April 9, 2012

TO: Albert James DeGarmo
   President, Associated Student Government

FROM: Joanne H. Smith
      Vice President for Student Affairs

I am in receipt of this legislation to receive a reply from the administration for resolutions received within a period of sixty days to express our approval or disapproval and the reasons for the decision. This legislation specifically references feasibility studies. As you may be aware, the timeline for feasibility studies vary and the results of a study give the department recommendations based on the purpose of the feasibility study. Decisions about these recommendations may result in a cross between academic years and it may not be possible to respond within a sixty day period. All attempts will be made to provide a response as soon as appropriate. It is suggested that during the transition of leadership, those studies that are still pending have an ASG follow-up protocol developed so that a response can be forthcoming regarding any outstanding legislation.

All other legislation forwarded to the administration will be reviewed and a response given back to ASG within the requested timeline as appropriate. It needs to be understood that legislation that may require an extensive review process by key stakeholders may need a longer response period than the sixty day time period requested. All attempts will be made to meet the requested timeline for a response.

If you have questions, please contact me.

JHS/jac
