Doctoral Dissertation Improvement Grants

Division of Environmental Biology
Doctoral Dissertation Improvement Grants in the Directorate for Biological Sciences (DDIG)

DDIG Update:

The new Doctoral Dissertation Improvement Grants solicitation (05-607) replaces NSF 02-173. Please note that only proposals whose focus falls within the scope of (1) the scientific area of the Behavioral Systems Cluster of IOS or (2) any scientific area in the Division of Environmental Biology (DEB) will be eligible.

Students doing international research, having a formal affiliation with a foreign research institution, may contact the appropriate program in NSF’s Office of International Science and Engineering.

PROGRAM GUIDELINES

05-607 Solicitation

DUE DATES

Full Proposal Deadline Date: November 16, 2007
For electronic submission of proposals, the proposal MUST be submitted on the deadline by 5:00 PM, submitter's time.

SYNOPSIS

The National Science Foundation awards Doctoral Dissertation Improvement Grants in selected areas of the biological sciences. These grants provide partial support of doctoral dissertation research to improve the overall quality of research. Allowed are costs for doctoral candidates to conduct research in specialized facilities or field settings away from the home campus, to participate in scientific meetings, and to provide opportunities for greater diversity in collecting and creativity in analyzing data than would otherwise be possible using only locally available resources.
EDUCATIONAL OPPORTUNITY

This program provides educational opportunities for Graduate Students. Individuals interested in applying for funding should see the program guidelines above.
