$1,500

Rising Star STEM Grant

The LBJ Institute for STEM Education and Research is providing mini-grants of up-to $1,500.00 to STEM student organizations and clubs to support activities that specifically support STEM students. This request for proposals is primarily for events that will take place in Fall or Spring/Summer semester of 2015 - 2016. Activities for consideration include but are not limited to mentoring events, community outreach, networking/educational activities, etc. Examples of previous activities include: Physics Camp, Adopt a Sister Program, Field trips to Technology Companies in the Region, Community Outreach, etc.

- This grant will not fund reimbursements or attendance to conferences.
- Fall funding will be provided for events that take place between October 5, 2015 - December 14, 2015.
- Spring/Summer Funding will be provided for events that take place between January 4, 2016 - August 31, 2016.

Deadline(s) for Submission

In order to facilitate planning and programming, we will review requests that are received by 5:00 p.m. on September 30, 2015, without exception.

* Awarded recipients will be notified by October 2, 2015.
* Early application submissions are highly encouraged.
