S.R 2015-2016. 04

Date of First Reading: November 16, 2015

A Resolution-

To be known as "A Resolution In Support of Increased Number of Provided Safety Protocols Within On-Campus Living," which would increase the number of trainings for environmental hazards and violence related to lock down protocols within on-campus living.

- 1 **WHEREAS:** Texas State University is committed to ensuring the safety
2 of its students on campus by providing crisis training to
3 students, staff, and faculty alike; and
- 4 **WHEREAS:** Fire drills are effectively practiced within on-campus
5 living; and
- 6 **WHEREAS:** Other crisis scenarios on campus, such as tornados, floods,
7 and violence related lockdowns may not currently receive an
8 optimum level of attention; and
- 9 **WHEREAS:** Due to recent environmental hazards and the potential of
10 future crises in the aforementioned categories, students on
11 campus should be prepared to respond accordingly; therefore

12 **BE IT RESOLVED:** That tornado, flood, and violence related lockdown
13 protocols be provided by Resident Directors and
14 Assistants to on-campus living students; and

15 **BE IT FURTHER RESOLVED:** That these protocol trainings be mandated
16 and facilitated in a manner modeled after
17 those which are already offered; and

18 **BE IT FURTHER RESOLVED:** That upon passage this piece of legislation
19 be forwarded to Student Body President
20 Lauren Stotler for further action.
