

# Durrenberger Scholarship for Women in Science

Texas State University College of Science and Engineering

---

Gwen and Weldon Durrenberger both shared fond memories of their college days. Because of this love and his deep love for his wife, Gwen, Weldon made a gift of property to Texas State University. Both Weldon and Gwen had exciting careers in the sciences. Weldon wanted to create a lasting memory for Gwen and at the same time assist students who were pursuing a degree in one of the sciences, mathematics, technology or engineering. This property gift has been developed into the Gwen S. Durrenberger Endowment for Women in Science.

- Successful candidates should be pursuing an undergraduate, graduate or PhD degree in the College of Science and Engineering
- In order to receive the award, the successful applicant must remain a full-time student in the College of Science and Engineering.
- Awards will be valued at \$1000 to \$6000 based on student level to be credited towards the recipient's tuition/fees.
- Candidates can apply for the award or be nominated.

## APPLICATION FORM (to be submitted along with your application packet)
