

# 2018

## FREE Professional Training Series

Calling ALL Teachers, BCBAs, Practitioners, and School Staff

Training	Brief Description	Date
Training Staff to Implement Behavior Analytic Interventions	Do you find it hard to train your staff to implement interventions with fidelity? This training will give you strategies regarding effective ways to train staff to implement behavior analytic interventions with fidelity using Behavior Skills Training.	6/13/18 1:30-3:30 pm
New Ideas on Assessing and Writing Functional Goals for Your Students	Are you tired of the same old goals and objectives that do not allow for meaningful behavior change? This training will give you new and improved ideas for writing functional goals for your students. Strategies on effective progress monitoring will be reviewed and you will be provided with some new assessment tools.	6/20/18 1:30-3:30 pm
Planning for Generalization	Do you find some of your students are prompt dependent? This training will provide meaningful strategies on how to effectively fade prompts and teach students to generalize the skills to other people and other environments.	7/11/18 1:30-3:30 pm
To Graph or not to Graph	Do you get tired of people saying “show me the data”? This training will teach you all of the necessary information to show them the data next time somebody asks. Graphs galore in this training!	7/18/18 1:30-3:30 pm
New Innovative Research-Based Interventions	Are you ready for some new and improved ways to teach your students? This training will review some of the newest, “hot off the press” research on treating children with disabilities. Strategies on how to incorporate these teaching practices into the classroom will also be covered.	7/25/18 1:30-3:30 pm
