

Instructions for Creating an ERS OnLine Account

(9/14)

Once Human Resources has entered you into the ERS OnLine system, you will receive an e-mail to your Bobcat Mail. You should receive this e-mail within your first week of employment. At that time you will be able to access your ERS OnLine account. Go to www.ers.texas.gov/my-account-login and click on Register Now. A new window will open with the option to register your account.

You will be required to provide your name, home address, SSN and date of birth. The zip code entered must match what is on file with ERS. If you have recently moved, please contact Human Resources at 245-2557 or email hr@txstate.edu to update your address.

You will create a unique username and password for ERS OnLine. This username and password will be used to view your benefits, make annual enrollment changes, and beneficiary designations. Please keep it in a safe place for future reference. You will be required to set up security questions upon account creation.
