B. Melzer-Health Professions

Meeting convened at 3:30 p.m.

The Council reviewed the member roster. The Council review the meeting dates.

The Council would like the President to meet with the Council to discuss issues such as the assessment of general education issues and learning outcomes.

Motion:
The Council would like the President to come to any meeting of her choice to discuss assessment of general education issues and learning outcomes. T. Hindson so moves. J. Crawford seconds the motion.

The motion was approved unanimously.

The Council present received a proposal to include Math 1329 into the Math component of the General Education Core Curriculum. (The inclusion of Math 1329 to the GECC will accommodate the College of Business changes) The Council can have the College of Business representative (Dr. Wayment) come and talk about this proposal and any issues it raises.

Fall issues to address:
- Substitutions in general education courses with office of Disability Services (Math requirement-pilot testing Math 1316 to meet DS expectations—students must be certified with DS and course satisfies major with us not substituting non-mathematical course for the math component)
- Oral communication and writing-skill courses
- Tentatively waiting for charge to identify other problem areas for Disability Services such as Phil, oral communication, and written communication.
- HPER-special accommodation for mobility impaired
- What is the institutional stand on students meeting minimal expectations and providing special accommodations
- Hearing to see if not ever able to meet expectations
- Collecting social science syllabi
- Natural Science courses under review
- Criminal Justice proposal

Meeting adjourned at 3:54 p.m.
