___CLS 4464 | 4
Total 9

1. Unless a specific course (or list of courses) is listed, select the required number of course hours fulfilling the core component area denoted (0_0).
2. Students transferring with fewer than 16 hours completed after high school graduation must take US 1100.
3. Texas State will apply to a degree up to 66 hours from an accredited community college (6-8 hours may be added with college dean approval).
4. Upon completion of certain course requirements at Texas State, students may elect to send these hours back to Alamo to be applied toward an associate’s degree. This is commonly referred to as “reverse transfer.”
5. All CLS courses and courses labeled with an asterisk (*) require a grade of “C” or higher.
6. The most updated program requirements, prerequisites, and course descriptions in the Texas State Undergraduate Catalog are available online at http://mycatalog.txstate.edu

NOTES:

5/11/15
UNIVERSITY ADMISSION:

1. Submit ApplyTexas Admission Application online (www.ApplyTexas.org), $75 application fee, and all credentials to the Undergraduate Admissions Office by the stated admission deadline (Fall-July 15, Spring-November 15, Summer I-May 1, Summer II-June 15).

2. Submit an official transcript from each institution attended to the Undergraduate Admissions Office. Students must be eligible to return (e.g., free of suspension, dismissal, or enforced withdrawal) to all previous institutions regardless of grade point average (GPA) or degrees received.

3. A minimum 2.25 grade point average (GPA) in all transferable courses is required.

Students transferring to Texas State University from a community college will be placed in the catalog effective at the time of admission to the Clinical Laboratory Science program. Students are reminded to refer to their designated catalog for information relating to the University, College, and/or Departmental requirements for curriculum, graduation, probation/suspension, and other general information.

Send official paperwork to:
Texas State University
Office of Undergraduate Admissions
429 N. Guadalupe
San Marcos, Texas 78666
512/245-2364

ADMISSION TO THE CLINICAL LABORATORY SCIENCE PROGRAM:

Any student entering Texas State may declare Pre-Clinical Laboratory Science as their major. It is recommended that students arrange academic advising at least once prior to making application, and, if possible, arrange to learn about the profession through clinical laboratory tours, personal research, and interviewing a practicing CLS professional. Admission to the program is competitive and selective. The academic sequence begins during the fall semester of the junior year. Students are selected in the spring semester of their sophomore year. Enrollment is limited by student/faculty ratios and clinical placement availability. The deadline for submission of applications is February 15. A typical cohort size of 20 students will be admitted. Applicants will be notified of their status by April 30th or sooner. The criteria for student selection for the junior class includes scholastic ability, particularly in the sciences, essays, and a personal interview, and not on the basis of gender, race, color, religion, veteran status or condition of disability, or national origin. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program to qualify for admission.

1. Admission to Texas State University. University application deadlines are different than the CLS Program deadline. Potential applicants are encouraged to complete the University process early to facilitate review of transcripts during the CLS Program application process.

2. A minimum overall GPA and science GPA of 2.50; however, an overall GPA and a science GPA of 3.0 is recommended in order to be competitive in the application process.

3. Science courses require a minimum grade of “C” or higher.

4. Students may only have a maximum of 12 remaining prerequisite hours, with only eight of these credit hours in prerequisite science courses. Students are encouraged to complete all prerequisite courses prior to admission.

5. Completion of the CLS application packet for admission by the deadline (February 15th).

6. Successful interview of selected candidate with admission committee.

7. Other requirements as necessary by clinical placements (e.g. immunization, background check, and drug testing).
