Abstract: Dr. Treisman will provide an insider's look at the current reforms in developmental education and the opportunities to reconnect developmental education to its founding vision.

Dr. Treisman is director of the Charles A. Dana Center and University Distinguished Teaching Professor of Mathematics and Public Affairs at The University of Texas at Austin. He is a distinguished senior fellow at the Education Commission of the States, chair of the Strong Start to Finish expert advisory board and is active in the leadership of organizations working to improve American mathematics education. He is a founding member of TPSEMath.org and serves as a representative of the American Mathematical Society to AAAS. He leads the Dana Center Mathematics Pathways, which works to modernize college mathematics course sequences, and the Urban Mathematics Leadership Network, which supports mathematics leadership teams in America’s largest urban school districts. He was named a MacArthur Fellow in 1992 and Harvard Foundation’s Scientist of the Year in 2006.
