis Option)

Major Program
The Master of Science (M.S.) major in Merchandising and Consumer Studies will educate the next generation of product developers, retail and merchandising managers, as well as consumer studies professionals, who will make pivotal and transformative decisions vital to intelligent economic, social, and environmental resource management. Our goal is to prepare students with competencies that address current and future consumer-related employment needs of Texas. Building on the undergraduate foundation, the master’s level curriculum engages
students in the analysis, critical thinking, and holistic problem solving needed to respond to the complexity and growth of consumer-centric systems.

**Application Requirements**

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program's web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- official GRE scores required with a preferred minimum of 300 (verbal and quantitative sections combined) or official GMAT scores with a preferred minimum of 500
- resume/CV
- statement of purpose describing professional goals and rationale for pursuing graduate study
- two letters of recommendation

**TOEFL or IELTS Scores**

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

If you do not meet the scores above, you may qualify for English-based conditional admission if you meet the minimum scores below:

- official TOEFL iBT scores required with a 59 overall
- official IELTS (academic) scores required with a 5.5 overall and minimum individual module scores of 5.5

**Degree Requirements**

The Master of Science (M.S.) degree with a major in Merchandising and Consumer Studies requires 36 semester credit hours.

**Comprehensive Examination Requirements**

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Family and Consumer Sciences: FCS

**Courses Offered**

**Family and Consumer Sciences (FCS)**

**FCS 5101. Graduate Assistant Development.**

This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable up to 3 times.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**Course Attribute(s):** Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships

**FCS 5301. Graduate Assistant Development.**

This course is required as a condition of employment for graduate teaching and instructional assistants. It provides information about the educational needs of Texas State University’s diverse student body. It also identifies educational strategies and campus resources that support the learning of undergraduate students. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships

**FCS 5302H. Sustainable Consumer Economy.**

This course is a in-depth study of the role of consumption in the development of sustainable systems including the family, natural resources and economics.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Topics

**Grade Mode:** Standard Letter
FCS 5302J. Statistics and Data Analysis for Family and Consumer Sciences.
This is a graduate level course covering statistical techniques commonly used in the field of family and consumer sciences. Topics include descriptive statistics, Chi-Square analysis, analysis of variance and covariance, simple and multiple linear regression, logistic regression, and use of statistical software. Data analysis to support decision-making is emphasized. Restricted to students in one of the graduate FCS programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

FCS 5302S. Sustainable Textiles.
This course is an in-depth study of the relationship of fibers, fabrics, finishes and textile products end-uses with a particular focus on their impact on sustainability.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

FCS 5302X. Policy in Family/Child Studies.
An examination of the policy making process and the significance of national, state, and local policies as they affect the family. Frameworks for analyzing social policy will be used to examine existing government efforts and legislation. Implications for bringing about change in policies will be examined.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

FCS 5305. Sustainable Housing.
This course is an in-depth study of the relationship between housing and sustainability with a particular focus on the role of materials, technology, policy and human factors in fostering healthy social, economic and natural systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCS 5307. Sustainable Lighting.
This course focuses on understanding the elements and principles of sustainable lighting and explains how it meets the qualitative needs of the visual environment with the least impact on the natural environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCS 5310. Research Methods in FCS.
This course will cover the evaluation of concepts, methods, and strategies for research in the disciplines of family and consumer sciences. The course will focus on the nature and ethics of scientific research, including design, sampling, measurement, and data collection. Restricted to graduate level majors in the School of Family and Consumer Sciences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCS 5311. Statistics and Data Analysis for Family and Consumer Sciences.
This is a graduate level course covering statistical techniques commonly used in the field of family and consumer sciences. Topics include descriptive statistics, Chi-Square analysis, analysis of variance and covariance, simple and multiple linear regression, logistic regression, and use of statistical software. Data analysis to support decision-making is emphasized. Prerequisite: FCS 5310. Restricted to graduate students in FCS.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Study of Family and Consumer Sciences topics in international settings. Emphasis will be placed on an analysis of cultural differences and similarities and their application within FCS professions. Repeatable for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Master of Science (M.S.) Major in Merchandising and Consumer Studies (Thesis Option)

Major Program
The Master of Science (M.S.) major in Merchandising and Consumer Studies will educate the next generation of product developers, retail and merchandising managers, as well as consumer studies professionals, who will make pivotal and transformative decisions vital to intelligent economic, social, and environmental resource management. Our goal is to prepare students with competencies that address current and future consumer-related employment needs of Texas. Building on the undergraduate foundation, the master’s level curriculum engages students in the analysis, critical thinking, and holistic problem solving needed to respond to the complexity and growth of consumer-centric systems.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision
is received may result in postponement of graduation. After initial
enrollment in 5399A, the student will continue to enroll in a thesis B
course as long as it takes to complete the thesis. Thesis projects are by
definition original and individualized projects. As such, depending on the
topic, methodology, and other factors, some projects may take longer
than others to complete. If the thesis requires work beyond the minimum
number of thesis credits needed for the degree, the student may enroll in
additional thesis credits at the committee chair's discretion. In the rare
case when a student has not previously enrolled in thesis and plans to
work on and complete the thesis in one term, the student will enroll in
both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR
(credit), W (withdrew), and F (failing). If acceptable progress is not being
made in a thesis course, the instructor may issue a grade of F. If the
student is making acceptable progress, a grade of PR is assigned until
the thesis is completed. The minimum number of hours of thesis credit
("CR") will be awarded only after the thesis has been both approved by
The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the
thesis course during the term or Summer I (during the summer, the thesis
course runs ten weeks for both sessions) in which the degree will be
conferred.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-
time fee reduction under V.T.C.A. Education Code, Section 54.054.
Please refer to the section titled Fee Reduction in the Additional Fees and
Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://
www.gradcollege.txstate.edu) website under "Current Students." The
completed thesis must be submitted to the chair of the thesis committee
on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis
deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or
electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee
members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek
Library will harvest the document from the Vireo submission system for
publishing in the Digital Collections database (according to the student’s
embargo selection). NOTE: MFA theses will have a permanent embargo
and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as
determined by the chair of the committee in which obtaining original
signatures is inefficient or has the potential to delay the student's
progress. In those situations, the following methods of signing are
acceptable:

• signing and faxing the form
• signing, scanning, and emailing the form
• notifying the department in an email from their university's or
institution's email account that the committee chair can sign the form
on their behalf

If this process results in more than one document with signatures, all
documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the
library will bind copies submitted that the student wants bound for
personal use. Personal copies are not required to be printed on archival
quality paper. The student will take the personal copies to Alkek Library
and pay the binding fee for personal copies.

Master's level courses in Family and Consumer Sciences: FCS

Courses Offered

Family and Consumer Sciences (FCS)
FCS 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate
teaching and instructional assistants. This course provides regular in-
service and planned periodic evaluations of instructional responsibilities.

Department of Occupational, Workforce, and Leadership Studies
Pedernales Building
Telephone: 512-245-2115 Fax: 512-245-3047
http://www.owls.txstate.edu

The Department of Occupational, Workforce, and Leadership Studies offers two distinct master’s degrees designed for professionals focused on career success in organizational and technical education settings. Both degree programs are offered in an online or blended format to meet the needs of today’s career-minded student. All students work with a faculty advisor to coordinate their degree choices with their professional goals and aspirations. Faculty with expertise in adult learning, online and technical education create challenging online learning environments to promote success.

Our programs are designed for part-time study while working and may be completed from most any location. We offer flexible course scheduling, including accelerated courses on 8-week half-semester terms or 5-week summer terms, to allow students to move quickly through the program. We offer advising and support in San Marcos, Round Rock, and online. You can visit our website to sign up for an information session given by a faculty advisor. The department can assist you in outlining and supporting your career goals with a relevant degree, whether you have or are seeking a career in the following:

• training and development,
• career and technical education,
• organization development,
• management of training and curriculum environments,
• public service,
• personnel development and management, and many related fields.

Master of Arts in Interdisciplinary Studies (M.A.I.S.)
• Major in Interdisciplinary Studies (p. 755)

Master of Science in Interdisciplinary Studies (M.S.I.S.)
• Major in Interdisciplinary Studies (p. 759)

Master of Education (M.Ed.)
• Major in Management of Technical Education (p. 763)
Master of Arts in Interdisciplinary Studies (M.A.I.S.) Major in Interdisciplinary Studies (Occupational, Workforce, and Leadership Studies)

Major Program
The Master of Arts in Interdisciplinary Studies (M.A.I.S.) degree with a concentration in Occupation, Workforce, and Leadership Studies is coordinated through the Department of Occupational, Workforce, and Leadership Studies. The interdisciplinary studies degree program is offered by the University and is not meant to replace any currently existing traditional program of study but does draw courses from other departments offering graduate-level work. The interdisciplinary studies degree is highly individualized and is designed to provide the adult with various course options. Further information may be obtained by contacting the program chair of the Department of Occupational, Workforce, and Leadership Studies, referencing the "Interdisciplinary Studies" section of this catalog, or the Department of Occupational, Workforce, and Leadership Studies website at http://www.oced.txstate.edu/.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 2.75 GPA in your last 60 hours of undergraduate coursework (plus any completed graduate courses)*
- official GRE scores not required*
- statement of purpose outlining future direction

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Degree Requirements
The Master of Arts in Interdisciplinary Studies (M.A.I.S.) degree with a major in Interdisciplinary Studies concentration in occupational, workforce, and leadership studies requires 39 semester credit hours.

Students are not required to complete the Entry Module first. Courses from any module may be taken in any order, with the exception as noted in the Exit Module. The Entry Module is designed to help the student develop skills relating to communication, human relations, and cultural understanding. Students may choose courses from the following departments: Adult Education (ADED), Career and Technology Education (CTE), Developmental Education (DE), Healthcare Human Resources (HHR), English (ENG), Psychology (PSY), and Sociology (SOCI).

The courses in the Exit Module are sequential. OCED 5300 is only offered during fall semesters. Students may take Exit Module courses while also taking Entry or Academic Module courses.

Comprehensive Examination Requirements
All candidates for graduate degrees must pass one or more comprehensive examinations.

Master's level courses in Occupational, Workforce, and Leadership Studies: CTE (p. 756), OCED (p. 758)
Courses Offered

Career and Technical Education (CTE)

CTE 5300. Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5301. Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5302. Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, guidance, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides an overview of interdisciplinary studies’ frameworks in the fields related to occupational, workforce, and leadership studies. Students investigate career options, develop plans of study, integrate interdisciplinary academic material, and refine interdisciplinary writing skills.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5304. Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5305. Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5306. Instructional Materials Development Technology.
This course provides students opportunities to develop knowledge, skills, and abilities relevant to assessing instructional materials in education and training, within the context of real-world settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5307. Selection, Placement, and Follow-Up in Cooperative Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5308. Problems in Cooperative Training.
This course provides a review of basic standards for cooperative education, underlying reasons for standards, and current issues/problems in cooperative education programs. Students will discuss and provide solutions to current dilemmas of cooperative education, through the use of organizational research techniques and organizational problem solving.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5312. Development, Organization, and Use of Instructional Material.
This course involves the selection of lesson content, lesson planning, and instructional material development. The emphasis is on the effective development and evaluation of instructional materials. A variety of methods will be taught to gather and utilize instructional materials.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5313C. Teaching Entrepreneurship in Career and Technical Education.
This course includes a study and analysis of ownership, marketing strategies, location, financing, regulations, managing, and protecting a business. Students will analyze current research and techniques in teaching entrepreneurship in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

CTE 5313D. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter
CTE 5313F. Human Performance in the Workplace.
The course provides an overview of current quality improvement strategies utilized in business and industry settings. Topics include the teaching of HPT, organizational culture, teamwork, leadership, measuring improvement, statistical process control, and restructuring of work.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CTE 5330. Overview of Interdisciplinary Research.
Students will become familiar with various interdisciplinary research methods, learn concepts related to research, and conduct reviews and critiques of academic research articles. The application of academic research to practical problems will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5323. Technology Applications.
This course covers the use of computers in the classroom or office. Topics include history of computers, philosophies of computer integration, research in computer use, overview of common computer programs, and history and use of the Internet. Trades and Industry teacher candidates will review for the TExES examination.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5332. Effective Methods of Teaching and Training.
This fundamental course is for trade and industrial educators seeking certification and technical trainers who are not seeking certification. It is designed to prepare them to apply effective teaching principles and techniques. Lesson plans will be prepared, classrooms managed, and practice teaching included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5314. Human Relations for Career and Technical Education Teachers.
This course includes a study of methods of establishing and maintaining effective relationships with students, co-workers, families, business and industry, and community members. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5341. Supervision of Career and Technical Education.
This course provides an overview of skills and attitudes for the supervision of personnel in the field of CTE. Students will learn the dynamics of supervision, the supervisor's role in the workplace, and the evaluation of instructional and other personnel in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course deals with the collection, evaluation, and interpretation of common occupational, career, and personal information. It includes an overview of current theory and research in occupational selection techniques, psychological and sociological factors in career selection, and job analysis. The emphasis is on the practical application in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5313M. Program Evaluation in Career and Technical Education.
Students will gain an in-depth understanding of terminology and program evaluation, guiding principles, approaches and models, and professional standards utilized while conducting program evaluations of career and technical education (CTE) programs. Students will apply these concepts to design a program evaluation proposal for an existing or proposed CTE program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CTE 5313L. Emergent Workplace Perspectives.
This course examines the emergent and evolving nature of the modern workplace. Students will explore topics related to interdisciplinary perspectives in the workplace such as inequality related to gender and race, workers' rights, knowledge, control, the role of technology, and globalization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

CTE 5313P. Integration of Technology in Career and Technical Education.
This course is for instructors in industry and business education settings. Students will learn how to integrate technology into their teaching and training. Research is conducted on reform efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5350. Management of Business Office Education Training Programs.
This course is for instructors in industry and business education settings and involves an in-depth analysis of governmental policies relating to teaching and training in business education, working with cooperative education students, assisting individuals with the transition to the workplace and further education.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training. Research is conducted on reform efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CTE 5381. Instructional Strategies in Business Office Education Training Programs.  
This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CTE 5390. Independent Study in Career and Technical Education.  
This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter

Occupational Education (OCED)  
OCED 5101. Instructional Skill Development.  
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis.  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA  
Grade Mode: Leveling/Assistantships

OCED 5300. Interdisciplinary Research Methods.  
Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience. Corequisite: CTE 5330.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

OCED 5304. Professional Practicum.  
This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.  
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Standard Letter

OCED 5310. Human Problems in the Workplace.  
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

OCED 5360A. Sustainable Human Systems in Occupational Sciences.  
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Standard Letter

OCED 5360B. Critical Thinking in the Workplace.  
This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Standard Letter

OCED 5360C. Reflective and Experiential Learning Techniques.  
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing Topics  
Grade Mode: Standard Letter
OCED 5360D. Leadership Development.
This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing | Topics
Grade Mode: Standard Letter

OCED 5360E. Organization Development in the Workplace.
This course introduces students to organization development (OD), which uses knowledge and practices to improve organizational, group, and individual performance. Students will explore major theories, concepts, skills, and techniques for the practice of OD and the interventions used to lead and manage organization change in various contexts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing | Topics
Grade Mode: Standard Letter

OCED 5360F. The Basics of Extramural Funding.
Emphasizing professional relationships of mutuality, collaboration, and respect for the client system, this course helps students develop knowledge and skills to enhance organizational resources, particularly in developing programs, raising funds, writing grant proposals, and marketing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing | Topics
Grade Mode: Standard Letter

Master of Science in Interdisciplinary Studies (M.S.I.S.) Major in Interdisciplinary Studies (Occupational, Workforce, and Leadership Studies)

Major Program
The Master of Science in Interdisciplinary Studies (M.S.I.S.) degree with a concentration in Occupation, Workforce, and Leadership Studies is coordinated through the Department of Occupational, Workforce, and Leadership Studies. The interdisciplinary studies degree program is offered by the University and is not meant to replace any currently existing traditional program of study but does draw courses from other departments offering graduate-level work. The interdisciplinary studies degree is highly individualized and is designed to provide the adult with various course options. Further information may be obtained by contacting the program chair of the Department of Occupational, Workforce, and Leadership Studies, referencing the “interdisciplinary studies” section of this catalog, or the Department of Occupational, Workforce, and Leadership Studies website at http://www.oced.txstate.edu/.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/).

Programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 2.75 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)*
- official GRE scores not required*
- statement of purpose outlining future direction

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Degree Requirements
The Master of Arts in Interdisciplinary Studies (M.A.I.S.) degree with a major in Interdisciplinary Studies concentration in occupational, workforce, and leadership studies requires 39 semester credit hours.

Students are not required to complete the Entry Module first. Courses from any module may be taken in any order, with the exception as noted in the Exit Module. The Entry Module is designed to help the student develop skills relating to communication, human relations, and cultural understanding. Students may choose courses from the following departments: Adult Education (ADED), Career and Technology Education (CTE), Developmental Education (DE), Healthcare Human Resources (HHR), English (ENG), Psychology (PSY), and Sociology (SOCI).

The courses in the Exit Module are sequential. OCED 5300 is only offered during fall semesters. Students may take Exit Module courses while also taking Entry or Academic Module courses.

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Occupational, Workforce, and Leadership Studies: CTE (p. 760), OCED (p. 762)

Courses Offered

Career and Technical Education (CTE)

CTE 5300: Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5301: Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5302: Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

This course provides an overview of interdisciplinary studies’ frameworks in the fields related to occupational, workforce, and leadership studies. Students investigate career options, develop plans of study, integrate interdisciplinary academic material, and refine interdisciplinary writing skills. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5304: Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5305: Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5306: Instructional Materials Development Technology.
This course provides students opportunities to develop knowledge, skills, and abilities relevant to assessing instructional materials in education and training, within the context of real-world settings. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5307: Selection, Placement, and Follow-Up in Cooperative Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5308: Problems in Cooperative Training.
This course provides a review of basic standards for cooperative education, underlying reasons for standards, and current issues/problems in cooperative education programs. Students will discuss and provide solutions to current dilemmas of cooperative education, through the use of organizational research techniques and organizational problem solving. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

CTE 5312: Development, Organization, and Use of Instructional Material.
This course involves the selection of lesson content, lesson planning, and instructional material development. The emphasis is on the effective development and evaluation of instructional materials. A variety of methods will be taught to gather and utilize instructional materials. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter
CTE 5313C. Teaching Entrepreneurship in Career and Technical Education.
This course includes a study and analysis of ownership, marketing strategies, location, financing, regulations, managing, and protecting a business. Students will analyze current research and techniques in teaching entrepreneurship in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313D. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313F. Human Performance in the Workplace.
The course provides an overview of current quality improvement strategies utilized in business and industry settings. Topics include the teaching of HPT, organizational culture, teamwork, leadership, measuring improvement, statistical process control, and restructuring of work.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313L. Emergent Workplace Perspectives.
This course examines the emergent and evolving nature of the modern workplace. Students will explore topics related to interdisciplinary perspectives in the workplace such as inequality related to gender and race, workers' rights, knowledge, control, the role of technology, and globalization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313M. Program Evaluation in Career and Technical Education.
Students will gain an in-depth understanding of terminology and program evaluation, guiding principles, approaches and models, and professional standards utilized while conducting program evaluations of career and technical education (CTE) programs. Students will apply these concepts to design a program evaluation proposal for an existing or proposed CTE program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5314. Human Relations for Career and Technical Education Teachers.
This course includes a study of methods of establishing and maintaining effective relationships with students, co-workers, families, business and industry, and community members. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5320. Effective Methods of Teaching and Training.
This fundamental course is for trade and industrial educators seeking certification and technical trainers who are not seeking certification. It is designed to prepare them to apply effective teaching principles and techniques. Lesson plans will be prepared, classrooms managed, and practice teaching included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5321. Work-based Learning in Career and Technical Education.
This course is intended for teacher coordinators of work-based programs in trades and industrial cooperative education. There is an emphasis on selection of occupations and training stations, student recruitment, instructional coordination in numerous on-the-job experiences, state and local reports, and recordkeeping requirements. Research is conducted on local districts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training. Research is conducted on reform efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5323. Technology Applications.
This course covers the use of computers in the classroom or office. Topics include history of computers, philosophies of computer integration, research in computer use, overview of common computer programs, and history and use of the Internet. Trades and Industry teacher candidates will review for the TExES examination.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5330. Overview of Interdisciplinary Research.
Students will become familiar with various interdisciplinary research methods, learn concepts related to research, and conduct reviews and critiques of academic research articles. The application of academic research to practical problems will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5341. Supervision of Career and Technical Education.
This course provides an overview of skills and attitudes for the supervision of personnel in the field of CTE. Students will learn the dynamics of supervision, the supervisor's role in the workplace, and the evaluation of instructional and other personnel in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
This course deals with the collection, evaluation, and interpretation of common occupational, career, and personal information. It includes an overview of current theory and research in occupational selection techniques, psychological and sociological factors in career selection, and job analysis. The emphasis is on the practical application in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5380. Management of Business Office Education Training Programs.
This course is for instructors in industry and business education settings and involves an in-depth analysis of governmental policies relating to teaching and training in business education, working with cooperative education students, assisting individuals with the transition to the workplace and further education.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5381. Instructional Strategies in Business Office Education Training Programs.
This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5390. Independent Study in Career and Technical Education.
This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Occupational Education (OCED)

OCED 5101. Instructional Skill Development.
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships

OCED 5300. Interdisciplinary Research Methods.
Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience. Corequisite: CTE 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5304. Professional Practicum.
This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5310. Human Problems in the Workplace.
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5360A. Sustainable Human Systems in Occupational Sciences.
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
OCED 5360B. Critical Thinking in the Workplace. This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

OCED 5360C. Reflective and Experiential Learning Techniques. This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

OCED 5360D. Leadership Development. This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

OCED 5360E. Organization Development in the Workplace. This course introduces students to organization development (OD), which uses knowledge and practices to improve organizational, group, and individual performance. Students will explore major theories, concepts, skills, and techniques for the practice of OD and the interventions used to lead and manage organization change in various contexts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

OCED 5360F. The Basics of Extramural Funding. Emphasizing professional relationships of mutuality, collaboration, and respect for the client system, this course helps students develop knowledge and skills to enhance organizational resources, particularly in developing programs, raising funds, writing grant proposals, and marketing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

Master of Education (M.Ed.) Major in Management of Technical Education

Major Program
The Department of Occupational, Workforce, and Leadership Studies also offers the Master of Education (M.Ed.) degree for those interested in supervision. The M.Ed. degree has a major in management of technical education and is a highly specialized degree program. It is designed to assist an individual in learning skills that would enhance his or her performance in managing technical education in either an education or an industrial setting. The degree provides the broad skills necessary for an educator or trainer to become a better instructor and manager of instruction. In this program, students develop instructional and managerial competencies through various courses in curriculum design and delivery, instructional improvement, human performance technology, class organization, management, teaching/learning styles, diversity, understanding organizations, and program evaluation. Course schedules are flexible to accommodate the needs of working professionals, and many courses are offered in online and hybrid formats. This option allows students to complete courses from home and study whenever and wherever is convenient. Hybrid courses meet three times each semester, and the remainder of the work is online. Contact the program chair of Department of Occupational, Workforce, and Leadership Studies or go to http://www.oced.txstate.edu/ for more information.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/ programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 2.75 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)*
- official GRE scores not required*
- statement of purpose (one page)

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 19 speaking
  - 18 writing
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

*Additional Information
If your last-60-hours GPA falls below the minimum requirement of 2.75, the following is required:

- official GRE scores with a preferred minimum of 291 (verbal and quantitative sections combined)
- interview

Non-native English speakers who do not qualify for an English proficiency waiver:

- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.
Degree Requirements

The Master of Education (M.Ed.) degree with a major in Management of Technical Education requires 36 semester credit hours. All 5000-level EDCL courses should be taken in numerical order.

Course Requirements

Required Courses
Choose 15 hours from the following:

- EDCL 5339 Understanding Self: Developing a Personal Vision of Leadership
- EDCL 5340 Shaping Organizations and Using Inquiry: Management and Leadership
- EDCL 5345 Understanding People: Professional Development
- EDCL 5347 Understanding Environments: Social, Political, Economic, Legal, and Technological
- EDCL 5348 Supervision of Instruction
- EDCL 6342 Curriculum Design

Choose 21 hours from the following:

- CTE 5301 Technology of Teaching
- CTE 5306 Instructional Materials Development Technology
- CTE 5313D Leadership and Leadership Activities for Career and Technical Education Teachers
- CTE 5313F Human Performance in the Workplace
- CTE 5314 Human Relations for Career and Technical Education Teachers
- CTE 5320 Effective Methods of Teaching and Training
- CTE 5321 Work-based Learning in Career and Technical Education
- CTE 5322 Teaching and Training as Professions
- CTE 5341 Supervision of Career and Technical Education
- CTE 5355 Career Education and Occupational Information in Career and Technical Education Guidance
- CTE 5380 Management of Business Office Education Training Programs
- CTE 5381 Instructional Strategies in Business Office Education Training Programs
- OCED 5310 Human Problems in the Workplace

Total Hours 36

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Occupational, Workforce, and Leadership Studies: CTE (p. 764), OCED (p. 766)

Courses Offered

Career and Technical Education (CTE)

CTE 5300. Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5301. Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5302. Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, guidance, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides an overview of interdisciplinary studies' frameworks in the fields related to occupational, workforce, and leadership studies. Students investigate career options, develop plans of study, integrate interdisciplinary academic material, and refine interdisciplinary writing skills.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5304. Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5305. Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CTE 5306. Instructional Materials Development Technology.
This course provides students opportunities to develop knowledge, skills, and abilities relevant to assessing instructional materials in education and training, within the context of real-world settings.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5307. Selection, Placement, and Follow-Up in Cooperative Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5308. Problems in Cooperative Training.
This course provides a review of basic standards for cooperative education, underlying reasons for standards, and current issues/problems in cooperative education programs. Students will discuss and provide solutions to current dilemmas of cooperative education, through the use of organizational research techniques and organizational problem solving.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5312. Development, Organization, and Use of Instructional Material.
This course involves the selection of lesson content, lesson planning, and instructional material development. The emphasis is on the effective development and evaluation of instructional materials. A variety of methods will be taught to gather and utilize instructional materials.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5313C. Teaching Entrepreneurship in Career and Technical Education.
This course includes a study and analysis of ownership, marketing strategies, location, financing, regulations, managing, and protecting a business. Students will analyze current research and techniques in teaching entrepreneurship in CTE settings.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313D. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313F. Human Performance in the Workplace.
The course provides an overview of current quality improvement strategies utilized in business and industry settings. Topics include the teaching of HPT, organizational culture, teamwork, leadership, measuring improvement, statistical process control, and restructuring of work.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313L. Emergent Workplace Perspectives.
This course examines the emergent and evolving nature of the modern workplace. Students will explore topics related to interdisciplinary perspectives in the workplace such as inequality related to gender and race, workers' rights, knowledge, control, the role of technology, and globalization.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5313M. Program Evaluation in Career and Technical Education.
Students will gain an in-depth understanding of terminology and program evaluation, guiding principles, approaches and models, and professional standards utilized while conducting program evaluations of career and technical education (CTE) programs. Students will apply these concepts to design a program evaluation proposal for an existing or proposed CTE program.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CTE 5314. Human Relations for Career and Technical Education Teachers.
This course includes a study of methods of establishing and maintaining effective relationships with students, co-workers, families, business and industry, and community members. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5320. Effective Methods of Teaching and Training.
This fundamental course is for trade and industrial educators seeking certification and technical trainers who are not seeking certification. It is designed to prepare them to apply effective teaching principles and techniques. Lesson plans will be prepared, classrooms managed, and practice teaching included.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter

CTE 5321. Work-based Learning in Career and Technical Education.
This course is intended for teacher coordinators of work-based programs in trades and industrial cooperative education. There is an emphasis on selection of occupations and training stations, student recruitment, instructional coordination in numerous on-the-job experiences, state and local reports, and recordkeeping requirements. Research is conducted on local districts.
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
Grade Mode: Standard Letter
CTE 5322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training. Research is conducted on reform efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5323. Technology Applications.
This course covers the use of computers in the classroom or office. Topics include history of computers, philosophies of computer integration, research in computer use, overview of common computer programs, and history and use of the Internet. Trades and Industry teacher candidates will review for the TExES examination.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5330. Overview of Interdisciplinary Research.
Students will become familiar with various interdisciplinary research methods, learn concepts related to research, and conduct reviews and critiques of academic research articles. The application of academic research to practical problems will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5341. Supervision of Career and Technical Education.
This course provides an overview of skills and attitudes for the supervision of personnel in the field of CTE. Students will learn the dynamics of supervision, the supervisor's role in the workplace, and the evaluation of instructional and other personnel in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course deals with the collection, evaluation, and interpretation of common occupational, career, and personal information. It includes an overview of current theory and research in occupational selection techniques, psychological and sociological factors in career selection, and job analysis. The emphasis is on the practical application in CTE settings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5380. Management of Business Office Education Training Programs.
This course is for instructors in industry and business education settings and involves an in-depth analysis of governmental policies relating to teaching and training in business education, working with cooperative education students, assisting individuals with the transition to the workplace and further education.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5381. Instructional Strategies in Business Office Education Training Programs.
This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CTE 5390. Independent Study in Career and Technical Education.
This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Occupational Education (OCED)

OCED 5101. Instructional Skill Development.
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

OCED 5300. Interdisciplinary Research Methods.
Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience. Corequisite: CTE 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5304. Professional Practicum.
This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5310. Human Problems in the Workplace.
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

OCED 5360A. Sustainable Human Systems in Occupational Sciences.
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

OCED 5360B. Critical Thinking in the Workplace.
This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

OCED 5360C. Reflective and Experiential Learning Techniques.
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

OCED 5360D. Leadership Development.
This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360E. Organization Development in the Workplace.
This course introduces students to organization development (OD), which uses knowledge and practices to improve organizational, group, and individual performance. Students will explore major theories, concepts, skills, and techniques for the practice of OD and the interventions used to lead and manage organization change in various contexts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360F. The Basics of Extramural Funding.
Emphasizing professional relationships of mutuality, collaboration, and respect for the client system, this course helps students develop knowledge and skills to enhance organizational resources, particularly in developing programs, raising funds, writing grant proposals, and marketing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

School of Social Work
Health Professions Building Room 150
Telephone: 512-245-2592 Fax: 512-245-8097
http://www.socialwork.txstate.edu/

The School of Social Work is a vibrant branch of the College of Applied Arts. Its graduate program prepares students to engage in advanced specialized social work practice using a generalist framework.

The School of Social Work at Texas State has long been committed to preparing social workers to engage competently with those clients who are most forgotten in our society; these are the clients who are typically served by public agencies. Not only are the School's graduates well-prepared to deal effectively with the most marginalized populations, they are also quite competent in working with a broad spectrum of clients, other professionals, policy-makers, and organizations. A key component to their preparation is the School's extensive network of public and private agencies, both rural and urban, in which students are placed for field practicum.

Master of Social Work (M.S.W.)

- Major in Advanced Practice Leadership (On Campus Advanced BSW Holders Concentration) (http://mycatalog.txstate.edu/graduate/applied-arts/social-work/social-work-oncampus-advanced-msw)
- Major in Advanced Practice Leadership (On Campus Regular Non-BSW Holders Concentration) (http://mycatalog.txstate.edu/graduate/applied-arts/social-work/social-work-oncampus-regular-msw)
- Major in Advanced Practice Leadership (Online Advanced BSW Holders Concentration) (http://mycatalog.txstate.edu/graduate/applied-arts/social-work/social-work-online-advanced-msw)
Master of Social Work (M.S.W.) Major in Advanced Practice Leadership (On Campus Advanced BSW Holders Concentration)

Major Program
The School of Social Work offers the Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership, which prepares students for advanced specialized practice. The degree is fully accredited by the Council on Social Work Education. Social work practice at the M.S.W. level shares a common core of knowledge, values, and skills. Throughout the curriculum, the School emphasizes social justice and professional ethics. The M.S.W. degree prepares graduates for a wide variety of positions in many diverse, interesting fields that address human needs.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- GRE scores not required
- departmental application
- resume/CV (maximum two pages)
- statement of purpose
- possible interview
- baccalaureate degree in social work (B.S.W.) with regional and CSWE (Council on Social Work Education) accreditations, earned within the last ten years
- official transcripts required from each four-year institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- minimum 3.0 GPA in the last two full academic years of study
- minimum 3.0 GPA in all undergraduate social work courses

TOEFL or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:
- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and
  - minimum individual module scores of 6.0

Degree Requirements
The Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership requires 36 semester credit hours.

Course Requirements
Required Courses
- SOWK 5322 Advanced Social Policy and Social Justice 3
- SOWK 5323 Advanced Social Work Research 3
- SOWK 5370 Advanced Program Planning and Grant-Based Resource Development 3
- SOWK 5371 Advanced Assessment, Leadership, and Supervision in Social Service Organizations 3
- SOWK 5372 Advanced Diagnostic Assessment and Intervention with Individuals 3
- SOWK 5373 Advanced Intervention with Families and Groups 3
- SOWK 5678 Advanced Practicum 1 6
- SOWK 5679 Advanced Practicum 2 6

Electives
Choose 6 hours from the following:
- SOWK 5310 Social Work Intervention in Drug Addiction & Abuse
- SOWK 5315 Social Work Intervention in Child Abuse & Neglect
- SOWK 5328 Interdisciplinary Perspectives on Aging
- SOWK 5300A Adventure Therapy: Theory, Research & Practice
- SOWK 5300B Spirituality in Social Work Practice
- SOWK 5300C School Social Work
- SOWK 5300D Hip Hop and Social Justice for Individual and Community Change
- SOWK 5300E Social Work and Health Care
- SOWK 5332 Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War

Total Hours 36

Field Practicum
Field practicum (internship) involves the student intern working in a social service agency under the intensive supervision of a licensed master social worker. Advanced standing students must complete a total of 12 semester credit hours of field practicum. In the second year, the field practicum occurs during the spring term.

Comprehensive Examination Requirements
All candidates for graduate degrees must pass one or more comprehensive examinations.

Master's level courses in Social Work: SOWK
Courses Offered

Social Work (SOWK)

SOWK 5300A. Adventure Therapy: Theory, Research & Practice.
This course will examine adventure therapy theory, research, and practice within a social work framework. Students will have the opportunity to engage in research-informed practice and develop skills in adventure therapy group facilitation. Prerequisite: Graduate student in good academic standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300B. Spirituality in Social Work Practice.
This elective course provides an advanced comprehensive framework of knowledge, values, and skills necessary for ethical and effective spiritually-relevant practice. It examines spirituality as an integral component of a strengths-based approach to social work practice with diverse and/or vulnerable clients. It integrates a contemporary global perspective with critical self-reflection. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300C. School Social Work.
This course is an advanced analysis and assessment of social services in the school setting, including: educational issues, conceptual framework, policies, and service delivery systems. Special attention is paid to cultural diversity, special populations, parent-school collaboration, community liaison, referral systems, and change. Additionally, this course covers individual and group intervention. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300D. Hip Hop and Social Justice for Individual and Community Change.
Contemporary issues of equity and justice are investigated for potential influences on health and well-being. Students will compare professional application of Hip Hop integrated strategies within therapeutic, education, physical health, and afterschool and summer programs. Students will also understand the interdisciplinary aspects of community-based strategies to promote equity and justice. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300E. Social Work and Health Care.
This elective course provides a generalist view of social work practice in mental health and public health, considering the social problems that affect health care, and ethical and effective intervention strategies and service delivery systems. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300F. International Social Work.
This course covers advanced theoretical and practical approaches to empowerment, social and economic justice, and human rights. Particular cultures and specific global problems are examined in-depth to promote student acquisition of an international worldview for human global change based on social work values and research-informed practice. Prerequisite: Graduate status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This graduate course focuses on applied social justice and human rights in a global context from an interdisciplinary standpoint in Ghana. The course involves both experiential and classroom learning with a significant international-based service learning component that intentionally integrates community service, academic learning, and civic learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This course assists students in expanding an intermediate level of knowledge, values, and skills in the area of ethics in social work. The NASW Code of Ethics (US) and the National Codes of Ethics from the International Federation of Social Workers are used.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300I. Social Work and Social Services in Canterbury.
The purpose of this course is to assist the student in exploring social work processes, social service provision and services to special populations in Canterbury, England. Agency visits or primary research will guide learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOWK 5300K. Innovative Community Engagement with Vulnerable Populations.
This service-learning, Study-in-America course will require students to identify, examine, and critically analyze social service programs which provide services to vulnerable populations (persons experiencing poverty, homelessness, food insecurity, criminal justice issues, etc.). Additional components of the course include travel to and participation in service-learning/volunteer activities in Louisiana. Prerequisite: Enrolled in a graduate program at Texas State University; good academic standing.
3 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
This foundation graduate course presents individual and family dynamics across the life cycle, centering on human development, individual and group strengths, and the effects of cultural diversity. It enhances critical thinking and assessment skills about human behavior in social environments, and incorporates material on professional values, ethics, and social justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5309. Human Behavior in Local and Global Social Environments.
This foundation graduate course explores human functioning in the environment by studying families, groups, communities, organizations, and societies in local and global contexts. Through learning content on diversity, populations at risk, and social and economic justice, students build critical thinking and assessment skills using developmental and eco-systems frameworks.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This foundation course studies the United States' social welfare system, emphasizing how social welfare policies affect diverse populations. Topics include social welfare history, and policy development, implementation, evaluation, and values. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This elective course focuses on commonly used and abused drugs as well as the dynamics and treatment of addiction. It emphasizes social work intervention aimed at addiction prevention and treatment. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5313. Foundation Social Work Practice I.
This foundation course explores generalist social work theory and practice methodology in problem-solving with individuals, families, and groups, emphasizing data collection, assessment, intervention planning, and evaluation. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5314. Foundation Social Work Practice II.
This foundation skill-development course emphasizes generalist social work practice with task groups, organizations, and communities. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This elective course considers child welfare services available to abused and neglected children in their own homes, in substitute care, and through the community, emphasizing social work intervention with children and their families. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5316. Foundation Social Work Practice III.
This foundation course develops the student's interpersonal and communication skills with clients and other professionals. Students must demonstrate competence in interviewing, assessment, and planning skills. Students learn to collect data to support assessment, plan intervention, and evaluate practice. Prerequisites: SOWK 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5317. Social Work Research.
This foundation course builds introductory scientific research skills in critical thinking and knowledge of program and practice evaluation. It prepares students to read, interpret, and critique research with skepticism and rigor to perform various research and social work practice activities. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5319. Diagnostic Assessment.
This advanced course examines how individuals, families, and groups interact with the social environment, emphasizing mental health and adaptive capacity, theories of the etiology and development of mental and emotional disorders, and how culture affects mental health. Prerequisites: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced skill-development course emphasizes social work practice in managing small and large organizations. Students develop knowledge and skills in social work management and supervision in non-profit and public organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced course, a study of social legislation affecting disadvantaged persons, emphasizes policy analysis, values, and advocacy through studying social policy history; developing, implementing, and evaluating policy; and influencing social and economic justice. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5323. Advanced Social Work Research.
This advanced course builds knowledge and skills for systematically evaluating programs and practice. It enhances effective and ethical social work practice by teaching skills necessary to design, implement, and empirically assess intervention with client and programs. Prerequisites: SOWK 5317, advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5324. Advanced Direct Practice with Families.
This advanced course focuses on theories, research, and models of practice with families. It emphasizes a systems orientation to assessment and intervention, and integrates issues of self-awareness and human diversity. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5325. Advanced Administrative Leadership Practice III: Challenges and Innovations.
This advanced course expands knowledge and skills by exploring how theories, supervision and management interventions, and social work values are applied to diverse organizational environments. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5326. MC/MP Advanced Direct Practice with Individuals.
This advanced course examines intervention theories and builds specialized skills for effective, ethical practice with individuals. It examines how culture influences individuals, and discusses how to assess individuals from multiple perspectives. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5327. Advanced Direct Practice with Groups.
This advanced course develops effective, ethical group practice skills, including assessment from multiple perspectives, facilitation of group process and intervention, evaluation, and addressing needs of diverse populations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5328. Interdisciplinary Perspectives on Aging.
This interdisciplinary course provides a graduate-level foundation in knowledge and skills used to address a wide range of needs among the aging population, their families, and support systems. Biophysical, psychosocial, and environmental perspectives will be integrated into development of culturally competent approaches to work with elders in many fields. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5329. Organizational Development.
This advanced course examines organizational and inter-organizational social service delivery contexts; how funding, mandate, and organizational arrangements influence services; and factors to consider in modifying existing organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5332. Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War.
The course examines topics at the individual, family, group, organizational, and community levels related to troops who are returning from current combat operations and their families. It reviews the needs, community resources, and policies in place for helping them and their families make this transition. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5334. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in non-profit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5339. Selected Topics in Social Work.
Students study relevant social work topics in depth. Topics, such as social work in schools or in health care, are selected according to students’ needs and professional trends. Repeatable for credit. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This one-semester course highlights individualized reading, independent study and projects, and guided instruction. It is offered by invitation of the professor and with the consent of the MSW Coordinator. It may not be repeated for credit. Prerequisites: Graduate standing and the approval of the MSW Coordinator and School Director.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5370. Advanced Program Planning and Grant-Based Resource Development.
This advanced course emphasizes social work practice in building and developing non-profit and public human services organizations. Course topics include: determining organizational needs and priorities; identifying resources to address needs and priorities; and pursuing grant-funded resources to address organizational needs. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
This advanced course focuses on observational and interview-based evaluations of organizational functioning related to change, diversity, ethical decision-making, budgeting, and implementation of action plans. The course also focuses on development of supervisory strategies to effectively lead and transform an organization. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5372. Advanced Diagnostic Assessment and Intervention with Individuals.
This advanced course focuses on culturally relevant diagnostic assessment of and intervention with individuals based on current theory. The course emphasizes critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5373. Advanced Intervention with Families and Groups.
This advanced course focuses on culturally-relevant knowledge and skills for theory-based, therapeutic assessment and intervention with diverse families and groups. The course emphasizes systemic, critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5410. Foundation Field I (Concurrent).
This foundation course consists of supervised beginning generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: Admission to MSW degree program and completed field application process.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5411. Foundation Field II (Concurrent).
This second foundation course continues supervised generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: SOWK 5410 and Field Coordinator approval.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5612. Direct Practice Field I.
This course offers supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5613. Direct Practice Field II.
This course continues supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5622. Administrative Leadership Field I.
This course offers supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5623. Administrative Leadership Field II.
This course continues supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5678. Advanced Practicum 1.
This course is the first part of the advanced MSW practicum in which students participate in supervised social work practice internships in community agencies and facilities. Students apply classroom knowledge to activities and interventions serving individuals, families, groups, and communities for a minimum of 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5679 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5679. Advanced Practicum 2.
This course is the second in the MSW advanced/final practicum sequence. This course builds on the experiential learning in Advanced Practicum 1, and continues the application of classroom knowledge. The Advanced Practicum 2 focuses on more complex, micro, mezzo, and/or macro learning in diverse community social service agencies and/or facilities for 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5678 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

Master of Social Work (M.S.W.) Major in Advanced Practice Leadership (On Campus Regular Non-BSW Holders Concentration)

Major Program
The School of Social Work offers the Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership, which prepares students for advanced specialized practice. The degree is fully accredited.
by the Council on Social Work Education. Social work practice at the M.S.W. level shares a common core of knowledge, values, and skills. Throughout the curriculum, the School emphasizes social justice and professional ethics. The M.S.W. degree prepares graduates for a wide variety of positions in many diverse, interesting fields that address human needs.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program's web page (http://gradcollege.txstate.edu/programs). International students should review the International Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- GRE scores not required
- departmental application
- resume/CV (maximum two pages)
- statement of purpose
- possible interview
- baccalaureate degree from a regionally accredited university
- official transcripts required from each four-year institution where course credit was granted
- minimum 3.0 GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)

TOEFL or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0
- This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership requires 62 semester credit hours for non-BSW holders. The first (foundation) year curriculum focuses on the generic foundation knowledge and skills necessary for general social work practice, while the second (advanced) year focuses on specialized practice.

Total Hours 62

Field Practicum

Field practicum (internship) involves the student intern working in a social service agency under the intensive supervision of a licensed master social worker. All regular track students must complete a total of 20 semester credit hours of field practicum. Regular track students complete a first-year field practicum while concurrently enrolled in other classes.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master's level courses in Social Work: SOWK
Courses Offered

Social Work (SOWK)

SOWK 5300A. Adventure Therapy: Theory, Research & Practice.
This course will examine adventure therapy theory, research, and practice within a social work framework. Students will have the opportunity to engage in research-informed practice and develop skills in adventure therapy group facilitation. Prerequisite: Graduate student in good academic standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300B. Spirituality in Social Work Practice.
This elective course provides an advanced comprehensive framework of knowledge, values, and skills necessary for ethical and effective spiritually-relevant practice. It examines spirituality as an integral component of a strengths-based approach to social work practice with diverse and/or vulnerable clients. It integrates a contemporary global perspective with critical self-reflection. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300C. School Social Work.
This course is an advanced analytical and assessment of social services in the school setting, including: educational issues, conceptual framework, policies, and service delivery systems. Special attention is paid to cultural diversity, special populations, parent-school collaboration, community liaison, referral systems, and change. Additionally, this course covers individual and group intervention. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300D. Hip Hop and Social Justice for Individual and Community Change.
Contemporary issues of equity and justice are investigated for potential influences on health and well-being. Students will compare professional application of Hip Hop integrated strategies within therapeutic, education, physical health, and afterschool and summer programs. Students will also understand the interdisciplinary aspects of community-based strategies to promote equity and justice. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300E. Social Work and Health Care.
This elective course provides a generalist view of social work practice in mental health and public health, considering the social problems that affect health care, and ethical and effective intervention strategies and service delivery systems. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300F. International Social Work.
This course covers advanced theoretical and practical approaches to empowerment, social and economic justice, and human rights. Particular cultures and specific global problems are examined in-depth to promote student acquisition of an international worldview for human global change based on social work values and research-informed practice. Prerequisite: Graduate status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This graduate course focuses on applied social justice and human rights in a global context from an interdisciplinary standpoint in Ghana. The course involves both experiential and classroom learning with a significant international-based service learning component that intentionally integrates community service, academic learning, and civic learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

The purpose of this course is to assist the student in exploring social work processes, social service provision and services to special populations in Canterbury, England. Agency visits or primary research will guide learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300I. Social Work and Social Services in Canterbury.
The course involves both experiential and classroom learning with a significant international-based service learning component that intentionally integrates community service, academic learning, and civic learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300K. Innovative Community Engagement with Vulnerable Populations.
This service-learning, Study-in-America course will require students to identify, examine, and critically analyze social service programs which provide services to vulnerable populations. Particular components of the course include travel to and participation in service-learning/volunteer activities in Louisiana. Prerequisite: Enrolled in a graduate program at Texas State University; good academic standing.
3 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
This foundation graduate course presents individual and family dynamics across the life cycle, centering on human development, individual and group strengths, and the effects of cultural diversity. It enhances critical thinking and assessment skills about human behavior in social environments, and incorporates material on professional values, ethics, and social justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5309. Human Behavior in Local and Global Social Environments.
This foundation graduate course explores human functioning in the environment by studying families, groups, communities, organizations, and societies in local and global contexts. Through learning content on diversity, populations at risk, and social and economic justice, students build critical thinking and assessment skills using developmental and eco-systems frameworks.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This foundation course studies the United States’ social welfare system, emphasizing how social welfare policies affect diverse populations. Topics include social welfare history, and policy development, implementation, evaluation, and values. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This elective course focuses on commonly used and abused drugs as well as the dynamics and treatment of addiction. It emphasizes social work intervention aimed at addiction prevention and treatment. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5313. Foundation Social Work Practice I.
This foundation course explores generalist social work theory and practice methodology in problem-solving with individuals, families, and groups, emphasizing data collection, assessment, intervention planning, and evaluation. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5314. Foundation Social Work Practice II.
This foundation skill-development course emphasizes generalist social work practice with task groups, organizations, and communities. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This elective course considers child welfare services available to abused and neglected children in their own homes, in substitute care, and through the community, emphasizing social work intervention with children and their families. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5316. Foundation Social Work Practice III.
This foundation course develops the student’s interpersonal and communication skills with clients and other professionals. Students must demonstrate competence in interviewing, assessment, and planning skills. Students learn to collect data to support assessment, plan intervention, and evaluate practice. Prerequisites: SOWK 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5317. Social Work Research.
This foundation course builds introductory scientific research skills in critical thinking and knowledge of program and practice evaluation. It prepares students to read, interpret, and critique research with skepticism and rigor and to perform various research and social work practice activities. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced skill-development course emphasizes social work practice in managing small and large organizations. Students develop knowledge and skills in social work management and supervision in non-profit and public organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5319. Diagnostic Assessment.
This advanced course examines how individuals, families, and groups interact with the social environment, emphasizing mental health and adaptive capacity, theories of the etiology and development of mental and emotional disorders, and how culture affects mental health. Prerequisites: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced course, a study of social legislation affecting disadvantaged persons, emphasizes policy analysis, values, and advocacy through studying social policy history; developing, implementing, and evaluating policy; and influencing social and economic justice. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5322. Advanced Social Work Research.
This advanced course builds knowledge and skills for systematically evaluating programs and practice. It enhances effective and ethical social work practice by teaching skills necessary to design, implement, and empirically assess intervention with client and programs. Prerequisites: SOWK 5317, advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5324. Advanced Direct Practice with Families.
This advanced course focuses on theories, research, and models of practice with families. It emphasizes a systems orientation to assessment and intervention, and integrates issues of self-awareness and human diversity. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5325. Advanced Administrative Leadership Practice III: Challenges and Innovations.
This advanced course expands knowledge and skills by exploring how theories, supervision and management interventions, and social work values are applied to diverse organizational environments. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5326. MC/MP Advanced Direct Practice with Individuals.
This advanced course examines intervention theories and builds specialized skills for effective, ethical practice with individuals. It examines how culture influences individuals, and discusses how to assess individuals from multiple perspectives. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5327. Advanced Direct Practice with Groups.
This advanced course develops effective, ethical group practice skills, including assessment from multiple perspectives, facilitation of group process and intervention, evaluation, and addressing needs of diverse populations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5328. Interdisciplinary Perspectives on Aging.
This interdisciplinary course provides a graduate-level foundation in knowledge and skills used to address a wide range of needs among the aging population, their families, and support systems. Biophysical, psychosocial, and environmental perspectives will be integrated into development of culturally competent approaches to work with elders in many fields. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5329. Organizational Development.
This advanced course examines organizational and inter-organizational social service delivery contexts; how funding, mandate, and organizational arrangements influence services; and factors to consider in modifying existing organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5332. Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War.
The course examines topics at the individual, family, group, organizational, and community levels related to troops who are returning from current combat operations and their families. It reviews the needs, community resources, and policies in place for helping them and their families make this transition. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5334. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in non-profit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5339. Selected Topics in Social Work.
Students study relevant social work topics in depth. Topics, such as social work in schools or in health care, are selected according to students’ needs and professional trends. Repeatable for credit. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This one-semester course highlights individualized reading, independent study and projects, and guided instruction. It is offered by invitation of the professor and with the consent of the MSW Coordinator. It may not be repeated for credit. Prerequisites: Graduate standing and the approval of the MSW Coordinator and School Director.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5370. Advanced Program Planning and Grant-Based Resource Development.
This advanced course emphasizes social work practice in building and developing non-profit and public human services organizations. Course topics include: determining organizational needs and priorities; identifying resources to address needs and priorities; and pursuing grant-funded resources to address organizational needs. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
This advanced course focuses on observational and interview-based evaluations of organizational functioning related to change, diversity, ethical decision-making, budgeting, and implementation of action plans. The course also focuses on development of supervisory strategies to effectively lead and transform an organization. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5372. Advanced Diagnostic Assessment and Intervention with Individuals.
This advanced course focuses on culturally relevant diagnostic assessment of and intervention with individuals based on current theory. The course emphasizes critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5373. Advanced Intervention with Families and Groups.
This advanced course focuses on culturally relevant knowledge and skills for theory-based, therapeutic assessment and intervention with diverse families and groups. The course emphasizes systemic, critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5410. Foundation Field I (Concurrent).
This foundation course consists of supervised beginning generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: Admission to MSW degree program and completed field application process.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5411. Foundation Field II (Concurrent).
This second foundation course continues supervised generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: SOWK 5410 and Field Coordinator approval.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5612. Direct Practice Field I.
This course offers supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5613. Direct Practice Field II.
This course continues supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5622. Administrative Leadership Field I.
This course offers supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5623. Administrative Leadership Field II.
This course continues supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5678. Advanced Practicum 1.
This course is the second in the MSW advanced/final practicum in which students participate in supervised social work practice internships in community agencies and facilities. Students apply classroom knowledge to activities and interventions serving individuals, families, groups, and communities for a minimum of 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5679 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5679. Advanced Practicum 2.
This course is the second in the MSW advanced/final practicum sequence. This course builds on the experiential learning in Advanced Practicum 1, and continues the application of classroom knowledge. The Advanced Practicum 2 focuses on more complex, micro, mezzo, and/or macro learning in diverse community social service agencies and/or facilities for 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5678 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

Master of Social Work (M.S.W.) Major in Advanced Practice Leadership (Online Advanced BSW Holders Concentration)

Major Program
The School of Social Work offers the Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership, which prepares students for advanced specialized practice. The degree is fully accredited
Master of Social Work (M.S.W.) Major in Advanced Practice Leadership (Online Advanced BSW Holders Concentration)

by the Council on Social Work Education. Social work practice at the M.S.W. level shares a common core of knowledge, values, and skills. Throughout the curriculum, the School emphasizes social justice and professional ethics. The M.S.W. degree prepares graduates for a wide variety of positions in many diverse, interesting fields that address human needs.

Total Hours: 36

Field Practicum

Field practicum (internship) involves the student intern working in a social service agency under the intensive supervision of a licensed master social worker. Advanced standing students must complete a total of 12 semester credit hours of field practicum. In the second year, full-time advanced standing students, field practicum occurs during the spring term. Part-time students may spread second-year field practicum across two terms.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Social Work: SOWK

Courses Offered

Social Work (SOWK)

SOWK 5300A. Adventure Therapy: Theory, Research & Practice.
This course will examine adventure therapy theory, research, and practice within a social work framework. Students will have the opportunity to engage in research-informed practice and develop skills in adventure therapy group facilitation. Prerequisite: Graduate student in good standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Topics
Grade Mode: Standard Letter
SOWK 5300B. Spirituality in Social Work Practice.
This elective course provides an advanced comprehensive framework of knowledge, values, and skills necessary for ethical and effective spiritually-relevant practice. It examines spirituality as an integral component of a strengths-based approach to social work practice with diverse and/or vulnerable clients. It integrates a contemporary global perspective with critical self-reflection. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300C. School Social Work.
This course is an advanced analysis and assessment of social services in the school setting, including: educational issues, conceptual framework, policies, and service delivery systems. Special attention is paid to cultural diversity, special populations, parent-school collaboration, community liaison, referral systems, and change. Additionally, this course covers individual and group intervention Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300D. Hip Hop and Social Justice for Individual and Community Change.
Contemporary issues of equity and justice are investigated for potential influences on health and well-being. Students will compare professional application of Hip Hop integrated strategies within therapeutic, education, physical health, and afterschool and summer programs. Students will also understand the interdisciplinary aspects of community-based strategies to promote equity and justice. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300E. Social Work and Health Care.
This elective course provides a generalist view of social work practice in mental health and public health, considering the social problems that affect health care, and ethical and effective intervention strategies and service delivery systems. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300F. International Social Work.
This course covers advanced theoretical and practical approaches to empowerment, social and economic justice, and human rights. Particular cultures and specific global problems are examined in-depth to promote student acquisition of an international worldview for human global change based on social work values and research-informed practice. Prerequisite: Graduate status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This graduate course focuses on applied social justice and human rights in a global context from an interdisciplinary standpoint in Ghana. The course involves both experiential and classroom learning with a significant international-based service learning component that intentionally integrates community service, academic learning, and civic learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This course assists students in expanding an intermediate level of knowledge, values, and skills in the area of ethics in social work. The NASW Code of Ethics (US) and the National Codes of Ethics from the International Federation of Social Workers are used.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300I. Social Work and Social Services in Canterbury.
The purpose of this course is to assist the student in exploring social work processes, social service provision and services to special populations in Canterbury, England. Agency visits or primary research will guide learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300K. Innovative Community Engagement with Vulnerable Populations.
This service-learning, Study-in-America course will require students to identify, examine, and critically analyze social service programs which provide services to vulnerable populations (persons experiencing poverty, homelessness, food insecurity, criminal justice issues, etc). Additional components of the course include travel to and participation in service-learning/volunteer activities in Louisiana. Prerequisite: Enrolled in a graduate program at Texas State University; good academic standing.
3 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This foundation graduate course presents individual and family dynamics across the life cycle, centering on human development, individual and group strengths, and the effects of cultural diversity. It enhances critical thinking and assessment skills about human behavior in social environments, and incorporates material on professional values, ethics, and social justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5309. Human Behavior in Local and Global Social Environments. This foundation graduate course explores human functioning in the environment by studying families, groups, communities, organizations, and societies in local and global contexts. Through learning content on diversity, populations at risk, and social and economic justice, students build critical thinking and assessment skills using developmental and eco-systems frameworks.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5310. Social Welfare Policy and Services. This foundation course studies the United States’ social welfare system, emphasizing how social welfare policies affect diverse populations. Topics include social welfare history, and policy development, implementation, evaluation, and values. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5312. Social Work Intervention in Drug Addiction & Abuse. This elective course focuses on commonly used and abused drugs as well as the dynamics and treatment of addiction. It emphasizes social work intervention aimed at addiction prevention and treatment. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5313. Foundation Social Work Practice I. This foundation course explores generalist social work theory and practice methodology in problem-solving with individuals, families, and groups, emphasizing data collection, assessment, intervention planning, and evaluation. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5314. Foundation Social Work Practice II. This foundation skill-development course emphasizes generalist social work practice with task groups, organizations, and communities. Prerequisite: Admission to the M.S.W. degree program.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5315. Social Work Intervention in Child Abuse & Neglect. This elective course considers child welfare services available to abused and neglected children in their own homes, in substitute care, and through the community, emphasizing social work intervention with children and their families. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5316. Foundation Social Work Practice III. This foundation course develops the student’s interpersonal and communication skills with clients and other professionals. Students must demonstrate competence in interviewing, assessment, and planning skills. Students learn to collect data to support assessment, plan intervention, and evaluate practice. Prerequisites: SOWK 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5317. Social Work Research. This foundation course builds introductory scientific research skills in critical thinking and knowledge of program and practice evaluation. It prepares students to read, interpret, and critique research with skepticism and rigor and to perform various research and social work practice activities. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5319. Diagnostic Assessment. This advanced course examines how individuals, families, and groups interact with the social environment, emphasizing mental health and adaptive capacity, theories of the etiology and development of mental and emotional disorders, and how culture affects mental health. Prerequisites: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5320. Advanced Administrative Leadership Practice I: Introduction to Management. This advanced skill-development course emphasizes social work practice in managing small and large organizations. Students develop knowledge and skills in social work management and supervision in non-profit and public organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5322. Advanced Social Policy and Social Justice. This advanced course, a study of social legislation affecting disadvantaged persons, emphasizes policy analysis, values, and advocacy through studying social policy history; developing, implementing, and evaluating policy; and influencing social and economic justice. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5323. Advanced Social Work Research. This advanced course builds knowledge and skills for systematically evaluating programs and practice. It enhances effective and ethical social work practice by teaching skills necessary to design, implement, and empirically assess intervention with client and programs. Prerequisites: SOWK 5317, advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5324. Advanced Direct Practice with Families. This advanced course focuses on theories, research, and models of practice with families. It emphasizes a systems orientation to assessment and intervention, and integrates issues of self-awareness and human diversity. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter
SOWK 5325. Advanced Administrative Leadership Practice III: Challenges and Innovations.
This advanced course expands knowledge and skills by exploring how theories, supervision and management interventions, and social work values are applied to diverse organizational environments. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5326. MC/MP Advanced Direct Practice with Individuals.
This advanced course examines intervention theories and builds specialized skills for effective, ethical practice with individuals. It examines how culture influences individuals, and discusses how to assess individuals from multiple perspectives. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5327. Advanced Direct Practice with Groups.
This advanced course develops effective, ethical group practice skills, including assessment from multiple perspectives, facilitation of group process and intervention, evaluation, and addressing needs of diverse populations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5328. Interdisciplinary Perspectives on Aging.
This interdisciplinary course provides a graduate-level foundation in knowledge and skills used to address a wide range of needs among the aging population, their families, and support systems. Biophysical, psychosocial, and environmental perspectives will be integrated into development of culturally competent approaches to work with elders in many fields. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5329. Organizational Development.
This advanced course examines organizational and inter-organizational social service delivery contexts; how funding, mandate, and organizational arrangements influence services; and factors to consider in modifying existing organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5332. Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War.
The course examines topics at the individual, family, group, organizational, and community levels related to troops who are returning from current combat operations and their families. It reviews the needs, community resources, and policies in place for helping them and their families make this transition. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5334. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in nonprofit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5339. Selected Topics in Social Work.
Students study relevant social work topics in depth. Topics, such as social work in schools or in health care, are selected according to students' needs and professional trends. Repeatable for credit. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This one-semester course highlights individualized reading, independent study and projects, and guided instruction. It is offered by invitation of the professor and with the consent of the MSW Coordinator. It may not be repeated for credit. Prerequisites: Graduate standing and the approval of the MSW Coordinator and School Director.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5370. Advanced Program Planning and Grant-Based Resource Development.
This advanced course emphasizes social work practice in building and developing non-profit and public human services organizations. Course topics include: determining organizational needs and priorities; identifying resources to address needs and priorities; and pursuing grant-funded resources to address organizational needs. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced course focuses on observational and interview-based evaluations of organizational functioning related to change, diversity, ethical decision-making, budgeting, and implementation of action plans. The course also focuses on development of supervisory strategies to effectively lead and transform an organization. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5372. Advanced Diagnostic Assessment and Intervention with Individuals.
This advanced course focuses on culturally relevant diagnostic assessment of and intervention with individuals based on current theory. The course emphasizes critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5373. Advanced Intervention with Families and Groups.
This advanced course focuses on culturally-relevant knowledge and skills for theory-based, therapeutic assessment and intervention with diverse families and groups. The course emphasizes systemic, critical analysis of contemporary mental health practice using a psychosocial, strengths-based framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5410. Foundation Field I (Concurrent).
This foundation course consists of supervised beginning generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: Admission to MSW degree program and completed field application process.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5411. Foundation Field II (Concurrent).
This second foundation course continues supervised generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: SOWK 5410 and Field Coordinator approval.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5612. Direct Practice Field I.
This course offers supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5613. Direct Practice Field II.
This course continues supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5622. Administrative Leadership Field I.
This course offers supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5623. Administrative Leadership Field II.
This course continues supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5678. Advanced Practicum 1.
This course is the first part of the advanced MSW practicum in which students participate in supervised social work practice internships in community agencies and facilities. Students apply classroom knowledge to activities and interventions serving individuals, families, groups, and communities for a minimum of 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5679 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5679. Advanced Practicum 2.
This course is the second in the MSW advanced/final practicum sequence. This course builds on the experiential learning in Advanced Practicum 1, and continues the application of classroom knowledge. The Advanced Practicum 2 focuses on more complex, micro, mezzo, and/or macro learning in diverse community social service agencies and/or facilities for 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5678 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

TOEFL or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0
- This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Social Work (M.S.W.) degree with a major in Advanced Practice Leadership requires 62 semester credit hours for non-BSW holders. The first (foundation) year curriculum focuses on the generic foundation knowledge and skills necessary for general social work practice, while the second (advanced) year focuses on specialized practice.

Elective

Choose 3 hours from the following:

- SOWK 5312 Social Work Intervention in Drug Addiction & Abuse
- SOWK 5315 Social Work Intervention in Child Abuse & Neglect
- SOWK 5328 Interdisciplinary Perspectives on Aging
- SOWK 5300A Adventure Therapy: Theory, Research & Practice
- SOWK 5300B Spirituality in Social Work Practice
- SOWK 5300C School Social Work
- SOWK 5300D Hip Hop and Social Justice for Individual and Community Change
- SOWK 5300E Social Work and Health Care
- SOWK 5332 Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War

Total Hours: 62

Field Practicum

Field practicum (internship) involves the student intern working in a social service agency under the intensive supervision of a licensed master social worker. All regular track students (full- and part-time) must complete a total of 20 semester credit hours of field practicum. Regular track students complete a first-year field practicum while concurrently enrolled in other classes.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Master’s level courses in Social Work: SOWK

Courses Offered

Social Work (SOWK)

SOWK 5300A. Adventure Therapy: Theory, Research & Practice. This course will examine adventure therapy theory, research, and practice within a social work framework. Students will have the opportunity to engage in research-informed practice and develop skills in adventure therapy group facilitation. Prerequisite: Graduate student in good standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

Grade Mode: Standard Letter
SOWK 5300B. Spirituality in Social Work Practice.
This elective course provides an advanced comprehensive framework of knowledge, values, and skills necessary for ethical and effective spiritually-relevant practice. It examines spirituality as an integral component of a strengths-based approach to social work practice with diverse and/or vulnerable clients. It integrates a contemporary global perspective with critical self-reflection. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300C. School Social Work.
This course is an advanced analysis and assessment of social services in the school setting, including: educational issues, conceptual framework, policies, and service delivery systems. Special attention is paid to cultural diversity, special populations, parent-school collaboration, community liaison, referral systems, and change. Additionally, this course covers individual and group intervention. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300D. Hip Hop and Social Justice for Individual and Community Change.
Contemporary issues of equity and justice are investigated for potential influences on health and well-being. Students will compare professional application of Hip Hop integrated strategies within therapeutic, education, physical health, and afterschool and summer programs. Students will also understand the interdisciplinary aspects of community-based strategies to promote equity and justice. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300E. Social Work and Health Care.
This elective course provides a generalist view of social work practice in mental health and public health, considering the social problems that affect health care, and ethical and effective intervention strategies and service delivery systems. Prerequisite: Graduate student in good academic standing; Department approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300F. International Social Work.
This course covers advanced theoretical and practical approaches to empowerment, social and economic justice, and human rights. Particular cultures and specific global problems are examined in depth to promote student acquisition of an international worldview for human global change based on social work values and research-informed practice. Prerequisite: Graduate status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This graduate course focuses on applied social justice and human rights in a global context from an interdisciplinary standpoint in Ghana. The course involves both experiential and classroom learning with a significant international-based service learning component that intentionally integrates community service, academic learning, and civic learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This course assists students in expanding an intermediate level of knowledge, values, and skills in the area of ethics in social work. The NASW Code of Ethics (US) and the National Codes of Ethics from the International Federation of Social Workers are used.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300I. Social Work and Social Services in Canterbury.
The purpose of this course is to assist the student in exploring social work processes, social service provision and services to special populations in Canterbury, England. Agency visits or primary research will guide learning.
3 Credit Hours. 12 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300J. Innovative Community Engagement with Vulnerable Populations.
This service-learning, Study-in-America course will require students to identify, examine, and critically analyze social service programs which provide services to vulnerable populations (persons experiencing poverty, homelessness, food insecurity, criminal justice issues, etc). Additional components of the course include travel to and participation in service-learning/volunteer activities in Louisiana. Prerequisite: Enrolled in a graduate program at Texas State University; good academic standing.
3 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOWK 5300K. Human Behavior in Individual and Family Social Environments.
This foundation graduate course presents individual and family dynamics across the life cycle, centering on human development, individual and group strengths, and the effects of cultural diversity. It enhances critical thinking and assessment skills about human behavior in social environments, and incorporates material on professional values, ethics, and social justice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5309. Human Behavior in Local and Global Social Environments. This foundation graduate course explores human functioning in the environment by studying families, groups, communities, organizations, and societies in local and global contexts. Through learning content on diversity, populations at risk, and social and economic justice, students build critical thinking and assessment skills using developmental and eco-systems frameworks.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5310. Social Welfare Policy and Services. This foundation course studies the United States' social welfare system, emphasizing how social welfare policies affect diverse populations. Topics include social welfare history, and policy development, implementation, evaluation, and values. Prerequisite: Instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5312. Social Work Intervention in Drug Addiction & Abuse. This elective course focuses on commonly used and abused drugs as well as the dynamics and treatment of addiction. It emphasizes social work intervention aimed at addiction prevention and treatment. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5313. Foundation Social Work Practice I. This foundation course explores generalist social work theory and practice methodology in problem-solving with individuals, families, and groups, emphasizing data collection, assessment, intervention planning, and evaluation. Prerequisite: Admission to the M.S.W. degree program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5314. Foundation Social Work Practice II. This foundation skill-development course emphasizes generalist social work practice with task groups, organizations, and communities. Prerequisite: Admission to the M.S.W. degree program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5315. Social Work Intervention in Child Abuse & Neglect. This elective course considers child welfare services available to abused and neglected children in their own homes, in substitute care, and through the community, emphasizing social work intervention with children and their families. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5316. Foundation Social Work Practice III. This foundation course develops the student's interpersonal and communication skills with clients and other professionals. Students must demonstrate competence in interviewing, assessment, and planning skills. Students learn to collect data to support assessment, plan intervention, and evaluate practice. Prerequisites: SOWK 5313.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5317. Social Work Research. This foundation course builds introductory scientific research skills in critical thinking and knowledge of program and practice evaluation. It prepares students to read, interpret, and critique research with skepticism and rigor and to perform various research and social work practice activities. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5319. Diagnostic Assessment. This advanced course examines how individuals, families, and groups interact with the social environment, emphasizing mental health and adaptive capacity, theories of the etiology and development of mental and emotional disorders, and how culture affects mental health. Prerequisites: Advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5320. Advanced Administrative Leadership Practice I: Introduction to Management. This advanced skill-development course emphasizes social work practice in managing small and large organizations. Students develop knowledge and skills in social work management and supervision in non-profit and public organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5322. Advanced Social Policy and Social Justice. This advanced course, a study of social legislation affecting disadvantaged persons, emphasizes policy analysis, values, and advocacy through studying social policy history; developing, implementing, and evaluating policy; and influencing social and economic justice. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5323. Advanced Social Work Research. This advanced course builds knowledge and skills for systematically evaluating programs and practice. It enhances effective and ethical social work practice by teaching skills necessary to design, implement, and empirically assess intervention with client and programs. Prerequisites: SOWK 5317, advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter

SOWK 5324. Advanced Direct Practice with Families. This advanced course focuses on theories, research, and models of practice with families. It emphasizes a systems orientation to assessment and intervention, and integrates issues of self-awareness and human diversity. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter
SOWK 5325. Advanced Administrative Leadership Practice III: Challenges and Innovations.
This advanced course expands knowledge and skills by exploring how theories, supervision and management interventions, and social work values are applied to diverse organizational environments. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5326. MC/MP Advanced Direct Practice with Individuals.
This advanced course examines intervention theories and builds specialized skills for effective, ethical practice with individuals. It examines how culture influences individuals, and discusses how to assess individuals from multiple perspectives. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5327. Advanced Direct Practice with Groups.
This advanced course develops effective, ethical group practice skills, including assessment from multiple perspectives, facilitation of group process and intervention, evaluation, and addressing needs of diverse populations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5328. Interdisciplinary Perspectives on Aging.
This interdisciplinary course provides a graduate-level foundation in knowledge and skills used to address a wide range of needs among the aging population, their families, and support systems. Biophysical, psychosocial, and environmental perspectives will be integrated into development of culturally competent approaches to work with elders in many fields. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5329. Organizational Development.
This advanced course examines organizational and inter-organizational social service delivery contexts; how funding, mandate, and organizational arrangements influence services; and factors to consider in modifying existing organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5330. Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War.
The course examines topics at the individual, family, group, organizational, and community levels related to troops who are returning from current combat operations and their families. It reviews the needs, community resources, and policies in place for helping them and their families make this transition. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5331. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in non-profit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5332. Selected Topics in Social Work.
Students study relevant social work topics in depth. Topics, such as social work in schools or in health care, are selected according to students' needs and professional trends. Repeatable for credit. Prerequisite: Graduate standing or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This one-semester course highlights individualized reading, independent study and projects, and guided instruction. It is offered by invitation of the professor and with the consent of the MSW Coordinator. It may not be repeated for credit. Prerequisites: Graduate standing and the approval of the MSW Coordinator and School Director.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5334. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in non-profit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5335. Advanced Program Planning and Grant-Based Resource Development.
This advanced course emphasizes social work practice in building and developing non-profit and public human services organizations. Course topics include: determining organizational needs and priorities; identifying resources to address needs and priorities; and pursuing grant-funded resources to address organizational needs. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This advanced course focuses on observational and interview-based evaluations of organizational functioning related to change, diversity, ethical decision-making, budgeting, and implementation of action plans. The course also focuses on development of supervisory strategies to effectively lead and transform an organization. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SOWK 5372. Advanced Diagnostic Assessment and Intervention with Individuals.
This advanced course focuses on culturally relevant diagnostic assessment of and intervention with individuals based on current theory. The course emphasizes critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5373. Advanced Intervention with Families and Groups.
This advanced course focuses on culturally-relevant knowledge and skills for theory-based, therapeutic assessment and intervention with diverse families and groups. The course emphasizes systemic, critical analysis of contemporary mental health practice using a psychosocial, strengths-based framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5410. Foundation Field I (Concurrent).
This foundation course consists of supervised beginning generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: Admission to MSW degree program and completed field application process.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5411. Foundation Field II (Concurrent).
This second foundation course continues supervised generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: SOWK 5410 and Field Coordinator approval.
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5612. Direct Practice Field I.
This course offers supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5613. Direct Practice Field II.
This course continues supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5622. Administrative Leadership Field I.
This course offers supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5623. Administrative Leadership Field II.
This course continues supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5678. Advanced Practicum 1.
This course is the first part of the advanced MSW practicum in which students participate in supervised social work practice internships in community agencies and facilities. Students apply classroom knowledge to activities and interventions serving individuals, families, groups, and communities for a minimum of 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5679 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

SOWK 5679. Advanced Practicum 2.
This course is the second in the MSW advanced/final practicum sequence. This course builds on the experiential learning in Advanced Practicum 1, and continues the application of classroom knowledge. The Advanced Practicum 2 focuses on more complex, micro, mezzo, and/or macro learning in diverse community social service agencies and/or facilities for 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5678 unless enrolled in part-time student status.
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

Named on February 27, 2004 in honor of the generous support of Mr. and Mrs. Emmett McCoy, Texas State’s Emmett and Miriam McCoy College of Business Administration provides broad-based undergraduate and master’s-level educational programs that produce graduates with the values, knowledge, and skills to help them excel in a diverse, globally-competitive environment.

The McCoy College of Business Administration is dedicated to pursuing and providing the knowledge and skills that prepare graduate students for key management responsibilities in today’s complex and dynamic global business environment. The School challenges students to develop the knowledge, skills, and abilities necessary to advance their personal and professional objectives through an environment of teaching excellence, complemented by scholarly research and service.

Master of Business Administration

- Major in Business Administration (General Flex Non-thesis Option) (p. 788)
- Major in Business Administration (General Flex Thesis Option) (p. 798)
- Major in Business Administration (Flex with Computer Information Systems Option) (p. 809)
- Major in Business Administration (Flex with Engineering Technology Option) (p. 820)
- Major in Business Administration (Flex with Health Administration Option) (p. 831)
- Major in Business Administration (Flex with Human Resources Management Option) (p. 842)
- Major in Business Administration (Flex with International Business Option) (p. 853)
- Major in Business Administration (Full-Time Cohort) (p. 864)

Master of Business Administration (M.B.A) Major in Business Administration (General Flex Non-thesis Option)

Major Program

The Master of Business Administration (M.B.A.) degree with a major in Business Administration program in the McCoy College emphasizes the knowledge and tools needed for professional success and is designed for those individuals who expect to pursue careers in the management of organizations in either the public or private sector. The curriculum provides broad-based, generalized education with the flexibility to meet individual needs. Students may choose an optional emphasis in one of five areas of study in a flexible format or select a full-time cohort program. The entire Flex M.B.A. program can be completed at either the San Marcos or Round Rock campus while the Full-Time Cohort program is available exclusively at the San Marcos campus.

Students in the Flex M.B.A. program with a Computer Information Systems Emphasis learn how technology has changed the way business operates and how to harness the power of technology in various business management settings.

The Flex M.B.A. with an Engineering Technology Emphasis is offered in cooperation with the Department of Engineering Technology, an academic division of the College of Science and Engineering. M.B.A. students pursuing the engineering and technology specialization should find enhanced career opportunities with companies oriented significantly toward manufacturing.

Students interested in careers related to international business may choose to seek the Flex M.B.A. degree with an International Business Emphasis. This emphasis is designed to provide focused study in international business including cultural, historical, and political issues. While this emphasis is available to all students in the M.B.A. program, it is especially well suited for undergraduate students in the international studies undergraduate program.

If a student’s interest is the healthcare industry, the Flex M.B.A. with a Health Administration Emphasis may be for them. Offered jointly with the College of Health Professions, the program combines academic content from both colleges to prepare students for a successful career in healthcare.

For those interested in the field of human resources, a Flex M.B.A. with a emphasis in human resource management is available. This option provides information on organizational change, staffing, compensation and benefits, and international HR.

The Full-Time Cohort M.B.A. is offered exclusively at the San Marcos campus. In addition to the core courses, students must complete an internship and study abroad experience in a specific semester as outlined for each cohort group.

Each of the above options require completing course work from three sets of courses:

- Courses in the first set constitute Tier 1 core courses. They are designed to give students a strong foundation in business as well as begin intensive professional development. These courses must be completed for any of the M.B.A. options selected.
- The second set of courses are the Tier 2 core courses. The purpose of the Tier 2 core courses is to ensure that all students completing a program of study have a common academic experience in all areas critical to success in a discipline. While all M.B.A. options require a similar set of Tier 2 core courses, there are some exceptions noted on the Requirements tab.
- The third set of courses for the M.B.A. options is the elective courses. In addition to the required Tier 1 and Tier 2 core courses for each M.B.A. option, the degree candidate is allowed to select a group of courses from an approved set of electives. The exact number of elective courses varies between degree options. Course requirements for each M.B.A. option are described on the Requirements tab.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International
Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- a competitive GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- official GMAT or GRE scores required with a preferred competitive minimum
- responses to specific essay questions
- resume/CV detailing work experience, extracurricular and community activities, and honors and achievements
- two letters of recommendation from persons best able to assess the student’s ability to succeed in graduate school

TOEFL or IELTS Scores

- Non-native English speakers who do not qualify for an English proficiency waiver:
  - official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
    - 19 listening
    - 19 reading
    - 19 speaking
    - 18 writing
  - official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Business Administration (M.B.A.) degree with a major in Business Administration requires 42 semester credit hours.

Tier 1 core courses should be taken before other courses. QMST 5334 should be taken early in a student’s academic year and should be taken in the student’s last term because it serves as the capstone course and includes the comprehensive examination.

Electives

Choose 9 hours of advisor-approved electives. 9

Total Hours 42

1 Electives are available in accounting, business law, computer information systems, economics, finance, management, marketing, quantitative methods, and disciplines outside the field of business. A maximum of six elective hours may be taken outside of business, but the courses must be approved by the graduate advisor before the student enrolls in the course.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Faculty

Master’s level courses in Business Administration: ACC (p. 789), B A (p. ), BLAW (p. ), CIS (p. ), ECO (p. 793), FIN (p. 794), MGT (p. 794), MKT (p. 797), QMST (p. )

Courses Offered

Students must complete the appropriate background course or its equivalent before enrolling in elective courses.

Accounting (ACC)

ACC 5315. Selected Topics in Financial Accounting.
The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5316. Advanced Accounting.
A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5320. Auditing.
A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor’s judgment. (Suggested for CPA eligibility). Prerequisites: ACC 3314 and ACC 4313 with grades of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5340. Individual Income Tax.
A study of the tax concepts and issues involved in an individual's employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. This course may not count as an elective in any master's program in the McCoy College of Business. Prerequisite: ACC 3313 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5350. Professional Accounting Research.
This course provides a study of the sources of authoritative standards in financial accounting. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5352. Financial Statement Reporting and Analysis.
A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5361 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 4313 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5361. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3365 or ACC 5361 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5366. Business Entity Taxation.
Federal income tax provisions affecting business decisions, with an emphasis on C Corporations, Limited Liability Companies, and Partnerships. An introduction to the choice, formation, organization, operation and distribution rules or the preceding business entities. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5367. Seminar in Auditing.
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5369. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in; advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction. Prerequisite: Consent of instructor and department chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5370. Internship in Accounting.
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit

ACC 5371. Accounting Information Systems.
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3385 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5372. Tax Research.
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5373. Fraud Detection and Prevention.  
This course provides an in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5375. Business Information Consulting.  
Integrative capstone for the MSAIT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5377. Partnership Taxation.  
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 4328 or equivalent.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5384. IT Systems Project Management.  
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5385. Database Management Systems.  
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5389. Corporate Governance and Ethics.  
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 3314 (or equivalent) with a grade of "B" or better, and ACC 3363, ACC 3365, ACC 3385, ACC 4313, and ACC 4328 or ACC 5340.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

ACC 5390A. International Accounting.  
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

ACC 5390F. Mergers, Acquisitions, and Consolidations Taxation.  
This course on mergers, acquisitions and consolidations will examine the tax ramifications and corporate strategies considerations of buying, selling and combining different companies; the consolidated tax return consequences of those affiliated groups; and the residual outcomes and tax attributes that result from corporate divisions. Prerequisite: ACC 5366.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Standard Letter

ACC 5390G. Sustainability Reporting.  
This course on sustainability reporting strategies will examine analytical methods and reporting techniques used by for-profit and non-profit companies to support sustainable operations. Prerequisite: ACC 5351 or equivalent.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter
ACC 5390I. Regulation and Professionalism.
This course will cover the professional and legal responsibilities and liabilities of the accounting profession and tax preparers; the commercial law applicable to business transactions; and the legal structure of business organizations. It will also provide a basic overview of corporate and partnership taxation, focusing on current topics and developments. Prerequisite: ACC 3313 with a B or better, ACC 3314 with a B or better, ACC 4328, or their equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

ACC 5680. Internship in Accounting.
This internship involves experiential learning over one entire semester during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit

Business Administration (B A)

B A 5351. Organizational Performance and Competitive Advantage.
This course is designed to provide an integrative understanding of the firm. A variety of organizational models and perspectives will be incorporated to facilitate understanding of the complexities of the firm, its environments, and its relationships with stakeholders. Includes focus on case analysis issues and communication skills. Prerequisite: MBAs only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5352. Developing the Financial Perspective of the Firm.
Development of the theoretical basis and presentation of accounting and finance. Topics include understanding the basic elements of financial statements, the use of accounting information in decision making, and the techniques for the acquisition and management of the firm’s financial resources. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5353. Understanding and Analyzing Organizational Problems.
An introduction to the concepts of economic theory and optimization, with an emphasis on developing skills in data and economic analysis to solve business problems. Coverage includes prices, costs, market structures, macroeconomic policies, and optimization. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5368A. MBA Full Time Cohort International Experience.
This course will focus on developing an understanding and analysis of issues related to business challenges in another country. Students will gain first-hand experience with the business practices, culture and economy of another country. Corequisite: MGT 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

Business Law (BLAW)

BLAW 5310. The Employment Relationship.
A study of trends in the rapidly evolving “law of workplace,” with emphasis on how lawmakers attempt to balance the rights and responsibilities of employers and workers. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5333. Legal Issues of Sustainability and Responsibility.
Diverse frameworks and analytical methods underlying our understanding of sustainability are explored, including the legal aspects & impact on business, society, environment and economy. Topics include corporate governance, globalization, urbanization, energy, human population, food, natural resources, water and equity.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5364. Commercial Law.
A traditional business law course which examines sales, negotiable instruments, creditor’s rights and remedies, secured transactions, bankruptcy law, personal property, bailments, real property and landlord-tenant relationships. Prerequisite: BLAW 2361, graduate status, and good academic standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5368B. Law and Ethics in the Business Environment.
An examination of the ethical dimensions of management decision-making. Problems are viewed through the lens of a value system determined, in part, by the legal system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368D. Business Dispute Administration.
The course describes civil and religious law systems, both in the U.S. and abroad, alternative dispute resolution programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368E. Environmental Law and Policy.
The course attempts to integrate the study of environmental law w/ concepts from other disciplines necessary to an assessment of the law, primarily economics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
B LAW 5368F. Business Law for Entrepreneurs.
Course explores steps that an entrepreneur who is contemplating leaving an employer can take to make the departure amicable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

B LAW 5368G. Legal Issues in International Business Law.
Emphasis in Latin American Business.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

Computer Information Systems (CIS)

CIS 5318. Information Technology in the Digital Economy.
Provides an understanding of the issues involved in the strategic management of the information assets of organizations. Examines the issues and challenges that users face within the Information Technology (IT) management arena as part of a firm’s business and IT strategy. Focus is on managerial rather than technical issues. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5355. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Students will use a relational database management system to develop a management information system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5356. Business Telecommunications.
Explores the technology that is revolutionizing the manner in which business and government conduct their operations and the effects new developments in communication media have on computing systems. This course reflects the current state-of-the-art in data communication networking.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5358. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is designed to familiarize students with current and emerging e-commerce technologies. Topics include Internet technology for business advantage, reinventing the future of business through e-commerce, business opportunities in e-commerce, and social, political, global, and ethical issues associated with e-commerce.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5364. Data Warehousing and Mining.
Familiarizes students with current and emerging data warehousing and mining technologies that are likely to play a strategic role in business organizations. Topics include data mining techniques, data warehouse development life cycle, data warehouse navigation, data quality, and performance issues. Prerequisites: QMST 5334, QMST 2333 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the analysis, design, development, implementation, and maintenance of information security systems. Topics include legal, ethical, professional, personnel issues; risk management; technology; cryptography; and physical security.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The use of information technology in integrating enterprises for operational control and strategic business intelligence is examined via Enterprise Resource Planning (ERP) applications in customer relationships management, accounting, finance, purchasing, production control, sales, marketing, and human resource management. Emphasizes managerial issues surrounding the need, selection, and implementation of ERP systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Economics (ECO)

An intensive study of micro-and macroeconomic concepts; the price system as it functions under competition, monopoly, monopolistic competition and oligopoly; national income measurement and determination; business cycles; money and banking; monetary policy; fiscal policy and economic stabilization. May not be counted as an elective MBA course. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

Examination of the patterns of trade and finance among nations, integrating the topics of exchange rates, trade barriers, customs unions, and macroeconomics policy into a unified treatment of international economic relations. Prerequisite: B A 5353. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
ECO 5316. Managerial Economics.
The application of economic theory and analysis to the formulation of business policy, including demand analysis, production theory, linear programming, and pricing policy. (MBA with Technology Emphasis students complete TECH 5315.) Prerequisite: QMST 5334.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course focuses on the structural characteristics of the emerging market economies, with an emphasis on analyzing the salient economic challenges and opportunities facing contemporary emerging market economies. Prerequisites: BA 5353.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ECO 5378. Macroeconomic Theory and Policy.
An analysis of theory and policy questions relating to the rate of economic growth. The theory of national income, employment and the price level from the point of view of dynamics. Students may take either BA 5378 or BA 5316. Prerequisite: BA 5302 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Finance (FIN)
FIN 5307. Financial Analysis.
Development of the theoretical basis and presentation of the techniques for the acquisition and management of the firm's financial resources. Topics include working capital management, capital budgeting, and internal and external financing decisions. May not be counted as an MBA elective course. This course does not earn graduate degree credit. Prerequisite: B A 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

FIN 5322. Investment Analysis.
This course provides an introduction to the basic concepts of investments and investment management. It is designed to develop a framework within which to view the investment process in a global environment and an understanding of the institutional setting in which investment decisions are made. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is designed to provide students with an overview of the strategies for creating and managing portfolios. At the end of this course, students should understand the tools for investment management. Topics covered include portfolio construction and analysis, risk analysis, asset class management, derivatives, and portfolio performance analysis. Prerequisite: FIN 5322.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5337. International Finance.
Examination of economic incentives and rationale for multinational firms, exchange rate risk exposure and management, investment decision strategy, and the general economic impact of multinational firm activity. Prerequisite: B A 5352. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Examination of economic incentives and rationale for international investment and financing. Topics include exchange rate risk exposure and management, global debt and equity investment and financing, foreign currency derivative markets, and general investment and financing strategy in global capital market. Prerequisite: B A 5352. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FIN 5347C. Real Estate Investment.
An application of capital budgeting to real estate investment decisions. Prerequisite: FIN 5387.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

FIN 5387. Managerial Finance.
Concentrates on the finance function, analysis and budgeting of funds, management of current assets, short and intermediate-term financing requirements, long-term debt policy and capital structure, capital budgeting, and the concept of cost of capital. Risk and return trade-offs also are studied. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5395. Independent Study in Finance.
An in-depth study of a single topic or related problem solved through finance research. The course may be repeated once if the topic studied is different. Prerequisite: Consent of instructor and Department Chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Management (MGT)
MGT 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MGT 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
MGT 5301. Graduate Assistant Development.
Completion of this course is required as a condition of employment for graduate assistants. The course is seminar based and covers topics related to employment responsibilities. This course does not earn graduate degree credit. Prerequisite: McCoy College Graduate Assistant.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

MGT 5310. Organizational Change Management.
 Presents an overview of the process of change in an organization and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored along with practical ideas on building effective teams to make change possible and sustainable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5311. Process Improvement Management in Organizations.
Learn existing and latest developments in process improvement techniques for continuous improvement and the role of quality as a system for establishing an organization's competitive advantage. Process mapping is emphasized and assessment of effectiveness in the interactions of the managerial and technical systems of organizations is also studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5312. Seminar in Management.
Development of philosophy, strategy, and tactics in managing an enterprise. Administrative processes common to all enterprises, such as entrepreneurship, business and society, leadership and group behavior in organizations, business ethics, and international management. (Course may be repeated for credit with different course focus.).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5313. Strategic Management.
An integrative approach to policy formulation and administration (decision making) to achieve organization objectives. Should be taken the last semester of student's MBA program. Prerequisites: QMST 5334, MKT 5321, ACC 5361, FIN 5387.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5314. Organizational Behavior and Theory.
Organizational behavior and structure as influenced by environmental variables and system relationships. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5315. New Venture Management.
This course provides an overview of the entrepreneurial process from the initial idea through start-up, growth, and harvest. Students learn how to write a business plan, manage all the elements of an entrepreneurial business, and develop a better understanding of the requirements of the entrepreneurial life path.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5318. Cross-Cultural Management.
The global environment requires sensitivity to and the adaptation of leadership and management skills and practices, and the culture-bound differences in workplace behavior and attitudes. Explores how differences in cultural core values shape behavior and attitudes of workers, managerial colleagues, and negotiating partners. Prerequisites: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5321. Supply Chain Management.
A variety of tools and frameworks provide students and understanding of the basis behind supply chain decision making. Topics include supply management concepts, demand-supply management, pull/push system, capacity and resource allocation, performance measurement, relationship assessment, and outsourcing in an integrated supply chain. Require graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5325. Managing Business Creativity.
This course focuses on the means by which businesses and individuals foster and maintain their creative and innovative skills. Key topics include: idea generation and refinement, idea screening, prototype development, and feasibility analysis. Objectives are met through classroom exercises, case analysis, guest speakers, and individual and team projects.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of current developments and practices in human resource management, including employment laws; planning, recruitment and selection; training and development programs; wage and benefits administration; performance management, human relations and productivity; labor relations; safety and health; an current contributions to human resource management theory.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5333. Problems in Business Administration.
The student is here given the opportunity to work in the field of his special interest, particularly in the subjects of accounting, business law, marketing, statistics, finance, and insurance. The course will be conducted by conferences between the student and instructors concerned. Problems will be assigned as nearly as possible for the needs of the individual student.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5335. New Venture Launch.
The purpose of this class is to ensure students gain a full understanding of what it takes to start and grow a business. Students learn the process of creating a new venture from the inside by planning, organizing and launching an actual business. Prerequisite: MGT 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MGT 5336. Compensation and Benefits.
This course addresses the rewards systems in organizations. Strategic and technical considerations in designing, administering and managing compensation and benefits plans in organizations, including job analysis and evaluation, wage levels and structures, legal issues, individual and group incentives, and benefits are considered. Prerequisites/corequisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5337. Organizational Staffing.
A study of the methods involved in recruitment and selection of employees with an emphasis on measurement, job analysis, performance appraisal, legal issues, and the role of human resource planning and strategy. This course relies on statistics to teach students to make reliable and valid employment decisions. Prerequisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of theoretical and applied perspectives on needs assessment, design, development delivery and evaluation of training and development as well as organizational change and development. Prerequisite/corequisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of challenges that decision makers consider when managing their human resources across the globe. Drawing on theories and models from cross-cultural and international management areas, this course covers such topics as globalization, culture, emerging international assignments, and expatriate recruitment, selection, training, repatriation, and career management. Prerequisite/corequisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5375. International Management-Latin America.
A study of the cultural, economic, regulatory, and political factors impacting international business. Emphasis is placed on theory and research of management phenomena in Latin America and on issues mediating commercial and governmental relations between the United State and Latin American countries. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

MGT 5380A. Business Ethics Leadership.
This course examines a variety of ethical issues in business from multiple stakeholder perspectives (top management, employees, community members, etc.). The course is designed to enhance moral awareness and facilitate individual development with respect to making ethical decisions that contribute to effective corporate management and leadership.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MGT 5380B. Human Resource Information Systems.
This course provides an overview of functional areas in an HRIS system with a focus on the acquisition of skills with respect to the software as well as knowledge regarding the implementation process, associated benefits and costs, and the application of HRIS to manage critical HRM processes. Prerequisite/corequisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MGT 5380C. Group Dynamics in Organizations.
This course explores the theoretical framework of group interactions as well as the practical workplace challenges associated with organizing, participating on, and managing teams and groups. It addresses the development and use of teams to improve business organizations and is recommended for graduate students preparing for business careers. Prerequisite: B A 5351.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 5380D. Labor Relations and Negotiation.
This graduate level course is a study of labor organizations and their impact as well as negotiation and conflict resolution issues. The course will examine the National Labor Relations Act (NLRA), union and employer rights under the NLRA, union organizing, collective bargaining, negotiation, contract administration, mediation and arbitration. Prerequisite or Co-requisite: MGT 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

The study and application of theory and psychology of managerial communication using written, oral, and technological modes to communicate within the business environment. The course includes the process and product approach to graphics, leadership, problem solving, prioritizing, interviewing, and communicating change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Designed to aid graduate students in analyzing reports, evaluating research and in planning research reports. Involves the selection of research problems, sources of data, analysis, presentation, report writing, directed reading, class reports, and a research problem.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5399. International Leadership.
Course will include lectures, business engagements, cultural excursions, and a service-learning project. To reinforce the theories discussed in class students will interact directly with managers, employees, and international business professionals, learn perspective on cultural and leadership issues. Prerequisite: BA 5351.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 5398. Business Ethics Leadership.
This course examines a variety of ethical issues in business from multiple stakeholder perspectives (top management, employees, community members, etc.). The course is designed to enhance moral awareness and facilitate individual development with respect to making ethical decisions that contribute to effective corporate management and leadership.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
MGT 5395. Graduate Business Internship.  
Integration of professional and academic experience through internship with an external employer. Prerequisites: MBA students only; must have completed 12 or more hours of graduate business courses; enrollment subject to availability and approval.  
3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.  
Grade Mode: Standard Letter

MGT 5399A. Thesis.  
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in MGT 5399B.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

MGT 5399B. Thesis.  
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

Marketing (MKT)  
MKT 5321. Marketing Management.  
A study of the planning and coordination of marketing functions, marketing policies, and the analysis of marketing administration. Prerequisite: B A 5351.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5322. Marketing Research Methods.  
An advanced study of the marketing research process to include problem formulation, determination of sources of information and research design, design of data collection forms, design of the sample, collection of the data, analysis and interpretation of the data, preparation of the research report, and oral presentation of the research findings. Prerequisites: MKT 5321 and QMST 5334.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5325. Global Marketing and the Value Chain.  
To understand the value chain concept and the linkages between value chains in the global marketplace. This will include evaluating the various value chains: supplier, firm, channel, and buyer in the global context. Topics will include procurement, operations, logistics, negotiation, marketing channels, and customer service.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5330. International Marketing.  
An application of marketing concepts to the global business environment. Examines marketing in the light of international economic, social, cultural, business, and environmental factors. Prerequisite: B A 5351.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5331. Integrated Marketing Communications.  
An analysis of consumer behavior in the marketplace and its application to the preparation & presentation of a complete integrated marketing communications plan for a local, regional, and/or national client. Prerequisite: MKT 5321.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5335. Services Marketing.  
Services dominate the U.S. economy and are becoming critical for competitive advantage in companies across the globe and in all industry sectors. This course examines the foundations of services marketing, which are necessary to create, promise, and deliver a successful, interactive customer experience. Prerequisite: MKT 5321.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5395. Independent Study in Marketing.  
Individual problems or topics will be designed and completed to emphasize selected areas of study in Marketing. Requires approval of instructor and program director.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

MKT 5397C. Technology and Marketing.  
Technology & Marketing covers the impact of new information technologies on marketing and marketing industries undergoing high levels of technological change. Subject areas such as social media, e-commerce, database marketing, business-to-business marketing, and customer contact management are examined and illustrated in industry settings that emphasize innovation through new technologies. Prerequisite: MKT 5321.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Standard Letter
MKT 5397D. Marketing Metrics and Analysis.
To understand the measurement, analysis, and interpretation of marketing metrics that are critical for marketing strategy development and firm performance. Topics will include metrics associated with customers, brands, marketing mix decisions, online strategy and social media, firm profitability, and marketing dashboards. Prerequisite: Graduate standing; MKT 5321.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

Quantitative Methods and Statistics (QMST)
QMST 5332. Quantitative Methods.
A study of management science/operations research emphasizing theory and applications of evaluative, predictive, and optimizing models as applied to the management of product and service-oriented operations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

QMST 5334. Advanced Statistical Methods for Business.
The course provides the quantitative foundation for business analysis and decision making. Topics include: inferential statistics, regression analysis, and other analytical/modeling techniques with wide applicability in decision-making and problem solving in all functional areas of business. Prerequisite: B A 5353.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

QMST 5335. Introduction to Forecasting and Simulation.
Introduction to the concepts and principles of forecasting and simulation techniques as applies to planning and decision making in organizations. Topical coverage includes time series forecasting, casual forecasting, discrete event simulation, and continues-event simulation techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Master of Business Administration (M.B.A) Major in Business Administration (General Flex Thesis Option)
Major Program
The Master of Business Administration (M.B.A.) degree with a major in Business Administration program in the McCoy College emphasizes the knowledge and tools needed for professional success and is designed for those individuals who expect to pursue careers in the management of organizations in either the public or private sector. The curriculum provides broad-based, generalized education with the flexibility to meet individual needs. Students may choose an optional emphasis in one of five areas of study in a flexible format or select a full-time cohort program. The entire Flex M.B.A. program can be completed at either the San Marcos or Round Rock campus while the Full-Time Cohort program is available exclusively at the San Marcos campus.

Students in the Flex M.B.A. program with a Computer Information Systems Emphasis learn how technology has changed the way business operates and how to harness the power of technology in various business management settings.

The Flex M.B.A. with an Engineering Technology Emphasis is offered in cooperation with the Department of Engineering Technology, an academic division of the College of Science and Engineering. M.B.A. students pursuing the engineering and technology specialization should find enhanced career opportunities with companies oriented significantly toward manufacturing.

Students interested in careers related to international business may choose to seek the Flex M.B.A. degree with an International Business Emphasis. This emphasis is designed to provide focused study in international business including cultural, historical, and political issues. While this emphasis is available to all students in the M.B.A. program, it is especially well suited for undergraduate students in the international studies undergraduate program.

If a student’s interest is the healthcare industry, the Flex M.B.A. with a Health Administration Emphasis may be for them. Offered jointly with the College of Health Professions, the program combines academic content from both colleges to prepare students for a successful career in healthcare.

For those interested in the field of human resources, a Flex M.B.A. with a emphasis in human resource management is available. This option provides information on organizational change, staffing, compensation and benefits, and international HR.

The Full-Time Cohort M.B.A. is offered exclusively at the San Marcos campus. In addition to the core courses, students must complete an internship and study abroad experience in a specific semester as outlined for each cohort group.

Each of the above options require completing course work from three sets of courses:

- Courses in the first set constitute Tier 1 core courses. They are designed to give students a strong foundation in business as well as begin intensive professional development. These courses must be completed for any of the M.B.A. options selected.
- The second set of courses are the Tier 2 core courses. The purpose of the Tier 2 core courses is to ensure that all students completing a program of study have a common academic experience in all areas critical to success in a discipline. While all M.B.A. options require a similar set of Tier 2 core courses, there are some exceptions noted on the Requirements tab.
- The third set of courses for the M.B.A. options is the elective courses. In addition to the required Tier 1 and Tier 2 core courses for each M.B.A. option, the degree candidate is allowed to select a group of courses from an approved set of electives. The exact number of elective courses varies between degree options. Course requirements for each M.B.A. option are described on the Requirements tab.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program’s web page (http://gradcollege.txstate.edu/programs). International students should review the International
Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- a competitive GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- official GMAT or GRE scores required with a preferred competitive minimum
- responses to specific essay questions
- resume/CV detailing work experience, extracurricular and community activities, and honors and achievements
- two letters of recommendation from persons best able to assess the student’s ability to succeed in graduate school

TOEFL or IELTS Scores

- Non-native English speakers who do not qualify for an English proficiency waiver:
  - official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
    - 19 listening
    - 19 reading
    - 19 speaking
    - 18 writing
  - official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Business Administration (M.B.A.) degree with a major in Business Administration requires 42 semester credit hours, including a thesis.

Tier 1 core courses should be taken before other courses. QMST 5334 should be taken early in a student’s academic program. MGT 5313 should be taken in the student’s last term because it serves as the capstone course and includes the comprehensive examination.

Total Hours 42

1 Electives are available in accounting, business law, computer information systems, economics, finance, management, marketing, quantitative methods, and disciplines outside the field of business. A maximum of six elective hours may be taken outside of business, but the courses must be approved by the graduate advisor before the student enrolls in the course.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College.
Thesis Deadlines and Approval Process

Expenses

Please refer to the section titled "Fee Reduction under V.T.C.A. Education Code, Section 54.054." A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student will need to register for thesis course number 5399A. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled "Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information."

Thesis Deadlines and Approval Process

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student's embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution's email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university's licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master's level courses in Business Administration: ACC (p. 800), B A (p. 803), BLAW (p. 803), CIS (p. 804), ECO (p. 804), FIN (p. 805), MGT (p. 805), MKT (p. 808), QMST (p. 809)

Courses Offered

Students must complete the appropriate background course or its equivalent before enrolling in elective courses.

Accounting (ACC)

ACC 5315. Selected Topics in Financial Accounting.
The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of "B" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5316. Advanced Accounting.
A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5320. Auditing.
A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor's judgment. (Suggested for CPA eligibility). Prerequisites: ACC 3314 and ACC 4313 with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5340. Individual Income Tax.
A study of the tax concepts and issues involved in an individual's employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. This course may not count as an elective in any master's program in the McCoy College of Business. Prerequisite: ACC 3313 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5350. Professional Accounting Research.
This course provides a study of the sources of authoritative standards in financial accounting. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5352. Financial Statement Reporting and Analysis.
A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5361 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 4313 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5361. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3365 or ACC 5361 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5366. Business Entity Taxation.
Federal income tax provisions affecting business decisions, with an emphasis on C Corporations, Limited Liability Companies, and Partnerships. An introduction to the choice, formation, organization, operation and distribution rules or the preceding business entities. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5367. Seminar in Auditing.
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5369. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in: advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction. Prerequisites: Consent of instructor and department chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5370. Internship in Accounting.
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
ACC 5371. Accounting Information Systems.
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3385 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5372. Tax Research.
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5373. Fraud Detection and Prevention.
This course provides in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5375. Business Information Consulting.
Integrative capstone for the MSAIT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5377. Partnership Taxation.
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 4328 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5384. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes project management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5385. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5389. Corporate Governance and Ethics.
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 3314 (or equivalent) with a grade of "B" or better, and ACC 3363, ACC 3365, ACC 3385, ACC 4313, and ACC 4328 or ACC 5340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5390A. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5390F. Mergers, Acquisitions, and Consolidations Taxation.
This course on mergers, acquisitions and consolidations will examine the tax ramifications and corporate strategies considerations of buying, selling and combining different companies; the consolidated tax return consequences of those affiliated groups; and the residual outcomes and tax attributes that result from corporate divisions. Prerequisite: ACC 5366.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
ACC 5390G. Sustainability Reporting.
This course on sustainability reporting strategies will examine analytical methods and reporting techniques used by for-profit and non-profit companies to support sustainable operations. Prerequisite: ACC 5351 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ACC 5390l. Regulation and Professionalism.
This course will cover the professional and legal responsibilities and liabilities of the accounting profession and tax preparers; the commercial law applicable to business transactions; and the legal structure of business organizations. It will also provide a basic overview of corporate and partnership taxation, focusing on current topics and developments. Prerequisite: ACC 3313 with a B or better, ACC 3314 with a B or better, or ACC 4328, or their equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ACC 5680. Internship in Accounting.
This internship involves experiential learning over one entire semester during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit

Business Administration (B A)

B A 5351. Organizational Performance and Competitive Advantage.
This course is designed to provide an integrative understanding of the firm. A variety of organizational models and perspectives will be incorporated to facilitate understanding of the complexities of the firm, its environments, and its relationships with stakeholders. Includes focus on case analysis issues and communication skills. Prerequisite: MBAs only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5352. Developing the Financial Perspective of the Firm.
Development of the theoretical basis and presentation of accounting and finance. Topics include understanding the basic elements of financial statements, the use of accounting information in decision making, and the techniques for the acquisition and management of the firm’s financial resources. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5353. Understanding and Analyzing Organizational Problems.
An introduction to the concepts of economic theory and optimization, with an emphasis on developing skills in data and economic analysis to solve business problems. Coverage includes prices, costs, market structures, macroeconomic policies, and optimization. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5368A. MBA Full Time Cohort International Experience.
This course will focus on developing an understanding and analysis of issues related to business challenges in another country. Students will gain first-hand experience with the business practices, culture and economy of another country. Corequisite: MGT 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Business Law (BLAW)

BLAW 5310. The Employment Relationship.
A study of trends in the rapidly evolving “law of workplace,” with emphasis on how lawmakers attempt to balance the rights and responsibilities of employers and workers. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5333. Legal Issues of Sustainability and Responsibility.
Diverse frameworks and analytical methods underlying our understanding of sustainability are explored, including the legal aspects & impact on business, society, environment and economy. Topics include corporate governance, globalization, urbanization, energy, human population, food, natural resources, water and equity.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5364. Commercial Law.
A traditional business law course which examines sales, negotiable instruments, creditor’s rights and remedies, secured transactions, bankruptcy law, personal property, bailments, real property and landlord-tenant relationships. Prerequisite: BLAW 2361, graduate status, and good academic standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5368B. Law and Ethics in the Business Environment.
An examination of the ethical dimensions of management decision-making. Problems are viewed through the lens of a value system determined, in part, by the legal system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368D. Business Dispute Administration.
Course describes civil and religious law systems, both in the U.S. and abroad, alternative dispute resolution programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
BLAW 5368E. Environmental Law and Policy.
Course attempts to integrate the study of environmental law with concepts from other disciplines necessary to an assessment of the law, primarily economics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368F. Business Law for Entrepreneurs.
Course explores steps that an entrepreneur who is contemplating leaving an employer can take to make the departure amicable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368G. Legal Issues in International Business Law.
Emphasis in Latin American Business.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

Computer Information Systems (CIS)

CIS 5318. Information Technology in the Digital Economy.
Provides an understanding of the issues involved in the strategic management of the information assets of organizations. Examines the issues and challenges that users face within the Information Technology (IT) management arena as part of a firm’s business and IT strategy. Focus is on managerial rather than technical issues. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIS 5355. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Students will use a relational database management system to develop a management information system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5356. Business Telecommunications.
Explores the technology that is revolutionizing the manner in which business and government conduct their operations and the effects new developments in communication media have on computing systems. This course reflects the current state-of-the-art in data communication networking.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5358. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is designed to familiarize students with current and emerging e-commerce technologies. Topics include Internet technology for business advantage, reinventing the future of business through e-commerce, business opportunities in e-commerce, and social, political, global, and ethical issues associated with e-commerce.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5364. Data Warehousing and Mining.
Familiarizes students with current and emerging data warehousing and mining technologies that are likely to play a strategic role in business organizations. Topics include data mining techniques, data warehouse development life cycle, data warehouse navigation, data quality, and performance issues. Prerequisites: QMST 5334, QMST 2333 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the analysis, design, development, implementation, and maintenance of information security systems. Topics include legal, ethical, professional, personnel issues; risk management; technology; cryptography; and physical security.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The use of information technology in integrating enterprises for operational control and strategic business intelligence is examined via Enterprise Resource Planning (ERP) applications in customer relationships management, accounting, finance, purchasing, production control, sales, marketing, and human resource management. Emphasizes managerial issues surrounding the need, selection, and implementation of ERP systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Economics (ECO)

An intensive study of micro- and macroeconomic concepts; the price system as it functions under competition, monopoly, monopolistic competition and oligopoly; national income measurement and determination; business cycles; money and banking; monetary policy; fiscal policy and economic stabilization. May not be counted as an elective MBA course. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

Examination of the patterns of trade and finance among nations, integrating the topics of exchange rates, trade barriers, customs unions, and macroeconomics policy into a unified treatment of international economic relations. Prerequisite: B A 5353. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
ECO 5316. Managerial Economics.
The application of economic theory and analysis to the formulation of business policy, including demand analysis, production theory, linear programming, and pricing policy. (MBA with Technology Emphasis students complete TECH 5315.) Prerequisite: QMST 5334.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course focuses on the structural characteristics of the emerging market economies, with an emphasis on analyzing the salient economic challenges and opportunities facing contemporary emerging market economies. Prerequisites: BA 5353.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ECO 5378. Macroeconomic Theory and Policy.
An analysis of theory and policy questions relating to the rate of economic growth. The theory of national income, employment and the price level from the point of view of dynamics. Students may take either BA 5378 or BA 5316. Prerequisite: BA 5302 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Finance (FIN)

FIN 5307. Financial Analysis.
Development of the theoretical basis and presentation of the techniques for the acquisition and management of the firm’s financial resources. Topics include working capital management, capital budgeting, and internal and external financing decisions. May not be counted as an MBA elective course. This course does not earn graduate degree credit. Prerequisite: B A 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

FIN 5322. Investment Analysis.
This course provides an introduction to the basic concepts of investments and investment management. It is designed to develop a framework within which to view the investment process in a global environment and an understanding of the institutional setting in which investment decisions are made. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is designed to provide students with an overview of the strategies for creating and managing portfolios. At the end of this course, students should understand the tools for investment management. Topics covered include portfolio construction and analysis, risk analysis, asset class management, derivatives, and portfolio performance analysis. Prerequisite: FIN 5322.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5337. International Finance.
Examination of economic incentives and rationale for multinational firms, exchange rate risk exposure and management, investment decision strategy, and the general economic impact of multinational firm activity. Prerequisite: B A 5352. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Examination of economic incentives and rationale for international investment and financing. Topics include exchange rate risk exposure and management, global debt and equity investment and financing, foreign currency derivative markets, and general investment and financing strategy in global capital market. Prerequisite: B A 5352. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FIN 5347C. Real Estate Investment.
An application of capital budgeting to real estate investment decisions. Prerequisite: FIN 5387.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

FIN 5347D. Managerial Finance.
Concentrates on the finance function, analysis and budgeting of funds, management of current assets, short and intermediate-term financing requirements, long-term debt policy and capital structure, capital budgeting, and the concept of cost of capital. Risk and return trade-offs also are studied. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5395. Independent Study in Finance.
An in-depth study of a single topic or related problem solved through finance research. The course may be repeated once if the topic studied is different. Prerequisite: Consent of instructor and Department Chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Management (MGT)

MGT 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MGT 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
MGT 5301. Graduate Assistant Development.
Completion of this course is required as a condition of employment for graduate assistants. The course is seminar based and covers topics related to employment responsibilities. This course does not earn graduate degree credit. Prerequisite: McCoy College Graduate Assistant.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships

MGT 5310. Organizational Change Management.
Presents an overview of the process of change in an organization and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored along with practical ideas on building effective teams to make change possible and sustainable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5311. Process Improvement Management in Organizations.
Learn existing and latest developments in process improvement techniques for continuous improvement and the role of quality as a system for establishing an organization’s competitive advantage. Process mapping is emphasized and assessment of effectiveness in the interactions of the managerial and technical systems of organizations is also studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5312. Seminar in Management.
Development of philosophy, strategy, and tactics in managing an enterprise. Administrative processes common to all enterprises, such as entrepreneurship, business and society, leadership and group behavior in organizations, business ethics, and international management. (Course may be repeated for credit with different course focus.).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5313. Strategic Management.
An integrative approach to policy formulation and administration (decision making) to achieve organization objectives. Should be taken the last semester of student’s MBA program. Prerequisites: QMST 5334, MKT 5321, ACC 5361, FIN 5387.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5314. Organizational Behavior and Theory.
Organizational behavior and structure as influenced by environmental variables and system relationships. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5315. New Venture Management.
This course provides an overview of the entrepreneurial process from the initial idea through start-up, growth, and harvest. Students learn how to write a business plan, manage all the elements of an entrepreneurial business, and develop a better understanding of the requirements of the entrepreneurial life path.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5318. Cross-Cultural Management.
The global environment requires sensitivity to and the adaptation of leadership and management skills and practices, and the culture-bound differences in workplace behavior and attitudes. Explores how differences in cultural core values shape behavior and attitudes of workers, managerial colleagues, and negotiating partners. Prerequisites: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5321. Supply Chain Management.
A variety of tools and frameworks provide students and understanding of the basis behind supply chain decision making. Topics include supply management concepts, demand-supply management, pull/push system, capacity and resource allocation, performance measurement, relationship assessment, and outsourcing in an integrated supply chain. Require graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5325. Managing Business Creativity.
This course focuses on the means by which businesses and individuals foster and maintain their creative and innovative skills. Key topics include: idea generation and refinement, idea screening, prototype development, and feasibility analysis. Objectives are met through classroom exercises, case analysis, guest speakers, and individual and team projects.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of current developments and practices in human resource management, including employment laws; planning, recruitment and selection; training and development programs; wage and benefits administration; performance management, human relations and productivity; labor relations; safety and health; an current contributions to human resource management theory.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5333. Problems in Business Administration.
The student is here given the opportunity to work in the field of his special interest, particularly in the subjects of accounting, business law, marketing, statistics, finance, and insurance. The course will be conducted by conferences between the student and instructors concerned. Problems will be assigned as nearly as possible for the needs of the individual student.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5335. New Venture Launch.
The purpose of this class is to ensure students gain a full understanding of what it takes to start and grow a business. Students learn the process of creating a new venture from the inside by planning, organizing and launching an actual business. Prerequisite: MGT 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MGT 5336. Compensation and Benefits.
This course addresses the rewards systems in organizations. Strategic and technical considerations in designing, administering and managing compensation and benefits plans in organizations, including job analysis and evaluation, wage levels and structures, legal issues, individual and group incentives, and benefits are considered. Prerequisites/corequisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

MGT 5337. Organizational Staffing.
A study of the methods involved in recruitment and selection of employees with an emphasis on measurement, job analysis, performance appraisal, legal issues, and the role of human resource planning and strategy. This course relies on statistics to teach students to make reliable and valid employment decisions. Prerequisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

A study of theoretical and applied perspectives on needs assessment, design, development delivery and evaluation of training and development as well as organizational change and development. Prerequisite/corequisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

A study of challenges that decision makers consider when managing their human resources across the globe. Drawing on theories and models from cross-cultural and international management areas, this course covers such topics as globalization, culture, emerging international assignments, and expatriate recruitment, selection, training, repatriation, and career management. Prerequisite/corequisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

MGT 5375. International Management–Latin America.
A study of the cultural, economic, regulatory, and political factors impacting international business. Emphasis is placed on theory and research of management phenomena in Latin America and on issues mediating commercial and governmental relations between the United State and Latin American countries. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

MGT 5380A. Business Ethics Leadership.
This course examines a variety of ethical issues in business from multiple stakeholder perspectives (top management, employees, community members, etc.). The course is designed to enhance moral awareness and facilitate individual development with respect to making ethical decisions that contribute to effective corporate management and leadership.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics
Grade Mode: Standard Letter

MGT 5380B. Human Resource Information Systems.
This course provides an overview of functional areas in an HRIS system with a focus on the acquisition of skills with respect to the software as well as knowledge regarding the implementation process, associated benefits and costs, and the application of HRIS to manage critical HRM processes. Prerequisite/corequisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics
Grade Mode: Standard Letter

MGT 5380C. Group Dynamics in Organizations.
This course explores the theoretical framework of group interactions as well as the practical workplace challenges associated with organizing, participating on, and managing teams and groups. It addresses the development and use of teams to improve business organizations and is recommended for graduate students preparing for business careers. Prerequisite: BA 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

MGT 5380D. Labor Relations and Negotiation.
This graduate level course is a study of labor organizations and their impact as well as negotiation and conflict resolution issues. The course will examine the National Labor Relations Act (NLRA), union and employer rights under the NLRA, union organizing, collective bargaining, negotiation, contract administration, mediation and arbitration. Prerequisite or Co-requisite: MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

MGT 5380E. International Leadership.
Course will include lectures, business engagements, cultural excursions, and a service-learning project. To reinforce the theories discussed in class students will interact directly with managers, employees, and international business professionals, learn perspective on cultural and leadership issues. Prerequisite: BA 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter

Designed to aid graduate students in analyzing reports, evaluating research and in planning research reports. Involves the selection of research problems, sources of data, analysis, presentation, report writing, directed reading, class reports, and a research problem.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

The study and application of theory and psychology of managerial communication using written, oral, and technological modes to communicate within the business environment. The course includes the process and product approach to graphics, leadership, problem solving, prioritizing, interviewing, and communicating change.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
MGT 5395. Graduate Business Internship.
Integration of professional and academic experience through internship with an external employer. Prerequisites: MBA students only; must have completed 12 or more hours of graduate business courses; enrollment subject to availability and approval.
3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in MGT 5399B.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MGT 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MKT 5321. Marketing Management.
A study of the planning and coordination of marketing functions, marketing policies, and the analysis of marketing administration. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5322. Marketing Research Methods.
An advanced study of the marketing research process to include problem formulation, determination of sources of information and research design, design of data collection forms, design of the sample, collection of the data, analysis and interpretation of the data, preparation of the research report, and oral presentation of the research findings. Prerequisites: MKT 5321 and QMST 5334.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5325. Global Marketing and the Value Chain.
To understand the value chain concept and the linkages between value chains in the global marketplace. This will include evaluating the various value chains: supplier, firm, channel, and buyer in the global context. Topics will include procurement, operations, logistics, negotiation, marketing channels, and customer service.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5330. International Marketing.
An application of marketing concepts to the global business environment. Examines marketing in the light of international economic, social, cultural, business, and environmental factors. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5331. Integrated Marketing Communications.
An analysis of consumer behavior in the marketplace and its application to the preparation & presentation of a complete integrated marketing communications plan for a local, regional, and/or national client. Prerequisite: MKT 5321.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5335. Services Marketing.
Services dominate the U.S. economy and are becoming critical for competitive advantage in companies across the globe and in all industry sectors. This course examines the foundations of services marketing, which are necessary to create, promise, and deliver a successful, interactive customer experience. Prerequisite: MKT 5321.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5395. Independent Study in Marketing.
Individual problems or topics will be designed and completed to emphasize selected areas of study in Marketing. Requires approval of instructor and program director.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 5397C. Technology and Marketing.
Technology & Marketing covers the impact of new information technologies on marketing and marketing industries undergoing high levels of technological change. Subject areas such as social media, e-commerce, database marketing, business-to-business marketing, and customer contact management are examined and illustrated in industry settings that emphasize innovation through new technologies. Prerequisite: MKT 5321.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
Systems Emphasis

Students in the Flex M.B.A. program with a Systems Emphasis is available exclusively at the San Marcos campus. The curriculum provides broad-based, generalized education with the flexibility to meet individual needs. Students may choose an optional emphasis in one of five areas of study in a flexible format or select a full-time cohort individual needs. The Flex M.B.A. with an Engineering Technology Emphasis is offered in cooperation with the Department of Engineering Technology, an academic division of the College of Science and Engineering. M.B.A. students pursuing the engineering and technology specialization should find enhanced career opportunities with companies oriented significantly toward manufacturing.

Students interested in careers related to international business may choose to seek the Flex M.B.A. degree with an International Business Emphasis. This emphasis is designed to provide focused study in international business including cultural, historical, and political issues. While this emphasis is available to all students in the M.B.A. program, it is especially well suited for undergraduate students in the international studies undergraduate program.

If a student’s interest is the healthcare industry, the Flex M.B.A. with a Health Administration Emphasis may be for them. Offered jointly with the College of Health Professions, the program combines academic content from both colleges to prepare students for a successful career in healthcare.

For those interested in the field of human resources, a Flex M.B.A. with a emphasis in human resource management is available. This option provides information on organizational change, staffing, compensation and benefits, and international HR.

The Full-Time Cohort M.B.A. is offered exclusively at the San Marcos campus. In addition to the core courses, students must complete an internship and study abroad experience in a specific semester as outlined for each cohort group.

Each of the above options require completing course work from three sets of courses:

- Courses in the first set constitute Tier 1 core courses. They are designed to give students a strong foundation in business as well as begin intensive professional development. These courses must be completed for any of the M.B.A. options selected.
- The second set of courses are the Tier 2 core courses. The purpose of the Tier 2 core courses is to ensure that all students completing a program of study have a common academic experience in all areas critical to success in a discipline. While all M.B.A. options require a similar set of Tier 2 core courses, there are some exceptions noted on the Requirements tab.
- The third set of courses for the M.B.A. options is the elective courses. In addition to the required Tier 1 and Tier 2 core courses for each M.B.A. option, the degree candidate is allowed to select a group of courses from an approved set of electives. The exact number of elective courses varies between degree options. Course requirements for each M.B.A. option are described on the Requirements tab.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the 2017-2018 academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the 2017-2018 academic year can be found on the program's web page (http://gradcollege.txstate.edu/ programs). International students should review the International
Admission Documents (p. 678) section of the catalog for additional requirements.

- completed online ApplyTexas application
- $40 nonrefundable application fee
- $50 nonrefundable international evaluation fee (if applicable)
- baccalaureate degree from a regionally accredited university
- official transcripts required from each institution where course credit was granted
- a competitive GPA in your last 60 hours of undergraduate course work (plus any completed graduate courses)
- official GMAT or GRE scores required with a preferred competitive minimum
- responses to specific essay questions
- resume/CV detailing work experience, extracurricular and community activities, and honors and achievements
- two letters of recommendation from persons best able to assess the student's ability to succeed in graduate school

TOEFL or IELTS Scores

- Non-native English speakers who do not qualify for an English proficiency waiver:
  - official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
    - 19 listening
    - 19 reading
    - 19 speaking
    - 18 writing
  - official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Degree Requirements

The Master of Business Administration (M.B.A.) degree with a major in Business Administration concentration in Computer Information Systems requires 45 semester credit hours.

Tier 1 core courses should be taken before other courses. QMST 5334 should be taken early in a student's academic program. MGT 5313 should be taken in the student's last term because it serves as the capstone course and includes the comprehensive examination.

Total Hours: 45

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members' signatures, the graduate advisor's signature if required by the program and the department chair's signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.
Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). **NOTE:** MFA theses will have a permanent embargo and will never be published to Digital Collections.

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Business Administration: ACC (p. 811), B A (p. 814), BLAW (p. 814), CIS (p. 815), ECO (p. 815), FIN (p. 816), MKT (p. 819), QMST (p. 820)

Courses Offered

Students must complete the appropriate background course or its equivalent before enrolling in elective courses.

Accounting (ACC)

ACC 5315. Selected Topics in Financial Accounting.
The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5316. Advanced Accounting.
A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5320. Auditing.
A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor's judgment. (Suggested for CPA eligibility). Prerequisites: ACC 3314 and ACC 4313 with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5340. Individual Income Tax.
A study of the tax concepts and issues involved in an individual's employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. This course may not count as an elective in any master's program in the McCoy College of Business. Prerequisite: ACC 3314 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5350. Professional Accounting Research.
This course provides a study of the sources of authoritative standards in financial accounting. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5352. Financial Statement Reporting and Analysis.
A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5361 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 4313 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5361. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3365 or ACC 561 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5366. Business Entity Taxation.
Federal income tax provisions affecting business decisions, with an emphasis on C Corporations, Limited Liability Companies, and Partnerships. An introduction to the choice, formation, organization, operation and distribution rules or the preceding business entities. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5367. Seminar in Auditing.
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5369. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in; advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction. Prerequisite: Consent of instructor and department chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5370. Internship in Accounting.
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit

ACC 5371. Accounting Information Systems.
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3385 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5372. Tax Research.
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisites: ACC 3314 and ACC 4328 (or equivalents) with grades of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5373. Fraud Detection and Prevention.
This course provides an in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5375. Business Information Consulting.
Integrative capstone for the MSAIT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5377. Partnership Taxation.
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 4328 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5384. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5385. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5390I. Regulation and Professionalism.
This course will cover the professional and legal responsibilities and liabilities of the accounting profession and tax preparers; the commercial law applicable to business transactions; and the legal structure of business organizations. It will also provide a basic overview of corporate and partnership taxation, focusing on current topics and developments. Prerequisite: ACC 3313 with a B or better, ACC 3314 with a B or better, ACC 4328, or their equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ACC 5680. Internship in Accounting.
This internship involves experiential learning over one entire semester during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Students taking ACC 5370 for credit may not take ACC 5680 for credit. Prerequisite: Specified by employer with consent of instructor and department chair.
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit

Business Administration (B A)

B A 5351. Organizational Performance and Competitive Advantage.
This course is designed to provide an integrative understanding of the firm. A variety of organizational models and perspectives will be incorporated to facilitate understanding of the complexities of the firm, its environment, and its relationships with stakeholders. Includes focus on case analysis issues and communication skills. Prerequisite: MBAs only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5352. Developing the Financial Perspective of the Firm.
Development of the theoretical basis and presentation of accounting and finance. Topics include understanding the basic elements of financial statements, the use of accounting information in decision making, and the techniques for the acquisition and management of the firm's financial resources. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5353. Understanding and Analyzing Organizational Problems.
An introduction to the concepts of economic theory and optimization, with an emphasis on developing skills in data and economic analysis to solve business problems. Coverage includes prices, costs, market structures, macroeconomic policies, and optimization. Prerequisite: B A 5351 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

B A 5368A. MBA Full Time Cohort International Experience.
This course will focus on developing an understanding and analysis of issues related to business challenges in another country. Students will gain first-hand experience with the business practices, culture and economy of another country. Corequisite: MGT 5313.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Business Law (BLAW)

BLAW 5310. The Employment Relationship.
A study of trends in the rapidly evolving "law of workplace," with emphasis on how lawmakers attempt to balance the rights and responsibilities of employers and workers. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5333. Legal Issues of Sustainability and Responsibility.
Diverse frameworks and analytical methods underlying our understanding of sustainability are explored, including the legal aspects & impact on business, society, environment and economy. Topics include corporate governance, globalization, urbanization, energy, human population, food, natural resources, water and equity.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5364. Commercial Law.
A traditional business law course which examines sales, negotiable instruments, creditor's rights and remedies, secured transactions, bankruptcy law, personal property, bailments, real property and landlord-tenant relationships. Prerequisite: BLAW 2361, graduate status, and good academic standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BLAW 5368B. Law and Ethics in the Business Environment.
An examination of the ethical dimensions of management decision-making. Problems are viewed through the lens of a value system determined, in part, by the legal system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368D. Business Dispute Administration.
Course describes civil and religious law systems, both in the U.S. and abroad, alternative dispute resolution programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368E. Environmental Law and Policy.
Course attempts to integrate the study of environmental law w/ concepts from other disciplines necessary to an assessment of the law, primarily economics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
BLAW 5368F. Business Law for Entrepreneurs.
Course explores steps that an entrepreneur who is contemplating leaving an employer can take to make the departure amicable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

BLAW 5368G. Legal Issues in International Business Law.
Emphasis in Latin American Business.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

Computer Information Systems (CIS)

CIS 5318. Information Technology in the Digital Economy.
Provides an understanding of the issues involved in the strategic management of the information assets of organizations. Examines the issues and challenges that users face within the Information Technology (IT) management arena as part of a firm’s business and IT strategy. Focus is on managerial rather than technical issues. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5355. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Students will use a relational database management system to develop a management information system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5356. Business Telecommunications.
Explores the technology that is revolutionizing the manner in which business and government conduct their operations and the effects new developments in communication media have on computing systems. This course reflects the current state-of-the-art in data communication networking.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5358. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Economics (ECO)

An intensive study of micro-and macroeconomic concepts; the price system as it functions under competition, monopoly, monopolistic competition and oligopoly; national income measurement and determination; business cycles; money and banking; monetary policy; fiscal policy and economic stabilization. May not be counted as an elective MBA course. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

Examination of the patterns of trade and finance among nations, integrating the topics of exchange rates, trade barriers, customs unions, and macroeconomics policy into a unified treatment of international economic relations. Prerequisite: B A 5353. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course is designed to familiarize students with current and emerging e-commerce technologies. Topics include Internet technology for business advantage, reinventing the future of business through e-commerce, business opportunities in e-commerce, and social, political, global, and ethical issues associated with e-commerce.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 5364. Data Warehousing and Mining.
Familiarizes students with current and emerging data warehousing and mining technologies that are likely to play a strategic role in business organizations. Topics include data mining techniques, data warehouse development life cycle, data warehouse navigation, data quality, and performance issues. Prerequisites: QMST 5334, QMST 2333 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the analysis, design, development, implementation, and maintenance of information security systems. Topics include legal, ethical, professional, personnel issues; risk management; technology; cryptography; and physical security.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The use of information technology in integrating enterprises for operational control and strategic business intelligence is examined via Enterprise Resource Planning (ERP) applications in customer relationships management, accounting, finance, purchasing, production control, sales, marketing, and human resource management. Emphasizes managerial issues surrounding the need, selection, and implementation of ERP systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An intensive study of micro-and macroeconomic concepts; the price system as it functions under competition, monopoly, monopolistic competition and oligopoly; national income measurement and determination; business cycles; money and banking; monetary policy; fiscal policy and economic stabilization. May not be counted as an elective MBA course. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

Examination of the patterns of trade and finance among nations, integrating the topics of exchange rates, trade barriers, customs unions, and macroeconomics policy into a unified treatment of international economic relations. Prerequisite: B A 5353. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
Finance (FIN)

FIN 5307. Financial Analysis.
Development of the theoretical basis and presentation of the techniques for the acquisition and management of the firm's financial resources. Topics include working capital management, capital budgeting, and internal and external financing decisions. May not be counted as an MBA elective course. This course does not earn graduate degree credit. Prerequisite: B A 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Standard Letter

The course focuses on the structural characteristics of the emerging market economies, with an emphasis on analyzing the salient economic challenges and opportunities facing contemporary emerging market economies. Prerequisites: BA 5353.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5378. Macroeconomic Theory and Policy.
An analysis of theory and policy questions relating to the rate of economic growth. The theory of national income, employment and the price level from the point of view of dynamics. Students may take either BA 5378 or BA 5316. Prerequisite: BA 5302 or equivalent.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FIN 5322. Investment Analysis.
This course provides an introduction to the basic concepts of investments and investment management. It is designed to develop a framework within which to view the investment process in a global environment and an understanding of the institutional setting in which investment decisions are made. Prerequisite: B A 5352.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
