Internship Opportunity!

LAN is looking for an immediate part-time hire for our San Marcos office located at 407 S. Stagecoach Drive, Suite 207. Submit your resume to Brian Reis at bkreis@lan-inc.com. Feel free to call at (512) 619-2301.

**Lockwood, Andrews & Newnam, Inc. (LAN)** is a full-service consulting firm offering planning, engineering and program management services. A division of LEO A DALY, an international architecture/engineering firm, LAN has access to the expertise of nearly 800 professionals in 31 offices across the country. We have many high profile and challenging projects in the region including a 48-inch water transmission main approximately 17 miles in length, major channel restoration project in San Marcos on Purgatory Creek and a 3.5 mile urban roadway corridor renovation in Austin, Texas. All of these projects include urban planning and mapping, environmental studies, water resources, municipal engineering, etc.

**Job Responsibilities** would include support of our engineers and scientists in the analysis and design of infrastructure projects. Your time would be spent preparing calculations and conducting analyses, preparing cost estimates, preparing impact assessments, planning and design, writing technical documents, etc. You would use software such as MS Office, AutoCAD/MicroStation, GIS, HEC-RAS, HEC-HMS, etc. On the job training is available.

**Qualifications** require candidates to be highly motivated self-starters and currently enrolled in Texas State University in an engineering or scientific degree program. Some experience in AutoCAD, GIS or HEC-RAS/HMS is preferred but not required. Hours are flexible but candidates need to be able to work a minimum of 10-20 hours per week with opportunity to work more on weekends or during holiday breaks.

**Brian K. Reis**, PE, CFM  
Associate, Infrastructure Manager - Central Texas
