Speech and Language
We provide testing and treatment directed toward improving communication skills and on improving the use of oral muscles involved in speech and swallowing. Services are available in English and Spanish, and are offered to individuals experiencing problems with:

- sound and word pronunciation
- dialectal differences or accented speech
- stuttering and fluency disorders
- voice disorders related to overuse and/or reflux
- disorders of speech and language due to stroke, Parkinson’s, Alzheimer’s, and trauma
- disorders of speech and language due to autism spectrum disorder
- developmental language or learning disorders affecting social interaction, reading, and writing
- feeding and swallowing disorders
- communication needs related to assistive technology

We also offer:

- intensive summer programs in stuttering, bilingual speech and language, pediatric feeding and swallowing, literacy, and social skills
- collaboration and staff development with community agencies (training, assessment, and intervention services).

Hearing
We provide testing and treatment for hearing problems in all ages. No one is too young or too old. It is not about ears — it is about you and how hearing loss affects your life.

Services include:

- hearing testing for all ages
- hearing aid sales and repairs, including bone anchored hearing aids (BAHA)
- cochlear implant evaluation and programming
- central auditory processing (CAPD) testing and treatment
- hearing screenings for newborns, school and work requirements
- earplugs for loud sounds and keeping water out of the ears
- collaboration with the Texas Workforce Commission—Vocational Rehabilitation Services (TWC–VRS)
