September 1, 2019

With great pride I introduce the 2019-2020 VFW Auxiliary Nursing Scholarships!

We have been offering these scholarships for three+ decades now...with, I am glad to say, no end in sight.

Included with this cover letter are the information sheet and the application. The process and requirements are clearly lined out on each of the forms. And, I will gladly answer any and all questions that you or your prospective applicants may have.

I am served as the State Chairman to this program several years back and learned SO MUCH about nursing and the nursing school process, though for years I have had one-on-one knowledge and “experience” on how crucial nurses are in the care of patients. When the previous chairman of the program said that the students had to be Juniors, I did not quite understand what that meant. So, I personally think it should be reworded “IF THE STUDENT IS ON TRACK TO GRADUATE IN FALL 2020 or SPRING 2021”. So, I will stick with that phrase when answering any questions on who is eligible for the scholarship.

No matter what level of nursing certification or degree they are attempting the first criteria is when they are on track to graduate. Please share this scholarship offer with any and all of your students who are on track TO GRADUATE IN FALL 2020 or SPRING 2021.

I look forward to hearing from you or any of your students in regards to the scholarship offer. If you would like me to provide you with additional copies, or your students would like fillable copies, you or they are more than welcomed to email me and I will email them to you.
