Assessments for 2005-2006

LBJ Student Center spot traffic count conducted September 28, 2005
Approximately 15,000 students entered the facility on the day the count was conducted.

LBJ Student Center Traffic Survey conducted February 20 – 23, 2006
An average of 11,100 students entered the facility per day. While there was a slight decrease in the average number of students entering the facility, the number of users (those who did not simply walk through the building, but entered areas of service) increased.

EBI (Educational Benchmarking Survey) conducted April 17 – 21, 2006
EBI received completed surveys May 11, 2006. Results from EBI are still pending. User comment sheets collated reviewed and distributed May 8, 2006.
Improvements: information is used to place marketing information, schedule renovations and upgrades in facilities as well as to plan for future programming. We saw increases in the use of the Lower Lair as well as more users in the building compared to those that only travel through the Atrium. Pending reports on EBI materials to determine changes needed for programs and services. Indications from survey comments indicated high levels of satisfaction with the building and staff and programs, need for more marketing and concern about food service and bookstore prices.

Housing Fair Evaluations - 338 students filled out evaluations as they exited the program
92% of the respondents agreed that there was a sufficient variety of off-campus vendors
96% of the respondents agreed that the vendors were informative
99% of the respondents agreed that they would attend a similar event again
Improvements – Based on the feedback, the event was a success and it indicated that OCSS did a good job advertising and that there may be a need for an additional housing fair.

Fall 2005 Greek Grade Report
The All Panhellenic GPA was the same as the All Texas State Women’s GPA of 2.83
20 out of 31 chapters were below the All Texas State GPA or 64.5%
IFC - 11 of 12 below or 92%
Panhellenic – 1 of 6 below or 17%
NPHC – 5 of 7 below or 71%
MGC – 3 of 6 or 50%
Spring 2006 Greek Grade Report
The Panhellenic GPA was 2.87 compared to the All Texas State Women’s GPA of 2.83
16 out of 31 chapters were below the All Texas State GPA
IFC – 10 of 12 below
Panhellenic – 0 of 6 below
NPHC – 3 of 7 below
MGC – 3 of 6 below
Improvements: There were fewer chapters in spring 2006 below the All Texas State GPA than compared to fall 2005 primarily because there was more emphasis placed on academics by the Greek Affairs staff and the individual councils.

Chapter Accreditation Program (CAP) 2005 Review Summary
Chapters Receiving Full Accreditation – 5
Chapters Receiving Accreditation with Recommendations – 11
Chapters Receiving Probationary Accreditation with Directives – 11
No Accreditation – 0
Improvements – Some chapters improved their overall operations based on the feedback they received from the Greek Affairs staff May 2005.

GAMMA
GAMMA assisted with the Environmental Scan conducted by the Student Affairs Health & Wellness Team to review the downtown area (The Square). Preliminary indications support the notion that the San Marcos community is influenced by alcohol vendors and that the student body is a long way from developing responsible drinking habits within this community.

Panhellenic Recruitment Withdraw Survey
The survey was given to the women who withdrew from the recruitment process and the findings indicated that most of the women who withdrew did so because they were dissatisfied with the recruitment efforts and not matched to the house they were interested in. The Panhellenic Council has decided to focus more on counseling for the potential new members during the process.

Panhellenic Judicial Officer Roundtable Assessment
The findings present a perception of that chapter members are not interested in following guidelines and do not value adherence to standards as much as they should, especially among new members.
Gallery attendance and guest books for each exhibit are utilized as continual assessment tools. Monthly gallery counts average ± 150 visitors per month. Guest books encourage comments/feedback about works in each exhibit as well as the gallery space and are archived by the gallery staff. Based on guest book feedback, an (non-empirical) estimated 98% + of visitors express positive comments and state that the space and exhibits have a positive impact on their student experience.

Texas State Leadership Exchange Overall Evaluation-Written Survey  
Improvement: Over all satisfaction of the event by students indicated this is a worthwhile event with applicable topics and experiences for attendees. Improvement will be made in marketing to general student body to gain more participation in that demographic

Navigators End of Program Learning Outcomes Assessment-Written Survey  
Improvement: students indicated a high degree of learning in the area of leadership theory and organizational development. Improvements will be made in the areas of participation, marketing and experiential activities.

Texas State Interest Inventory  
Improvement: students participated in the inventory during PAWS Preview, with over 90% of those participating completing the survey. Interests were compiled and distributed to sponsoring office so that they could contact students by email with information regarding their interest. All students received an email with email and website links suggesting contacts in their areas of interest.

Evaluation of Fall PAWS Preview Program:  
Evaluation of Spring PAWS Preview Program  
Improvement: Changed Diversity Program to include student presentation by Hip Hop Congress

Spring 2006 PAWS Preview Follow-up of Fall 2005 Students (learning outcomes)

Focus Group on Leadership Conducted March 25, 2006 to ascertain general trends that students want from a leadership program.  
Data revealed students feel that involved students become leaders.  
Students are very interested in a transcript of their involvement.  
Communicating opportunities for leadership is the area that students would like to see improved.

George's Image class project  
Collaborated with Graduate Student Project to assess George’s Image  
Student feedback being compiled for review summer ‘06

LBJ Student Center
2006 Annual Report
12
25. Create a marketing strategy for the leadership office as a whole, promote and create administrative and student buy in that leadership is important at Texas State. Market the Leadership Journey and staff the program with the best facilitators so that the program will start-out being recognized as a stellar leadership program.

26. Creation of the Texas State Leadership Council, formerly Class Council. This organization will be the student voice of leadership on campus and in our office. The organization members will be trained and certified to present and teach leadership topics to student organizations etc.

27. Start recruitment for the Navigators earlier and utilize this years Navigators as mentors for the new participants.

28. Work closely with the Leadership FIG Peer Assistant and residence life to recruit FIG members and to also create a leadership curriculum and calendar of events for the FIG.

29. Collaborate with the office of University Marketing to increase awareness of LBJ Student Center services and Activities and to maintain consistent graphic standards.

30. Operate with established marketing protocols for all areas of the LBJ Student Center.

31. Reinstate marketing internship position for developing LBJ Student Center newspaper advertising.

32. Reinstate Employee Satisfaction survey and work with Retail Operations in utilizing data from customer satisfaction surveys to create targeted marketing promotions.

33. Work to further involve faculty and students from the departments of Marketing, Communications, and Art & Design in LBJ Student Center marketing efforts.

34. Continue operation of Gaillardia Gallery in a new location. Open new location by September 1, 2006 in order to fulfill previous exhibition commitments.

35. Expand collaborations to include other academic departments.

36. Setup email stations throughout the building

37. Cultivate use of intranet/internet capabilities

38. Develop lounge/study space in building

39. Restructure BLR to include new meeting space, computer lab, TV viewing rooms and Gaillardia Gallery

40. Renovate Paws Market

41. Renovate Lair and associated dining areas

42. Create more meeting space

43. Create two audio/visual computer rooms and add Apple computers to Click’s Cyber Café

44. Make the Information Center more of focal point for service and information

45. Relocate Gaillardia Gallery

46. Create “experience” for customers and visitors

47. Work on “Basement” concept

48. Work on making the “mall” a Student Center venue
Major Trends/Obstacles for 2006-2007

Trends:
1. Utilize popular sites such as Facebook and MySpace to increase exposure of LBJ Student Center programs and services.
2. Discover feasibility of Podcasts for Student Center events.
3. Research locations for LBJ Student Center webcams and feasibility of webcasts of major events (Riverfest, Homecoming).
4. Reorganization of LBJ Student Center offices has caused revision of many previously established processes and will take some time to run effectively and efficiently.
5. New staff will bring challenges and expertise to PAWS Preview. As a program, it has great potential, and should be reviewed and evaluated for its delivery mechanisms as well as the impact it has on new students.
6. The majority of Texas State students are commuter students, so our current programs need to be enhanced while searching for new, innovative ideas to meet our commuter students’ needs.
7. Academics have become a priority within Greek life on the national level and at Texas State as well so the emphasis will continue to be on academics.
8. With the number of students interested in Greek life, expansion is inevitable and will happen. Thus, it is anticipated that there will be three new groups by spring 2007.
9. Technology is also another avenue which should be a concern when faced with the increased use of facebook.com and myspace.com among our students. More educational sessions and information should be provided to our student leaders and organization members about these issues.
10. Advisors play an integral role in the development of our student leaders and we must provide adequate training to help them be successful. Further resources and training should be provided by the Campus Activities and Student Organizations office so that we can assist advisors in their roles.
11. Food Services operations need refurbishing and remodeling. The associated dining areas are also in need of refurbishing. The current trend is to create a themed venue.
12. Wireless technology will create many opportunities
13. Developing multiple uses for available space
14. Creating an “experience” at every visit to the Student Center
15. More creative use of the internet to assist in daily operations
16. Marketing needs to take an aggressive move to “telling our story”
Obstacles:

1. Marketing and making the campus aware of the LBJ Student Center’s function on campus will include developing a consistent brand and label.
2. Consistent and timely communication throughout the department will greatly assist with information gathering to meet publication deadlines.
3. Technology efficiency and costs would both be improved with updated tools such as printers, computers and other peripherals.
4. Acquisition of current gallery space by Auxiliary Services.
5. Retention issues across the country are surfacing that indicates we are on the right track, but will continue to need to be sensitive to groups such as First Generation Students, Non Traditional Students and others whose life experiences are not the mainstream issues addressed in much of PAWS Preview.
6. Creating a culture of Leadership on campus where it is recognized and acknowledged as an integral part of the daily student experience in both spoken and written venues at all levels of the institution.
7. The campus and student population will be continued to grow. The demand of hosting large events in the Student Center is increasing; unfortunately, the SC parking garage will not be able to keep up with the parking demand.
8. A major obstacle for Bobcat Build is funding and will continue to be until permanent funding is secured. Also, additional staff is needed to keep up with the growth of the program.
9. The university shuttle fleet will begin replacing the vehicles in this coming year. This will require that we protect the Bus Advertising as a student service to organizations and commuters. Concerns include: different size ads and competing interests.
10. The Student Association for Campus Activities will be challenged in providing venues for music and a variety of entertainment that meet the needs of a diverse student body. Also, SACA is challenged with maximizing their current budget to program events for the student body, while trying to meet the programming desires of a growing diverse campus in the next couple of years. With the precedence set this past year in bringing big-named speakers, artists, and entertainment to campus, SACA will need increased funding to meet its these student needs and desires.
11. The Student Center continues to struggle in hosting and accommodating large to midsize events. There is a great need to create midsize meeting space and to develop underutilized space in the Building. The introduction of a new conference center to San Marcos will affect Student Center Conference Services.
12. Traffic surveys showed fewer students visited the building. This is very significant in that a number of areas were affected. Especially hard hit was Paws Market. Another significant fact from the traffic survey was the increase in people actually “turning the corner” and using services available in the building.
13. Retail Operations had a difficult year. Numbers are down in all aspects of Paws Market. The lost of the Retail Manager midstream affected operations and place a burden on other areas and their associated staffs. The c-store is at a major crossroads. There are discussions underway about whether to keep the operation self-op or to have someone else manage the operation. George’s continues to develop itself and generate cliental. Retail space rental/leasing is a continuing struggle though contracts with DVD rentals and Photo Kiosk machines proved to be very positive additions.
The end of the Spring Semester brought the end of the Hair Fitness operations. There are discussions underway to have Wells Fargo and another hair care operation to take over available space on the Paeso.
