

Firefox Popup Blocker Settings (MAC)

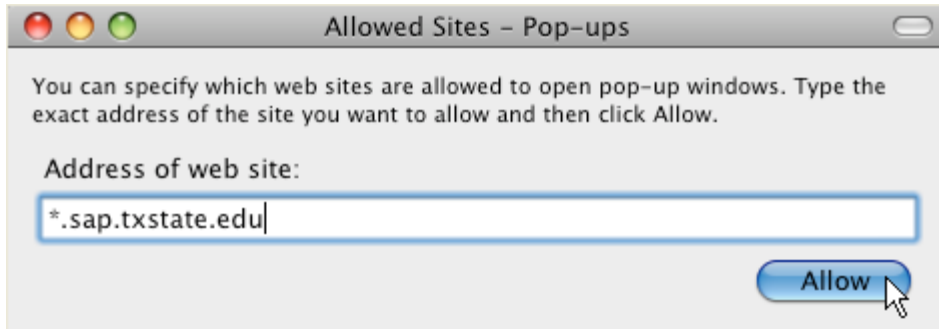

1. Open Firefox and click on *Preferences*.

2. Click on the *Contents* tab and to the right of *Block pop-up windows*, click on the *Exceptions* button.

3. In the *Allowed Sites – Pop-ups* dialog box, enter the following into the *Address of web site* box, click on the *Allow* button.

4. Now close the dialog box by clicking on the *Close* button at the top of the box.
