Texas State has been granted a charter by Engineers Without Borders USA to form a Student Chapter. EWB helps create a more stable and prosperous world by addressing people's basic human needs by providing necessities such as clean water, power, sanitation and education. Because of its strong university presence, EWB-USA is the catalyst for a new movement to educate the next generation of socially conscious engineers deeply aware of the needs of the rest of the world.

At this meeting, we will introduce EWB, elect officers, and discuss what the Texas State Chapter would like to do! We will have t-shirts for sale!
