November 20, 2013

Honorable Rick Perry, Governor
Honorable Susan Combs, Texas Comptroller
Ursula Parks, Deputy Director, Legislative Budget Board
John Keel, CPA, State Auditor

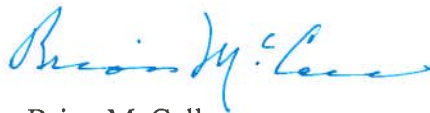

To Agency Heads Addressed:

We are pleased to submit the Annual Financial Report of the Texas State University System – System Administration for the fiscal year ended August 31, 2013, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Roland Smith, Vice Chancellor for Finance at (512) 463-1808.

Sincerely,

Brian McCall
Chancellor

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2013

NOTE 1: Summary of Significant Accounting Policies

Entity

The Texas State University System - System Administration (System Administration) is an Institution of Higher Education of the State of Texas. The financial records comply with state statutes and regulations, including compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Institutions of Higher Education.

The Texas State University System is comprised of System Administration and the following institutions: Lamar University, Sam Houston State University, Sul Ross State University, Texas State University-San Marcos, Lamar Institute of Technology, Lamar State College - Orange, and Lamar State College - Port Arthur. System Administration's primary role is to provide administrative support services for the component entities. Other groups served by System Administration include the Board of Regents, other state agencies, and the citizens of Texas, including the staffs and students of the component institutions.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. The Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

UNAUDITED

Note 1 Continued

Proprietary Funds – Business Type Activity

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type; because, the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for using the full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The operating budget is prepared annually and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act) and other revenues generated by System Administration. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Position

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

UNAUDITED

Note 1 Continued

Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement 31-Accounting and Financial Reporting for Certain Investments and for External Investment Pools. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25 – Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight -line method.

Current Receivables - Other

Other receivables include year-end revenue accruals not included in any other receivable category.

UNAUDITED

Note 1 Continued

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables – Other

Other payables are the accrual at year -end of expenditure transactions not included in any of the other payable descriptions.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the statement of net assets.

Bonds Payable - General Obligation Bonds and Revenue Bonds

General Obligation and Revenue Bonds are accounted for in the proprietary funds by institutions of higher education. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or non-current in the statement of net assets. Bond proceeds and principal payments are reported in the Statement of Cash Flows.

NET POSITION

The difference between assets and liabilities is ‘Net Position’ on the proprietary fund statements.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

UNAUDITED

Note 1 Continued

Restricted Net Position

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net assets consist of net assets which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

INTERFUND ACTIVITIES AND BALANCES

System Administration has the following types of transactions among funds:

Transfers

Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.

Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as “Current”, repayment for two (or more) years is classified as “Non-Current”.

Interfund Sales and Purchases

Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of System Administration’s Interfund activities is presented in Note 12.

UNAUDITED

NOTE 3: Deposits, Investments, & Repurchase Agreements

The Texas State University System - System Administration is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code) and the Public Funds Collateral Act (Texas Government Code 2257). Endowment Funds may be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Property Code Chapter 163. Such investments include:

- Obligations of the United States or its agencies,
- Direct obligations of the State of Texas or its agencies,
- Obligations of political subdivisions rated not less than A by a national investment rating firm,
- Certificates of deposit, and
- Other instruments and obligations authorized by statute.

Deposits of Cash in Banks

As of August 31, 2013, the actual bank balance was \$99,320.14. The carrying value, identified as a Governmental and Business-Type Activity, was \$300,218.18 as presented on next page.

General Obligation and Revenue Bonds Payable

See Note 6 for a discussion of Bonds Payable.

Employees' Compensable Leave

A state employee is entitled to be paid for any unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six month. An expense and liability for Business Type Activities are recorded in the accounts as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 6: Bonded Indebtedness

The Board of Regents approved the order establishing the Master Resolution for the Texas State University System Revenue Financing System in August 1998. The Master Resolution provides a financing structure under which revenue supported indebtedness of the Revenue Financing System can be incurred. Each component institution and the System Administration of TSUS are members of the Revenue Financing System. The Board pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that is lawfully available to the Board for payments on Parity Debt.

UNAUDITED

Note 6 Continued

Specifically exempted from pledged revenues are:

- (a) Amounts received on behalf of any member under Article 7, Section 17 of the Constitution of the State of Texas, including the income there from and any balances relating thereto, and
- (b) General Revenue Fund appropriations, except to the extent so specifically appropriated for debt service to the Board by the Legislature of the State of Texas.

Members may use the Revenue Financing System as a long-term debt program to acquire, purchase, construct, improve, renovate, enlarge, or equip property, buildings, structures, facilities, roads, or related infrastructure. An institution's request for the use of the Revenue Financing System is evaluated for an adequate revenue stream and bonding capacity for the specific institution prior to Board approval of issuing additional parity debt.

Each component institution receives its portion of the bond proceeds and accounts for the earnings and disbursements of the bond proceeds. Assets created and/or acquired as a result of the Revenue Financing System bond proceeds expended and subsequently capitalized are reported on the component institutions' Financial Reports. The associated bond liability and debt service activities are reported in total by the TSUS - System Administration.

The following outstanding bonds have been issued utilizing the Revenue Financing System:

Revenue Bonds Series 2003

- To provide funds to acquire, purchase, construct, improve, renovate, enlarge, or equip the property, buildings, structures, facilities, roads, or related infrastructure and to pay any costs related to the issuance of the bonds.
- \$47,635,000 par value; all authorized bonds issued to Sam Houston State University \$20,500,000 (\$1,500,000 for Business Administration building; \$2,000,000 for Baseball/Softball complex; \$17,000,000 for Bearkat Village I&II), Southwest Texas \$27,000,000 for the MITC and issuance costs.
- Issued November 4, 2003.
- Source of revenue for debt service - Revenue Financing System and the Texas Legislature has appropriated General Revenue Funds in the 2014-2015 biennium for the Tuition Revenue financed share of \$27,000,000.

NOTE 15: Contingencies and Commitments

At August 31, 2013, various lawsuits and claims involving the Board of Regents, Texas State University System were pending. While the ultimate liability with respect to litigation and other claims asserted against the Board of Regents cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the Board of Regents, Texas State University System. Under Texas law the Texas State University System, as an agency of the State of Texas, enjoys immunity from most causes of action. The majority of such claims are dismissed prior to trial.

NOTE 16: Subsequent Events

Texas State University System has intent to issue debt in the fiscal year 14 as shown in the following table:

Bond Issuance	Series	Amount	Date	Purpose
Revenue Bonds	2014	\$ 32,000,000	14-May	SHSU - CMIT/LEMIT/PRC Facility (New Construction)

		<u>\$ 186,741,584</u>		

NOTE 17: Risk Management

As with any state agency, System Administration may be subject to a variety of civil claims or complaints arising from the performance of its duties although no claims or complaints are currently pending against System Administration for actions arising from performance of its duties. It is System Administration's policy periodically to assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. Currently there is no purchase of commercial insurance, nor is System Administration involved in any risk pool with other government entities for these risks.

NOTE 18: Management Discussion & Analysis (MD&A)

Note not applicable

NOTE 19: The Financial Reporting Entity

Component Units (CUs) are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, CUs can be other Organizations for which the nature and significance of their relationship with the primary government is such that exclusion would create misleading or incomplete financial statements. The System Administration has determined that it does not have legally separate organizations that should be considered Component Units.

The following foundation, while not component unit, is disclosed due to its significant relationship with the System Administration:

The Texas State University System Foundation, Inc. was established in 1977 by the Board of Regents to assist the System in gaining private financial support, and to help component institutions pursue additional education-related activities and outreach. It is a private, nonprofit corporation that exists solely for the benefit of the Texas State University System. It has an independent board of directors that governs Foundation activities and manages Foundation funds. During fiscal year 2013, the Foundation had net assets of \$8,695,433. The Foundation provided \$1,143,379 in scholarships and faculty awards, as well as assistance to several institutions, the Chancellor and Board of Regents.

NOTE 20: Stewardship, Compliance, and Accountability

The Texas State University System is not aware of any non-compliance items or material violation of financial related issues.
