Called to order: 7:01pm

President Andrew Homann 12:33pm-

November 2nd an event that will be compensating anyone who comes with 5 meal voucher. Any interest in that please go to that it really helps them focus on what they want to do. Group me if you still are not added please let me know. Comp the first 15 signs for the adopt the spot campus they're 36 in total and can email me to let me know if you want to . Frank has resigned from freshman council and looking for someone to help out mason as he takes on the role and we want this spot filled. We are taking composites again so we will be looking for dates and photographers to do that. Looking for ideas to make a student government survey.

Vice President Samantha Martinez 7:08pm-
introducing guest speaker

John Thomaides 7:09pm-

Introduce the campaign team. Been in San Marcos for 24 years and moved here from out of state PA because of location and open a business. Access to the 14th largest cities in the country. A clean healthy river is my main priority and will never vote for anything that will pollute the river. I am ready to serve and I've run meetings and I believe that a mayor has to be a facilitator and a strong person when it comes to strong issues. Put 3million jobs into San Marcos and we have passed a 15 dollar minimum wage to any business that comes to San Marcos. We are the first city in Texas that has actually passed this policy. Every time you buy a phone it will be routed through the city of San Marcos and after all the rebates we will receive 1.2 billion dollars to the city. I've voted against dangerous living apartments for students such as the Woods. I passed a requirement that any lease that's signed must be shown that the apt has flooded and is subjected to flooded if weather persists. Safe housing and we want a renters bill of rights and want to start it. When units are not ready for move in we are going to require that there are some type of housing provided and a card for meal and penalties for the property owner and transportation. We want to make sure you are shuttled or have some sort of rental car. We want to install these renters bill of rights. We want to make San Marcos a town for entrepreneurship and for people to progress. Questions? No questions.

Shannon Fitzpatrick 7:25pm-

handle everything from family issues, adoption, divorce, name changes and a lot of renting issues. Educating of rental agreements, roommate issues, electricity bills being handed all together and late. Encourage the students to come to us and read the lease and help them out. We have saved 350,000 dollars for students when they came to us this is included in your tuition so please use us to your full advantage.

Campus master plan we've been working on it a little close to a year. 3/5ths process and actually in phase b and hoping to take the final plan to regents in May and get these realized.

Preliminary plan; several drivers that we have to consider when enrolling in a plan, academic space, athletics recreation. NRUF institution is what we want to be and one of the big one is have 45million expenditures. There are 64 square feet per students on campus we should be at 99 square feet. housing ; in order to house all the freshmen on campus we need another 124 beds on campus to house all the students. We are actually the top 3 of classroom utilization and we look at past master plans to compare to other schools across the united states. We brought back academic core with housing more on the west campus, housing on the academics blended all over the campus. On the hilltop we want to utilize that into an academic research space. F proposing to build a new music building, A used to be a gymnasium and needs a renovation, C academic building on the hilltop, B Elliott Hall close it in the next couple of years and convert it into office space, Repository is being rebuilt at star park, also new buildings for the round rock campus. parking ; looking at A spec garage, improve parking for commuters on campus, B will have a bridge over sessom, there will be third one later on in the slides. Questions
