2016 Workshops
Workshops for Law Enforcement, Medicolegal Investigators, Search and Rescue Members, and Advanced Anthropology Students
Identifying Human From Nonhuman Bone
June 17 or On Demand (groups of 15+)
Tuition: $801-4
Examination and discussion of gross and microscopic differences used to differentiate human from non-human bone when establishing the forensic context.

Forensic Facial Reconstruction Sculpture
with Karen T. Taylor
February 1-5; Tuition: $9501,2
Workshop designed for technical and fine artists who deal with the human face in their work. Knowledge gained during the workshop has practical applications in law enforcement, museum, medical, and other environments, including traditional portraiture.

2-Day Human Remains Recovery
March 5-6 and October 22-23; Tuition: $3001-4
This hands-on workshop covers basic methods for locating, mapping, and excavating buried bodies.

K9 Human Remains Detection
April 8-10; October TBA; Tuition: $3951-2,4
Private Training Available
Three days of field and classroom training will provide dogs and handlers exposure to surface and buried human remains in varying stages of decomposition.

TEEX Skeletal Death Investigation Course4
May 23-27
This 40-hour course, offered by the Texas Engineering Extension Service (member of the Texas A&M University System), is designed for Texas law enforcement agents responsible for death investigations, including cold cases dealing with buried human remains. For more information and registration see http://www.teex.org (Course FSA109).

Outdoor Human Remains Recovery
June 6-10; Tuition: $8001-4
The goal of this workshop is to educate law enforcement and medicolegal professionals on the proper methodology for locating, identifying, and recovering buried human remains. The workshop includes lectures, labs, and the excavation of human remains.

Forensic Taphonomy of Texas
June 13-15; Tuition: $4001-4
This workshop is designed to provide knowledge to law enforcement and medicolegal professionals about the processes of human decomposition, estimation of the postmortem interval, forensic entomology, and the effects of scavengers and weather on bone.

Forensic Anthropology Methods
June 20-24; Tuition: $7001-4
This is a hands-on laboratory methods workshop for advanced undergraduates, graduate students, and professionals interested in expanding their knowledge of developing a biological profile and interpreting skeletal trauma.

Human Osteology
August 22-26; Tuition $7001-4
Human Osteology is a hands-on workshop suitable for students or professionals working in medicolegal fields, rescue services, field archaeology, museums, or individuals with an interest in learning more about human skeletal anatomy.

Forensic Art: Master Facial Reconstruction Sculpture with Karen Taylor
September TBA; Tuition: $9501,2
Advanced workshop for artists that deal with the human face in their work.

1Space is limited. Save a spot with a deposit. Full tuition is due two weeks prior to workshop.
2A 10% administrative fee per registrant will be deducted for cancellation. Refund requests must be received in writing one week prior to the workshop. No refunds will be made thereafter.
