

TEXAS STATE VITA

I. Academic/Professional Background

A. Name: Susanne Schwinning

Title: Associate Professor of Biology

B. Educational Background

Degree	Year	University	Major	Thesis/Dissertation
Ph.D.	1994	University of Arizona, Tucson	Ecology and Evolutionary Biology	Effects of competitive symmetry on populations of annual plants.
M.S.	1986	University of California, Davis	Plant Physiology	Non-thesis option
Diplom	1984	University of Göttingen, Germany	Biology	Isolation of phaseic acid and test of its effects on stomata

C. University Experience

Position	University	Dates
Associate Professor	Texas State University	Sep 2011 – present
Assistant Professor	Texas State University	Jan 2005 – Aug 2011
Academic Associate	University of Arizona	Jan 2001 - present
Postdoctoral Fellow	Columbia University's Biosphere 2 Center	Jan 2002 - Dec 2003
Postdoctoral Fellow	University of Utah	Apr 1997- Dec 2001
Teaching Assistant	University of Arizona	Jan 1988 - May 1994
Lab Technician	University of Nebraska	Jan 1987 - Dec 1987
Lab Assistant	University of California	Aug 1985 - Dec 1986

D. Relevant Professional Experience

Position	Entity	Dates
Science Officer	BBSRC Institute of Grassland and Environmental Research, Okehampton, UK	Jun 1994 - Mar 1997

II. TEACHING

A. Teaching Honors and Awards:

None

B. Courses Taught:

1. Lectures

Modern Biology II, BIO 1421, Texas State University

Plant Water Relations, BIO 7355, Texas State University

Introduction to Ecological Modeling, BIO7368/7469, Texas State University

General Ecology, BIO 4416, Texas State University

Ecology, EEB 302, University of Arizona

Rangeland Management, RM446, University of Arizona

2. Seminars and Research Courses

Population and Conservation Biology Seminar, BIO 7210, Texas State University

Half-Baked Ideas Seminar, BIO 7101, Texas State University

Ecohydrology Seminar, BIO 7102, Texas State University

Undergraduate Research, BIO 4299, Texas State University

Research & Research Experience, BIO 7303/714/7214/7314, Texas State University

Honors Thesis, HON 4390B

Thesis, BIO 4399, Texas State University

Dissertation, BIO 7399, Texas State University

C. Graduate Theses/Dissertations or Exit Committees:

1. Ph.D. students

Nicole Davis, “Predicting future range expansion of whooping crane (*Grus Americana*) winter habitat using long-term census and remotely sensed data” (committee member)

Exit committees:

Benjamin Tobin, “Contributions of Karst Groundwater to Water Quality and Quantity in a Mountain River Basin under Varying Climatic Conditions: The Kaweah River, Sequoia and Kings Canyon National Parks, California”. Texas State University-San Marcos, Spring 2013 (committee member)

Adrian Vogl, “Resilience analysis and management in the Cypress Creek Watershed, Wimberley, Texas”. Texas State University-San Marcos, Spring, 2011 (committee member)

Ana Veronica Gonzalez, “Spatial pattern and rates of change in the vegetation of eastern Edwards Plateau's savannas of Central Texas”. University of Texas at Austin, August 2010 (committee member)

Alessandra Fravolini, “Response of mesquite (*Prosopis velutina* Woot.) carbon-water relations to variations in soil texture and precipitation”. The University of Texas, Tucson, May, 2006 (committee member)

2. Master's students

Angelita Rodriquez, “A survey of invasive species in Austin, Texas: Challenges and opportunities of citizen science”. Expected completion: Spring 2016 (supervisor)

Beth Crouchet, “Covariates of tree mortality associated with the 2011 Texas Drought”. Expected completion: Summer 2016 (supervisor)

Nathan Custer, “Climate x ecotype interactions for three shrub species of the Mojave Desert: Which traits predict fitness variation across climate zones?” Expected completion: Spring 2017 (supervisor)

Wesley Collins, “Testing the effectiveness of fuel supplementation to control invasive C4 grasses in grasslands”. Expected completion: Spring 2017 (supervisor)

Sarah Eisenmenger, “The effect of staggered planting times on competitive interactions and yield of a bean-corn intercrop”. Expected completion: Spring 2017 (supervisor)

Sean Anzaldua, “Quantification of plot-scale spatial heterogeneity in water storage and tree transpiration in rocky soil”. Expected completion: Summer 2017 (supervisor)

Exit committees:

Timothy Fotinos, non-thesis, Fall 2015 (committee member)

Philip Chancellor, non-thesis, Fall 2015 (supervisor)

Brett R. Gerard, “Effects of environmental parameters and precipitation dynamics on infiltration and recharge into the Trinity aquifer of central Texas: Fall 2012 (committee member)

Scott Havill, ”Theoretical considerations regarding the control of invasive grasses by fire”. Texas State University-San Marcos, Fall 2012 (supervisor)

Heather Meckel, “Susceptibility to encroachment by invasive plant species of monocultures and mixtures”. (supervisor, did not complete)

Lisa Jones, “Restoration of an endemic shrub, blackbrush (*Coleogyne ramosissima*) in the Mojave Desert: The effects of seed treatments, predators, and soil depth on germination and survival”. Texas State University-San Marcos, Spring 2012 (supervisor)

Kelly Goodsheller, “Differentiation of water use for three dominant species on the Edwards Plateau”. Texas State University-San Marcos, anticipated completion: November 2010 (supervisor)

Heather Dammeyer, "Short-term responses of clear cutting on the water supplies, the water status and the growth of survivors: which species have the most to gain"? Texas State University-San Marcos, anticipated completion: November 2010 (supervisor)

Garrett Street, "Modeling forage mediated grouping in grazing ruminants". Texas State University-San Marcos, April 2010 (co-advisor)

Erin Rowley, "Optimizing the use of burning in the control of *Bothriochloa ischaemum* in the Texas Hill Country". Texas State University-San Marcos, December 2009 (supervisor)

Donelle Robinson, "Differential sperm expenditure between species in the sailfin molly, *Poecilia latipinna*". Texas State University-San Marcos, June 2006 (committee member)

D. Courses Prepared and Curriculum Development:

Modern Biology II, BIO 1421, Texas State University

Plant Water Relations, BIO 7355, Texas State University

Introduction to Ecological Modeling, BIO7368/7468, Texas State University

General Ecology, BIO 4416, Texas State University

Ecology, EEB 302, University of Arizona

Rangeland Management, RM446, University of Arizona

E. Funded External Teaching Grants and Contracts:

None

F. Submitted, but not Funded, External Teaching Grants and Contracts:

NSF-REU (as PI): "COLLABORATIVE PROPOSAL: "Woody Encroachment into Desert Grasslands: Experimental Assessment of the Critical Establishment Phase" (declined, 2007)

NSF-DGE (as co-PI): "Solving Aquatic Resource Conflicts in Variable Rainfall Regions" (declined, 2006)

NSF-DGE (as co-PI): "Interdisciplinary Aquatic Resource Training in a Semi-Arid Region" (2006, declined)

NSF-REU (as PI): "COLLABORATIVE PROPOSAL:" Woody Encroachment into Desert Grasslands: Experimental Assessment of the Critical Establishment Phase" (declined, 2006)

G. Funded Internal Teaching Grants and Contracts:

None

H. Submitted, but not Funded, Internal Teaching Grants and Contracts:

None

I. Other:

Research Experience for Undergraduates:

Romey Swanson, Texas State University, Spring 2006 – Spring 2007

Anthony Rubino, Texas State University, Spring 2006 – Summer 2006

Lindsey Wirth, Texas State University, Spring 2006

Robert Landry, Texas State University, Spring 2006 – Summer 2007

Nathan Levens, Texas State University, Spring 2007 – Fall 2008

Kelly Goodsheller, Texas State University, Fall 2007 – Spring 2008

Chelsea Briggs, Texas State University, Spring 2009 – Summer 2009

Bobby Cast, Texas State University, Fall 2008

Kevin Hancock, Texas State University, Spring 2009 – Spring 2010

Brian Forrest, Texas State University, Fall 2009 – Spring 2010

Daniel Huston, Texas State University, Fall 2010 – Summer 2011

Rachel Snow, Texas State University, Fall 2010 – present

Jeremy Allen, Texas State University, Fall 2011 – present

John McIntyre, Texas State University, Fall 2011 – present

Silas Ott, Texas State University, Spring 2012 – present

Cristina Zolezzi, Texas State University, Spring 2014 – present

Gisela Salgado, Texas State University, Spring 2014 – present

Thomas Montgomery, Texas State University, Summer 2014 – Spring 2015

Alexander Toder, Texas State University, Summer 2014 – Fall 2015

Jeremiah Leach, Texas State University, Fall 2014 – Summer 2015

Jackson Johnson, Texas State University, Fall 2015 – present

Matthew Harrison, Texas State University, Spring 2016 - present

Undergraduate Honors Theses:

Vera Wood Cruz, “My Watershed: an early elementary curriculum exploring local hydrology”,
August 2007.

III. SCHOLARLY/CREATIVE

A. Works in Print

1. Books (if not refereed, please indicate)

None

a. Scholarly Monographs:

None

b. Textbooks:

None

c. Edited Books:

None

d. Chapters in Books:

1. Schwinning, S., G.A. Fox, Kelly, C.K. 2014. Temporal niches, ecosystem function, and climate change. In: Temporal dynamics and ecological process. C.K. Kelly, C.K., Bowler, M.G., Fox, G.A. (eds). Cambridge University Press, Cambridge, UK.
2. Kelly, C.K., Bowler, M.G., Fox, G.A., Solis-Magallanes, A., Ramos-Tapia, J.M., Lopera Blair, P., Schwinning, S., Williams, J.N., Joy, J. 2014. What temporal processes in trees tell us about competition, community structure and speciation. In: Temporal dynamics and ecological process. C.K. Kelly, C.K., Bowler, M.G., Fox, G.A. (eds). Cambridge University Press, Cambridge, UK
3. Fox, G. A., Kendall, B. E., Schwinning, S. 2012. Environmental heterogeneity impacts on plants at different scales. In: Sourcebook in Theoretical Ecology. Hastings, A., Gross, L. (eds). University of California Press, Berkeley, pp. 258-263.
4. Litvak, M.E., Schwinning, S., Heilman, J.L. 2010. Woody plant rooting depth and ecosystem function of savannas: a case study from the Edwards Plateau karst, Texas, USA. In: Ecosystem Function in Global Savannas: Measurement and Modeling at Landscape to Global Scales. Hill M.J., Hanan N.P. (eds). CRC/Taylor and Francis. pp. 117-134.
5. Schwinning, S., Hooten, M.M. 2009. Mojave desert root systems. In: The Mojave Desert: Ecosystem Processes and Sustainability. Webb, R.H., Fenstermaker, L.F., Heaton, J.S., Hughson, D.L., McDonald, E.V., Miller, D.M. (eds), University of Nevada Press, Reno, pp. 278-311.
6. Ehleringer, J.R., Schwinning, S. and Gebauer, R.L.E. 1999. Water use in arid land ecosystems. In: Advances in Plant Physiological Ecology, Press M. C., Scholes, J.D. and Barker, M.G. (eds), Blackwell Science, Oxford, pp. 347-365.
7. Parsons, A.J., Carrère, P. and Schwinning S. 1999. Dynamics of heterogeneity in a grazed sward. In: Proceedings of the International Symposium on Grassland Ecophysiology and Grazing Ecology, deMoraes, A., Nabinger, C. de Faccio, P.C., Alves, S.J. & Campos Lustosa, S.B. (eds), Curitiba, Parana, Brazil: pp. 187-214.
8. Schwinning, S. and Parsons, A.J. 1996. Interactions between grasses and legumes: understanding variability in species composition. In: Legumes in Sustainable Farming Systems. Proceedings of the Sustainable Farming Systems/British Grassland Society Joint Conference, pp.153-163 (not refereed).

9. Chapman, D.F., Parsons, A.J. and Schwinning, S. 1996. Management of clover in grazed pastures: expectations, limitations and opportunities. In: White Clover: New Zealand's Competitive Edge. Symposium of the New Zealand Grassland Association, Lincoln, N.Z, pp. 55-64 (not refereed).

e. Creative Books:

None

B. Works not in Print

1. Papers Presented at Professional Meetings:

1. Dryland Biodiversity and its conservation. Dryland Conference –GUIDE, Bhuj, Gujarat, India, December 18 – 20, 2006 (invited)
2. Interactions between grasses and legumes: understanding variability in species composition. Sustainable Farming/British Grassland Society Joint Conference: Legumes in Sustainable Farming Systems, Aberdeen, U.K. 1996 (invited)

2. Invited Talks, Lectures, Presentations:

1. Four lectures on Karst Ecohydrology, Institute of Subtropical Agriculture, Chinese Academy of Sciences, Changsha, Hunan 410125, China
2. The Ecohydrology of Roots in Rock. Department of Biology, University of Aberdeen, UK, November 2012.
3. Soil depth changes everything: How limitations of ecosystem water storage govern the ecology of trees in grassland. Symposium on “Sustaining Rangelands in the Southern Great Plains: Adapting to and Mitigating for Climate Change” and the 96th Annual Meeting of the Ecological Society of America, Austin, Texas, August 7-12, 2011.
4. The ecohydrology of roots in rocks. Department of Ecosystem Science and Management, Texas A&M University, College Station, March 2011.
5. Between a rock and a hard place: the water relations of trees on karst. Department of Biology, Texas State University at San Antonio, September 2009.
6. On the Dynamics of Rangeland Management: Fixed Versus Adaptive Stocking. Symposium on Rangeland Ecohydrology at the 62nd Annual Meeting of the Society for Range Management, Albuquerque, New Mexico, February 2009.
7. Soil water partitioning as a basis for explaining plant community structure, Department of Range Ecology and Management, Trinity University, San Antonio, February 2007.
8. From plant physiology to population dynamics: an example from temperate grasslands. USDA-ARS Grasslands Soil and Water Research Laboratory, Temple, Texas, January 30, 2007.
9. Dryland Biodiversity and its conservation. Dryland Conference –GUIDE, Bhuj, Gujarat, India, December 18 – 20, 2006.
10. Resource pulse use in water-limited ecosystems and implications for climate change effects. Department of Biology, University of New Mexico, Albuquerque, New Mexico, November 2006.
11. Biological modeling in grasslands, Crop Science Society of America Meeting, Indianapolis, Indiana, November 12-16, 2006.
12. Resource pulse use in water-limited ecosystems and implications for climate change effects. Department of Biology, Southeastern Louisiana University, Hammond, Louisiana, October 2006.

13. Soil water partitioning as a basis for explaining plant community structure, Department of Range Ecology and Management, Texas A&M University, College Station, Texas, September 2006.
14. Coexistence theory “unpacked” for the case of plants competing for water (Half-baked Ideas Seminar), Department of Biology, Texas State University, 2006.
15. Niche Theories for desert plants. Department of Mathematics, Texas State University, 2006.
16. The role of Mathematics in Biology: a personal perspective, Department of Mathematics, Texas State University, 2005.
17. Interactions between plant functional diversity and water use in water-limited ecosystems. Chapman Conference on Ecohydrology of Semiarid Landscapes: Interactions and Processes, Taos, New Mexico, 9-13 September, 2002.
18. Water supply and optimal water use strategies of desert plants. ESA Symposium on Species Interactions in Desert Communities: Dynamics of Resource Supply and Utilization, Tucson, Arizona, 6 August, 2002.
19. The effects of rainfall timing and event size on water partitioning among plant functional types. NCEAS working group on PrecipNet: Analysis and Synthesis of Precipitation and Ecosystem Change, Santa Barbara, California, 21-25 March, 2002.
20. The prediction of plant functional diversity in water-limited ecosystems. AGU Symposium on Coupled Hydrological and Terrestrial Ecosystem Processes II, Fall Meeting of the American Geophysical Union, San Francisco, 10-14, December, 2001.
21. Predicting vegetation responses to changes in rainfall patterns. USGS Workshop on Predicting hydrologic, geologic, and biologic responses to a drier and warmer climate in the desert Southwest, Tucson, 23-25 April, 2001.
22. Plant functional types identification for desert vegetation and implications for increased climatic variability. GCTE Workshop on Building a Global Key to Plant Functional Types, Isle sur la Sorgue, France, 15-17 October, 2000.
23. Functional diversity in resource pulse utilization in arid shrublands. GCTE/LTER Workshop on Removal Experiments on the Role of Biodiversity in Ecosystem Functioning, Snowbird, Utah, 4-5 August, 2000.
24. Interactions between grasses and legumes: understanding variability in species composition. Sustainable Farming/British Grassland Society Joint Conference: Legumes in Sustainable Farming Systems, Aberdeen, U.K. 1996.
25. Carbon-nitrogen interactions between grasses and legumes under grazing. 4th meeting of the management committee and working groups of COST 619 (Effects of atmospheric carbon dioxide increase on carbon fluxes in grassland ecosystems), Clermont-Ferrand, France (1995).
26. The population dynamics of grass-legume systems. Department of Pure and Applied Biology, Imperial College, London, 1995.

- 27. Modeling vegetation dynamics in pasture systems. Modeling workshop of the Scottish Agricultural College, Auchincruive, U.K., 1995.
- 28. The effects of competitive symmetry on populations of annual plants. Horticulture International (research institute), Wellesbourne, U.K. 1994.

3. Consultancies:

USGS, Recoverability and Vulnerability of Desert Ecosystems. 2004 – 2008.

4. Workshops:

Central Texas Ecologists Meeting, November 8, 2008, City of Austin Water Quality Protection Lands (WQPL), Austin (participant).

Central Texas Ecologists Meeting, December 1, 2007, USDA-ARS Grassland Soil and Water Lab, Temple (organizer).

Central Texas Ecologists Meeting, November 18, 2006, Lady Bird Johnson Wildflower Center, Austin (organizer).

Central Texas Ecologists Meeting, November 12, 2005, Freeman Ranch, San Marcos (organizer).

Precipitation pulse effects in arid and semi-arid ecosystems, International 2-day workshop Tucson, Arizona, 2002, 60 participants, with NSF support (organizer)

PrecipNet Synthesis Group, National Center for Ecological Analysis and Synthesis, Santa Barbara, CA, 2002, 2003 (participant).

Chapman Conference on Ecohydrology of Semiarid Landscapes: Interactions and Processes, Taos, New Mexico, 9-13 September, 2002 (participant).

5. Other:

Symposium Organizer, “Ecohydrology of Shallow Soil Communities and of Roots in Rocks”, 96th Annual Meeting of the Ecological Society of America, Austin, Texas, August 7-12, 2011.

Field trip organizer, “Ecology, Hydrology and management of live oak-juniper savannas on the Edwards Plateau”, 96th Annual Meeting of the Ecological Society of America, Austin, Texas, August 7, 2011.

C. Grants and Contracts

1. Funded External Grants and Contracts:

a. State

Texas Ecolab, 2016. Linking drought-related tree mortality to plant-available water, \$16,378

Texas Ecolab, 2015. Linking drought-related tree mortality to plant-available water, \$13,060

Texas Ecolab, 2014. Correlates of drought-related tree mortality during the Texas drought of 2011, \$11,019

Norman Hackerman Advanced Research Program (as co-PI), Texas Higher Education Coordinating Board, 2007-2009. Epikarst Controls on Recharge, Water Quality and Ecosystem dynamics in Central Texas Hill Country, \$150,000.

b. Federal

NSF-DEB 1557262. 2016 - 2018. Collaborative Research: Hydrological tipping points and desertification of semi-arid woodlands. Collaborative project with The University of New Mexico. TSU: \$171,146

DOD Legacy. 2016/17. Characterizing Mojave Desert shrub ecotypes to establish seed transfer zones for military range restoration. 127,163

USGS Cooperative Agreement G09AC00312. 2009 – 2015. Ecohydrological effects of shallow soils in the Mojave Desert, to date: \$88,537.

USDA Cooperative Agreement 58-6206-048. 2010 – 2012. Susceptibility to encroachment by invasive plant species of monocultures and mixtures, to date: 13,300.

NSF-DEB 0620836. 2006 – 2009. Collaborative Research: Woody encroachment into desert grassland: experimental assessment of the critical seedling establishment phase. Collaborative project with The University of Arizona. Total: \$450,000, TSU: \$95,875.

NSF-DEB 0222313. 2002. Workshop: Precipitation pulse effects in arid and semi-arid ecosystems, \$20,000.

c. International

CAS (Chinese Academy of Sciences) President's International Fellowship Initiative 2016. (¥120,000).

BBSRC (Biotechnology and Biological Sciences Research Council, U.K.) 1997-2000. Improving the reliability of non-fertilized grass/clover pasture - a proposed mechanism and its test. £172,000.

BBSRC (Biotechnology and Biological Sciences Research Council, U.K.) 1996-1997. UK/France research collaboration, £6,000.

Education Abroad Program, University of Göttingen, Germany, 1984. DM 20,000.

2. Submitted, but not Funded, External Grants and Contracts:

DOD Legacy, 2015 (PI) Pre-proposal: Thinking ahead for military ranges by testing plant ecotype fitness across climate regions and soils (invited).

NSF-DEB, 2015 (PI) Preliminary Proposal: Recruitment niches and the evolution of drought tolerance in tropical dry forest trees (not invited).

NSF-DEB, 2015 (co-PI) Preliminary Proposal: Hydrological tipping points and desertification of semi-arid woodlands (invited).

NSF-DEB, 2014 (co-PI) Preliminary Proposal: Effects of Precipitation Seasonality on Nitrogen Conservation in Monoculture and Multispecies Perennial Grasslands (not invited).

NSF-EAR, 2013 (co-PI) WSC-Category 3: Water STAR (Sustainability, Transformability, Adaptability, Resilience) in Texas' Water Systems in the Face of Changing Climate, Land Use, and Human Demands (declined).

NASA-NSPIRES, 2013 (co-PI) Quantifying Agricultural, Ecological, Social, and Hydrological Impacts of and Responses to the Record-setting Drought: A Texas Example (pending).

DOE-BER, 2012 (PI) Improving the capacity of Dynamic Global Vegetation Models (DGVMs) to predict tree drought mortality (declined).

NSF-DEB, 2012 (co-PI) **COLLABORATIVE PROPOSAL**: The 2011 Texas Drought: An autopsy of a tree mortality event (declined).

DOE-BER, 2011 (PI) Improving predictions of drought mortality in a Dynamic Global Vegetation Model: Interactions of cavitation control and constraints on water storage in the root zone (declined).

NSF-DEB, 2011 (co-PI) **COLLABORATIVE RESEARCH**: How does drought kill trees? Untangling the web of suggested mechanisms for prediction of tree mortality in a drier, hotter climate (declined).

NSF-DEB, 2011(PI) **COLLABORATIVE RESEARCH**: Integrating phylogeny, function and evolution to understand the basis of species redundancy (declined).

NSF-DEB, 2011 (PI) **DIMENSIONS: COLLABORATIVE RESEARCH**: Integrating relatedness, functional traits and ecological substitutability in tropical dry forests across altitudinal gradients (declined).

NSF-DEB, 2010 (PI) **COLLABORATIVE RESEARCH**: Edaphic constraints on ecosystem carbon and water exchanges: Quantifying impacts of soil depth and rock. Total: \$1,025,609, TSU: \$363,757 (declined).

NSF-DIMENSIONS, 2010 (PI) **COLLABORATIVE RESEARCH**: Integrating relatedness, functional traits and ecological substitutability in tropical dry forests across altitudinal and latitudinal gradients (declined).

NSF-DEB, 2009 (PI) COLLABORATIVE RESEARCH: Coexistence and temporal niche dynamics in three pairs of most-closely-related species of *Bursera* (declined).

NSF-DEB, 2008 (PI) COLLABORATIVE RESEARCH: Coexistence and temporal niche dynamics in three pairs of most-closely-related species of *Bursera* (declined).

NSF-CAREER, 2008 (PI): Ecohydrology of karst savannas (declined).

NSF-CAREER, 2007 (PI). Ecohydrology of Semi-Arid Karst (declined).

NSF-DGE, 2006 (co-PI). Solving Aquatic Resource Conflicts in Variable Rainfall Regions (declined).

NSF-IOB, 2006 (PI). CAREER: Ecohydrology of Semi-Arid Karst (declined).

NSF-DMS, 2006 (co-PI). Cluster Environment for Computational Topology and Quantitative Ecology (declined).

NSF-DEB, 2003 (PI). Woody Encroachment into Desert Grassland: Experimental Assessment of the Critical Establishment Phase (declined).

NSF-DEB, 2002, (PI). Recruitment of desert perennials: current patterns and future expectations (declined).

NSF-DEB, 2001, (PI). Workshop: Resource Pulse Effects on Organisms, Communities and Ecosystems in Arid and Semi-arid Regions (declined).

NSF: EAR, 2001, (co-PI). Hyporheic Zone Succession in Arid Region Streams (declined).

3. Funded Internal Grants and Contracts:

MIRG program, 2013, (co-PI). Texas Trends: Towards developing an interdisciplinary, sustained research network in land change science at Texas State University. \$25,000.

Research Enhancement Program, 2009. Comparing the invasibility of three Texas land use systems: native prairie, switchgrass and coastal Bermuda. \$8,000.

Research Enhancement Program, 2006. Does the Edwards Plateau constrain the root development of trees? \$7,135.

Research Enhancement Program, 2005. Seasonal variation in soil resource availability in a complex karst landscape. \$6,940.

4. Submitted, but not Funded, Internal Grants and Contracts:

None

D. Fellowships, Awards, Honors:

John L. Harper Prize for a paper published in *Journal of Ecology*, British Ecological Society (Schwinning & Parsons 1996a), 1996.

R.W. Hoshaw Memorial Award of the Department of Ecology and Evolutionary Biology, University of Arizona, 1994.

IV. SERVICE

A. University:

Campus Director of the Institute for the study of Invasive Species (ISIS), Fall 2011-present

Tenure & Promotion Review Group, McCoy College of Business Administration, Spring 2014.

Advisory Committee, The Freeman Ranch Center, Spring 2012

B. Departmental:

Biology Colloquium Organizing Committee, Spring 2014 - present

Strategic Goals Review Committee, Fall 2015 – Spring 2016

Graduate Committee, Fall 2011 - present

Search Committee, Endowed Professorship in Water Conversation, Spring 2014 – Fall 2014.

Search Committee, Wildlife Management and Conservation, Fall 2010 – Spring 2011

Search Committee, Wildlife Biology/Conservation Biology, Fall -2007- Spring 2008

Search Committee, Geohydrologist, Fall 2006 – Spring 2007

Search Committee, Stream Ecology, Fall 2005 to Spring 2006

Search Committee, Plant Biologist, Fall 2005 to Spring 2006

Standing Committee, Greenhouse, 2006 - present

Standing Committee, Computer/Network, Fall 2005 – Fall 2010

Standing Committee, Vehicle Use, 2005-present

C. Community:

None

D. Professional:

1. Editorial Board

Journal of Ecology. Impact Factor: 6.20 (5-year), Rank 14 of 136 in subject category Ecology, Rank 11 of 197 in subject category Plant Sciences. Published bimonthly by the British Ecological Society, Blackwell Publishing, Handling Editor since 2005.

Oecologia. Impact Factor: 3.76 (5-year), Rank 37 of 136 in subject category Ecology, published monthly by Springer Berlin Heidelberg, Handling Editor since 2010.

Plant and Soil. Impact Factor: 3.11 (5-year), Rank 45 of 197 in plant sciences, published by Springer Netherlands, Consulting Editor since 2004, Section Editor since 2014.

2. National Committees

Member, Hydrology Section's Ecohydrology Technical Committee of the American Geophysical Union (AGU) 2010 – 2013.

3. Peer Reviews

Journals (15 - 20 per year). American Naturalist; Annals of Botany; Annals of Forest Science; Australian Journal of Agricultural Research; Australian Journal of Botany; Bioscience; Canadian Journal of Forest Research; Ecography; Ecological Applications; Ecology and Ecological Monographs; Ecological Modelling; Ecohydrology; Ecology Letters; Ecosystems; Forest Ecology and Management; Functional Ecology; Global Change Biology; International Journal of Plant Sciences; Journal of Applied Ecology; Journal of Arid Environment; Journal of Ecology; Journal of Experimental Botany; Journal of Geophysical Research – Biogeosciences; Journal of Hydrology; Journal of Hydrometeorology; Nature; New Phytologist; Oecologia; Oikos; Plant and Soil; Plant Ecology; Rangelands; Theoretical Population Biology; Water Resources Research; Weed Science.

Proposals. NSF Programs in Ecology, Population Biology, Ecological and Evolutionary Physiology, Geography and Regional Science; US Department of Energy's National Institute's for Climate Change Research; US Department of Agriculture's CSREES program; Netherland's Earth and Life Sciences; US-Israel Binational Science Foundation; Collaborative Research Network of the Inter-American Institute for Global Change Research; IAI.

Panels.

USDA-CSREES Panel, 2007

NSF Ecology Panel, 2005/2006

DOE NIGEC Western Regional Scientific Board, 2004

E. Organizations

1. Honorary:

None

2. Professional:

American Geophysical Union (AGU), since 2001

British Ecological Society (BES), since 1994

Ecological Society of America (ESA), since 1990

F. Service Honors and Awards:

None
