

Effective fall 2016 the prerequisites for the following classes will change:

MC 4317 will no longer require MC 1313 as a prerequisite. It will still require full-major status and MC 3367 as prerequisites.

MC 3372 will require MC 4317 as a new prerequisite in addition to the current prerequisites of full-major status, MC 1313 and MC 3367.

MC 4316G will require MC 4317 as a new prerequisite in addition to the current prerequisites of full-major status, MC 1313 and MC 3367.

Fall 2016 will be a transitional semester. If you have full-major status and completed MC 1313 and MC 3367 BEFORE the fall 2016 semester and are a spring 2017 candidate for graduation you will be allowed to take MC 4317 along with MC 4316G and MC 3372 in the fall 2016 semester only.

You will need to submit [an Advertising Request Form](#). This will avoid prolonging a potential graduation due to the changes.

For Spring 2017 and thereafter the prerequisites will be enforced. This means if you entered the program late you should take MC 4317 the same semester as MC 1313.
