PREREQUISITES
Regardless of catalog year, students are held to current academic policies and course prerequisites, which are subject to change. Updated course prerequisites are listed in the Undergraduate Catalog online at: http://mycatalog.txstate.edu/.

ADMITTANCE TO THE TEACHER PREPARATION PROGRAM
In addition to declaration of the major, students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework beyond the Education Core. Among criteria for admittance is a 2.75 minimum Overall GPA. The application and criteria for admittance are available on the Office of Educator Preparation’s (OEP) website: http://www.education.txstate.edu/oep/.

TEACHER PREPARATION COURSE SEQUENCE
The Education Core classes may be completed alongside other degree coursework and provide the student with an introduction to the teaching profession. After completing the Education Core, students admitted to the Teacher Preparation Program become eligible to enroll in the Field-Based Blocks, referred to as ‘blocks’ because of their integrated curriculum. The Field-Based Blocks provide students with opportunities to gain classroom experience before the Student Teaching semester, prior to which all other coursework must be completed.

Once enrolled in the Education Core, students will need to apply through the ePortfolio system each semester for future block placements. These applications are not competitive but are reviewed on a first-come, first-served basis. Block applications are typically opened several weeks before the opening of advanced registration, with a late block application posted after registration has begun. Exact dates for block application availability can be found on the Department of Curriculum and Instruction’s (C&I) website: http://www.education.txstate.edu/ci/. Once submitted, students will receive confirmation of their placement generally by the first day of early registration or, in the case of late block applications, as processed by the Department.

SEMESTER ONE: Education Core (CI 3310, CI 3325, RDG 4320) – Fall / Spring
Additional courses may be completed with the Education Core.
- Students should have completed most of their Core Curriculum, Support, and Major courses before enrolling in the Education Core
- Students in the Education Core should apply to the Teacher Preparation Program and for placement in the next semester's Field-Based Block One

SEMESTER TWO: Field-Based Block One (RDG 3315, RDG 4310) + RDG 3312 – Fall / Spring
Additional courses may be completed with the Field-Based Block. Field observation is required.
- Students completing the Field-Based Block One should apply for placement in the next semester’s Field-Based Block Two

SEMESTER THREE: Field-Based Block Two (CI 3300, CI 4300) + RDG 3320 – Fall / Spring
Additional courses may be completed with the Field-Based Block. Field observation is required.
- In order to gain Student Teaching placement for the following semester, students in their second 4-8 Field-Based Block semester should follow instructions from the Office of Educator Preparation.

SEMESTER FOUR: Student Teaching (EDST 4680) – Fall / Spring
Student Teaching is taken alone in the final semester, after all other coursework has been completed. Field observation is required.
- To avoid having Student Teaching placement dropped, students must clear any Tentatives with the Office of Educator Preparation by the deadline
- Students must attend a mandatory Student Teaching Meeting at the start of the semester to review expectations, policies, and procedures
- Students should submit a Graduation Application online by the deadline stated on the Academic Calendar

IMPORTANT NOTES
- School districts will conduct background checks for students enrolling in field experiences and Student Teaching and have the right to deny any person entry to schools based on those results. Discuss any concerns with the Office of Educator Preparation
- The Field-Based Blocks and Student Teaching semesters are unpaid experiences that take place at public schools outside of the Texas State campus and are integral requirements for graduation in this program. Students are responsible for obtaining transportation to school placements. Transportation and/or financial challenges are not justification for having these requirements waived or altered
- Reasonable and appropriate accommodations may be provided in field placements for students with documented disabilities who are registered with the Office of Disability Services. Accommodations cannot pose an undue burden to the University or the field placement. Students are responsible for disclosing disabilities and requesting accommodations as far in advance of the field placement as possible so that accommodations can be coordinated in a timely manner
- Teacher Certification will be issued by the Texas Education Agency and is contingent upon graduation (completion of degree requirements including Student Teaching and awarding of degree by Texas State’s Registrar’s Office), passing score on required TExES exams, and certification application

Students are responsible for knowing and fulfilling all University, College, Major, and Certification requirements and should refer to the Texas State Undergraduate Catalog for additional information.
Students are also encouraged to consult with Academic Advisors to ensure thorough understanding of all degree and graduation requirements
