Where is my serial number?

The majority of serial numbers are located under the bottom bracket where the two pedal cranks meet. Simply turn your bike upside down and record the number. If there is not a serial number there then check places like the headset at the front of the bike or the rear stays. The diagram at the right indicate the five most common serial number locations. If you cannot locate a serial number please bring your bicycle to the university police department and we will engrave your drivers license number onto your bicycle. The best chance of recovering your stolen bicycle is having your bicycle registered with the university police department.

1. Underside of crank
2. Headset
3. Rear Stays
4. Seat downtube next to crank
5. Top of crank
