Name of the project:

IACUC number (if appropriate) and institution where obtained:

Description of the project:

If access is requested for student activity, x-out one of the following:

Undergraduate Masters Doctoral Independent research
Thesis Dissertation

Names of individuals likely to be at the site in lieu of the principal investigator.

The Department of Biology at Texas State University-San Marcos encourages research at the site. If you wish to have access to the property periodically for research or for making collections your request can be evaluated by the chair of the Land Use Committee. If you wish to conduct research at the site, your request will be evaluated by the members of whole committee.

When visiting the site for collecting, notify the chair of the Land Use Committee of the date and approximate time so that University security and/or management personnel can be notified.

Acknowledge use of the property in any publication or presentation with the statement: *Access to the Pollard Property was provided by Texas State University-San Marcos.*

Current chair of the Biology Land Use Committee:

**Michael R.J. Forstner, Biology Dept., Texas State University, San Marcos, TX
(Check departmental pages for current email)**
