- **October 31st** – Last Day to Drop a Full Term Class/Automatic “W” Deadline

Resource of the Month: **Advising Centers**

With spring registration beginning this month, you have to ask yourself, “Am I ready?” Do you know what courses you should take? Are you wondering if all your credit has been applied? If you are Exploratory, Exploratory Professional, or a General Studies major, contact us at University College Advising Center to schedule an advising appointment to answer these questions and more.

If you’ve decided to declare another major, contact the appropriate advising center. Information on which advising center hosts your desired major can be found at the following website: [http://advising.txstate.edu/](http://advising.txstate.edu/)
Anthropology seeks to understand “the human condition both culturally and biologically,” basically understanding “what humans are, how they evolved, and how they differ from one another.” Anthropology can often be divided into four separate interests encompassing different aspects of human history: archaeology (the study of past cultures and ways of life), biological anthropology (how evolution connects to biology and culture), cultural anthropology (human cultural variation), and linguistic anthropology (how the development of language helped create society and culture). Anthropology majors can choose between the Bachelor of Arts and the Bachelor of Science degree fields, and students in either major have the opportunity to participate in departmental field schools and/or internship programs. Anthropology majors gain valuable marketable skills in cross-cultural understanding; attention to detail; and organizing people, information, data, and equipment. Sample job titles include: policy analyst, public relations coordinator, excavator, archeologist, curator/archivist, and conservator.

For this and more information, visit the Department of Anthropology website: [http://www.txstate.edu/anthropology/](http://www.txstate.edu/anthropology/) and additional information can be found at the undergraduate catalog: [http://www.txstate.edu/curriculumservices/catalogs/undergraduate/catalogs.html](http://www.txstate.edu/curriculumservices/catalogs/undergraduate/catalogs.html)
