General Academic Information and Admission Requirements

Program Requirements

Enrollment in the Computer Information Systems Certificate program is open to:

- Non-Traditional/Special-Status post baccalaureate students who satisfy Texas State admission requirements.
- Graduate students currently pursuing a master’s degree.
- Undergraduate Non-business majors who have attained junior/senior standing and who are in good academic standing (not on probation) at Texas State. (Note: the CIS Certificate can be identified as a minor for those programs requiring students to have a minor.)
- Business majors, who have been admitted to the McCoy College of Business Administration, assigned an appropriate major code other than 521 (major code of CIS), and are in good academic standing (not on probation) at Texas State.

Books and Supplies (estimated):

Core course costs vary depending on the electives selected. See current syllabus for textbook requirements for each course:

- CIS 2324
- CIS 3325
- CIS 3374
- CIS 3382

Normal Time to Complete Program (months)

12 months

Job Placement Rate for 2010-2011 Completers

We do not keep records on job placement associated with the certificate program as most students obtain the certificate in conjunction with another degree.
