UCAC CONTACT INFORMATION

Location: UAC 120
Phone: 512-245-2218
Hours: Monday-Friday 8am – 5pm
Email: ucadvising@txstate.edu
Major of the Month: Consumer Affairs

The focus of Consumer Affairs is on families, work, and their subsequent interrelations. Students gain the knowledge and skills to manage resources to meet material needs; strengthen the well being of individuals and families; and address problems in diverse family, community, and work environments. Consumer Affairs students have three major options to choose from: Consumer Affairs, Consumer Affairs - Family and Consumer Science option, and the Family and Consumer Science option with Teacher Certification. Sample job titles include Human Resource Specialist, Teacher, Purchasing Agent, Manager, Marketing Researcher, and Financial Advisor.

Consumer Affairs provides a comprehensive study of family financial decisions and the role of the consumer in the economy. A minor is needed for the degree, and choosing a business administration or mass communications minor would strengthen the qualifications of students interested in working in the business sector, a government position, or exploring the relationship between media and the consumer.

Students who choose the Family and Consumer Sciences option receive a balanced degree program from all areas of the department. Because students receive a well-rounded degree supported by a minor, career options can include community agencies, business organizations, and government programs. The Teacher Certification option prepares students to teach in secondary family and consumer sciences programs.
